Letter to Shareholders

Pinduoduo is not a conventional company. We founded *Pinduoduo* when the China market accepted the status quo of the existing e-commerce landscape and thought its formative phase had come to an end. Within three years, *Pinduoduo* has attracted over 300 million active buyers and over 1 million merchants through a new shopping format and experience. This exponential growth shows unlimited potential of our platform. As our three-year-old platform is still burgeoning, we know we face many obvious challenges and uncertainties ahead. Hence, why are we bringing *Pinduoduo* into the ebbs and flows of the capital markets so soon? We'd appreciate you hearing our thoughts in this letter.

- We think the e-commerce business is closely tied with social impacts and responsibilities, and therefore its growth and value should be shared with the public;

- We believe in the tremendous potential of our platform; therefore, if we take a long-term view, there is no difference for our listing in three years, five years or longer. On the contrary, with public scrutiny and regulatory supervision, we may grow better and stronger; and

- We envision *Pinduoduo* to be an organization that reports to the public. It should create value for the public, rather than being a show-off trophy for a few or carrying too much personal color. We want it to be an independent organization that brings value to the society with its unique organizational structure and corporate culture. Most importantly, it should continue to strive to better itself.

Now as the founder, I would like to give you more color on my observation and vision for *Pinduoduo* so as to give you a more concrete understanding of the company you are investing into.

What does Pinduoduo do?

- *Pinduoduo* dedicates itself to creating a commingled "space" between cyberspace and physical space, where users can find the most value-for-money merchandise that meet their different needs and derive happiness;

- *Pinduoduo* leverages a platform and an ecosystem comprised of hundreds of millions of users, merchants, platform management personnel/operators and platform infrastructure/service providers; while each player is interdependent with one another, all of them evolve and improve as they constantly try to balance cost-effectiveness, efficiency, user experience and satisfaction;

- *Pinduoduo*'s survival depends on the value it creates for its users; I hope our team wakes up feeling anxious every day, never because of share price volatilities, but because of their constant fear of users departing if we are unable to anticipate and meet users' changing needs; and

- *Pinduoduo* is dedicated to investing in the future and will always focus on the long term. It might appear too aggressive or too conservative at times. However, it always follows the basic and simple principle—growing its long term intrinsic value.

Company Value

Pinduoduo's core value is "  " *(Ben Fen)*. It is difficult to express it perfectly in English, but it essentially means to adhere firmly to one's own duties and principles. There are several layers of meaning here:

- Be honest and trustworthy;

- Discharge our own duties and responsibilities regardless of others' conduct;

- Insulate our minds from outside pressures so that we can focus on the very simple basics of what we should be doing;

- Never take advantage of others even when we are in a position to do so;
- Self-reflect and take responsibilities when problems arise instead of blaming others.

Specifically for *Pinduoduo*, the management's 本分 *(Ben Fen)* is to relentlessly focus on value creation for our consumers. We may not always be understood, but we always do things out of goodwill and do no evil.

Going forward

In the past three years, *Pinduoduo* has established and promoted a new e-commerce concept and experience of "team purchase" (or " 拼 ", *"pin"*). We can reasonably expect that it would evolve into a variety of *"pin"* formats. We also hope that other innovative formats for different user scenarios will be created just like how we have created "*pin*" today.

If you close your eyes and visualize the next stage for *Pinduoduo*, it would be an exemplification of a multi-dimensional space, seamlessly integrating cyberspace and the physical space. It would be a combination of "Costco" and "Disneyland" (value-for-money and entertainment combined), driven by a distributed network of intelligence agents (versus the popular super-brain-like centralized AI system). It not only matches information efficiently, but also constantly puts the social interactions of the universe into consideration to make the entire experience more enjoyable.

As part of the process to constantly meet users' needs, we are highly aligned to be the driving force to improve the efficiency and quality of the supply chain. One good example would be the agricultural industry. China has relatively less arable land per capita given its population and landscape. This is different from countries like the United States, where large-scale farms are prevalent, and the production and transportation of agricultural products could be highly industrialized. We find *"pin"* an effective solution to aggregate consumer demand, match them with batches of agricultural produce, and mobilize China's well-penetrated and affordable logistics capability to have perishable and fresh produce shipped directly from farms to users and bypass multiple layers of distribution. This not only enhances user experience, but more importantly, helps to turn small scale agriculture production of different quality, variety, and volume into a semi-customized batch processing mechanism. It lowers the unnecessary costs of agricultural consumption and potentially makes small scale customized services viable. The social impact and value to our society would far exceed our business success or the perceived valuation of the company. We are excited by the small impact we see today, and think this would be a trend even beyond agriculture.

Appreciation for our investors

We are grateful to those who are willing to invest in *Pinduoduo* after reading through the utopian ideas above. It is not easy to take the leap of faith believing in such an unconventional company, which strives to meet both economic and social needs of users, and to make a positive impact to the society. The pursuit and focus of our long-term vision and intrinsic value may not always translate into near-term profits. Instead, we hope to show you the true colors of our company no matter how bumpy or rough the numbers may seem to be. We ask you to ride the journey with us for the long term. We believe it will be wonderful.

So, what should you expect from *Pinduoduo* as an investor?

First of all, you can reasonably believe that we are far from the best we could achieve. In fact, we are probably at our most rudimentary level of services now if we look forward in 10 years' time. Yet, many of our users have chosen to believe in us. We are encouraged and have every reason to believe that as we work hard day after day to improve our services, more and more users will stick with us, believe in us.

Secondly, you should expect a team with passion that is trustworthy and always focuses on serving users and our company's intrinsic value. We have the courage and the ability to invest in long-term opportunities.

Pinduoduo, as a growing organization, will always dedicate itself to do the right things, to create value for our society, and to make this world a better and happier place.

Colin Zheng Huang
On behalf of *Pinduoduo*

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by, and should be read in conjunction with, the more detailed information and financial statements appearing elsewhere in this prospectus. In addition to this summary, we urge you to read the entire prospectus carefully, especially the risks of investing in our ADSs discussed under "Risk Factors," before deciding whether to buy our ADSs. This prospectus contains estimates and information concerning our industry, including market position, market size and growth rates of the markets in which we participate, that are based on publicly available industry publications and reports. Our industry involves a high degree of uncertainty and risk due to a variety of factors, including those described in the "Risk Factors" section. These and other factors could cause results to differ materially from those expressed in these publications and reports.

Our Business

We are an innovative and fast growing "new e-commerce" platform that provides buyers with value-for-money merchandise and fun and interactive shopping experiences. Our *Pinduoduo* mobile platform offers a comprehensive selection of attractively priced merchandise, featuring a dynamic social shopping experience that leverages social networks as an effective and efficient tool for buyer acquisition and engagement. As a result of our innovative business model, we have been able to quickly expand our buyer base and establish our brand recognition and market position. We are one of the leading Chinese e-commerce players in terms of GMV and the number of total orders. Our GMV in 2017 and the twelve-month period ended June 30, 2018 was RMB141.2 billion and RMB262.1 billion (US$41.8 billion), respectively. In 2017 and the twelve-month period ended June 30, 2018, the number of total orders placed on our *Pinduoduo* mobile platform reached 4.3 billion and 7.5 billion, respectively.

We pioneered an innovative "team purchase" model on our platform. Buyers can access our platform and make team purchases by either visiting our platform directly or through popular social networks, such as Weixin and QQ. They are encouraged to share product information on such social networks, and invite their friends, family and social contacts to form a shopping team to enjoy the more attractive prices available under the "team purchase" option. As a result, buyers on our platform actively introduce us to and share products offered on our platform and their shopping experiences with their friends, family and social contacts. New buyers in turn refer our platform to their broader family and social networks, generating low-cost organic traffic and active interactions and leading to exponential growth of our buyer base. In the twelve-month periods ended December 31, 2017 and June 30, 2018, the number of active buyers on our platform reached 245 million and 344 million, respectively.

Our large and highly active buyer base has helped attract merchants to our platform, and the scale of our sales volume has encouraged merchants to offer even more competitive pricing and customized products and services to buyers, thus forming a virtuous cycle. In the twelve-month period ended June 30, 2018, we had 1.7 million active merchants on our platform, offering a broad range of product categories.

Our "team purchase" model has transformed online shopping into a dynamic social experience. We have consciously built our platform to resemble a "virtual bazaar" where buyers browse and explore a full spectrum of products on our platform while interacting with one another. In contrast to the conventional search-based "inventory index" model, our platform brings out the fun and excitement of discovery and shopping. This embedded social element has fostered a highly engaged user base. In the fourth quarter of 2017 and second quarter of 2018, average monthly active users for our mobile app were 141 million and 195 million, respectively.

Technology and innovation are at the core of our company. The strong and extensive technology background of our senior management team has led us to the forefront of the e-commerce industry.

We have developed our own proprietary technology infrastructure that seamlessly connects our platform with buyers and merchants and supports our business growth. In addition, we have focused on developing our technological strengths in big data analytics, artificial intelligence and machine learning capabilities to efficiently design, manage and operate the services and solutions on our platform.

We have experienced substantial growth since our inception in 2015. In addition to our marketplace services, we also operated an online direct sales business from which we derived a substantial majority of our revenues from 2015 to 2016. This business no longer generates revenues after we fully transitioned into our current marketplace model in the first quarter of 2017. We currently generate revenues primarily from online marketplace services. Our revenues grew from RMB504.9 million in 2016 to RMB1,744.1 million (US$278.0 million) in 2017, and grew from RMB37.0 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the same period in 2018. We incurred net loss of RMB292.0 million and RMB525.1 million (US$83.7 million) in 2016 and 2017, respectively. We incurred net loss of RMB201.0 million (US$32.0 million) in the three months ended March 31, 2018, compared to net loss of RMB207.7 million in the three months ended March 31, 2017.

Our Industry

The total retail sales of consumer goods in China increased from RMB24.3 trillion (US$3.9 trillion) in 2013 to RMB36.6 trillion (US$5.8 trillion) in 2017, according to the National Bureau of Statistics of China, or NBS. China's retail market is expected to continue to experience strong growth, and the overall retail market size is expected to exceed RMB48.0 trillion (US$7.7 trillion) in 2020, according to the Ministry of Commerce's 13th Five-Year Plan for Domestic Trade. Online shopping has been embraced by consumers in China and grown at an even faster rate. According to iResearch, China's online retail market has increased from RMB1.9 trillion (US$0.3 trillion) in 2013 to RMB6.1 trillion (US$1.0 trillion) in 2017, representing a compound annual growth rate, or CAGR, of 33.9%, and is projected to reach RMB10.8 trillion (US$1.7 trillion) by 2020. At the same time, China's online shopping population grew from 302 million in 2013 to 533 million out of 753 million mobile internet users in 2017, according to China Internet Network Information Center, or CNNIC.

We believe that the following trends are driving the continued growth of China's e-commerce industry and are reshaping its future form. First, mobile shopping has become the dominant form of online retail in China, as consumers increasingly use their fragmented time to browse and shop anywhere, anytime. Second, the extensive logistics infrastructure and wide adoption of mobile payment have made mobile shopping increasingly efficient and convenient. Third, lower-tier cities in China have become an increasingly important market for e-commerce due to the rising spending power and a desire for a better standard of living. Fourth, there is a massive base of small and micro enterprises which could benefit from more direct access to consumers.

Fueled by these powerful trends, a new form of e-commerce, which is referred to as "new e-commerce," is emerging. We believe that "new e-commerce" has the following key characteristics:

- **Spontaneous shopping.** The convenience of mobile shopping and payment presents an opportunity for merchants to continuously connect with consumers and enable consumers to make purchases. This creates a multitude of new consumption scenarios and greatly enables consumers to shop anywhere, anytime.

- **Deepened understanding of users.** The development and integration of technologies such as big data analytics and machine learning have enabled e-commerce platforms to understand their user behaviors and preferences more deeply. Instead of a search-based model where consumers type in keywords to find the products they desire, products are directly displayed and recommended to them, resulting in higher buyer engagement.

- **Social element in shopping behavior.** Young generations in China are native users of mobile internet and social networks and are familiar with using internet in nearly every aspect of their lives, including sharing information and experiences and socializing, which has permeated into their shopping behavior.

- **Enhanced supply chain management.** The massive volume of data generated from a large number of transactions could be utilized to allow manufacturers to achieve more efficient manufacturing and inventory planning and to substantially reduce intermediary costs incurred.

Our Strengths

We believe that the following strengths contribute to our success and differentiate us from our competitors:

- innovative "new e-commerce" platform with rapid growth;
- value-for-money merchandise with a strong focus on quality control;
- highly active buyer base cultivated by a fun and interactive shopping experience;
- strong commitment to technology; and
- experienced management team with extensive technology and operational background.

Our Strategies

We intend to pursue the following growth strategies:

- increase our buyer base and engagement;
- expand merchandise choices and offerings;
- enhance brand recognition and continue to adhere to strict quality control;
- further improve technology capability;
- pursue select strategic investment and expansion opportunities; and
- attract and retain talents.

Our Challenges

Our ability to execute our strategies is subject to risks and uncertainties, including those relating to our ability to:

- maintain the growth that we have experienced to date;
- better understand buyer needs and provide products and services to attract and retain buyers;
- maintain and enhance the recognition and reputation of our brand;
- rely on merchants and third-party logistics service providers to provide delivery services to our buyers;
- continue growing our buyer base;
- maintain and further improve our quality control policies and measures;
- comply with evolving PRC laws and regulations;
- compete effectively;
- establish and maintain relationships with merchants;

- maintain proper functioning of our technology infrastructure; and
- protect data and confidential information of buyers, merchants and our network against security breaches.

Corporate History and Structure

We commenced our commercial operations in 2015 through Hangzhou Aimi Network Technology Co., Ltd., or Hangzhou Aimi, and Shanghai Xunmeng Information Technology Co., Ltd., or Shanghai Xunmeng, in parallel. In June 2016, to streamline the operations of these two companies, Hangzhou Aimi obtained 100% equity interest in Shanghai Xunmeng, and Shanghai Xunmeng became a wholly-owned subsidiary of Hangzhou Aimi.

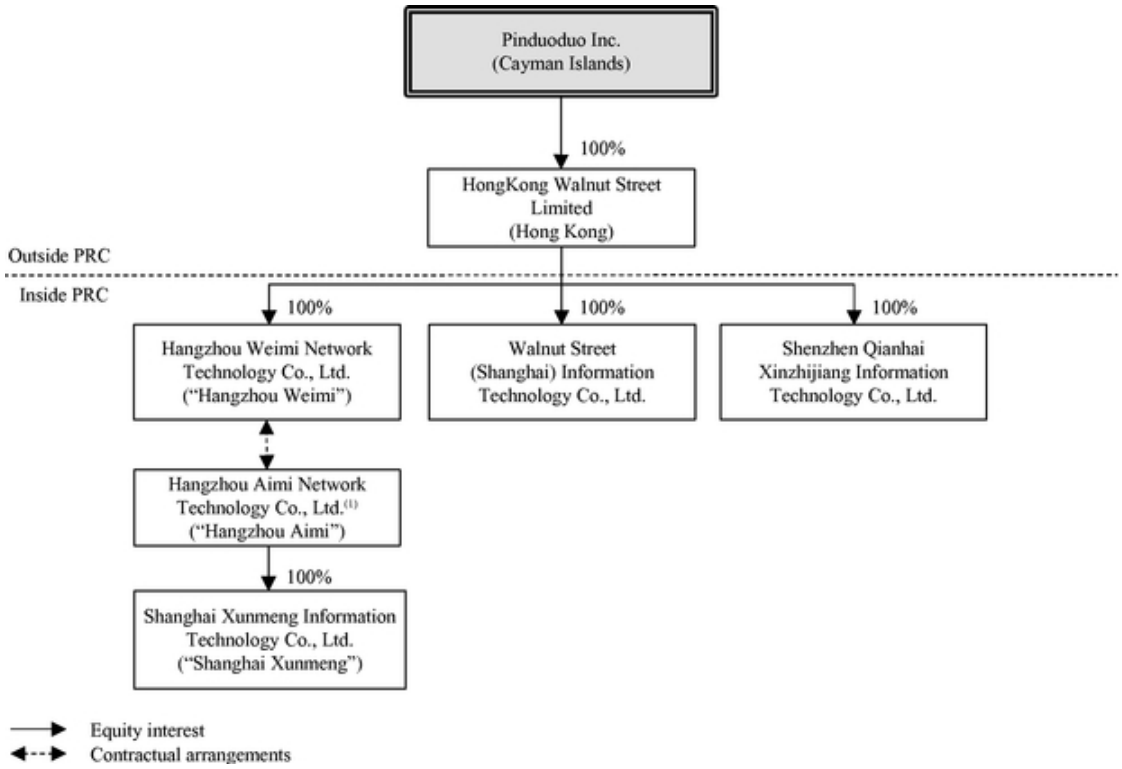
We incorporated Walnut Street Group Holding Limited under the laws of the Cayman Islands as our offshore holding company in April 2015 to facilitate offshore financing. In the same month, we established HongKong Walnut Street Limited, or Walnut HK, our wholly-owned Hong Kong subsidiary, and Walnut HK established a wholly-owned PRC subsidiary, Hangzhou Weimi Network Technology Co., Ltd., or Hangzhou Weimi. Walnut HK established two additional wholly-owned PRC subsidiaries, Walnut Street (Shanghai) Information Technology Co., Ltd. (formerly known as Shanghai Pinduoduo Network Technology Co., Ltd.) and Shenzhen Qianhai Xinzhijiang Information Technology Co., Ltd., in January 2018 and April 2018, respectively, which, together with Hangzhou Weimi, are referred to as our WFOEs in this prospectus. In July 2018, we renamed our company as Pinduoduo Inc.

Due to restrictions imposed by PRC laws and regulations on foreign ownership of companies that engage in internet and other related business, Hangzhou Weimi later entered into a series of contractual arrangements with Hangzhou Aimi, which we refer to as our VIE in this prospectus, and its shareholders. We depend on these contractual arrangements with our VIE, in which we have no ownership interests, and its shareholders to conduct most aspects of our operation. We have relied and expect to continue to rely on these contractual arrangements to conduct our business in China. For more details, see "Corporate History and Structure—Contractual Arrangements with Our VIE and Its Shareholders." The shareholders of our VIE may have potential conflicts of interest with us. See "Risk Factors—Risks Related to Our Corporate Structure—The shareholders of our VIE may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition."

Under PRC laws and regulations, our PRC subsidiaries may pay cash dividends to us out of their respective accumulated profits. However, the ability of our PRC subsidiaries to make such distribution to us is subject to various PRC laws and regulations, including the requirement to fund certain statutory funds, as well as potential restriction on currency exchange and capital controls imposed by the PRC government. For more details, see "Risk Factors—Risks Related to Doing Business in China—We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business" and "Regulation—Regulations Relating to Dividend Distributions."

As a result of our direct ownership in our WFOEs and the variable interest entity contractual arrangements, we are regarded as the primary beneficiary of our VIE. We treat it and its subsidiaries as our consolidated affiliated entities under U.S. GAAP, and have consolidated the financial results of these entities in our consolidated financial statements in accordance with U.S. GAAP.

The following diagram illustrates our corporate structure, including our principal subsidiaries and our VIE and its principal subsidiary, as of the date of this prospectus:



Note:

(1) Messrs. Lei Chen, Qin Sun and Zhen Zhang are beneficiary owners of our company and hold 86.6%, 4.4% and 0.1% equity interests in Hangzhou Aimi, respectively. They are either directors or employees of our company. The remaining 8.9% equity interests in Hangzhou Aimi are held by Linzhi Tencent Technology Co., Ltd., which is an affiliate of one of our shareholders.

Pinduoduo Partnership

We have established an executive partnership, the Pinduoduo Partnership, to help us better manage our business and to carry out our vision, mission and value continuously. The Pinduoduo Partnership, once effective, will be entitled to appoint Executive Directors and nominate and recommend the chief executive officer of our company. Such rights may limit our shareholders' ability to influence corporate matters, including any matters to be determined by our board of directors. The interests of the Pinduoduo Partnership may not coincide with the interests of our shareholders, including certain managerial decisions such as partner compensation. To the extent that the interests of the Pinduoduo Partnership differ from the interests of our shareholders on certain matters, our shareholders may be disadvantaged. For more details, see "Risk Factors—Risks Related to Our Corporate Structure—The Pinduoduo Partnership and its related arrangements may impact your ability to appoint Executive Directors and nominate the chief executive officer of the company, and the interests of the Pinduoduo Partnership may conflict with your interests."

Implication of Being an Emerging Growth Company

As a company with less than US$1.07 billion in revenue for our last fiscal year, we qualify as an "emerging growth company" pursuant to the Jumpstart Our Business Startups Act of 2012, as amended, or the JOBS Act. An emerging growth company may take advantage of specified reduced

reporting and other requirements compared to those that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards.

We will remain an emerging growth company until the earliest of (a) the last day of the fiscal year during which we have total annual gross revenues of at least US$1.07 billion; (b) the last day of our fiscal year following the fifth anniversary of the completion of this offering; (c) the date on which we have, during the preceding three-year period, issued more than US$1.00 billion in non-convertible debt; or (d) the date on which we are deemed to be a "large accelerated filer" under the Securities Exchange Act of 1934, as amended, or the Exchange Act, which would occur if the market value of our ADSs that are held by non-affiliates exceeds US$700 million as of the last business day of our most recently completed second fiscal quarter. Once we cease to be an emerging growth company, we will not be entitled to the exemptions provided in the JOBS Act discussed above.

RISK FACTORS

An investment in our ADSs involves significant risks. You should carefully consider all of the information in this prospectus, including the risks and uncertainties described below, before making an investment in our ADSs. Any of the following risks could have a material adverse effect on our business, financial condition and results of operations. In any such case, the market price of our ADSs could decline, and you may lose all or part of your investment.

Risks Related to Our Business and Industry

Our limited operating history makes it difficult to evaluate our business and prospects. We cannot guarantee that we will be able to maintain the growth rate that we have experienced to date.

We commenced our commercial operations in 2015, and have a limited operating history. The numbers of our active buyers and active merchants have grown exponentially, and reached approximately 344 million and 1.7 million, respectively, in the twelve-month period ended June 30, 2018. Our revenues increased by 245.5% from RMB504.9 million in 2016 to RMB1,744.1 million (US$278.0 million) in 2017, and increased exponentially from RMB37.0 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the three months ended March 31, 2018. However, our historical performance may not be indicative of our future growth or financial results. We cannot assure you that we will be able to grow at the same rate as we did in the past, or avoid any decline in the future. Our growth may slow down or become negative, and revenues may decline for a number of possible reasons, some of which are beyond our control, including decreasing consumer spending, increasing competition, declining growth of our overall market or industry, the emergence of alternative business models, changes in rules, regulations, government policies or general economic conditions. In addition, our online marketing services, from which we have generated almost all of our revenues since 2017, are a relatively new initiative and may not grow as quickly as we have anticipated. It is difficult to evaluate our prospects, as we may not have sufficient experience in addressing the risks to which companies operating in rapidly evolving markets may be exposed. If our growth rate declines, investors' perceptions of our business and prospects may be materially and adversely affected and the market price of our ADSs could decline. You should consider our prospects in light of the risks and uncertainties that companies with a limited operating history may encounter.

If we fail to anticipate buyer needs and provide products and services to attract and retain buyers, or fail to adapt our services or business model to changing buyer needs or emerging industry standards, our business may be materially and adversely affected.

The e-commerce market in which we operate as well as buyer needs and preferences are constantly evolving. As a result, we must continuously respond to changes in the market and buyer demand and preferences to remain competitive, grow our business and maintain our market position. We intend to further diversify our product and service offerings to add to our revenue sources in the future. New products and services, new types of buyers or new business models may involve risks and challenges we do not currently face. For example, from 2015 to the first quarter of 2017, we also operated an online direct sales business under the name of *"Pinhaohuo"* for certain categories of merchandise such as fresh produce and other perishable products. During the time when we operated *Pinhaohuo*, we also operated our current marketplace model and completed the transition into our current business model in the first quarter of 2017. Any similar new initiatives may require us to devote significant financial and management resources and may not perform as well as expected. Furthermore, we may have difficulty in anticipating buyer demand and preferences, and the products offered on our platform may not be accepted by the market or be rendered obsolete or uneconomical. Therefore, any inability to adapt to these changes may result in a failure to capture new buyers or retain existing buyers, the occurrence of which would materially and adversely affect our business, financial condition and results of operations.

In addition, to remain competitive, we must continue to enhance and improve the responsiveness, functionality and features of our platform. The internet and the e-commerce markets are characterized by rapid technological evolution, changes in buyer requirements and preferences, frequent introductions of new products, features and services embodying new technologies and the emergence of new industry standards and practices, any of which could render our existing technologies and systems obsolete. Our success will depend, in part, on our ability to identify, develop and adapt to new technologies useful in our business, and respond to technological advances and emerging industry standards and practices, in particular with respect to mobile internet, in a cost-effective and timely way. We cannot assure you that we will be successful in these efforts.

Any harm to our brand or reputation may materially and adversely affect our business and results of operations.

We believe that the recognition and reputation of our *Pinduoduo or "拼多多"* brand among our buyers, merchants and third-party service providers have contributed significantly to the growth and success of our business. Maintaining and enhancing the recognition and reputation of our brand are critical to our business and competitiveness. Many factors, some of which are beyond our control, are important to maintaining and enhancing our brand. These factors include our ability to:

- provide a superior shopping experience to buyers;
- maintain the popularity, attractiveness, diversity, quality and authenticity of our product offerings;
- maintain the efficiency, reliability and quality of the fulfillment and delivery services to our buyers;
- maintain or improve buyers' satisfaction with our after-sale services;
- increase brand awareness through marketing and brand promotion activities; and
- preserve our reputation and goodwill in the event of any negative publicity on consumer experience or merchant service, internet and data security, product quality, price or authenticity, or other issues affecting us or other e-commerce businesses in China.

Public perception that counterfeit, unauthorized, illegal, or infringing products are sold on our platform or that we or merchants on our platform do not provide satisfactory consumer services, even if factually incorrect or based on isolated incidents, could damage our reputation, diminish the value of our brand, undermine the trust and credibility we have established and have a negative impact on our ability to attract new buyers or retain our current buyers. If we are unable to maintain our reputation, enhance our brand recognition or increase positive awareness of our platform, products and services, it may be difficult to maintain and grow our buyer base, and our business and growth prospects may be materially and adversely affected.

Our merchants use a variety of third-party logistics service providers. Service interruptions, failures, or constraints of these logistics service providers could severely harm our business and prospects.

The merchandises on our platform are supplied and shipped directly from our merchants to our buyers. Our merchants use third-party logistics service providers to fulfill and deliver their orders. Interruptions to or failures in third-party logistics services could prevent timely and successful delivery of the ordered products to our buyers. As we do not directly control or manage the operations of these third-party logistics service providers, we may not be able to guarantee their performance. Any failure to provide satisfactory services to our buyers, such as delays in delivery, product damage or product loss during transit, may damage our reputation and cause us to lose buyers, and may ultimately adversely affect our results of operations. In addition, certain of these third-party logistics service providers may

be influenced by our competitors when providing services to us. For example, if third-party logistics service providers raise the shipping rates for delivering products of merchants on our platform, our merchants may not be willing to bear the increased costs or be able to offer competitive prices for products on our platform. As a result, our business and prospects, as well as our financial condition and results of operations could be materially and adversely affected.

If the third-party logistics service providers used by our merchants fail to deliver products to our buyers on time or deliver products in good conditions, our buyers may refuse to accept merchandises purchased on our platform and have less confidence in our platform. In such event, we cannot assure you that our merchants will be able to find alternative cost-efficient logistics service providers to offer satisfactory delivery services in a timely manner, or at all, which could cause our business and reputation to suffer or cause merchants to move to other platforms and have negative impact on our financial conditions.

Any change, disruption, discontinuity in the features and functions of major social networks could severely limit our ability to continue growing our buyer base, and our business may be materially and adversely affected.

Our success depends on our ability to attract and retain new buyers and expand our buyer base. Acquiring and retaining buyers on our platform is important to the growth and profitability of our business. We leverage social networks as a tool for buyer acquisition and engagement. Although buyers can access our platform and make team purchases without using social networks, we leverage social networks, such as Weixin and QQ, to enable buyers to share product information and their purchase experiences with their friends, family and other social contacts to generate low-cost organic traffic and active interactions among buyers. A portion of our buyer traffic comes from such user recommendation or product introduction feature which buyers can share with friends or contacts through social networks. Due to the nature of our business model, which resembles a dynamic and interactive shopping experience, it is impracticable for us to accurately bifurcate and quantify the buyer traffic generated directly through our platform and through social networks. Therefore, during our daily operations, we focus more on the GMV on our platform as a whole and the seamless user experience across different access points, and believe that the final purchase destination cannot be used to reflect the significance of social networks and our *Pinduoduo* mobile app to our business operations.

To the extent that we fail to leverage such social networks, our ability to attract or retain buyers may be severely harmed. If any of these social networks makes changes to its functions or support, such as charging fees for functions or support that is currently provided for free, or stops offering its functions or support to us, we may not be able to locate alternative platforms of similar scale to provide similar functions or support on commercially reasonable terms in a timely manner, or at all. Furthermore, we may fail to establish or maintain relationships with additional social network operators to support the growth of our business on economically viable terms, or at all. Any interruption to or discontinuation of our relationships with major social network operators may severely and negatively impact our ability to continue growing our buyer base, and any occurrence of the circumstances mentioned above may have a material adverse effect on our business, financial condition and results of operations.

We face intense competition, and if we fail to compete effectively, we may lose market share, buyers and merchants.

The e-commerce industry in China is intensely competitive. We compete to attract, engage and retain buyers, merchants, and other participants on our platforms. Our current or potential competitors include (i) major e-commerce companies in China, (ii) major traditional and brick-and-mortar retailers in China, (iii) retail companies in China focused on specific product categories and (iv) major internet companies in China that do not operate e-commerce businesses now but may enter the e-commerce

business area or are in the process of initiating their e-commerce businesses. These current or future competitors may have longer operating histories, greater brand recognition, better supplier or merchant relationships, stronger infrastructure, larger buyer bases or greater financial, technical or marketing resources than we do. Competitors may leverage their brand recognition, experience and resources to compete with us in a variety of ways, including making investments and acquisitions for the expansion of their product and service offerings. Some of our competitors may be able to secure more favorable terms from merchants, devote greater resources to marketing and promotional campaigns, adopt more aggressive pricing or inventory policies and devote substantially more resources to develop their IT systems and technology. Some of these competitors may also offer "team purchase" on their platforms or offer innovative purchase models that may turn out to be highly popular among buyers, and buyers may prefer them over our team purchase model. In addition, new and enhanced technologies may increase the competition in the market we operate in. Increased competition may reduce our profitability, market share, customer base and brand recognition. There can be no assurance that we will be able to compete successfully against current or future competitors, and such competitive pressures may have a material and adverse effect on our business, financial condition and results of operations.

If we fail to maintain and expand our relationships with merchants, our revenues and results of operations will be harmed.

We rely on our merchants to offer merchandises that appeal to our existing and potential buyers at attractive prices. Our ability to provide popular products on our platform at attractive prices depends on our ability to develop mutually beneficial relationships with our merchants. For example, we rely on our merchants to make available sufficient inventory and fulfill large volumes of orders in an efficient and timely manner to ensure our user experience. To date, our buyers and merchants have been increasing in parallel as a result of the powerful network effects of our platform. However, we may experience merchant attrition in the ordinary course of business resulting from several factors, such as losses to competitors, perception that marketing on our platform is ineffective, reduction in merchants' marketing budgets, and closures or bankruptcies of merchants. In addition, we may have disputes with merchants with respect to their compliance with our quality control policies and measures and the penalties imposed by us for violation of these policies or measures from time to time, which may cause them to be dissatisfied with our platform. If we experience significant merchant attrition, or if we are unable to attract new merchants, our revenues and results of operations may be materially and adversely affected. In addition, our agreements with merchants also typically do not restrict them from establishing or maintaining business relationships with our competitors. We cannot assure you that merchants will continue to offer merchandise on our platform if they are pressured to use only one platform to market their products.

Any disruption to our IT systems could materially affect our ability to maintain the satisfactory performance of our IT systems and deliver consistent services to our buyers and merchants.

The proper functioning of our IT systems is essential to our business. The satisfactory performance, reliability and availability of our IT systems are critical to our success, our ability to attract and retain buyers and our ability to maintain and deliver consistent services to our buyers and merchants. However, our technology infrastructure may fail to keep pace with increased sales on our platform, in particular with respect to our new product and service offerings, and therefore our buyers may experience delays as we seek to source additional capacity, which would adversely affect our results of operations as well as our reputation.

Additionally, we must continue to upgrade and improve our technology infrastructure to support our business growth. However, we cannot assure you that we will be successful in executing these system upgrades, and the failure to do so may impede our growth. We currently rely on cloud services

and servers operated by external cloud service providers to store our data, to allow us to analyze a large amount of data simultaneously and to update our buyer database and buyer profiles quickly. Any interruption or delay in the functionality of these external cloud service and server providers may materially and adversely affect the operations of our business.

We may be unable to monitor and ensure high-quality maintenance and upgrade of our IT systems and infrastructure on a real-time basis, and buyers may experience service outages and delays in accessing and using our platform to place orders. In addition, we may experience surges in online traffic and orders associated with promotional activities and generally as we scale, which can put additional demand on our platform at specific times. Our technology or infrastructure may not function properly at all times. Any system interruptions caused by telecommunications failures, computer viruses, hacking or other attempts to harm our systems that result in the unavailability or slowdown of our platform or reduced order fulfillment performance could reduce the volume of products sold and the attractiveness of product offerings on our platform. Our servers may also be vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, which could lead to system interruptions, website or mobile app slowdown or unavailability, delays or errors in transaction processing, loss of data or the inability to accept and fulfill buyer orders. Any of such occurrences could cause severe disruption to our daily operations. As a result, our reputation may be materially and adversely affected, our market share could decline and we could be subject to liability claims.

We have incurred net losses in the past, and we may continue to incur losses in the future.

We have incurred net losses since our inception. In 2016 and 2017, we had net loss of RMB292.0 million and RMB525.1 million (US$83.7 million), respectively. We incurred net loss of RMB201.0 million (US$32.0 million) in the three months ended March 31, 2018, compared to net loss of RMB207.7 million in the three months ended March 31, 2017. We cannot assure you that we will be able to generate net profits in the future. In addition, we expect our operating costs and expenses to increase in absolute amounts in the future due to: (i) the continued expansion of our business operations, buyer base and merchant network, (ii) the continued investment in technology infrastructure and network, (iii) sales and marketing expenses as we continue to expand our buyer base, and (iv) the launch of new services, which may incur upfront costs, change our existing revenue and cost structures, and affect our ability to achieve profitability.

Our ability to achieve profitability depends on our ability to, among other things, increase our number of active buyers, grow and diversify our merchant base, and optimize our cost structure. We may not be able to achieve any of the above. In particular, our sales and marketing expenses increased substantially from RMB169.0 million in 2016 to RMB1,344.6 million (US$214.4 million) in 2017, and increased from RMB73.9 million in the three months ended March 31, 2017 to RMB1,217.5 million (US$194.1 million) in the three months ended March 31, 2018, primarily attributable to an increase in advertising expenses and expenses related to promotional activities. If we continue to incur substantial marketing expenses without being able to achieve the anticipated buyer and merchant growth, our operating results may be materially and adversely affected. As a result, we may fail to improve our operating margin, and may continue to incur net losses in the future. In addition, our ability to use our net losses to offset future taxable income may be subject to certain limitations, including limitations resulting from reorganization of our corporate structure and change of our primary operating entities. As such, we may not be able to fully utilize our net losses or at all, even if we were to achieve profitability.

Our success depends on the continuing efforts of our key employees. If we fail to hire, retain and motivate our key employees, our business may suffer.

Our future success is significantly dependent upon the continued service of our key executives and other key employees. If we lose the services of any member of our management or key personnel, we

may not be able to locate suitable or qualified replacements, and may incur additional expenses to recruit and train new staff, which could severely disrupt our business and growth. Our founder and chief executive officer, Mr. Zheng Huang, and other management members are critical to our vision, strategic direction, culture and overall business success. If there is any internal organizational structure change or change in responsibilities for our management or key personnel, the operation of our business and our business prospects may be adversely affected. Our employees, including members of our management, may choose to pursue other opportunities. If we are unable to motivate or retain key employees, our business may be severely disrupted and our prospects could suffer.

The increasing scale of our business also requires us to hire and retain a wide range of capable and experienced personnel and technology talents who can adapt to a dynamic, competitive and challenging business environment. Competition for talents is intense, and the availability of suitable and qualified candidates in China is limited. Competition for talents could cause us to offer higher compensation and other benefits to attract and retain them. Even if we were to offer higher compensation and other benefits, these individuals may not choose to join or continue to work for us. Any failure to attract or retain key management and personnel could severely disrupt our business and growth.

If we are unable to manage our growth or execute our strategies effectively, our business and prospects may be materially and adversely affected.

Our business has grown substantially since our inception, and we expect continued growth in our business, revenues and number of employees. We have significantly expanded our headcount and office facilities, and we anticipate that further expansion in certain areas and geographies will be required. This expansion increases the complexity of our operations and places a significant strain on our management, operational and financial resources. We must continue to hire, train and effectively manage new employees. If our new hires perform poorly or if we are unsuccessful in hiring, training, managing and integrating new employees, our business, financial condition and results of operations may be materially harmed.

In addition, we plan to further establish relationships with more merchants to increase the product offerings on our platform. Such expansion may require us to introduce new products and work with a variety of additional merchants to address the evolving needs of our buyers. We may have limited or no experience for certain new product offerings, and our expansion into these new product offerings may not achieve broad buyer acceptance. These offerings may present new and difficult technological or operational challenges, and we may be subject to claims if buyers are not satisfied with the quality of the products or do not have satisfactory experiences in general. To effectively manage the expected growth of our operations and personnel, we will need to continue to improve our transaction processing, technological, operational and financial systems, policies, procedures and controls. All of these endeavors involve risks and will require significant management, financial and human resources. We cannot assure you that we will be able to effectively manage our growth or to implement our strategies successfully. If we are not able to manage our growth effectively, or at all, our business and prospects may be materially and adversely affected.

We may incur liability for counterfeit, unauthorized, illegal, or infringing products sold or misleading information available on our platforms.

Under our current marketplace model, all products offered on our platform are supplied by merchants, who are separately responsible for sourcing the products that are sold on our platform. In the twelve-month period ended June 30, 2018, we had 1.7 million active merchants on our platform, offering a broad range of product categories. We have been and may continue to be subject to allegations and lawsuits claiming that products listed or sold through our platform by third-party merchants are counterfeit, unauthorized, illegal, or otherwise infringe third-party copyrights, trademarks

and patents or other intellectual property rights, or that content posted on our user interface contains misleading information on description of products and comparable prices. Although we have adopted strict measures to protect us against these potential liabilities, including proactively verifying the authenticity and authorization of products sold on our platform through working with brands and conducting offline investigations, immediately taking down any counterfeit or illegal products or misleading information found on our platform, and freezing the accounts of merchants in violation of the platform policies, these measures may not always be successful or timely. For example, in January 2018, we were required by the relevant government authorities to strengthen supervision on the qualifications of the distributors of publications on our platform and to respond effectively to claims of copyright infringement. We have taken a number of measures in accordance with such requirements including the implementation of a comprehensive system in reviewing and tracking the qualification status of the relevant merchants. We may implement further measures in an effort to eliminate infringing products on our platforms, including taking legal actions against merchants of counterfeit or infringing products, which may cause us to spend substantial additional resources or result in reduced revenues. In addition, these measures may not appeal to consumers, merchants or other participants on our platforms. A merchant whose account is suspended or terminated by us, regardless of our compliance with the applicable laws, rules and regulations, may have disputes with us and commence action against us for damages, make public complaints or engage in publicity campaigns against us. We may incur significant costs to defend against these activities, which could harm our business.

In the event that counterfeit, illegal, unauthorized or infringing products are sold on our platform or infringing or misleading content is posted on our user interface, we could face claims or be imposed penalties. Counterfeit products sold on our platform may damage our reputation and cause buyers to refrain from making future purchases from us, which would materially and adversely affect our business operations and financial results. We have in the past received claims alleging the sales of defective, counterfeit or unauthorized items on our platform. For example, in July 2018, a complaint was filed against us in the U.S. alleging trademark infringement regarding certain allegedly counterfeit and unauthorized merchandise sold on our platform. Irrespective of the validity of such claims, we could incur significant costs and efforts in either defending against or settling such claims. If there is a successful claim against us, we might be required to pay substantial damages or refrain from further sale of the relevant products. Potential liabilities under PRC law for negligence in participating or assisting in infringement activities associated with counterfeit goods include injunctions to cease infringing activities, rectification, compensation, administrative penalties and even criminal liability.

Moreover, the alleged sales of counterfeit products and third-party claims or administrative penalties related to them could result in significant negative publicity and our reputation could be severely damaged. In addition, certain merchants may post and sell on our platform products that may not be sold via e-commerce platform under relevant PRC regulation, such as prescription drugs and foreign currencies. Failure to identify and remove such products from our platform may subject us to liability and administrative penalties. Any of these events could have a material and adverse effect on our business, results of operations or financial condition.

Under our standard form agreements, we require our merchants to indemnify us for any losses we suffer or any costs that we incur due to any products sold by these merchants. However, we may not be able to successfully enforce our contractual rights and may need to initiate costly and lengthy legal proceedings in China to protect our rights.

In addition to fraudulent transactions with legitimate buyers, merchants on our platform may engage in fictitious transactions with themselves or collaborate with third parties in order to artificially inflate their sales records and search results rankings. Such activity may frustrate other merchants by enabling the perpetrating merchants to be favored over legitimate merchants, and may harm buyers by misleading them to believe that a merchant is more reliable or trustworthy than the merchant actually is. This activity may also result in inflated GMV, total orders and other key metrics on our platform. Although we have implemented strict measures to detect and penalize merchants who engaged in fraudulent activities on our platform, there can be no assurance that such measures will be effective in preventing fraudulent transactions.

Moreover, illegal, fraudulent or collusive activities by our employees could also subject us to liability or negative publicity. For instance, in early 2017, we found out that one of our employees had accepted payments from merchants attempting to receive preferential treatment on our platform, and we reported such behavior to the relevant government authorities. The employee was subsequently convicted of a criminal offence. Although we implement a zero tolerance policy towards these activities and have not been charged with any wrongdoing, negative publicity and user sentiment resulting from similar incidents could severely diminish consumer confidence in us and the value of our brand, and would materially and adversely affect our business, financial condition and results of operations.

We may be subject to claims under consumer protection laws, including health and safety claims and product liability claims, if property or people are harmed by the products and services sold on our platform. Additionally, new laws and regulations may impose additional requirements and other obligations on our business, which may materially and adversely affect our business, financial conditions and results of operations.

The PRC government, media outlets and public advocacy groups have been increasingly focused on consumer protection in recent years. The products sold by third-party merchants on our platform may be defectively designed or manufactured, and offerings of defective products on our platform may expose us to liabilities associated with consumer protection laws. Operators of e-commerce platforms are subject to certain provisions of consumer protection laws even where the operator is not the manufacturer or provider of the products or services purchased by the consumer. For example, under applicable consumer protection laws in China, e-commerce platform operators may be held liable for consumer claims relating to damage if they are unable to provide consumers with the true name, address and contact details of merchants. In addition, if we do not take appropriate remedial action against merchants for actions they engage in that we know, or should have known, would infringe upon the rights and interests of consumers, we may be held jointly liable for infringement alongside the merchants. Moreover, applicable consumer protection laws in China provide that platforms will be held liable for failing to meet any undertakings that the platforms make to consumers with regard to products listed on their platforms. Furthermore, we are required to report to the State Administration for Market Regulation, formerly known as the State Administration for Industry and Commerce, or SAIC, or its local branches any violation of applicable laws, regulations or SAIC rules by merchants, such as sales of goods without proper license or authorization, and we are required to take appropriate remedial measures, including ceasing to provide services to the relevant merchants. We may also be held jointly liable with merchants who do not possess the proper licenses or authorizations to sell goods or sell goods that do not meet product standards.

We do not maintain product liability insurance for products transacted on our platform, and our rights of indemnity from the merchants on our platform may not adequately cover us for any liability we may incur. Even unsuccessful claims could result in significant expenditure of funds and diversion of management time and resources, which could materially and adversely affect our business, financial condition and prospects.

In addition, the PRC government authorities may continue to promulgate new laws, regulations and rules governing the e-commerce industry, tighten enforcement of existing laws, rules and regulations, and impose additional requirements and other obligations on our business. For example, the PRC government launched the legislative procedure for a law that regulates e-commerce platform operators in December 2013, and the third draft was reviewed by the standing committee of the National People's Congress and was published in June 2018. The latest draft proposes to impose a "duty of reasonable care" on e-commerce platform operators, which may require the e-commerce platform operators to be held jointly liable with merchants if they did not exercise reasonable care, or, with respect to products or services affecting consumers' life and health, failed to review the qualifications of merchants or take reasonable measures to safeguard the interests of the consumers.

See "Regulation—Regulations Relating to E-Commerce." Such new legislation and enforcement may result in additional compliance obligations and increased costs or place restrictions upon our current or future operations, and may materially and adversely affect our business, financial condition and results of operations.

We may face challenges in expanding our product offerings.

The merchants on our platform carry a wide range of products, including apparel, shoes, bags, mother and childcare products, food and beverage, fresh produce, electronic appliances, furniture and household goods, cosmetics and other personal care items, sports and fitness items and auto accessories. Expansion into diverse new product categories and substantially increased number of products involve new risks and challenges. Our lack of familiarity with these products and lack of relevant buyer data relating to these products may make it more difficult for us to anticipate buyer demand and preferences and to inspect and control quality and ensure proper handling, storage and delivery by our merchants. Our merchants may experience higher return rates on new products, receive more buyer complaints about such products and face costly product liability claims as a result of selling such products, which would harm our brand and reputation as well as our financial performance. We may also be involved in disputes with the merchants in connection with these claims and complaints.

As we broaden our product offerings, we will need to work with a large number of new merchants efficiently and establish and maintain mutually beneficial relationships with our existing and new merchants. To support our growth and our expansion, we will need to devote management, operating, financial and human resources which may divert our attention from existing businesses, incur upfront costs, and implement a variety of new and upgraded management, operating, financial and human resource systems, procedures and controls. There is no assurance that we will be able to implement all of these systems, procedures and control measures successfully or address the various challenges in expanding our future businesses and operations effectively.

Tencent provides services to us in connection with various aspects of our operations. If such services become limited, restricted, curtailed or less effective or more expensive in any way or become unavailable to us for any reason, our business may be materially and adversely affected.

We collaborate with Tencent, one of our principal shareholders and owner of Weixin and QQ, with respect to various aspects of our business, including our mini-program within Weixin, which serves as one of our access points to our platform, as well as services such as payment processing, advertising and cloud technology. We have entered into a strategic cooperation framework agreement with Tencent, pursuant to which we and Tencent have agreed to cooperate in a number of areas including payment solutions, cloud services and user engagement, and to explore and pursue additional opportunities for potential cooperation. See "Related Party Transactions—Agreement and Business Cooperation with Tencent."

If services provided by Tencent to us become limited, compromised, restricted, curtailed or less effective or become more expensive or unavailable to us for any reason, including the availability of our mini-program within Weixin, our business may be materially and adversely affected. We may also encounter difficulties in implementing the Strategic Cooperation Framework Agreement, which may divert significant management attention from existing business operations. Failure to maintain our relationship with Tencent could materially and adversely affect our business and results of operations.

We rely on proper operation and maintenance of our mobile platform and internet infrastructure and telecommunications networks in China. Any malfunction, capacity constraint or operation interruption may have an adverse impact on our business.

Currently, all of our sales of products are generated online through our *Pinduoduo* mobile platform. Therefore, the satisfactory performance, reliability and availability of our mobile platform are critical to our success and our ability to attract and retain buyers. Our business depends on the performance and reliability of the internet infrastructure in China. The reliability and availability of our mobile platform depends on telecommunications carriers and other third-party providers for communications and storage capacity, including bandwidth and server storage, among other things. If we are unable to enter into and renew agreements with these providers on acceptable terms, or if any of our existing agreements with such providers are terminated as a result of our breach or otherwise, our ability to provide our services to our buyers could be adversely affected. Access to internet in China is maintained through state-owned telecommunications carriers under administrative control, and we obtain access to end-user networks operated by such telecommunications carriers and internet service providers to give buyers access to our mobile platform. The failure of telecommunications network operators to provide us with the requisite bandwidth could also interfere with the speed and availability of our mobile platform. Service interruptions prevent buyers from accessing our mobile platform and placing orders, and frequent interruptions could frustrate buyers and discourage them from attempting to place orders, which could cause us to lose buyers and harm our operating results.

We may engage in acquisitions, investments or strategic alliances in the future, which could require significant management attention and materially and adversely affect our business and results of operations.

We may identify strategic partners to form strategic alliances, invest in or acquire additional assets, technologies or businesses that are complementary to our existing business. These investments may involve minority stakes in other companies, acquisitions of entire companies or acquisitions of selected assets.

Any future strategic alliances, investments or acquisitions and the subsequent integration of the new assets and businesses obtained or developed from such transactions into our own may divert management from their primary responsibilities and subject us to additional liabilities. In addition, the costs of identifying and consummating investments and acquisitions may be significant. We may also incur costs and experience uncertainties in completing necessary registrations and obtaining necessary approvals from relevant government authorities in China and elsewhere in the world. The costs and duration of integrating newly acquired assets and businesses could also materially exceed our expectations. Any such negative developments could have a material adverse effect on our business, financial condition, results of operations and cash flow.

Undetected programming errors or flaws or failure to maintain effective customer service could harm our reputation, which would materially and adversely affect our results of operations.

Our platform and internal systems rely on software that is highly technical and complex. In addition, our platform and internal systems depend on the ability of such software to store, retrieve, process and manage immense amount of data. The software on which we rely has contained, and may now or in the future contain, undetected programming errors or flaws. Some errors may only be discovered after the code has been released for external or internal use. Errors or other design defects within the software on which we rely may result in a negative experience for buyers using our platform, disruptions to the operations of our merchants, delay introductions of new features or enhancements, result in errors or compromise our ability to support effective customer service and enjoyable buyer engagement. Any errors, bugs or defects discovered in the software on which we rely could result in harm to our reputation and loss of buyers, which could adversely affect our business, results of operations and financial conditions.

Our business generates and processes a large amount of data, and we are required to comply with PRC laws relating to cyber security. The improper use or disclosure of data could have a material and adverse effect on our business and prospects.

Our business generates and processes a large quantity of data. We face risks inherent in handling and protecting large volume of data. In particular, we face a number of challenges relating to data from transactions and other activities on our platforms, including:

- protecting the data in and hosted on our system, including against attacks on our system by outside parties or fraudulent behavior or improper use by our employees;
- addressing concerns related to privacy and sharing, safety, security and other factors; and
- complying with applicable laws, rules and regulations relating to the collection, use, storage, transfer, disclosure and security of personal information, including any requests from regulatory and government authorities relating to this data.

The PRC regulatory and enforcement regime with regard to data security and data protection is evolving. We may be required by Chinese governmental authorities to share personal information and data that we collect to comply with PRC laws relating to cybersecurity. See "Regulation—Regulations Relating to Internet Information Security and Privacy Protection." All these laws and regulations may result in additional expenses to us and subject us to negative publicity which could harm our reputation and negatively affect the trading price of our ADSs. There are also uncertainties with respect to how these laws will be implemented in practice. PRC regulators have been increasingly focused on regulation in the areas of data security and data protection. We expect that these areas will receive greater attention and focus from regulators, as well as attract continued or greater public scrutiny and attention going forward, which could increase our compliance costs and subject us to heightened risks and challenges associated with data security and protection. If we are unable to manage these risks, we could become subject to penalties, fines, suspension of business and revocation of required licenses, and our reputation and results of operations could be materially and adversely affected. In addition, regulatory authorities around the world have recently adopted or are considering a number of legislative and regulatory proposals concerning data protection. These legislative and regulatory proposals, if adopted, and the uncertain interpretations and application thereof could, in addition to the possibility of fines, result in an order requiring that we change our data practices, which could have an adverse effect on our business and results of operations.

Failure to protect confidential information of buyers, merchants and our network against security breaches could damage our reputation and brand and substantially harm our business and results of operations.

A significant challenge to the e-commerce industry is the secure storage of confidential information and its secure transmission over public networks. A majority of the orders and the payments for products offered on our platform are made through our mobile app. In addition, all online payments for products sold on our platform are settled through third-party online payment services. Maintaining complete security on our platform and systems for the storage and transmission of confidential or private information, such as buyers' personal information, payment-related information and transaction information, is essential to maintain consumer confidence in our platform and systems.

We have adopted strict security policies and measures, including encryption technology, to protect our proprietary data and buyer information. However, advances in technology, the expertise of hackers, new discoveries in the field of cryptography or other events or developments could result in a compromise or breach of the technology that we use to protect confidential information. We may not be able to prevent third parties, especially hackers or other individuals or entities engaging in similar activities, from illegally obtaining such confidential or private information we hold with respect to buyers and merchants on our platform. Such individuals or entities obtaining confidential or private

information may further engage in various other illegal activities using such information. In addition, we have limited control or influence over the security policies or measures adopted by third-party providers of online payment services through which some of our buyers may choose to make payment for purchases. Any negative publicity on our platform's safety or privacy protection mechanisms and policies, and any claims asserted against us or fines imposed upon us as a result of actual or perceived failures, could have a material and adverse effect on our public image, reputation, financial condition and results of operations. Any compromise of our information security or the information security measures of our contracted third-party online payment service providers could have a material and adverse effect on our reputation, business, prospects, financial condition and results of operations.

We rely on commercial banks and third-party online payment service providers for payment processing and escrow services on our platform. If these payment services are restricted or curtailed in any way or become unavailable to us or our buyers for any reason, our business may be materially and adversely affected.

All online payments for products sold on our platform are settled through third-party online payment service providers. Our business depends on the billing, payment and escrow systems of these payment service providers to maintain accurate records of payments of sales proceeds by buyers and collect such payments. If the quality, utility, convenience or attractiveness of these payment processing and escrow services declines, or we have to change the pattern of using these payment services for any reason, the attractiveness of our platform could be materially and adversely affected.

Business involving online payment services is subject to a number of risks that could materially and adversely affect third-party online payment service providers' ability to provide payment processing and escrow services to us, including:

- dissatisfaction with these online payment services or decreased use of their services by buyers and merchants;
- increasing competition, including from other established Chinese internet companies, payment service providers and companies engaged in other financial technology services;
- changes to rules or practices applicable to payment systems that link to third-party online payment service providers;
- breach of buyers' personal information and concerns over the use and security of information collected from buyers;
- service outages, system failures or failures to effectively scale the system to handle large and growing transaction volumes;
- increasing costs to third-party online payment service providers, including fees charged by banks to process transactions through online payment channels, which would also increase our costs of revenues; and
- failure to manage funds accurately or loss of funds, whether due to employee fraud, security breaches, technical errors or otherwise.

Certain commercial banks in China impose limits on the amounts that may be transferred by automated payment from buyers' bank accounts to their linked accounts with third-party online payment services. We cannot predict whether these and any additional restrictions that could be put in place would have a material adverse effect on our platform.

In addition, the commercial banks and third-party online payment service providers that we work with are subject to the supervision of the People's Bank of China, or the PBOC. The PBOC may publish rules, guidelines and interpretations from time to time regulating the operation of financial institutions and payment service providers that may in turn affect the pattern of services provided by

such entities for us. For example, in November 2017, the PBOC published a notice, or the PBOC Notice, on the investigation and administration of illegal offering of settlement services by financial institutions and third-party payment service providers to unlicensed entities. The PBOC Notice intended to prevent unlicensed entities from using licensed payment service providers as a conduit for conducting the unlicensed payment settlement services, so as to safeguard the fund security and information security. We believe that our pattern of receiving settlement services from third-party online payment service providers are not in violation of the PBOC Notice because the relevant commercial bank opens an internal special account to receive payment from the buyers and we will submit to the bank materials verifying the truthfulness of the relevant transactions and the bank will also verify other information if it deems necessary before it distributes the payment to merchants and us. However, we cannot assure you that the PBOC or other governmental authorities will hold the same view with ours. If required by the PBOC or new legislation, our cooperative payment service providers will have to suspend their services or explore new pattern to offer their services to us, we may not be able to claim our ownership and exclusive control of the payments from the buyers in the bank accounts opened with the relevant commercial banks, and we may incur additional expenses or invest considerable resources in complying with the requirements. If the PBOC or other governmental authorities deem our cooperation with payment service providers to be violative of law, our income derived from the accrued interests in the relevant bank accounts may be confiscated, and we may be subject to a fine of one to five times of such income.

In addition, we cannot assure you that we will be successful to enter into and maintain amicable relationships with these commercial banks and online payment service providers. Identifying, negotiating and maintaining relationships with these providers require significant time and resources. Our current agreements with these service providers also do not prohibit them from working with our competitors. They could choose to terminate their relationships with us or propose terms that we cannot accept. In addition, these service providers may not perform as expected under our agreements with them, and we may have disagreements or disputes with such payment service providers, any of which could adversely affect our brand and reputation as well as our business operations.

Any lack of additional requisite approvals, licenses or permits or failure to comply with any requirements of PRC laws, regulations and policies may materially and adversely affect our daily operations and hinder our growth.

Our business is subject to governmental supervision and regulation by the relevant PRC governmental authorities, including the Ministry of Commerce, or MOFCOM, the Ministry of Industry and Information Technology, or the MIIT, and other governmental authorities in charge of the relevant categories of products sold by us. Together, these government authorities promulgate and enforce regulations that cover many aspects of the operation of online retailing, including entry into this industry, the scope of permissible business activities, licenses and permits for various business activities, and foreign investment. We are required to hold a number of licenses and permits in connection with our business operation, including the ICP license and approvals for the establishment of foreign-invested enterprises engaging in the sale of goods over the internet. We have in the past held and currently hold all material licenses and permits described above and are applying for certain filings with the government authorities. See "Regulation—Regulations Relating to Foreign Investment" and "Regulation—Licenses, Permits and Filings."

As of the date of this prospectus, we have not received any notice of warning or been subject to penalties or other disciplinary action from the relevant governmental authorities regarding the conducting of our business without the above mentioned approvals and permits. However, we cannot assure you that we will not be subject to any penalties in the future. As the online retail industry is still evolving in China, new laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have, and to address new issues that arise from time

to time. As a result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to online retail businesses. If the PRC government considers that we were operating without the proper approvals, licenses or permits or promulgates new laws and regulations that require additional approvals or licenses or impose additional restrictions on the operation of any part of our business, it has the power, among other things, to levy fines, confiscate our income, revoke our business licenses, and require us to discontinue our relevant business or impose restrictions on the affected portion of our business. Any of these and other regulatory actions by the PRC governmental authorities, including issuance of official notices, change of policies, promulgation of regulations and imposition of sanctions, may adversely affect our business and have a material and adverse effect on our results of operations. In addition, if we were to use new or additional domain names to conduct our business, we would have to apply for the same set of government authorizations or amend the current ones. There is no assurance that we will be able to complete such procedures timely.

In addition to the licenses and permits, laws and regulations may require e-commerce platform operators to take measures to protect consumer rights. For example, in October 2017, we were required by the local regulator to make publicly available the link to the information contained in the licenses of the enterprise merchants and a label confirming the verified identity of the individual merchants on our platform. Although we endeavor to follow the laws and regulations, there is no assurance that we can timely react to the evolving requirements, and the government authorities may, to certain extent, have discretion in determining whether such requirements have been strictly complied with. If the government authorities deem that we fail to meet such requirements, we may receive warnings, be ordered to make rectifications, or subject to other administrative sanctions that may have material adverse effect on our business, financial condition and our results of operations. See "Regulation—Regulations Relating to E-Commerce."

We are required by PRC laws and regulations to comply with labor laws and regulations and pay overtime compensation and various government statutory employee benefit plans, including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan. The relevant government agencies may examine whether an employer has made adequate payments of the requisite statutory employee benefits, and those employers who fail to make adequate payments may be subject to late payment fees, fines and/or other penalties. If the relevant PRC authorities determine that we shall make supplemental contributions, that we are not in compliance with labor laws and regulations, or that we are subject to fines or other legal sanctions, such as order of timely rectification, our business, financial condition and results of operations may be adversely affected.

We may increasingly become a target for public scrutiny, including complaints to regulatory agencies, negative media coverage, and malicious reports, all of which could severely damage our reputation and materially and adversely affect our business and prospects.

We process an extremely large number of transactions on a daily basis on our platform, and the high volume of transactions taking place on our platform as well as publicity about our business create the possibility of heightened attention from the public, regulators and the media. Heightened regulatory and public concerns over consumer protection and consumer safety issues may subject us to additional legal and social responsibilities and increased scrutiny and negative publicity over these issues, due to the large number of transactions that take place on our platform and the increasing scope of our overall business operations. In addition, changes in our services or policies have resulted and could result in objections by members of the public, the traditional, new and social media, social network operators, merchants on our platform or others. From time to time, these objections or allegations, regardless of their veracity, may result in consumer dissatisfaction, public protests or negative publicity, which could result in government inquiry or substantial harm to our brand, reputation and operations.

Moreover, as our business expands and grows, both organically and through acquisitions of and investments in other businesses, domestically and internationally, we may be exposed to heightened public scrutiny in jurisdictions where we already operate as well as in new jurisdictions where we may operate. There is no assurance that we would not become a target for regulatory or public scrutiny in the future or that scrutiny and public exposure would not severely damage our reputation as well as our business and prospects.

Our online marketing services constitute internet advertisement, which subjects us to laws, rules and regulations applicable to advertising.

We derive a significant amount of our revenues from online marketing services and other related services. In July 2016, SAIC promulgated the Interim Administrative Measures on Internet Advertising, or the Internet Advertising Measures, effective September 2016, pursuant to which internet advertisements are defined as any commercial advertising that directly or indirectly promotes goods or services through internet media in any form including paid-for search results. See "Regulation—Regulations Relating to Internet Advertising Business." Under the Internet Advertising Measures, our online marketing services and other related services constitute internet advertisement.

PRC advertising laws, rules and regulations require advertisers, advertising operators and advertising distributors to ensure that the content of the advertisements they prepare or distribute is fair and accurate and is in full compliance with applicable law. In 2017 and the first quarter of 2018, 69.3% and 80.0% of our revenues were derived from online marketing services. Violation of these laws, rules or regulations may result in penalties, including fines, confiscation of advertising fees and orders to cease dissemination of the advertisements. In circumstances involving serious violations, the PRC government may suspend or revoke a violator's business license or license for operating advertising business. In addition, the Internet Advertising Measures require paid-for search results to be distinguished from natural search results so that consumers will not be misled as to the nature of these search results. As such, we are obligated to distinguish from others the merchants who purchase online marketing and related services or the relevant listings by these merchants. Complying with these requirements and any penalties or fines for any failure to comply may significantly reduce the attractiveness of our platform and increase our costs and could have a material adverse effect on our business, financial condition and results of operations.

In addition, for advertising content related to specific types of products and services, advertisers, advertising operators and advertising distributors must confirm that the advertisers have obtained requisite government approvals, including the advertiser's operating qualifications, proof of quality inspection of the advertised products, and, with respect to certain industries, government approval of the content of the advertisement and filing with the local authorities. Pursuant to the Internet Advertising Measures, we are required to take steps to monitor the content of advertisements displayed on our platforms. This requires considerable resources and time, and could significantly affect the operation of our business, while at the same time also exposing us to increased liability under the relevant laws, rules and regulations. The costs associated with complying with these laws, rules and regulations, including any penalties or fines for our failure to so comply if required, could have a material adverse effect on our business, financial condition and results of operations. Any further change in the classification of our online marketing and other related services by the PRC government may also significantly disrupt our operations and materially and adversely affect our business and prospects.

We may be subject to intellectual property infringement claims, which may be expensive to defend and may disrupt our business and operations.

We cannot be certain that our operations or any aspects of our business do not or will not infringe upon or otherwise violate patents, copyrights or other intellectual property rights held by third parties. We have been, and from time to time in the future may be, subject to legal proceedings and claims relating to the intellectual property rights of others. In addition, there may be other third-party intellectual property that is infringed by products offered by our merchants and our services or other aspects of our business. There could also be existing patents of which we are not aware that our products may inadvertently infringe. We cannot assure you that holders of patents purportedly relating to some aspect of our technology platform or business, if any such holders exist, would not seek to enforce such patents against us in China, the United States or any other jurisdictions. Further, the application and interpretation of China's patent laws and the procedures and standards for granting patents in China are still evolving and are uncertain, and we cannot assure you that PRC courts or regulatory authorities would agree with our analysis. If we are found to have violated the intellectual property rights of others, we may be subject to liability for our infringement activities or may be prohibited from using such intellectual property, and we may incur licensing fees or be forced to develop alternatives of our own. In addition, we may incur significant expenses, and may be forced to divert management's time and other resources from our business and operations to defend against these infringement claims, regardless of their merits. Successful infringement or licensing claims made against us may result in significant monetary liabilities and may materially disrupt our business and operations by restricting or prohibiting our use of the intellectual property in question. Finally, we use open source software in connection with our products and services. Companies that incorporate open source software into their products and services have, from time to time, faced claims challenging the ownership of open source software and compliance with open source license terms. As a result, we could be subject to suits by parties claiming ownership of what we believe to be open source software or noncompliance with open source licensing terms. Some open source software licenses require users who distribute open source software as part of their software to publicly disclose all or part of the source code to such software and make available any derivative works of the open source code on unfavorable terms or at no cost. Any requirement to disclose our source code or pay damages for breach of contract could be harmful to our business, results of operations and financial condition.

We may not be able to prevent others from unauthorized use of our intellectual property, which could harm our business and competitive position.

We regard our trademarks, copyrights, patents, domain names, know-how, proprietary technologies, and similar intellectual property as critical to our success, and we rely on a combination of intellectual property laws and contractual arrangements, including confidentiality, invention assignment and non-compete agreements with our employees and others, to protect our proprietary rights. We are aware of certain copycat websites that attempt to cause confusion or diversion of traffic from us at the moment, against which we are considering initiating lawsuits, and we may continue to become an attractive target to such attacks in the future because of our brand recognition in the online retail industry in China. Despite these measures, any of our intellectual property rights could be challenged, invalidated, circumvented or misappropriated, or such intellectual property may not be sufficient to provide us with competitive advantages. In addition, there can be no assurance that (i) our application for registration of trademarks, patents, and other intellectual property rights will be approved, (ii) any intellectual property rights will be adequately protected, or (iii) such intellectual property rights will not be challenged by third parties or found by a judicial authority to be invalid or unenforceable. Further, because of the rapid pace of technological change in our industry, parts of our business rely on technologies developed or licensed by third parties, and we may not be able to obtain or continue to obtain licenses and technologies from these third parties at all or on reasonable terms.

It is often difficult to register, maintain and enforce intellectual property rights in China. Statutory laws and regulations are subject to judicial interpretation and enforcement and may not be applied consistently due to the lack of clear guidance on statutory interpretation. Confidentiality, invention assignment and non-compete agreements may be breached by counterparties, and there may not be adequate remedies available to us for any such breach. Accordingly, we may not be able to effectively protect our intellectual property rights or to enforce our contractual rights in China. Policing any unauthorized use of our intellectual property is difficult and costly and the steps we take may be inadequate to prevent the infringement or misappropriation of our intellectual property. In the event that we resort to litigation to enforce our intellectual property rights, such litigation could result in substantial costs and a diversion of our management and financial resources, and could put our intellectual property at risk of being invalidated or narrowed in scope. We can provide no assurance that we will prevail in such litigation, and even if we do prevail, we may not obtain a meaningful recovery. In addition, our trade secrets may be leaked or otherwise become available to, or be independently discovered by, our competitors. Any failure in maintaining, protecting or enforcing our intellectual property rights could have a material adverse effect on our business, financial condition and results of operations.

Tightening of tax compliance efforts that affect merchants on our platform could materially and adversely affect our business, financial condition and results of operations.

The e-commerce industry in China is still developing, and the PRC government may require operators of online marketplaces, such as our company, to assist in the collection of taxes with respect to income generated by merchants from transactions conducted on our platforms. A significant number of merchants operating businesses on our platform may be deficient in their tax registration. PRC tax authorities may enforce registration requirements that target these merchants on our platforms and may request our assistance in these efforts. As a result, these merchants may be subject to more stringent tax compliance requirements and liabilities and their business on our platforms could suffer or they could decide to terminate their relationship with us rather than complying with tax regulations, which could in turn negatively affect us. We may also be requested by tax authorities to provide assistance in the enforcement of tax regulations, such as disclosure of transaction records and bank account information of the merchants, and withholding against our merchants. If that occurs, we may lose existing merchants and potential merchants might not be willing to operate their business on our platforms. Stricter tax enforcement by the PRC tax authorities may also reduce the activities by merchants on our platforms and result in liability to us. Potential heightened enforcement against merchants on our platforms, including imposition of reporting or withholding obligations on operators of online marketplaces with respect to value-added tax of merchants and stricter tax enforcement against merchants generally, could have a material adverse effect on our business, financial condition and results of operations.

Our business may be subject to seasonal sales fluctuations which could result in volatility or have an adverse effect on the market price of our ADSs.

We experience seasonality in our business, reflecting a combination of seasonal fluctuations in internet usage and traditional retail seasonality patterns. For example, we generally experience less user traffic and purchase orders during the Chinese New Year holiday season in the first quarter of each year. Furthermore, online sales in China are significantly higher in the fourth quarter of each calendar year than in the preceding three quarters. Due to the foregoing factors, our financial condition and results of operations for future quarters may continue to fluctuate and our historical quarterly results may not be comparable to future quarters. As a result, the trading price of our ADSs may fluctuate from time to time due to seasonality.

We have granted and may continue to grant options and other types of awards under our share incentive plan, which may result in increased share-based compensation expenses.

We adopted a global share incentive plan in 2015 and a share incentive plan in 2018, which we refer to as the 2015 Plan and the 2018 plan, respectively, in this prospectus, for the purpose of granting share-based compensation awards to employees, directors and consultants to incentivize their performance and align their interests with ours. We recognize expenses in our consolidated financial statements in accordance with U.S. GAAP. Under each of the share incentive plans, we are authorized to grant options and other types of awards. As of the date of this prospectus, the maximum aggregate number of ordinary shares which may be issued pursuant to all awards under the 2015 Plan is 581,972,860 Class A ordinary shares, subject to adjustment and amendment. The maximum aggregate number of shares which may be issued pursuant to all awards under the 2018 Plan is 363,130,400, plus an annual increase on the first day of each fiscal year of our company during the term of the 2018 Plan commencing with the fiscal year beginning January 1, 2019, by an amount equal to the lessor of (i) 1.0% of the total number of shares issued and outstanding on the last day of the immediately preceding fiscal year, and (ii) such number of shares as may be determined by our board of directors. As of the date of this prospectus, options to purchase 581,972,860 Class A ordinary shares under the 2015 Plan have been granted and outstanding, excluding awards that were forfeited or cancelled after the relevant grant dates, of which 259,360,000 options were granted in the second quarter of 2018. In addition, we granted 254,473,500 Class A ordinary shares in the second quarter of 2018 to a company controlled by our founder to reward him for his contributions to us. As a result, we expect to incur substantial share-based compensation expenses in the second quarter of 2018 in connection with these grants, and may continue to incur such expenses in the future. No award has been granted under the 2018 plan. We believe the granting of share-based compensation is of significant importance to our ability to attract and retain key personnel and employees, and we will continue to grant share-based compensation to employees in the future. As a result, our expenses associated with share-based compensation may increase, which may have an adverse effect on our results of operations. We may re-evaluate the vesting schedules, lock-up period, exercise price or other key terms applicable to the grants under our currently effective share incentive plans from time to time. If we choose to do so, we may experience substantial change in our share-based compensation charges in the reporting periods following this offering.

If we fail to implement and maintain an effective system of internal controls to remediate our material weakness over financial reporting, we may be unable to accurately report our results of operations, meet our reporting obligations or prevent fraud.

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which to address our internal control over financial reporting. In connection with the audits of our consolidated financial statements included in this prospectus, we and our independent registered public accounting firm identified a material weakness in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, a "material weakness" is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness that has been identified relates to our lack of sufficient financial reporting and accounting personnel with appropriate knowledge of U.S. GAAP and SEC reporting requirements to properly address complex U.S. GAAP accounting issues and to prepare and review our consolidated financial statements and related disclosures to fulfill U.S. GAAP and SEC financial reporting requirements. The material weakness, if not timely remedied, may lead to material misstatements in our consolidated financial statements in the future. Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control for purposes of

identifying and reporting material weaknesses and other control deficiencies in our internal control over financial reporting. Had we performed a formal assessment of our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional deficiencies may have been identified.

Following the identification of the material weakness and other control deficiencies, we have taken measures and plan to continue to take measures to remedy these control deficiencies. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Internal Control Over Financial Reporting." However, the implementation of these measures may not fully address these deficiencies in our internal control over financial reporting, and we cannot conclude that they have been fully remedied. Our failure to correct these control deficiencies or our failure to discover and address any other control deficiencies could result in inaccuracies in our financial statements and impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. Moreover, ineffective internal control over financial reporting could significantly hinder our ability to prevent fraud.

Upon completion of this offering, we will become subject to the Sarbanes-Oxley Act of 2002. Section 404 of the Sarbanes-Oxley Act, or Section 404, requires that we include a report from management on the effectiveness of our internal control over financial reporting in our annual report on Form 20-F beginning with our annual report for the fiscal year ending December 31, 2019. In addition, once we cease to be an "emerging growth company" as such term is defined in the JOBS Act, our independent registered public accounting firm must attest to and report on the effectiveness of our internal control over financial reporting. Our management may conclude that our internal control over financial reporting is not effective. Moreover, even if our management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm, after conducting its own independent testing, may issue a report that is qualified if it is not satisfied with our internal controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us. In addition, after we become a public company, our reporting obligations may place a significant strain on our management, operational and financial resources and systems for the foreseeable future. We may be unable to timely complete our evaluation testing and any required remediation.

During the course of documenting and testing our internal control procedures, in order to satisfy the requirements of Section 404, we may identify other weaknesses and deficiencies in our internal control over financial reporting. In addition, if we fail to maintain the adequacy of our internal control over financial reporting, as these standards are modified, supplemented or amended from time to time, we may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404. If we fail to achieve and maintain an effective internal control environment, we could suffer material misstatements in our financial statements and fail to meet our reporting obligations, which would likely cause investors to lose confidence in our reported financial information. This could in turn limit our access to capital markets, harm our results of operations, and lead to a decline in the trading price of our ADSs. Additionally, ineffective internal control over financial reporting could expose us to increased risk of fraud or misuse of corporate assets and subject us to potential delisting from the stock exchange on which we list, regulatory investigations and civil or criminal sanctions. We may also be required to restate our financial statements for prior periods.

Changes in U.S. and international trade policies, particularly with regard to China, may adversely impact our business and operating results.

The U.S. government has recently made statements and taken certain actions that may lead to potential changes to U.S. and international trade policies, including recently-imposed tariffs affecting certain products manufactured in China. It is unknown whether and to what extent new tariffs (or

other new laws or regulations) will be adopted, or the effect that any such actions would have on us or our industry and customers. Although cross-border business may not be an area of our focus, if we plan to sell our products internationally in the future, any unfavorable government policies on international trade, such as capital controls or tariffs, may affect the demand for our products and services, impact the competitive position of our products or prevent us from being able to sell products in certain countries. If any new tariffs, legislation and/or regulations are implemented, or if existing trade agreements are renegotiated or, in particular, if the U.S. government takes retaliatory trade actions due to the recent U.S.-China trade tension, such changes could have an adverse effect on our business, financial condition, results of operations.

We do not have any business insurance coverage.

The insurance industry in China is still at an early stage of development, and insurance companies in China currently offer limited business-related insurance products. We do not have any business liability or disruption insurance to cover our operations. We have determined that the costs of insuring for these risks and the difficulties associated with acquiring such insurance on commercially reasonable terms make it impractical for us to have such insurance. Any uninsured risks may result in substantial costs and the diversion of resources, which could adversely affect our results of operations and financial condition.

We face risks related to natural disasters, health epidemics and other outbreaks, which could significantly disrupt our operations.

We and our merchants are vulnerable to natural disasters, health epidemics, and other calamities. Any of such occurrences could cause severe disruption to the daily operations of us and our merchants, and may even require a temporary closure of facilities and logistics delivery networks, which may disrupt our business operations and adversely affect our results of operations. In addition, our results of operations could be adversely affected to the extent that any of these catastrophic events harms the Chinese economy in general.

We will be a "controlled company" within the meaning of the Nasdaq Stock Market Rules and, as a result, may rely on exemptions from certain corporate governance requirements that provide protection to shareholders of other companies.

Following the completion of this offering, we will be a "controlled company" as defined under the Nasdaq Stock Market Rules because our founder, chairman of the board of directors and chief executive officer, Mr. Zheng Huang, owns more than 50% of our total voting power. For so long as we remain a controlled company under that definition, we are permitted to elect to rely, and may rely, on certain exemptions from corporate governance rules, including an exemption from the rule that a majority of our board of directors must be independent directors or that we have to establish a nominating committee and a compensation committee composed entirely of independent directors. As a result, you will not have the same protection afforded to shareholders of companies that are subject to these corporate governance requirements. We currently do not plan to rely on these exemptions.

Risks Related to Our Corporate Structure

If the PRC government finds that the agreements that establish the structure for operating some of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Foreign ownership of certain parts of our businesses including value-added telecommunications services is subject to restrictions under current PRC laws and regulations. For example, foreign

investors are not allowed to own more than 50% of the equity interests in a value-added telecommunications service provider (excluding e-commerce) and any such foreign investor must have experience in providing value-added telecommunications services overseas and maintain a good track record.

We are a Cayman Islands company and our PRC subsidiaries, namely our WFOEs, are considered foreign-invested enterprises. Accordingly, our WFOEs are not eligible to provide value-added telecommunications services. As a result, we currently conduct our e-commerce business activities through Shanghai Xunmeng, a subsidiary of our VIE, which holds a VATS License for online data processing and transaction processing business (operating e-commerce) and internet content-related services. Shanghai Xunmeng is wholly owned by our VIE, namely Hangzhou Aimi, which has obtained a VATS License covering online data processing and transaction processing business (operating e-commerce, excluding internet finance and e-hailing services) and internet content-related services (excluding information search and inquiry services and real-time interactive information services). We entered into a series of contractual arrangements with Hangzhou Aimi and its shareholders, which enable us to (i) exercise effective control over our VIE, (ii) receive substantially all of the economic benefits of our VIE, and (iii) have an exclusive option to purchase all or part of the equity interests and assets in our VIE when and to the extent permitted by PRC law. As a result of these contractual arrangements, we have control over and are the primary beneficiary of our VIE and hence consolidate its financial results and its subsidiary into our consolidated financial statements under U.S. GAAP. See "Corporate History and Structure" for further details.

In the opinion of our PRC legal counsel, (i) the ownership structures of our VIE in China and Hangzhou Weimi, both currently and immediately after giving effect to this offering, are not in violation of applicable PRC laws and regulations currently in effect; and (ii) the contractual arrangements between Hangzhou Weimi, our VIE and its shareholders governed by PRC law are legal, valid, binding and enforceable in accordance with its terms and applicable PRC laws. However, our PRC legal counsel has also advised us that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. Accordingly, the PRC regulatory authorities may take a view that is contrary to the opinion of our PRC legal counsel. It is uncertain whether any new PRC laws or regulations relating to variable interest entity structures will be adopted or if adopted, what they would provide. If we or our VIE are found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion to take action in dealing with such violations or failures, including:

- revoke the business license and/or operating license of such entities;
- discontinuing or placing restrictions or onerous conditions on our operations;
- imposing fines, confiscating the income from Hangzhou Weimi or our VIE, or imposing other requirements with which we or our VIE may not be able to comply;
- requiring us to restructure our ownership structure or operations, including terminating the contractual arrangements with our VIE and deregistering the equity pledges of our VIE, which in turn would affect our ability to consolidate, derive economic interests from, or exert effective control over our VIE; or
- restricting or prohibiting our use of the proceeds of this offering to finance our business and operations in China.

The imposition of any of these penalties would result in a material and adverse effect on our ability to conduct our business. In addition, it is unclear what impact the PRC government actions would have on us and on our ability to consolidate the financial results of our VIE in our consolidated financial statements, if the PRC government authorities were to find our legal structure and contractual arrangements to be in violation of PRC laws and regulations. If the imposition of any of these government actions causes us to lose our right to direct the activities of our VIE or our right to receive substantially all the economic benefits and residual returns from our VIE and we are not able to restructure our ownership structure and operations in a satisfactory manner, we would no longer be able to consolidate the financial results of our VIE in our consolidated financial statements. Either of these results, or any other significant penalties that might be imposed on us in this event, would have a material adverse effect on our financial condition and results of operations.

The Pinduoduo Partnership and its related arrangements may impact your ability to appoint Executive Directors and nominate the chief executive officer of the company, and the interests of the Pinduoduo Partnership may conflict with your interests.

Our articles of association, as we expect them to be amended and become effective upon completion of this offering, will have the effect of allowing the Pinduoduo Partnership to appoint Executive Directors and nominate the chief executive officer of our company. Unless removed by the shareholders in accordance with the then effective articles of association of the company or terminated upon his or her death or resignation, such Executive Director candidate duly nominated by the Pinduoduo Partnership shall be approved and appointed by our board of directors and serve as an Executive Director of our company until expiry of his or her terms. The chief executive officer candidate nominated by the Pinduoduo Partnership shall stand for re-affirmation by the nomination committee of the board of directors and appointment by the board of directors. If the candidate is not re-affirmed by the nomination committee or appointed by the board of directors in accordance with the then effective articles of association of the company, the partnership may nominate a replacement nominee until the nomination committee re-affirms and the board of directors appoints such nominee as chief executive officer, or the nomination committee or the board of directors fails to re-affirm and appoint the third candidate nominated by the Pinduoduo Partnership, after which time the board of directors may nominate and appoint any person to serve as the chief executive officer in accordance with the then effective articles of association of the company. See "Management—Pinduoduo Partnership." This governance structure and contractual arrangements will limit your ability to influence corporate matters, including the matters determined at the board level.

In addition, the interests of the Pinduoduo Partnership may not coincide with your interests, including certain managerial decisions such as partner compensation. For example, each year, once an aggregate bonus pool is approved by the board of directors, the partnership committee of the Pinduoduo Partnership will make further determinations as to, among other things, the allocation of the current bonus pool among all partners and these allocations may not be entirely aligned with the interest of shareholders who are not partners. Because the partners may be largely comprised of members of our management team, the Pinduoduo Partnership and its Executive Director nominees may focus on the operational and financial results that may differ from the expectations and desires of shareholders. To the extent that the interests of the Pinduoduo Partnership differ from your interests on certain matters, you may be disadvantaged.

Our business may be significantly affected by the draft Foreign Investment Law, if implemented as proposed.

In January 2015, MOFCOM published a draft Foreign Investment Law for soliciting public comments. At the same time, MOFCOM published an accompanying explanatory note of the draft Foreign Investment Law, which contains important information about the draft Foreign Investment Law, including its legislative philosophy and principles, main content, plans for transitioning into the

new legal regime and treatment of business in China controlled by foreign invested enterprises. The draft Foreign Investment Law proposes significant changes to the PRC foreign investment legal regime and, when implemented, may have a significant impact on businesses in China controlled by foreign invested enterprises primarily through contractual arrangements, such as our business. Please refer to "Regulation—Regulations Relating to Foreign Investment" for further details. MOFCOM solicited comments on the draft Foreign Investment Law in 2015, but no new draft has been published since then. There is substantial uncertainty with respect to its final content, interpretation, adoption timeline and effective date. It is anticipated, though, that the draft Foreign Investment Law will build in regulations on variable interest entities. MOFCOM suggests both registration and approval as potential options for the regulation of variable interest entity structures, depending on whether they are "Chinese" or "foreign controlled." One of the core concepts of the draft Foreign Investment Law is "de facto control," which emphasizes substance over form in determining whether an entity is "Chinese" or foreign controlled. This determination requires consideration of the nature of the investors that exercise control over the entity. "Chinese investors" are individuals who are Chinese nationals, Chinese government agencies and any domestic enterprise controlled by Chinese nationals or government agencies. "Foreign investors" are foreign citizens, foreign governments, international organizations and entities controlled by foreign citizens and entities.

There can be no assurance that our current corporate structure will be considered "Chinese-controlled" under the scheme of the draft Foreign Investment Law. In the event that our VIE contractual arrangements under which we operate our business are not treated as a domestic investment and/or our operation are classified as a "prohibited business" under the Foreign Investment Law when officially enacted, such VIE contractual arrangements may be deemed as invalid and illegal, and we may be required to unwind the VIE contractual arrangements and/or dispose of such business.

We rely on contractual arrangements with our VIE and its shareholders for a large portion of our business operations, which may not be as effective as direct ownership in providing operational control.

Our VIE contributed 72.4%, 100.0% and 100.0% of our consolidated total revenues in 2016 and 2017 and the three months ended March 31, 2018, respectively. We have relied and expect to continue to rely on contractual arrangements with our VIE and its shareholders to conduct our business. These contractual arrangements may not be as effective as direct ownership in providing us with control over our VIE. For example, our VIE and its shareholders could breach their contractual arrangements with us by, among other things, failing to conduct their operations in an acceptable manner or taking other actions that are detrimental to our interests.

If we had direct ownership of our VIE, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of our VIE, which in turn could implement changes, subject to any applicable fiduciary obligations, at the management and operational level. However, under the current contractual arrangements, we rely on the performance by our VIE and its shareholders of their obligations under the contracts to exercise control over our VIE. The shareholders of our consolidated VIE may not act in the best interests of our company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate certain portions of our business through the contractual arrangements with our VIE. If any disputes relating to these contracts remains unresolved, we will have to enforce our rights under these contracts through the operations of PRC law and arbitration, litigation and other legal proceedings and therefore will be subject to uncertainties in the PRC legal system. See "—Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business." Therefore, our contractual arrangements with our VIE may not be as effective in ensuring our control over the relevant portion of our business operations as direct ownership would be.

Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.

We refer to the shareholders of our VIE as its nominee shareholders because although they remain the holders of equity interests on record in each of our VIE, each such shareholder has irrevocably authorized Hangzhou Weimi to exercise his, her or its rights as a shareholder of the relevant VIE pursuant to the terms of the relevant shareholders' voting rights proxy agreement. However, if our VIE or its shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. We may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, which may not be effective under PRC law. For example, if the shareholders of our VIE refuse to transfer their equity interest in our VIE to us or our designee if we exercise the purchase option pursuant to these contractual arrangements, or if they otherwise act in bad faith toward us, then we may have to take legal actions to compel them to perform their contractual obligations.

All of the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. See "—Risks Related to Doing Business in China—Uncertainties with respect to the PRC legal system and changes in laws and regulations in China could adversely affect us." Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a VIE should be interpreted or enforced under PRC law. There remain significant uncertainties regarding the ultimate outcome of such arbitration should legal action become necessary. In addition, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay. In the event we are unable to enforce these contractual arrangements, or if we suffer significant delays or other obstacles in the process of enforcing these contractual arrangements, we may not be able to exert effective control over our VIE, and our ability to conduct our business may be negatively affected.

The shareholders of our VIE may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

Messrs. Lei Chen, Qin Sun and Zhen Zhang are beneficiary owners of our company and hold 86.6%, 4.4% and 0.1% equity interests in our VIE, respectively. They are either directors or employees of our company. The remaining 8.9% equity interests in our VIE are held by Linzhi Tencent Technology Co., Ltd., which is an affiliate of one of our shareholders. The shareholders of our VIE may have potential conflicts of interest with us. See "Corporate History and Structure—Contractual Arrangements with Our VIE and Its Shareholders." These shareholders may breach, or cause our VIE to breach, or refuse to renew, the existing contractual arrangements we have with them and our VIE, which would have a material and adverse effect on our ability to effectively control our VIE and receive economic benefits from it. For example, the shareholders may be able to cause our agreements with our VIE to be performed in a manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise any or all of these shareholders will act in the best interests of our company or such conflicts will be resolved in our favor.

Currently, we do not have any arrangements to address potential conflicts of interest between these shareholders and our company, except that we could exercise our purchase option under the exclusive option agreements with these shareholders to request them to transfer all of their equity interests in the VIE to a PRC entity or individual designated by us, to the extent permitted by PRC law. For individuals who are also our directors and officers, we rely on them to abide by the laws of the Cayman Islands, which provide that directors and officers owe a fiduciary duty to the company that requires them to act in good faith and in what they believe to be the best interests of the company and not to use their position for personal gains. The shareholders of our VIE have executed shareholders' voting rights proxy agreement to appoint Hangzhou Weimi or a person designated by Hangzhou Weimi to vote on their behalf and exercise voting rights as shareholders of our VIE. If we cannot resolve any conflict of interest or dispute between us and the shareholders of our variable interest entities, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

The shareholders of our VIE may be involved in personal disputes with third parties or other incidents that may have an adverse effect on their respective equity interests in the relevant VIE and the validity or enforceability of our contractual arrangements with the relevant entity and its shareholders. For example, in the event that any of the shareholders of our VIE divorces his or her spouse, the spouse may claim that the equity interest of the relevant VIE held by such shareholder is part of their community property and should be divided between such shareholder and his or her spouse. If such claim is supported by the court, the relevant equity interest may be obtained by the shareholder's spouse or another third party who is not subject to obligations under our contractual arrangements, which could result in a loss of the effective control over the relevant VIE by us. Similarly, if any of the equity interests of our VIE is inherited by a third party with whom the current contractual arrangements are not binding, we could lose our control over the relevant VIE or have to maintain such control by incurring unpredictable costs, which could cause significant disruption to our business and operations and harm our financial condition and results of operations.

Although under our current contractual arrangements, (i) the spouse of each of the shareholders of our VIE has executed a spousal consent letter, under which the spouse agrees that he or she will not raise any claims against the equity interest, and will take every action to ensure the performance of the contractual arrangements, and (ii) it is expressly provided that the rights and obligations under the contractual agreements shall be equally effective and binding on the heirs and successors of the parties thereto, or that our VIE shall not assign or delegate its rights and obligations under the contractual agreements to third parties without our prior consent, we cannot assure you that these undertakings and arrangements will be complied with or effectively enforced. In the case any of them is breached or becomes unenforceable and leads to legal proceedings, it could disrupt our business, distract our management's attention and subject us to substantial uncertainties as to the outcome of any such legal proceedings.

Contractual arrangements in relation to our VIE may be subject to scrutiny by the PRC tax authorities and they may determine that we or our VIE owes additional taxes, which could negatively affect our financial condition and the value of your investment.

Under applicable PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the VIE contractual arrangements were not entered into on an arm's length basis in such a way as to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, and adjust the income of our VIE in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by our VIE for PRC tax purposes, which could in turn increase its tax liabilities without reducing Hangzhou Weimi's tax expenses. In addition, the PRC tax

authorities may impose late payment fees and other penalties on our VIE for the adjusted but unpaid taxes according to the applicable regulations. Our financial position could be materially and adversely affected if our VIE's tax liabilities increase or if it is required to pay late payment fees and other penalties.

We may lose the ability to use and enjoy assets held by our VIE that are material to the operation of certain portion of our business if the VIE goes bankrupt or become subject to a dissolution or liquidation proceeding.

As part of our contractual arrangements with our VIE, our VIE and its subsidiaries hold certain assets that are material to the operation of certain portion of our business, including intellectual property and premise and VATS licenses. If our VIE goes bankrupt and all or part of its assets become subject to liens or rights of third-party creditors, we may be unable to continue some or all of our business activities, which could materially and adversely affect our business, financial condition and results of operations. Under the contractual arrangements, our VIE may not, in any manner, sell, transfer, mortgage or dispose of their assets or legal or beneficial interests in the business without our prior consent. If our VIE undergoes a voluntary or involuntary liquidation proceeding, independent third-party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, financial condition and results of operations.

If the chops of our PRC subsidiaries and our VIE are not kept safely, are stolen or are used by unauthorized persons or for unauthorized purposes, the corporate governance of these entities could be severely and adversely compromised.

In China, a company chop or seal serves as the legal representation of the company towards third parties even when unaccompanied by a signature. Each legally registered company in China is required to maintain a company chop, which must be registered with the local Public Security Bureau. In addition to this mandatory company chop, companies may have several other chops which can be used for specific purposes. The chops of our PRC subsidiaries and VIE are generally held securely by personnel designated or approved by us in accordance with our internal control procedures. To the extent those chops are not kept safely, are stolen or are used by unauthorized persons or for unauthorized purposes, the corporate governance of these entities could be severely and adversely compromised and those corporate entities may be bound to abide by the terms of any documents so chopped, even if they were chopped by an individual who lacked the requisite power and authority to do so. In addition, if the chops are misused by unauthorized persons, we could experience disruption to our normal business operations. We may have to take corporate or legal action, which could involve significant time and resources to resolve while distracting management from our operations.

Risks Related to Doing Business in China

Changes in China's economic, political or social conditions or government policies could have a material adverse effect on our business and operations.

Substantially all of our assets and operations are located in China. Accordingly, our business, financial condition, results of operations and prospects may be influenced to a significant degree by political, economic and social conditions in China generally. The Chinese economy differs from the economies of most developed countries in many respects, including the level of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies.

The Chinese government also exercises significant control over China's economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy, and the rate of growth has been slowing since 2012. Any adverse changes in economic conditions in China, in the policies of the Chinese government or in the laws and regulations in China could have a material adverse effect on the overall economic growth of China. Such developments could adversely affect our business and operating results, lead to reduction in demand for our services and adversely affect our competitive position. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations. In addition, in the past the Chinese government has implemented certain measures, including interest rate adjustment, to control the pace of economic growth. These measures may cause decreased economic activity in China, which may adversely affect our business and operating results.

Uncertainties with respect to the PRC legal system and changes in laws and regulations in China could adversely affect us.

We conduct our business primarily through our PRC subsidiaries and our VIE and one of its subsidiaries in China. Our operations in China are governed by PRC laws and regulations. Our PRC subsidiaries are subject to laws and regulations applicable to foreign investment in China. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value. In addition, any new or changes in PRC laws and regulations related to foreign investment in China could affect the business environment and our ability to operate our business in China.

From time to time, we may have to resort to administrative and court proceedings to enforce our legal rights. Any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory provisions and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy than in more developed legal systems. These uncertainties may impede our ability to enforce the contracts we have entered into and could materially and adversely affect our business and results of operations.

Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all and may have retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. Such unpredictability towards our contractual, property and procedural rights could adversely affect our business and impede our ability to continue our operations.

We may be adversely affected by the complexity, uncertainties and changes in PRC regulation of internet-related businesses and companies, and any lack of requisite approvals, licenses or permits applicable to our business may have a material adverse effect on our business and results of operations.

The PRC government extensively regulates the internet industry, including foreign ownership of, and the licensing and permit requirements pertaining to, companies in the internet industry. These internet-related laws and regulations are relatively new and evolving, and their interpretation and enforcement involve significant uncertainties. As a result, in certain circumstances it may be difficult to determine what actions or omissions may be deemed to be in violation of applicable laws and regulations.

We only have contractual control over our *Pinduoduo* mobile app. We do not directly own the mobile app due to the restrictions on foreign investment in businesses providing value-added telecommunications services in China, including e-commerce services and internet content-related services. This may significantly disrupt our business, subject us to sanctions, compromise enforceability of related contractual arrangements, or have other harmful effects on us.

The evolving PRC regulatory system for the internet industry may lead to the establishment of new regulatory agencies. For example, in May 2011, the State Council announced the establishment of the State Internet Information Office (with the involvement of the State Council Information Office, MIIT, and the Ministry of Public Security). The primary role of the State Internet Information Office is to facilitate the policy-making and legislative development in this field, to direct and coordinate with the relevant departments in connection with online content administration and to deal with cross-ministry regulatory matters in relation to the internet industry.

Our online platform, operated by Shanghai Xunmeng, may be deemed to be providing commercial internet content-related services, which would require Shanghai Xunmeng to obtain an ICP License. An ICP License is a value-added telecommunications business operating license required for provision of commercial internet information services. The Circular on Strengthening the Administration of Foreign Investment in and Operation of Value-added Telecommunications Business, issued by the MIIT in July 2006, prohibits domestic telecommunications service providers from leasing, transferring or selling telecommunications business operating licenses to any foreign investor in any form, or providing any resources, sites or facilities to any foreign investor for their illegal operation of a telecommunications business in China. According to this circular, either the holder of a value-added telecommunications services operation permit or its shareholders must directly own the domain names and trademarks used by such license holders in their provision of value-added telecommunications services. The circular also requires each license holder to have the necessary facilities, including servers, for its approved business operations and to maintain such facilities in the regions covered by its license. Shanghai Xunmeng owns the relevant domain names and trademarks in connection with our online platform and has the necessary personnel to operate our online platform.

The interpretation and application of existing PRC laws, regulations and policies and possible new laws, regulations or policies relating to the internet industry have created substantial uncertainties regarding the legality of existing and future foreign investments in, and the businesses and activities of, internet businesses in China, including our business. We cannot assure you that we have obtained all the permits or licenses required for conducting our business in China or will be able to maintain our existing licenses or obtain new ones. If the PRC government considers that we were operating without the proper approvals, licenses or permits or promulgates new laws and regulations that require additional approvals or licenses or imposes additional restrictions on the operation of any part of our business, it has the power, among other things, to levy fines, confiscate our income, revoke our business licenses, and require us to discontinue our relevant business or impose restrictions on the affected portion of our business. Any of these actions by the PRC government may have a material adverse effect on our business and results of operations.

You may experience difficulties in effecting service of legal process, enforcing foreign judgments or bringing actions in China against us or our management named in the prospectus based on foreign laws.

We are a company incorporated under the laws of the Cayman Islands, we conduct substantially all of our operations in China and substantially all of our assets are located in China. In addition, all our senior executive officers reside within China for a significant portion of the time and most are PRC nationals. As a result, it may be difficult for you to effect service of process upon us or those persons inside mainland China. It may also be difficult for you to enforce in U.S. courts judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors as none of them currently resides in the United States or has substantial assets

located in the United States. In addition, there is uncertainty as to whether the courts of the Cayman Islands or the PRC would recognize or enforce judgments of U.S. courts against us or such persons predicated upon the civil liability provisions of the securities laws of the United States or any state.

The recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other forms of written arrangement with the United States that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, the PRC courts will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC laws or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States.

We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business.

We are a Cayman Islands holding company and we rely principally on dividends and other distributions on equity from our PRC subsidiaries for our cash requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders for services of any debt we may incur. If any of our PRC subsidiaries incur debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other distributions to us. Under PRC laws and regulations, our PRC subsidiaries, each of which is a wholly foreign-owned enterprise may pay dividends only out of its respective accumulated profits as determined in accordance with PRC accounting standards and regulations. In addition, a wholly foreign-owned enterprise is required to set aside at least 10% of its after-tax profits each year, if any, to fund a certain statutory reserve fund, until the aggregate amount of such fund reaches 50% of its registered capital. At its discretion, a wholly foreign-owned enterprise may allocate a portion of its after-tax profits based on PRC accounting standards to a staff welfare and bonus fund. These reserve fund and staff welfare and bonus fund cannot be distributed to us as dividends.

Our PRC subsidiaries generate primarily all of their revenue in Renminbi, which is not freely convertible into other currencies. As result, any restriction on currency exchange may limit the ability of our PRC subsidiaries to use their Renminbi revenues to pay dividends to us.

The PRC government may continue to strengthen its capital controls, and more restrictions and substantial vetting process may be put forward by SAFE for cross-border transactions falling under both the current account and the capital account. Any limitation on the ability of our PRC subsidiaries to pay dividends or make other kinds of payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business.

In addition, the Enterprise Income Tax Law and its implementation rules provide that a withholding tax rate of up to 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions where the non-PRC-resident enterprises are incorporated.

PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiary, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in China. We may make loans to our PRC subsidiaries and VIE subject to the approval, registration, and filing with governmental authorities and limitation of amount, or we may make additional capital contributions to our wholly foreign-owned subsidiaries in China. Any loans to our wholly foreign-owned subsidiaries in China, which are treated as foreign-invested enterprises under PRC law, are subject to foreign exchange loan registrations. In addition, a foreign invested enterprise shall use its capital pursuant to the principle of authenticity and self-use within its business scope. The capital of a foreign invested enterprise shall not be used for the following purposes: (i) directly or indirectly used for payment beyond the business scope of the enterprises or the payment prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities or investments other than banks' principal-secured products unless otherwise provided by relevant laws and regulations; (iii) the granting of loans to non-affiliated enterprises, except where it is expressly permitted in the business license; and (iv) paying the expenses related to the purchase of real estate that is not for self-use (except for the foreign-invested real estate enterprises).

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals or filings on a timely basis, if at all, with respect to future loans by us to our PRC subsidiary or VIE or with respect to future capital contributions by us to our PRC subsidiary. If we fail to complete such registrations or obtain such approvals, our ability to use the proceeds from this offering and to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

Fluctuations in exchange rates could have a material and adverse effect on our results of operations and the value of your investment.

The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions in China and by China's foreign exchange policies. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar, and the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the Renminbi has fluctuated against the U.S. dollar, at times significantly and unpredictably. On November 30, 2015, the Executive Board of IMF completed the regular five-year review of the basket of currencies that make up the Special Drawing Right, or the SDR, and decided that with effect from October 1, 2016, Renminbi is determined to be a freely usable currency and will be included in the SDR basket as a fifth currency, along with the U.S. dollar, the Euro, the Japanese yen and the British pound. In the fourth quarter of 2016, the Renminbi has depreciated significantly in the backdrop of a surging U.S. dollar and persistent capital outflows of China. This depreciation halted in 2017, and the RMB appreciated approximately 7% against the U.S. dollar during this one-year period. With the development of the foreign exchange market and progress towards interest rate liberalization and Renminbi internationalization, the PRC government may in the future announce further changes to the exchange rate system, and we cannot assure you that the Renminbi will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

Significant revaluation of the Renminbi may have a material and adverse effect on your investment. For example, to the extent that we need to convert U.S. dollars we receive from this offering into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive from the conversion. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount available to us.

Very limited hedging options are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedges may be limited and we may not be able to adequately hedge our exposure or at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

Governmental control of currency conversion may limit our ability to utilize our revenues effectively and affect the value of your investment.

The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. We receive substantially all of our revenues in Renminbi. Under our current corporate structure, our Cayman Islands holding company primarily relies on dividend payments from our PRC subsidiary to fund any cash and financing requirements we may have. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval of SAFE by complying with certain procedural requirements. Specifically, under the existing exchange restrictions, without prior approval of SAFE, cash generated from the operations of our PRC subsidiary in China may be used to pay dividends to our company. However, approval from or registration with appropriate government authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. As a result, we need to obtain SAFE approval to use cash generated from the operations of our PRC subsidiary and VIE to pay off their respective debt in a currency other than Renminbi owed to entities outside China, or to make other capital expenditure payments outside China in a currency other than Renminbi.

In light of the flood of capital outflows of China, the PRC government may from time to time impose more restrictive foreign exchange policies and step up scrutiny of major outbound capital movement. More restrictions and substantial vetting process may be required by SAFE or other government authorities to regulate cross-border transactions falling under the capital account. The PRC government may at its discretion restrict access to foreign currencies for current account transactions in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs.

Certain PRC regulations may make it more difficult for us to pursue growth through acquisitions.

Among other things, the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies in 2006 and amended in 2009, established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex. Such regulation requires, among other things, that MOFCOM be notified in advance of any change-of-control transaction in which a foreign investor acquires control of a PRC domestic enterprise and involves any of the following circumstances: (i) any important industry is concerned, (ii) such transaction involves factors that impact

or may impact national economic security, or (iii) such transaction will lead to a change in control of a domestic enterprise which holds a famous trademark or PRC time-honored brand. We do not expect that this offering will trigger MOFCOM pre-notification under each of the above-mentioned circumstances or any review by other PRC government authorities, except as disclosed in "Risk Factors—Risks Related to Doing Business in China—The approval of the China Securities Regulatory Commission may be required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval." Moreover, the Anti-Monopoly Law promulgated by the Standing Committee of the NPC which became effective in 2008 requires that transactions which are deemed concentrations and involve parties with specified turnover thresholds must be cleared by MOFCOM before they can be completed. In addition, PRC national security review rules that became effective in September 2011 require acquisitions by foreign investors of PRC companies engaged in military related or certain other industries that are crucial to national security be subject to security review before consummation of any such acquisition. We may pursue potential strategic acquisitions that are complementary to our business and operations. Complying with the requirements of these regulations to complete such transactions could be time-consuming, and any required approval processes, including obtaining approval or clearance from MOFCOM, may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

PRC regulations relating to offshore investment activities by PRC residents may limit our PRC subsidiaries' ability to change their registered capital or distribute profits to us or otherwise expose us or our PRC resident beneficial owners to liability and penalties under PRC laws.

In July 2014, SAFE promulgated the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment Through Special Purpose Vehicles, or SAFE Circular 37. SAFE Circular 37 requires PRC residents (including PRC individuals and PRC corporate entities as well as foreign individuals that are deemed as PRC residents for foreign exchange administration purpose) to register with SAFE or its local branches in connection with their direct or indirect offshore investment activities. SAFE Circular 37 further requires amendment to the SAFE registrations in the event of any changes with respect to the basic information of the offshore special purpose vehicle, such as change of a PRC individual shareholder, name and operation term, or any significant changes with respect to the offshore special purpose vehicle, such as increase or decrease of capital contribution, share transfer or exchange, or mergers or divisions. SAFE Circular 37 is applicable to our shareholders who are PRC residents and may be applicable to any offshore acquisitions that we make in the future.

If our shareholders who are PRC residents fail to make the required registration or to update the previously filed registration, our PRC subsidiaries may be prohibited from distributing their profits or the proceeds from any capital reduction, share transfer or liquidation to us, and we may also be prohibited from making additional capital contributions into our PRC subsidiaries. In February 2015, SAFE promulgated a Notice on Further Simplifying and Improving Foreign Exchange Administration Policy on Direct Investment, or SAFE Notice 13, effective June 2015. Under SAFE Notice 13, applications for foreign exchange registration of inbound foreign direct investments and outbound overseas direct investments, including those required under SAFE Circular 37, will be filed with qualified banks instead of SAFE. The qualified banks will directly examine the applications and accept registrations under the supervision of SAFE.

All of our shareholders who we are aware of being subject to the SAFE regulations have completed the initial registrations with the local SAFE branch or qualified banks as required by SAFE Circular 37. However, we may not be informed of the identities of all the PRC residents holding direct or indirect interest in our company, and we cannot provide any assurance that these PRC residents will comply with our request to make or obtain any applicable registrations or continuously comply with all

requirements under SAFE Circular No. 37 or other related rules. The failure or inability of the relevant shareholders to comply with the registration procedures set forth in these regulations may subject us to fines and legal sanctions, such as restrictions on our cross-border investment activities, on the ability of our wholly foreign-owned subsidiaries in China to distribute dividends and the proceeds from any reduction in capital, share transfer or liquidation to us. Moreover, failure to comply with the various foreign exchange registration requirements described above could result in liability under PRC law for circumventing applicable foreign exchange restrictions. As a result, our business operations and our ability to distribute profits to you could be materially and adversely affected.

Any failure to comply with PRC regulations regarding the registration requirements for employee stock incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

In February 2012, SAFE promulgated the Notices on Issues Concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly Listed Company, replacing earlier rules promulgated in 2007. Pursuant to these rules, PRC citizens and non-PRC citizens who reside in China for a continuous period of not less than one year who participate in any stock incentive plan of an overseas publicly listed company, subject to a few exceptions, are required to register with SAFE through a domestic qualified agent, which could be the PRC subsidiaries of such overseas-listed company, and complete certain other procedures. In addition, an overseas-entrusted institution must be retained to handle matters in connection with the exercise or sale of stock options and the purchase or sale of shares and interests. We and our executive officers and other employees who are PRC citizens or who reside in the PRC for a continuous period of not less than one year and who have been granted options will be subject to these regulations when our company becomes an overseas-listed company upon the completion of this offering. Failure to complete SAFE registrations may subject them to fines of up to RMB300,000 for entities and up to RMB50,000 for individuals, and legal sanctions and may also limit our ability to contribute additional capital into our PRC subsidiary and limit our PRC subsidiary's ability to distribute dividends to us. We also face regulatory uncertainties that could restrict our ability to adopt additional incentive plans for our directors, executive officers and employees under PRC law. See "Regulation—Regulations Relating to Foreign Exchange—Regulations on Stock Incentive Plans."

In addition, the State Administration of Taxation, or SAT, has issued certain circulars concerning employee share options and restricted shares. Under these circulars, our employees working in China who exercise share options or are granted restricted shares will be subject to PRC individual income tax. Our PRC subsidiaries have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees who exercise their share options. If our employees fail to pay or we fail to withhold their income taxes according to relevant laws and regulations, we may face sanctions imposed by the tax authorities or other PRC government authorities. See "Regulation—Regulations Relating to Foreign Exchange—Regulations on Stock Incentive Plans."

Certain of our leasehold interests in leased properties have not been registered with the relevant PRC government authorities as required by PRC law, which may expose us to potential fines.

Certain of our leasehold interests in leased properties have not been registered with the relevant PRC government authorities as required by PRC law, which may expose us to potential fines if we fail to remediate after receiving any notice from the relevant PRC government authorities. In case of failure to register or file a lease, the parties to the unregistered lease may be ordered to make rectifications (which would involve registering such leases with the relevant authority) before being subject to penalties. The penalty ranges from RMB1,000 to RMB10,000 for each unregistered lease, at the discretion of the relevant authority. The law is not clear as to which of the parties, the lessor or the

lessee, is liable for the failure to register the lease. Although we have proactively requested that the applicable lessors complete or cooperate with us to complete the registration in a timely manner, we are unable to control whether and when such lessors will do so. In the event that a fine is imposed on both the lessor and lessee, and if we are unable to recover from the lessor any fine paid by us, such fine will be borne by us.

If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavourable tax consequences to us and our non-PRC shareholders or ADS holders.

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with "de facto management body" within the PRC is considered a "resident enterprise" and will be subject to the enterprise income tax on its global income at the rate of 25%. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control and overall management over the business, productions, personnel, accounts and properties of an enterprise. In 2009, the State Administration of Taxation, or SAT, issued a circular, known as SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect SAT's general position on how the "de facto management body" text should be applied in determining the tax resident status of all offshore enterprises. According to SAT Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its "de facto management body" in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe that we are not a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body." If the PRC tax authorities determine that we are a PRC resident enterprise for enterprise income tax purposes, we could be subject to PRC tax at a rate of 25% on our worldwide income, which could materially reduce our net income, and we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of our ADSs. In addition, non-resident enterprise shareholders (including our ADS holders) may be subject to PRC tax on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced from within the PRC. Furthermore, if we are deemed a PRC resident enterprise, dividends payable to our non-PRC individual shareholders (including our ADS holders) and any gain realized on the transfer of ADSs or ordinary shares by such shareholders may be subject to PRC tax at a rate of 10% in the case of non-PRC enterprises or a rate of 20% in the case of non-PRC individuals unless a reduced rate is available under an applicable tax treaty. It is unclear whether non-PRC shareholders of our company would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that we are treated as a PRC resident enterprise. Any such tax may reduce the returns on your investment in the ADSs or ordinary shares.

We face uncertainty with respect to indirect transfers of equity interests in PRC resident enterprises by their non-PRC holding companies.

Pursuant to the Notice on Strengthening Administration of Enterprise Income Tax for Share Transfers by Non-PRC Resident Enterprises, or SAT Circular 698, issued by SAT in 2009 with retroactive effect from January 1, 2008, where a non-resident enterprise transfers the equity interests of a PRC resident enterprise indirectly by disposition of the equity interests of an overseas holding company, or an Indirect Transfer, and such overseas holding company is located in a tax jurisdiction that: (i) has an effective tax rate less than 12.5% or (ii) does not tax foreign income of its residents, the non-resident enterprise, being the transferor, shall report to the competent tax authority of the PRC resident enterprise this Indirect Transfer.

In February 2015, SAT issued a Public Notice Regarding Certain Corporate Income Tax Matters on Indirect Transfer of Properties by Non-Tax Resident Enterprises, or SAT Circular 7. SAT Circular 7 supersedes the rules with respect to the Indirect Transfer under SAT Circular 698, but does not touch upon the other provisions of SAT Circular 698, which remain in force. SAT Circular 7 has introduced a new tax regime that is significantly different from the previous one under SAT Circular 698. SAT Circular 7 extends its tax jurisdiction to not only Indirect Transfers set forth under SAT Circular 698 but also transactions involving transfer of other taxable assets through offshore transfer of a foreign intermediate holding company. In addition, SAT Circular 7 provides clearer criteria than SAT Circular 698 for assessment of reasonable commercial purposes and has introduced safe harbors for internal group restructurings and the purchase and sale of equity through a public securities market. SAT Circular 7 also brings challenges to both foreign transferor and transferee (or other person who is obligated to pay for the transfer) of taxable assets. Where a non-resident enterprise transfers taxable assets indirectly by disposing of the equity interests of an overseas holding company, which is an Indirect Transfer, the non-resident enterprise as either transferor or transferee, or the PRC entity that directly owns the taxable assets, may report such Indirect Transfer to the relevant tax authority. Using a "substance over form" principle, the PRC tax authority may disregard the existence of the overseas holding company if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such Indirect Transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10% for the transfer of equity interests in a PRC resident enterprise. Both the transferor and the transferee may be subject to penalties under PRC tax laws if the transferee fails to withhold the taxes and the transferor fails to pay the taxes.

In October 2017, SAT issued an Announcement on Issues Relating to Withholding at Source of Income Tax of Non-resident Enterprises, or SAT Circular 37. Effective December 2017, SAT Circular 37, among others, repealed the Circular 698 and amended certain provisions in SAT Circular 7. According to SAT Circular 37, where the non-resident enterprise fails to declare the tax payable pursuant to Article 39 of the Enterprise Income Tax, the tax authority may order it to pay the tax due within required time limits, and the non-resident enterprise shall declare and pay the tax payable within such time limits specified by the tax authority. However, if the non-resident enterprise voluntarily declares and pays the tax payable before the tax authority orders it to do so within required time limits, it shall be deemed that such enterprise has paid the tax in time.

We face uncertainties as to the reporting and other implications of certain past and future transactions where PRC taxable assets are involved, such as offshore restructuring, sale of the shares in our offshore subsidiaries and investments. Our company may be subject to filing obligations or taxed if our company is transferor in such transactions, and may be subject to withholding obligations if our company is transferee in such transactions, under SAT Circular 7 and SAT Circular 37. For transfer of shares in our company by investors who are non-PRC resident enterprises, our PRC subsidiary may be requested to assist in the filing under the SAT circulars. As a result, we may be required to expend

valuable resources to comply with the SAT circulars or to request the relevant transferors from whom we purchase taxable assets to comply with these circulars, or to establish that our company should not be taxed under these circulars, which may have a material adverse effect on our financial condition and results of operations.

The approval of the China Securities Regulatory Commission may be required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval.

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies requires an overseas special purpose vehicles that are controlled by PRC companies or individuals formed for the purpose of seeking a public listing on an overseas stock exchange through acquisitions of PRC domestic companies using shares of such special purpose vehicles or held by its shareholders as considerations to obtain the approval of the China Securities Regulatory Commission, or the CSRC, prior to the listing and trading of such special purpose vehicle's securities on an overseas stock exchange. However, the application of the M&A Rules remains unclear. If CSRC approval is required, it is uncertain whether it would be possible for us to obtain the approval, and any failure to obtain or delay in obtaining CSRC approval for this offering would subject us to sanctions imposed by the CSRC and other PRC regulatory agencies.

Our PRC counsel has advised us based on their understanding of the current PRC laws, rules and regulations that the CSRC's approval may not be required for the listing and trading of our ADSs on the Nasdaq Global Select Market in the context of this offering, given that: (i) our PRC subsidiaries were incorporated as wholly foreign-owned enterprises by means of direct investment rather than by merger or acquisition of equity interest or assets of a PRC domestic company owned by PRC companies or individuals as defined under the M&A Rules that are our beneficial owners, and (ii) we do not constitute a "special purpose vehicle", to which the relevant provisions of the M&A Rules are applicable.

However, our PRC counsel has further advised us that there remains some uncertainty as to how the M&A Rules will be interpreted or implemented in the context of an overseas offering and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. We cannot assure you that relevant PRC government agencies, including the CSRC, would reach the same conclusion as we do. If it is determined that CSRC approval is required for this offering, we may face sanctions by the CSRC or other PRC regulatory agencies for failure to seek CSRC approval for this offering. These sanctions may include fines and penalties on our operations in the PRC, limitations on our operating privileges in the PRC, delays in or restrictions on the repatriation of the proceeds from this offering into the PRC, restrictions on or prohibition of the payments or remittance of dividends by our subsidiaries in China, or other actions that could have a material and adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our ADSs. The CSRC or other PRC regulatory agencies may also take actions requiring us, or making it advisable for us, to halt this offering before the settlement and delivery of the ADSs that we are offering. Consequently, if you engage in market trading or other activities in anticipation of and prior to the settlement and delivery of the ADSs we are offering, you would be doing so at the risk that the settlement and delivery may not occur. In addition, if the CSRC or other regulatory agencies later promulgate new rules or explanations requiring that we obtain their approvals for this offering, we may be unable to obtain a waiver of such approval requirements, if and when procedures are established to obtain such a waiver.

The audit report included in this prospectus is prepared by an auditor who is not inspected by the Public Company Accounting Oversight Board and, as such, you are deprived of the benefits of such inspection

Our independent registered public accounting firm that issues the audit reports included in this annual report, as an auditor of companies that are traded publicly in the United States and a firm registered with the Public Company Accounting Oversight Board, or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards. Because our auditors are located in China, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese authorities, our auditors are not currently inspected by the PCAOB.

Inspections of other firms that the PCAOB has conducted outside of China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditors' audits and its quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditors' audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Proceedings instituted by the SEC against Chinese affiliates of the "big four" accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act.

Starting in 2011, the Chinese affiliates of the "big four" accounting firms, including our independent registered public accounting firm, were affected by a conflict between U.S. and Chinese law. Specifically, for certain U.S.-listed companies operating and audited in mainland China, the SEC and the PCAOB sought to obtain from the Chinese firms access to their audit work papers and related documents. The firms were, however, advised and directed that under Chinese law, they could not respond directly to the U.S. regulators on those requests, and that requests by foreign regulators for access to such papers in China had to be channeled through the CSRC.

In late 2012, this impasse led the SEC to commence administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese accounting firms, including our independent registered public accounting firm. A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law judge proposed penalties on the firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the firms reached a settlement with the SEC. Under the settlement, the SEC accepts that future requests by the SEC for the production of documents will normally be made to the CSRC. The firms will receive matching Section 106 requests, and are required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. If they fail to meet specified criteria, the SEC retains authority to impose a variety of additional remedial measures on the firms depending on the nature of the failure. Remedies for any future noncompliance could include, as appropriate, an automatic six-month bar on a single firm's performance of certain audit work, commencement of a new proceeding against a firm, or in extreme cases the resumption of the current proceeding against all four firms. If additional remedial measures are imposed on the Chinese affiliates of the "big four" accounting firms, including our independent registered public accounting firm, in administrative proceedings brought by the SEC alleging the firms' failure to meet specific criteria set by the SEC with respect to requests for the

production of documents, we could be unable to timely file future financial statements in compliance with the requirements of the Exchange Act.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these audit firms may cause investor uncertainty regarding China-based, U.S.-listed companies and the market price of our common stock may be adversely affected.

If our independent registered public accounting firm was denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act. Such a determination could ultimately lead to the delisting of our ADSs from the Nasdaq Global Select Market or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Risks Related to Our ADSs and This Offering

An active trading market for our ordinary shares or our ADSs may not develop and the trading price for our ADSs may fluctuate significantly.

Our ADSs have been approved for listing on the Nasdaq Global Select Market. We have no current intention to seek a listing for our ordinary shares on any stock exchange. Prior to the completion of this offering, there has been no public market for our ADSs or our ordinary shares, and we cannot assure you that a liquid public market for our ADSs will develop. If an active public market for our ADSs does not develop following the completion of this offering, the market price and liquidity of our ADSs may be materially and adversely affected. The initial public offering price for our ADSs will be determined by negotiation between us and the underwriters based upon several factors, and we can provide no assurance that the trading price of our ADSs after this offering will not decline below the initial public offering price. As a result, investors in our securities may experience a significant decrease in the value of their ADSs.

The trading price of our ADSs is likely to be volatile, which could result in substantial losses to investors.

The trading price of our ADSs is likely to be volatile and could fluctuate widely due to factors beyond our control. This may happen because of broad market and industry factors, including the performance and fluctuation of the market prices of other companies with business operations located mainly in China that have listed their securities in the United States. In addition to market and industry factors, the price and trading volume for our ADSs may be highly volatile for factors specific to our own operations, including the following:

- variations in our revenues, earnings and cash flow;
- announcements of new investments, acquisitions, strategic partnerships or joint ventures by us or our competitors;
- announcements of new offerings, solutions and expansions by us or our competitors;
- changes in financial estimates by securities analysts;
- detrimental adverse publicity about us, our brand, our services or our industry;
- additions or departures of key personnel;

- release of lock-up or other transfer restrictions on our outstanding equity securities or sales of additional equity securities; and
- potential litigation or regulatory investigations.

Any of these factors may result in large and sudden changes in the volume and price at which our ADSs will trade.

In the past, shareholders of public companies have often brought securities class action suits against those companies following periods of instability in the market price of their securities. If we were involved in a class action suit, it could divert a significant amount of our management's attention and other resources from our business and operations and require us to incur significant expenses to defend the suit, which could harm our results of operations. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

Our dual-class share structure with different voting rights will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

Immediately prior to the completion of this offering, we expect to create a dual-class share structure such that our ordinary shares will consist of Class A ordinary shares and Class B ordinary shares. In respect of matters requiring the votes of shareholders, holders of Class A ordinary shares will be entitled to one vote per share, while holders of Class B ordinary shares will be entitled to ten votes per share based on our proposed dual-class share structure. We will sell Class A ordinary shares represented by our ADSs in this offering. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any sale or transfer of Class B ordinary shares by a holder thereof to any person other than Mr. Zheng Huang or any entity which is not ultimately controlled by Mr. Zheng Huang, such Class B ordinary shares shall be automatically and immediately converted into the same number of Class A ordinary shares.

Immediately prior to the completion of this offering, our founder, chairman of the board of directors and chief executive officer, Mr. Zheng Huang, will beneficially own all of our issued Class B ordinary shares. These Class B ordinary shares will constitute approximately 46.8% of our total issued and outstanding share capital immediately after the completion of this offering and 89.8% of the aggregate voting power of our total issued and outstanding share capital immediately after the completion of this offering due to the disparate voting powers associated with our dual-class share structure, assuming the underwriters do not exercise their over-allotment option. See "Principal Shareholders." As a result of the dual-class share structure and the concentration of ownership, holders of Class B ordinary shares will have considerable influence over matters such as decisions regarding mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. Such holders may take actions that are not in the best interest of us or our other shareholders. This concentration of ownership may discourage, delay or prevent a change in control of our company, which could have the effect of depriving our other shareholders of the opportunity to receive a premium for their shares as part of a sale of our company and may reduce the price of our ADSs. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

The dual class structure of our ordinary shares may adversely affect the trading market for our ADSs.

S&P Dow Jones and FTSE Russell have recently announced changes to their eligibility criteria for inclusion of shares of public companies on certain indices, including the S&P 500, to exclude companies

with multiple classes of shares and companies whose public shareholders hold no more than 5% of total voting power from being added to such indices. In addition, several shareholder advisory firms have announced their opposition to the use of multiple class structures. As a result, the dual class structure of our ordinary shares may prevent the inclusion of our ADSs representing Class A ordinary shares in such indices and may cause shareholder advisory firms to publish negative commentary about our corporate governance practices or otherwise seek to cause us to change our capital structure. Any such exclusion from indices could result in a less active trading market for our ADSs. Any actions or publications by shareholder advisory firms critical of our corporate governance practices or capital structure could also adversely affect the value of our ADSs.

If securities or industry analysts do not publish research or reports about our business, or if they adversely change their recommendations regarding our ADSs, the market price for our ADSs and trading volume could decline.

The trading market for our ADSs will be influenced by research or reports that industry or securities analysts publish about our business. If one or more analysts who cover us downgrade our ADSs, the market price for our ADSs would likely decline. If one or more of these analysts cease to cover us or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause the market price or trading volume for our ADSs to decline.

The sale or availability for sale of substantial amounts of our ADSs could adversely affect their market price.

Sales of substantial amounts of our ADSs in the public market after the completion of this offering, or the perception that these sales could occur, could adversely affect the market price of our ADSs and could materially impair our ability to raise capital through equity offerings in the future. The ADSs sold in this offering will be freely tradable without restriction or further registration under the Securities Act, and shares held by our existing shareholders may also be sold in the public market in the future subject to the restrictions in Rule 144 and Rule 701 under the Securities Act and the applicable lock-up agreements. There will be 85,600,000 ADSs (equivalent to 342,400,000 Class A ordinary shares) outstanding immediately after this offering, or 98,440,000 ADSs (equivalent to 393,760,000 Class A ordinary shares) if the underwriters exercise their over-allotment option in full. In connection with this offering, we, our directors and officers, our existing shareholders and certain of our option holders have agreed not to sell any ordinary shares or ADSs for 180 days after the date of this prospectus without the prior written consent of the underwriters, subject to certain exceptions. However, the underwriters may release these securities from these restrictions at any time, subject to applicable regulations of the Financial Industry Regulatory Authority, Inc. We cannot predict what effect, if any, market sales of securities held by our significant shareholders or any other shareholder or the availability of these securities for future sale will have on the market price of our ADSs. See "Underwriting" and "Shares Eligible for Future Sales" for a more detailed description of the restrictions on selling our securities after this offering.

Because we do not expect to pay dividends in the foreseeable future after this offering, you must rely on a price appreciation of our ADSs for return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings after this offering to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in our ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our directors. Under Cayman Islands law, a Cayman Islands company may pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in the

company being unable to pay its debts as they fall due in the ordinary course of business. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our ADSs will likely depend entirely upon any future price appreciation of our ADSs. There is no guarantee that our ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in our ADSs and you may even lose your entire investment in our ADSs.

We have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree.

We have not determined a specific use for a portion of the net proceeds of this offering, and our management will have considerable discretion in deciding how to apply these proceeds. You will not have the opportunity to assess whether the proceeds are being used appropriately before you make your investment decision. You must rely on the judgment of our management regarding the application of the net proceeds of this offering. We cannot assure you that the net proceeds will be used in a manner that would improve our results of operations or increase our ADS price, nor that these net proceeds will be placed only in investments that generate income or appreciate in value.

Our memorandum and articles of association contain anti-takeover provisions that could have a material adverse effect on the rights of holders of our ordinary shares and ADSs.

We have adopted amended and restated memorandum and articles of association that will become effective immediately prior to the completion of this offering. Our new memorandum and articles of association contain provisions to limit the ability of others to acquire control of our company or cause us to engage in change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our planned dual-class voting structure gives disproportionate voting power to the Class B ordinary shares. Our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

You may face difficulties in protecting your interests, and your ability to protect your rights through U.S. courts may be limited, because we are incorporated under Cayman Islands law.

We are an exempted company incorporated under the laws of the Cayman Islands. Our corporate affairs are governed by our memorandum and articles of association, the Companies Law (2018 Revision) of the Cayman Islands and the common law of the Cayman Islands. The rights of shareholders to take action against our directors, actions by our minority shareholders and the fiduciary duties of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from the common law of England, the decisions of whose courts are of persuasive authority, but are not binding, on a court in

the Cayman Islands. The rights of our shareholders and the fiduciary duties of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States. Some U.S. states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

Shareholders of Cayman Islands exempted companies like us have no general rights under Cayman Islands law to inspect corporate records or to obtain copies of lists of shareholders of these companies. Our directors have discretion under our articles of association that will become effective immediately prior to completion of this offering to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a company incorporated in the United States. For a discussion of significant differences between the provisions of the Companies Law of the Cayman Islands and the laws applicable to companies incorporated in the United States and their shareholders, see "Description of Share Capital—Differences in Corporate Law."

Certain judgments obtained against us by our shareholders may not be enforceable.

We are a Cayman Islands company and substantially all of our assets are located outside of the United States. Substantially all of our current operations are conducted in China. In addition, most of our current directors and officers are nationals and residents of countries other than the United States. Substantially all of the assets of these persons are located outside the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States in the event that you believe that your rights have been infringed under the U.S. federal securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers. For more information regarding the relevant laws of the Cayman Islands and China, see "Enforceability of Civil Liabilities."

The voting rights of holders of ADSs are limited by the terms of the deposit agreement, and you may not be able to exercise your right to vote your Class A ordinary shares.

Holders of ADSs do not have the same rights as our registered shareholders. As a holder of our ADSs, you will not have any direct right to attend general meetings of our shareholders or to cast any votes at such meetings. As an ADS holder, you will only be able to exercise the voting rights carried by the underlying Class A ordinary shares indirectly by giving voting instructions to the depositary in accordance with the provisions of the deposit agreement. Under the deposit agreement, you may vote only by giving voting instructions to the depositary. Under the deposit agreement, you may vote only by giving voting instructions to the depositary. Upon receipt of your voting instructions, the depositary will try, as far as is practicable, to vote the Class A ordinary shares underlying your ADSs in accordance with your instructions. If we ask for your instructions, then upon receipt of your voting instructions, the depositary will try to vote the underlying Class A ordinary shares in accordance with these instructions. If we do not instruct the depositary to ask for your instructions, the depositary may still vote in accordance with instructions you give, but it is not required to do so. You will not be able to directly exercise your right to vote with respect to the underlying Class A ordinary shares unless you withdraw

the shares, and become the registered holder of such shares prior to the record date for the general meeting. When a general meeting is convened, you may not receive sufficient advance notice of the meeting to withdraw the shares underlying your ADSs and become the registered holder of such shares to allow you to attend the general meeting and to vote directly with respect to any specific matter or resolution to be considered and voted upon at the general meeting. In addition, under our post-offering memorandum and articles of association that will become effective prior to completion of this offering, for the purposes of determining those shareholders who are entitled to attend and vote at any general meeting, our directors may close our register of members and/or fix in advance a record date for such meeting, and such closure of our register of members or the setting of such a record date may prevent you from withdrawing the Class A ordinary shares underlying your ADSs and becoming the registered holder of such shares prior to the record date, so that you would not be able to attend the general meeting or to vote directly. If we ask for your instructions, the depositary will notify you of the upcoming vote and will arrange to deliver our voting materials to you. We have agreed to give the depositary notice of shareholder meetings sufficiently in advance of such meetings. Nevertheless, we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the underlying Class A ordinary shares represented by your ADSs. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for their manner of carrying out your voting instructions. The deposit agreement provides that if the depositary does not timely receive voting instructions from the ADS holders and if voting is by poll, then such holder shall be deemed, and the depositary shall deem such holder, to have instructed the depositary to give a discretionary proxy to a person designated by us to vote the Class A ordinary shares underlying the relevant ADSs, with certain limited exceptions. This means that you may not be able to exercise your right to direct how the shares underlying your ADSs are voted and you may have no legal remedy if the shares underlying your ADSs are not voted as you requested.

You may experience dilution of your holdings due to the inability to participate in rights offerings.

We may, from time to time, distribute rights to our shareholders, including rights to acquire securities. Under the deposit agreement, the depositary will not distribute rights to holders of ADSs unless the distribution and sale of rights and the securities to which these rights relate are either exempt from registration under the Securities Act with respect to all holders of ADSs, or are registered under the provisions of the Securities Act. The depositary may, but is not required to, attempt to sell these undistributed rights to third parties, and may allow the rights to lapse. We may be unable to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement with respect to these rights or underlying securities or to endeavor to have a registration statement declared effective. Accordingly, holders of ADSs may be unable to participate in our rights offerings and may experience dilution of their holdings as a result.

You may be subject to limitations on the transfer of your ADSs.

Your ADSs are transferable on the books of the depositary. However, the depositary may close its books at any time or from time to time when it deems it expedient in connection with the performance of its duties. The depositary may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering, during which time the depositary needs to maintain an exact number of ADS holders on its books for a specified period. The depositary may also close its books in emergencies, and on weekends and public holidays. The depositary may refuse to deliver, transfer or register transfers of our ADSs generally when our share register or the books of the depositary are closed, or at any time if we or the depositary thinks it is advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Your investment in our ADSs may be impacted if we are encouraged to issue CDRs in the future.

Currently the Chinese central government is proposing new rules that would allow Chinese technology companies listed outside China to list on the mainland stock market through the creation of Chinese Depositary Receipts, or CDRs. Once the CDR mechanism is in place, we might consider and be encouraged by the evolving Chinese governmental policies to issue CDRs and allow investors to trade our CDRs on Chinese stock exchanges. However, there are uncertainties as to whether a pursuit of CDRs in China would bring positive or negative impact on your investment in our ADSs.

We are an emerging growth company within the meaning of the Securities Act and may take advantage of certain reduced reporting requirements.

We are an "emerging growth company," as defined in the JOBS Act, and we may take advantage of certain exemptions from requirements applicable to other public companies that are not emerging growth companies including, most significantly, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 for so long as we remain an emerging growth company. As a result, if we elect not to comply with such auditor attestation requirements, our investors may not have access to certain information they may deem important.

We will incur increased costs as a result of being a public company, particularly after we cease to qualify as an "emerging growth company."

Upon completion of this offering, we will become a public company and expect to incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002, as well as rules subsequently implemented by the SEC and the Nasdaq Stock Market, impose various requirements on the corporate governance practices of public companies. As a company with less than US$1.07 billion in revenues for our last fiscal year, we qualify as an "emerging growth company" pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also permits an emerging growth company to delay adopting new or revised accounting standards until such time as those standards apply to private companies. We elected to take advantage of the extended transition period. However, this election will not apply should we cease to be an emerging growth company.

We expect these rules and regulations to increase our legal and financial compliance costs and to make some corporate activities more time-consuming and costly. After we are no longer an "emerging growth company," we expect to incur significant expenses and devote substantial management effort toward ensuring compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 and the other rules and regulations of the SEC. For example, as a result of becoming a public company, we will need to increase the number of independent directors and adopt policies regarding internal controls and disclosure controls and procedures. We also expect that operating as a public company will make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. In addition, we will incur additional costs associated with our public company reporting requirements. It may also be more difficult for us to find qualified persons to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these rules and regulations, and we cannot predict or estimate with any degree of certainty the amount of additional costs we may incur or the timing of such costs.

As a company incorporated in the Cayman Islands, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the Nasdaq corporate governance listing standards; these practices may afford less protection to shareholders than they would enjoy if we complied fully with the Nasdaq corporate governance listing standards.

As a Cayman Islands company listed on Nasdaq Stock Market, we are subject to the Nasdaq Stock Market corporate governance listing standards. However, Nasdaq Stock Market rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in the Cayman Islands, which is our home country, may differ significantly from the Nasdaq Stock Market corporate governance listing standards. Currently, we do not plan to rely on home country practices with respect to our corporate governance after we complete this offering. However, if we choose to follow home country practices in the future, our shareholders may be afforded less protection than they would otherwise enjoy under the Nasdaq Stock Market corporate governance listing standards applicable to U.S. domestic issuers.

There can be no assurance that we will not be classified as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for any taxable year, which could subject U.S. investors in our ADSs or Class A ordinary shares to significant adverse U.S. income tax consequences.

We will be a "passive foreign investment company," or "PFIC," if, in any particular taxable year, either (a) 75% or more of our gross income for such year consists of certain types of "passive" income or (b) 50% or more of the average quarterly value of our assets (as determined on the basis of fair market value) during such year produce or are held for the production of passive income (the "asset test"). Although the law in this regard is unclear, we intend to treat our VIE (including its subsidiaries) as being owned by us for U.S. federal income tax purposes, not only because we exercise effective control over the operation of such entity but also because we are entitled to substantially all of its economic benefits, and, as a result, we consolidate its results of operations in our consolidated financial statements. Assuming that we are the owner of our VIE (including its subsidiaries) for U.S. federal income tax purposes, and based upon our current and expected income and assets, including goodwill, (taking into account the expected proceeds from this offering) and projections as to the market price of our ADSs following the offering, we do not presently expect to be a PFIC for the current taxable year or the foreseeable future.

While we do not expect to become a PFIC, because the value of our assets for purposes of the asset test may be determined by reference to the market price of our ADSs, fluctuations in the market price of our ADSs may cause us to become a PFIC for the current or subsequent taxable years. The determination of whether we will be or become a PFIC will also depend, in part, on the composition of our income and assets, which may be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. If we determine not to deploy significant amounts of cash for active purposes or if it were determined that we do not own the stock of our VIE for U.S. federal income tax purposes, our risk of being a PFIC may substantially increase. Because there are uncertainties in the application of the relevant rules and PFIC status is a factual determination made annually after the close of each taxable year, there can be no assurance that we will not be a PFIC for the current taxable year or any future taxable year.

If we are a PFIC in any taxable year, a U.S. holder (as defined in "Taxation—U.S. Federal Income Tax Considerations") may incur significantly increased U.S. income tax on gain recognized on the sale or other disposition of the ADSs or Class A ordinary shares and on the receipt of distributions on the ADSs or Class A ordinary shares to the extent such gain or distribution is treated as an "excess distribution" under the U.S. federal income tax rules and such holder may be subject to burdensome reporting requirements. Further, if we are a PFIC for any year during which a U.S. holder holds our ADSs or Class A ordinary shares, we generally will continue to be treated as a PFIC for all succeeding years during which such U.S. holder holds our ADSs or Class A ordinary shares. For more information see "Taxation—U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Considerations."

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that reflect our current expectations and views of future events. The forward looking statements are contained principally in the sections entitled "Prospectus Summary," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business." Known and unknown risks, uncertainties and other factors, including those listed under "Risk Factors," may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify some of these forward-looking statements by words or phrases such as "may," "will," "expect," "anticipate," "aim," "estimate," "intend," "plan," "believe," "is/are likely to," "potential," "continue" or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- our growth strategies;
- our future business development, financial conditions and results of operations;
- the trends in the e-commerce industry in China;
- our expectations regarding demand for and market acceptance of our products and services;
- our expectations regarding our relationships with buyers and merchants;
- competition in our industry; and
- relevant government policies and regulations relating to our industry.

These forward-looking statements involve various risks and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect. Our actual results could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in "Prospectus Summary—Our Challenges," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Business," "Regulation" and other sections in this prospectus. You should read thoroughly this prospectus and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements.

This prospectus contains certain data and information that we obtained from various government and private publications, including statistical data and estimates published by iResearch and QuestMobile, each an independent research firm, McKinsey, NBS, IMF, the Ministry of Commerce of China, CNNIC, and SAIC. We have not independently verified the accuracy or completeness of the data contained in these industry publications and reports. Statistical data in these publications also include projections based on a number of assumptions. The e-commerce industry may not grow at the rate projected by market data, or at all. Failure of this market to grow at the projected rate may have a material and adverse effect on our business and the market price of our ADSs. In addition, the rapidly evolving nature of the e-commerce industry results in significant uncertainties for any projections or estimates relating to the growth prospects or future condition of our market. Furthermore, if any one or more of the assumptions underlying the market data are later found to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

The forward-looking statements made in this prospectus relate only to events or information as of the date on which the statements are made in this prospectus. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this prospectus and the documents that we refer to in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect.

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately US$1,448.1 million, or approximately US$1,672.8 million if the underwriters exercise their over-allotment option in full, after deducting underwriting discounts and the estimated offering expenses payable by us. These estimates are based upon an assumed initial public offering price of US$17.50 per ADS, the mid-point of the price range shown on the front cover page of this prospectus. A US$1.00 increase (decrease) in the assumed initial public offering price of US$17.50 per ADS would increase (decrease) the net proceeds to us from this offering by US$85.6 million, assuming no change to the number of ADSs offered by us as set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and commissions and estimated expenses payable by us.

The primary purposes of this offering are to create a public market for our shares for the benefit of all shareholders, retain talented employees by providing them with equity incentives, and obtain additional capital. We plan to use the net proceeds of this offering as follows:

- approximately US$580.0 million to enhance and expand our business operations;
- approximately US$580.0 million for research and development, to continue to invest in and develop our technology infrastructure; and
- the balance for general corporate purposes, which may include working capital needs and potential strategic investments and acquisitions, although we have not identified any specific investments or acquisition opportunities at this time.

The foregoing represents our current intentions based upon our present plans and business conditions to use and allocate the net proceeds of this offering. Our management, however, will have significant flexibility and discretion to apply the net proceeds of this offering. If an unforeseen event occurs or business conditions change, we may use the proceeds of this offering differently than as described in this prospectus. See "Risk Factors—Risks Related to Our ADSs and This Offering—We have not determined a specific use for a portion of the net proceeds from this offering and we may use these proceeds in ways with which you may not agree."

Pending any use of proceeds described above, we plan to invest the net proceeds from this offering in short-term, interest-bearing, debt instruments.

In using the net proceeds of this offering, we are permitted under PRC laws and regulations as an offshore holding company to provide funding to our PRC subsidiaries only through loans or capital contributions and to our VIE only through loans, subject to satisfaction of applicable government registration, approval and filing requirements. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, if at all. See "Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiary, which could materially and adversely affect our liquidity and our ability to fund and expand our business."

DIVIDEND POLICY

Our board of directors has complete discretion on whether to distribute dividends, subject to certain requirements of Cayman Islands law. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant.

We do not have any present plan to pay any cash dividends on our ordinary shares in the foreseeable future after this offering. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We may rely on dividends from our subsidiaries in China for our cash requirements, including any payment of dividends to our shareholders. PRC regulations may restrict the ability of our PRC subsidiaries to pay dividends to us. See "Regulation—Regulations Relating to Dividend Distributions."

If we pay any dividends on our ordinary shares, we will pay those dividends which are payable in respect of the Class A ordinary shares underlying our ADSs to the depositary, as the registered holder of such Class A ordinary shares, and the depositary then will pay such amounts to our ADS holders in proportion to Class A ordinary shares underlying the ADSs held by such ADS holders, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See "Description of American Depositary Shares." Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

CAPITALIZATION

The following table sets forth our capitalization as of March 31, 2018:

- on an actual basis;
- on a pro forma basis to reflect (i) the redesignation and reclassification of 40,221,800 Series A-1 preferred shares, and 63,468,940 Series B-1 preferred shares beneficially owned by Mr. Zheng Huang into Class B ordinary shares on a one-for-one basis immediately prior to the completion of this offering, and (ii) the redesignation and reclassification of all of the remaining issued and outstanding preferred shares on a one-for-one basis into Class A ordinary shares immediately prior to the completion of this offering;
- on a pro forma as adjusted basis to reflect (i) the redesignation and reclassification of 40,221,800 Series A-1 preferred shares, and 63,468,940 Series B-1 preferred shares beneficially owned by Mr. Zheng Huang into Class B ordinary shares on a one-for-one basis immediately prior to the completion of this offering, (ii) the redesignation and reclassification of all of the remaining issued and outstanding preferred shares on a one-for-one basis into Class A ordinary shares immediately prior to the completion of this offering, (iii) the issuance of 254,473,500 Class A ordinary shares to Walnut Street Investment, Ltd., which will be redesignated and reclassified into Class B ordinary shares on a one-for-one basis immediately prior to the completion of this offering, and (iv) the sale of 342,400,000 Class A ordinary shares in the form of ADSs by us in this offering at an assumed initial public offering price of US$17.50 per ADS, which is the mid-point of the estimated range of the initial public offering price shown on the front cover of this prospectus, after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, assuming the underwriters do not exercise the over-allotment option.

Unaudited pro forma basic and diluted net loss per ordinary share reflects the effect of the conversion of preferred shares as follows, as if the conversion occurred as of the beginning of the period or the original date of issuance, if later.

You should read this table together with our consolidated financial statements and the related notes included elsewhere in this prospectus and the information under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Notes:

(1) The pro forma as adjusted information discussed above is illustrative only. Our additional paid-in capital, total shareholders' equity and total capitalization following the completion of this offering are subject to adjustment based on the actual initial public offering price and other terms of this offering determined at pricing.

(2) Assuming the number of ADSs offered by us as set forth on the cover page of this prospectus remains the same, and after deduction of underwriting discounts and commissions and the estimated offering expenses payable by us, a US$1.00 increase (decrease) in the assumed initial public offering price of US$17.50 per ADS, the midpoint of the range set forth on the cover page of this prospectus, would increase (decrease) each of additional paid-in capital, total shareholder's (deficit)/equity, and total capitalization by US$85.6 million.

DILUTION

If you invest in our ADSs, your interest will be diluted to the extent of the difference between the initial public offering price per ADS and our net tangible book value per ADS after this offering. Dilution results from the fact that the initial public offering price per ordinary share is substantially in excess of the book value per ordinary share attributable to the existing shareholders for our presently outstanding ordinary shares.

Our net tangible book value as of March 31, 2018 was US$1,084.6 million, or US$0.62 per ordinary share as of that date and US$2.48 per ADS. Net tangible book value represents the amount of our total consolidated assets (excluding intangible assets), less the amount of our total consolidated liabilities. Dilution is determined by subtracting net tangible book value per ordinary share, after giving effect to the additional proceeds we will receive from this offering, from the assumed initial public offering price of US$4.38 per ordinary share, which is the midpoint of the estimated initial public offering price range set forth on the cover page of this prospectus adjusted to reflect the ADS-to-ordinary share ratio, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us. Because the Class A ordinary shares and Class B ordinary shares have the same dividend and other rights, except for voting and conversion rights, the dilution is presented based on all issued and outstanding ordinary shares, including Class A ordinary shares and Class B ordinary shares.

Without taking into account any other changes in net tangible book value after March 31, 2018, other than to give effect to our sale of the ADSs offered in this offering at the assumed initial public offering price of US$17.50 per ADS, the midpoint of the estimated range of the initial public offering price, after deduction of the underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of March 31, 2018 would have been US$2,532.7 million, or US$0.57 per ordinary share and US$2.28 per ADS. This represents an immediate increase in pro forma net tangible book value of US$0.29 per ordinary share and US$1.16 per ADS to the existing shareholders and an immediate dilution in net tangible book value of US$3.81 per ordinary share and US$15.24 per ADS to investors purchasing ADSs in this offering. The amount of the immediate increase in pro forma net tangible book value to the existing shareholders and the immediate dilution in net tangible book value to investors purchasing ADSs in this offering is based on a comparison to pro forma net tangible book value after giving effect to the conversion of our preferred shares, and not based on a comparison to historical net tangible book value as of March 31, 2018. The following table illustrates such dilution:

	Per Ordinary Share		Per ADS	
Assumed initial public offering price	US$	4.38	US$	17.50
Net tangible book value as of March 31, 2018	US$	0.62	US$	2.48
Pro forma net tangible book value after giving effect to the conversion of our preferred shares	US$	0.28	US$	1.12
Pro forma as adjusted net tangible book value after giving effect to the conversion of our preferred shares and this offering	US$	0.57	US$	2.28
Amount of dilution in net tangible book value to new investors in this offering	US$	3.81	US$	15.24

A US$1.00 increase (decrease) in the assumed public offering price of US$17.50 per ADS would increase (decrease) our pro forma as adjusted net tangible book value after giving effect to this offering by US$85.6 million, the pro forma as adjusted net tangible book value per ordinary share and per ADS after giving effect to this offering by US$0.02 per ordinary share and US$0.08 per ADS and the dilution in pro forma as adjusted net tangible book value per ordinary share and per ADS to new

investors in this offering by US$0.23 per ordinary share and US$0.92 per ADS, assuming no change to the number of ADSs offered by us as set forth on the cover page of this prospectus, and after deducting underwriting discounts and commissions and other offering expenses.

The following table summarizes, on a pro forma as adjusted basis as of March 31, 2018, the differences between existing shareholders and the new investors with respect to the number of ordinary shares (in the form of ADSs or shares) purchased from us, the total consideration paid and the average price per ordinary share and per ADS paid before deducting the underwriting discounts and commissions and estimated offering expenses. The total number of ordinary shares does not include ordinary shares underlying the ADSs issuable upon the exercise of the over-allotment option granted to the underwriters.

	Ordinary Shares Purchased		Total Consideration		Average Price Per Ordinary Share	Average Price Per ADS
	Number	Percent	Amount	Percent		
Existing shareholders	4,088,745,380	92%	US$ 1,261,278,000*	46%	US$ 0.31	US$ 1.23
New investors	342,400,000	8%	US$ 1,498,000,000	54%	US$ 4.38	US$ 17.50
Total	4,431,145,380	100%	US$ 2,759,278,000	100%		

* Including certain business and strategic cooperation with Tencent.

The pro forma as adjusted information discussed above is illustrative only. Our net tangible book value following the completion of this offering is subject to adjustment based on the actual initial public offering price of our ADSs and other terms of this offering determined at pricing.

The discussion and tables above assume no exercise of any outstanding share options outstanding as of the date of this prospectus. As of the date of this prospectus, there are 581,972,860 Class A ordinary shares issuable upon exercise of outstanding share options at a nominal exercise price. To the extent that any of these options are exercised, there will be further dilution to new investors.

EXCHANGE RATE INFORMATION

Our reporting currency is the Renminbi because our business is mainly conducted in China and all of our revenues are denominated in Renminbi. This prospectus contains translations of Renminbi amounts into U.S. dollars at specific rates solely for the convenience of the reader. The conversion of Renminbi into U.S. dollars in this prospectus is based on the exchange rate set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System. Unless otherwise noted, all translations from Renminbi to U.S. dollars and from U.S. dollars to Renminbi in this prospectus were made at a rate of RMB6.2726 to US$1.00, the exchange rate on March 30, 2018 set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System. We make no representation that any Renminbi or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, the rates stated below, or at all. The PRC government imposes control over its foreign currency reserves in part through direct regulation of the conversion of Renminbi into foreign exchange and through restrictions on foreign trade. On July 13, 2018, the exchange rate for Renminbi was RMB6.6900 to US$1.00.

The following table sets forth information concerning exchange rates between the Renminbi and the U.S. dollar for the periods indicated. ENFORCEABILITY OF CIVIL LIABILITIES

We are incorporated under the laws of the Cayman Islands as an exempted company with limited liability. We are incorporated in the Cayman Islands because of certain benefits associated with being a Cayman Islands exempted company, such as political and economic stability, an effective judicial system, a favorable tax system, the absence of foreign exchange control or currency restrictions and the availability of professional and support services. However, the Cayman Islands has a less developed body of securities laws than the United States and provides less protection for investors. In addition, Cayman Islands companies do not have standing to sue before the federal courts of the United States.

Substantially all of our assets are located outside the United States. In addition, most of our directors and officers are nationals or residents of jurisdictions other than the United States and all or a substantial portion of their assets are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon us or these persons, or to enforce judgments obtained in U.S. courts against us or them, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States. It may also be difficult for you to enforce judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors.

We have appointed Puglisi & Associates as our agent to receive service of process with respect to any action brought against us in the U.S. District Court for the Southern District of New York in connection with this offering under the federal securities laws of the United States or the securities laws of any State in the United States or any action brought against us in the Supreme Court of the State of New York in the County of New York in connection with this offering under the securities laws of the State of New York.

Maples and Calder (Hong Kong) LLP, our counsel as to Cayman Islands law, has advised us that there is uncertainty as to whether the courts of the Cayman Islands would (1) recognize or enforce judgments of U.S. courts obtained against us or our directors or officers that are predicated upon the civil liability provisions of the federal securities laws of the United States or the securities laws of any state in the United States, or (2) entertain original actions brought in the Cayman Islands against us or our directors or officers that are predicated upon the federal securities laws of the United States or the securities laws of any state in the United States.

Maples and Calder (Hong Kong) LLP has informed us that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments), a judgment *in personam* obtained in such jurisdiction will be recognized and enforced in the courts of the Cayman Islands at common law, without any re-examination of the merits of the underlying dispute, by an action commenced on the foreign judgment debt in the Grand Court of the Cayman Islands, provided such judgment (i) is given by a competent foreign court with jurisdiction to give the judgment, (ii) imposes a specific positive obligation on the judgment debtor (such as an obligation to pay a liquidated sum or perform a specified obligation), (iii) is final and conclusive, (iv) is not in respect of taxes, a fine or a penalty; and (v) was not obtained in a manner and is not of a kind the enforcement of which is contrary to natural justice or the public policy of the Cayman Islands. There is uncertainty with regard to Cayman Islands law relating to whether a judgment obtained from the United States courts under civil liability provisions of the securities laws of the United States will be determined by the courts of the Cayman Islands as penal or punitive in nature. If such a determination is made, the courts of the Cayman Islands will not recognize or enforce the judgment against a Cayman Islands company. Because the courts of the Cayman Islands have yet to rule on whether such judgments are penal or punitive in nature, it is uncertain whether they would be enforceable in the Cayman Islands.

King & Wood Mallesons, our counsel as to PRC law, has advised us that there is uncertainty as to whether the courts of China would (1) recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States, or (2) entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

King & Wood Mallesons has further advised us that the recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other form of reciprocal arrangements with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in China will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or in the Cayman Islands.

In addition, it will be difficult for U.S. shareholders to originate actions against us in China in accordance with PRC laws because we are incorporated under the laws of the Cayman Islands and it will be difficult for U.S. shareholders, by virtue only of holding our ADSs or ordinary shares, to establish a connection to China for a PRC court to have jurisdiction as required under the PRC Civil Procedures Law.

CORPORATE HISTORY AND STRUCTURE

We commenced our commercial operations in 2015 through Hangzhou Aimi Network Technology Co., Ltd., or Hangzhou Aimi, and Shanghai Xunmeng Information Technology Co., Ltd., or Shanghai Xunmeng, in parallel. In June 2016, to streamline the operations of these two companies, Hangzhou Aimi obtained 100% equity interest in Shanghai Xunmeng, and Shanghai Xunmeng became a wholly-owned subsidiary of Hangzhou Aimi.

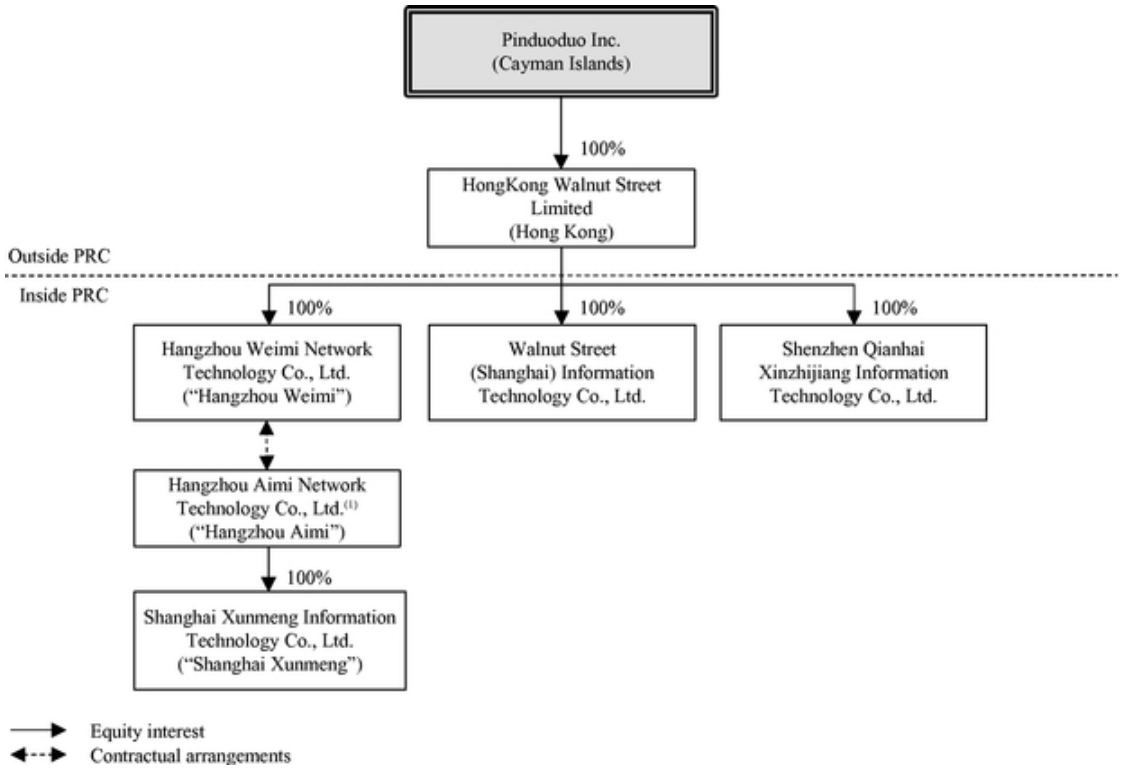
We incorporated Walnut Street Group Holding Limited under the laws of the Cayman Islands as our offshore holding company in April 2015 to facilitate offshore financing. In the same month, we established HongKong Walnut Street Limited, or Walnut HK, our wholly-owned Hong Kong subsidiary, and Walnut HK established a wholly-owned PRC subsidiary, Hangzhou Weimi Network Technology Co., Ltd., or Hangzhou Weimi. Walnut HK established two additional wholly-owned PRC subsidiaries, Walnut Street (Shanghai) Information Technology Co., Ltd. (formerly known as Shanghai Pinduoduo Network Technology Co., Ltd.) and Shenzhen Qianhai Xinzhijiang Information Technology Co., Ltd., in January 2018 and April 2018, respectively, which, together with Hangzhou Weimi, are referred to as our WFOEs in this prospectus. In July 2018, we renamed our company as Pinduoduo Inc.

Due to restrictions imposed by PRC laws and regulations on foreign ownership of companies that engage in internet and other related business, Hangzhou Weimi later entered into a series of contractual arrangements with Hangzhou Aimi, which we refer to as our VIE in this prospectus, and its shareholders. We depend on these contractual arrangements with our VIE, in which we have no ownership interests, and its shareholders to conduct most aspects of our operation. We have relied and expect to continue to rely on these contractual arrangements to conduct our business in China. For more details, see "—Contractual Arrangements with Our VIE and Its Shareholders." The shareholders of our VIE may have potential conflicts of interest with us. See "Risk Factors—Risks Related to Our Corporate Structure—The shareholders of our VIE may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition."

Under PRC laws and regulations, our PRC subsidiaries may pay cash dividends to us out of their respective accumulated profits. However, the ability of our PRC subsidiaries to make such distribution to us is subject to various PRC laws and regulations, including the requirement to fund certain statutory funds, as well as potential restriction on currency exchange and capital controls imposed by the PRC government. For more details, see "Risk Factors—Risks Related to Doing Business in China—We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business" and "Regulation—Regulations Relating to Dividend Distributions."

As a result of our direct ownership in our WFOEs and the variable interest entity contractual arrangements, we are regarded as the primary beneficiary of our VIE. We treat it and its subsidiaries as our consolidated affiliated entities under U.S. GAAP, and have consolidated the financial results of these entities in our consolidated financial statements in accordance with U.S. GAAP.

The following diagram illustrates our corporate structure, including our principal subsidiaries and our VIE and its principal subsidiary, as of the date of this prospectus:



Note:

(1) Messrs. Lei Chen, Qin Sun and Zhen Zhang are beneficiary owners of our company and hold 86.6%, 4.4% and 0.1% equity interests in Hangzhou Aimi, respectively. They are either directors or employees of our company. The remaining 8.9% equity interests in Hangzhou Aimi are held by Linzhi Tencent Technology Co., Ltd., which is an affiliate of one of our shareholders.

Contractual Arrangements with Our VIE and Its Shareholders

The following is a summary of the currently effective contractual arrangements by and among our wholly-owned subsidiary, Hangzhou Weimi, our VIE and its shareholders. These contractual arrangements enable us to (i) exercise effective control over our VIE; (ii) receive substantially all of the economic benefits of our VIE; and (iii) have an exclusive option to purchase all or part of the equity interests in and assets of it when and to the extent permitted by PRC law.

Agreements that provide us effective control over our VIE

Shareholders' Voting Rights Proxy Agreement. Pursuant to the shareholders' voting rights proxy agreement entered into on June 5, 2015, and amended and restated on April 25, 2018, by and among Hangzhou Weimi, Hangzhou Aimi and the shareholders of Hangzhou Aimi, each shareholder of Hangzhou Aimi irrevocably authorized Hangzhou Weimi or any person(s) designated by Hangzhou Weimi to exercise such shareholder's rights in Hangzhou Aimi, including without limitation, the power to participate in and vote at shareholder's meetings, the power to nominate and appoint the directors, senior management, the power to sell or transfer such shareholder's equity interest in Hangzhou Aimi, the power to propose to convene an extraordinary shareholders meeting, and other shareholders' voting rights permitted by the Articles of Association of Hangzhou Aimi. The shareholders' voting rights proxy

agreement remains irrevocable and continuously valid from the date of execution so long as each shareholder remains as a shareholder of Hangzhou Aimi.

Equity Pledge Agreement. Pursuant to the equity pledge agreement entered into on June 5, 2015, and amended and restated on April 25, 2018, by and among Hangzhou Weimi, Hangzhou Aimi and the shareholders of Hangzhou Aimi, the shareholders of Hangzhou Aimi pledged all of their equity interests in Hangzhou Aimi to Hangzhou Weimi to guarantee their and Hangzhou Aimi's obligations under the contractual arrangements including the exclusive consulting and services agreement, the exclusive option agreement and the shareholders' voting rights proxy agreement and this equity pledge agreement, as well as any loss incurred due to events of default defined therein and all expenses incurred by Hangzhou Weimi in enforcing such obligations of Hangzhou Aimi or its shareholders. In the event of default defined therein, upon written notice to the shareholders of Hangzhou Aimi, Hangzhou Weimi, as pledgee, will have the right to dispose of the pledged equity interests in Hangzhou Aimi and priority in receiving the proceeds from such disposition. The shareholders of Hangzhou Aimi agree that, without Hangzhou Weimi's prior written approval, during the term of the equity pledge agreement, they will not dispose of the pledged equity interests or create or allow any other encumbrance on the pledged equity interests. We have completed the registration of the equity pledges with the relevant office of SAIC in accordance with the PRC Property Rights Law.

Spousal Consent Letters. Pursuant to these letters, the spouses of Messrs. Lei Chen, Qin Sun and Zhen Zhang unconditionally and irrevocably agreed that the equity interest in Hangzhou Aimi held by them and registered in their names will be disposed of pursuant to the equity interest pledge agreement, the exclusive option agreement and the shareholders' voting rights proxy agreement. Each of their spouses agreed not to assert any rights over the equity interest in Hangzhou Aimi held by their respective spouses. In addition, in the event that any spouse obtains any equity interest in Hangzhou Aimi held by his or her spouse for any reason, he or she agreed to be bound by the contractual arrangements.

Agreements that allow us to receive economic benefits from our VIE

Exclusive Consulting and Services Agreement. Under the exclusive consulting and services agreement between Hangzhou Weimi and Hangzhou Aimi, dated June 5, 2015, Hangzhou Weimi has the exclusive right to provide to Hangzhou Aimi consulting and services related to, among other things, design and development, operation maintenance, product consulting, and management and marketing consulting. Hangzhou Weimi has the exclusive ownership of intellectual property rights created as a result of the performance of this agreement. Hangzhou Aimi agrees to pay Hangzhou Weimi service fee at an amount as determined by Hangzhou Weimi. This agreement will remain effective for a ten-year term and then be automatically renewed, unless Hangzhou Weimi gives Hangzhou Aimi a termination notice 90 days before the term ends.

Agreements that provide us with the option to purchase the equity interests in our VIE

Exclusive Option Agreement. Pursuant to the exclusive option agreement entered into on June 5, 2015, and amended and restated on April 25, 2018, by and among Hangzhou Weimi, Hangzhou Aimi and each of the shareholders of Hangzhou Aimi, each of the shareholders of Hangzhou Aimi irrevocably granted Hangzhou Weimi an exclusive call option to purchase, or have its designated person(s) to purchase, at its discretion, all or part of their equity interests in Hangzhou Aimi, and the purchase price shall be the lowest price permitted by applicable PRC law. In addition, Hangzhou Aimi has granted Hangzhou Weimi an exclusive call option to purchase, or have its designated person(s) to purchase, at its discretion, to the extent permitted under PRC law, all or part of Hangzhou Aimi's assets at the book value of such assets, or at the lowest price permitted by applicable PRC law, whichever is higher. Each of the shareholders of Hangzhou Aimi undertakes that, without the prior written consent of Hangzhou Weimi or us, they may not increase or decrease the registered capital,

dispose of its assets, incur any debts or guarantee liabilities, enter into any material purchase agreements, enter into any merger, acquisition or investments, amend its articles of association or provide any loans to third parties. Unless terminated by Hangzhou Weimi at its sole discretion, the exclusive option agreement will remain effective until all equity interests in Hangzhou Aimi held by the shareholders of Hangzhou Aimi and all assets of Hangzhou Aimi are transferred or assigned to Hangzhou Weimi or its designated representatives.

In the opinion of King & Wood Mallesons, our PRC legal counsel:

- the ownership structures of Hangzhou Weimi and Hangzhou Aimi, both currently and immediately after giving effect to this offering, are not in any violation of PRC laws or regulations currently in effect; and

- the contractual arrangements among Hangzhou Weimi and Hangzhou Aimi and its shareholders governed by PRC law both currently and immediately after giving effect to this offering are legal, valid, binding and enforceable in accordance with its terms and applicable PRC laws, and do not and will not result in any violation of PRC laws or regulations currently in effect.

However, we have been further advised by our PRC legal counsel that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. In particular, in January 2015, MOFCOM published a discussion draft of the proposed Foreign Investment Law for public review and comments. Among other things, the draft Foreign Investment Law expands the definition of foreign investment and introduces the principle of "de facto control" in determining whether a company is considered a foreign-invested enterprise. Under the draft Foreign Investment Law, variable interest entities would also be deemed as foreign-invested enterprises, if they are ultimately "controlled" by foreign investors, and be subject to restrictions on foreign investments. It is uncertain when the draft would be signed into law and whether the final version would have any substantial changes from the draft. Accordingly, the PRC regulatory authorities may in the future take a view that is contrary to or otherwise different from the above opinion of our PRC legal counsel. If the PRC government finds that the agreements that establish the structure for operating our e-commerce business do not comply with PRC government restrictions on foreign investment in our businesses, we could be subject to severe penalties including being prohibited from continuing operations. See "Risk Factors—Risks Related to Our Corporate Structure—If the PRC government finds that the agreements that establish the structure for operating some of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations."

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the section entitled "Selected Consolidated Financial Data" and our consolidated financial statements and the related notes included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties about our business and operations. Our actual results and the timing of selected events may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those we describe under "Risk Factors" and elsewhere in this prospectus. See "Special Note Regarding Forward-Looking Statements."

Overview

We are an innovative and fast growing "new e-commerce" platform that provides buyers with value-for-money merchandise and fun and interactive shopping experiences. Our *Pinduoduo* mobile platform offers a comprehensive selection of attractively priced merchandise, featuring a dynamic social shopping experience that leverages social networks as an effective and efficient tool for buyer acquisition and engagement. As a result of our innovative business model, we have been able to quickly expand our buyer base and establish our brand recognition and market position. We are one of the leading Chinese e-commerce players in terms of GMV and the number of total orders. Our GMV in 2017 and the twelve-month period ended June 30, 2018 was RMB141.2 billion and RMB262.1 billion (US$41.8 billion), respectively. In 2017 and the twelve-month period ended June 30, 2018, the number of total orders placed on our *Pinduoduo* mobile platform reached 4.3 billion and 7.5 billion, respectively.

We pioneered an innovative "team purchase" model on our platform. Buyers can access our platform and make team purchases by either visiting our platform directly or through popular social networks, such as Weixin and QQ. They are encouraged to share product information on such social networks, and invite their friends, family and social contacts to form a shopping team to enjoy the more attractive prices available under the "team purchase" option. As a result, buyers on our platform actively introduce us to and share products offered on our platform and their shopping experiences with their friends, family and social contacts. New buyers in turn refer our platfrom to their broader family and social networks, generating low-cost organic traffic and active interactions and leading to exponential growth of our buyer base. In the twelve-month periods ended December 31, 2017 and June 30, 2018, the number of active buyers on our platform reached 245 million and 344 million, respectively.

Our large and highly active buyer base has helped attract merchants to our platform, and the scale of our sales volume has encouraged merchants to offer even more competitive pricing and customized products and services to buyers, thus forming a virtuous cycle. In the twelve-month period ended June 30, 2018, we had 1.7 million active merchants on our platform, offering a broad range of product categories.

We have experienced substantial growth since our inception in 2015. We currently generate revenues primarily from online marketplace services. Our revenues grew from RMB504.9 million in 2016 to RMB1,744.1 million (US$278.0 million) in 2017, and grew from RMB37.0 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the same period in 2018. We incurred net loss of RMB292.0 million and RMB525.1 million (US$83.7 million) in 2016 and 2017, respectively. We incurred net loss of RMB201.0 million (US$32.0 million) in the three months ended March 31, 2018, compared to net loss of RMB207.7 million in the three months ended March 31, 2017.

Key Factors Affecting Our Results of Operations

Our results of operations and financial conditions are affected by the general factors affecting China's retail industry, including China's overall economic growth, the increase in per capita disposable income and the growth in consumer spending in China. In addition, they are also affected by factors driving online retail in China, such as the growing number of online shoppers, the improved logistics infrastructure and the increasing adoption of mobile payment. Unfavorable changes in any of these general factors could materially and adversely affect our results of operations.

While our business is influenced by general factors affecting our industry, our results of operations are more directly affected by certain company specific factors, including:

Our ability to attract and retain buyers and increase buyer activities

User experience is our utmost priority. Attracting, engaging and retaining buyers have been our key focuses since our inception. We measure our effectiveness in attracting and retaining buyers through several key performance indicators, including our active buyers, annual spending per active buyer, GMV and average monthly active users. The following table sets forth these indicators for the periods presented:

	For the twelve-month period ended					
	Mar. 31, 2017	June 30, 2017	Sept. 30, 2017	Dec. 31, 2017	Mar. 31, 2018	June 30, 2018
Active buyers (in millions)	67.7	99.7	157.7	244.8	294.9	343.6
Annual spending per active buyer (RMB)	308.7	385.0	449.2	576.9	673.9	762.8
GMV (RMB in billions)	20.9	38.4	70.9	141.2	198.7	262.1

	For the three-month period ended					
	Mar. 31, 2017	June 30, 2017	Sept. 30, 2017	Dec. 31, 2017	Mar. 31, 2018	June 30, 2018
Average monthly active users (in millions)	15.0	32.8	71.1	141.0	166.2	195.0

Our number of active buyers, annual spending per active buyer and average monthly active users have been increasing. The increases have primarily been driven by the growing popularity and recognition of our brand and platform, the consumer preferences for our innovative shopping experience, wide selection and attractive prices of merchandise offered on our platform, and the positive impact of our promotional and marketing campaigns. As a result, our GMV has also experienced significant growth.

Our ability to grow and retain our buyer base and increase buyer activities depends on our ability to continue to provide value-for-money products and fun and interactive shopping experiences. We also plan to further leverage social networks and word-of-mouth viral marketing, and conduct online and offline marketing and brand promotion activities to attract new buyers and increase buyer activities. In addition, we plan to continue to encourage buyers to place more orders with us through a variety of means, including granting coupons and holding special promotional events. As our business is still at a growth phase and in light of our ability to develop a highly engaged buyer base, we expect continuing growth in our buyer base and buyer activities.

Our ability to establish and maintain relationships with merchants

In addition to the scale and engagement of active buyers, our growth is also driven by the scale of merchants on our platform. In the twelve-month period ended June 30, 2018, the number of active merchants on our platform reached 1.7 million, compared to approximately 207,000 in the twelve-month period ended June 30, 2017. Merchants are attracted to our platform by our large buyer base

and scale of sales volume as well as targeted online marketing and other services provided by us. The increase in the number of active merchants leads to more competitive pricing and broader product categories offered on our platform, which in turn helps us attract more buyers, generating powerful network effects.

Our ability to provide popular products on our platform at attractive prices also depends on our ability to maintain mutually beneficial relationships with our merchants. For example, we rely on our merchants to make available sufficient inventory and fulfill large volumes of orders in an efficient and timely manner to ensure our user experience. To date, our buyers and merchants have been increasing in parallel as a result of the network effects of our platform.

Our ability to provide innovative online marketplace services and broaden service offerings

We currently generate revenues primarily from online marketplace services that we provide to merchants. We believe that increasing the value and variety of our online marketplace services and the consequent return on investment to merchants from utilizing these services will increase demand for our services. We aim to enhance the value of our online marketplace services through such means as broadening our service offerings, increasing the size and engagement of our buyer base, improving recommendation features, developing innovative marketing services, and improving the measurement tools available to merchants.

Our ability to manage our costs and expenses by leveraging our scale of business

Our results of operations depend on our ability to manage our costs and expenses. We expect our costs and expenses to continue to increase as we grow our business and attract more buyers and merchants to our platform. Our cost of revenues currently consists primarily of payment processing fees, bandwidths and server costs and staff costs. In addition, we have invested significantly in marketing activities to promote our brand and our products and services. Our sales and marketing expenses increased from RMB169.0 million in 2016 to RMB1,344.6 million (US$214.4 million) in 2017, while sales and marketing expenses as a percentage of our revenues increased from 33.5% in 2016 to 77.1% in 2017. Our sales and marketing expenses increased from RMB73.9 million in the three months ended March 31, 2017 to RMB1,217.5 million (US$194.1 million) in the three months ended March 31, 2018, while sales and marketing expenses as a percentage of our revenues decreased from 199.5% in the three months ended March 31, 2017 to 87.9% in the three months ended March 31, 2018.

We believe our marketplace model has significant operating leverage and enables us to realize structural cost savings. For example, due to our large buyer base, we are able to attract a large number of merchants, which in turn generates a strong source of demand for our online marketing and other services for merchants. As our business further grows in scale, we believe our massive scale, coupled with the network effects, will allow us to acquire buyers more cost-effectively and benefit from substantial economies of scale. For example, the costs associated with the operation of our platform as well as our operating expenses do not increase at the same pace as our GMV growth as we do not require a proportional increase in the size of our workforce to support our growth. We achieve economies of scale in our operation as a wider selection of merchandise attracts a larger number of buyers, which in turn drives an increase in the scale of our sales volume and attracts more merchants to our platform. In addition, our scale creates value for our merchants by providing an effective channel for selling large volumes of products and by offering them comprehensive data insights on buyer preferences and market demand. We believe this value proposition will make our platform more attractive to merchants and further increase their sales and spending on our platform. This business model also enables us to avoid the costs, risks and capital requirements associated with sourcing merchandise or holding inventory. As our business further grows, we believe we will be able to take advantage of economies of scale to further improve our operational efficiency over time.

Key Components of Results of Operations

Revenues

We generate revenues from online marketplace services and merchandise sales. Revenues from online marketplace services include revenues from online marketing services and commission fees. The following table sets forth the components of our revenues by amounts and percentages of our total revenues for the periods presented:

Online marketplace services

Under our current business model, we generate revenues primarily from online marketplace services. Our revenues from online marketplace services include revenues from online marketing services and commission fees.

Online marketing services. We provide online marketing services to allow merchants to bid for keywords that match product listings appearing in search results on our platform and advertising placements such as banners, links and logos. The placement and the price for such placement are determined through an online bidding system.

Commission fees. We also earn commission fees from merchants when transactions are completed. We generally charge 0.6% of the value of merchandise sold by merchants for payment processing fees charged by third-party online payment service providers and other transaction-related costs.

Merchandise sales

From 2015 to the first quarter of 2017, we also operated an online direct sales business under the name of "Pinhaohuo" for certain categories of merchandise such as fresh produce and other perishable products. Under this model, we acquired products from suppliers and sold them directly to buyers. During the time when we operated Pinhaohuo, we also operated our current marketplace model and completed the transition into our current business model in the first quarter of 2017. As a result, our revenues from merchandise sales have decreased substantially from 2016 to 2017, and we no longer generated such revenues after the first quarter of 2017.

Costs of revenues

The following table sets forth the components of our costs of revenues by amounts and percentages of costs of revenues for the periods presented:

Costs of revenues consist of costs of online marketplace services and costs of merchandise sales. Costs of online marketplace services consist primarily of payment processing fees paid to third-party online payment platforms, costs associated with the operation of our platform, such as bandwidths and server costs, depreciation and maintenance costs, staff costs and share-based compensation expenses and other expenses directly attributable to the online marketplace services. Costs of merchandise sales consist of the same elements as costs of online marketplace services, as well as the purchase price of merchandise, shipping and other logistics charges and write-down of inventories.

Operating expenses

The following table sets forth the components of our operating expenses by amounts and percentages of operating expenses for the periods presented:

	For the Year Ended December 31,					For the Three Months Ended March 31,

Sales and marketing expenses. Sales and marketing expenses consist primarily of online and offline advertising, promotion and coupon expenses, as well as payroll, employee benefits and other related expenses associated with sales and marketing. We expect our sales and marketing expenses to increase in absolute amounts in the foreseeable future as we seek to increase our brand awareness.

General and administrative expenses. General and administrative expenses consist primarily of payroll, employee benefits, share-based compensation expenses and other related expenses. We expect our general and administrative expenses to increase in absolute amounts in the foreseeable future due to the anticipated growth of our business as well as accounting, insurance, investor relations and other public company costs.

Research and development expenses. Research and development expenses consist primarily of payroll, employee benefits and other related expenses associated with research and platform development. We expect our research and development expenses to increase as we expand our research and development team to enhance our artificial intelligence technology and big data analytics capabilities and develop new features and functionalities on our platform.

Impairment of a long-term investment. Our long-term investment represents investment in a company over which we do not have significant influence. We carry the investment at cost and adjust for other-than-temporary declines in the fair value and distributions of earnings of a company that we invested in based on our evaluation of the performance and financial position as well as other evidence of estimated market values of the company. An impairment loss is recognized when the cost of the investment exceeds its fair value after an assessment is made. The fair value would then become the new cost basis of the investment.

Taxation

Cayman Islands

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty.

There are no other taxes likely to be material to us levied by the government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or brought within the jurisdiction of the Cayman Islands. In addition, the Cayman Islands does not impose withholding tax on dividend payments.

Hong Kong

Walnut HK is incorporated in Hong Kong and is subject to Hong Kong profits tax of 16.5% on its activities conducted in Hong Kong.

PRC

Generally, our PRC subsidiaries, VIEs and their subsidiaries are subject to enterprise income tax on their taxable income in China at a statutory rate of 25%. The enterprise income tax is calculated based on the entity's global income as determined under PRC tax laws and accounting standards.

We are subject to value-added tax at a rate of 16% on sales and 6% on the services (research and development services, technology services, and/or information technology services), in each case less any deductible value-added tax we have already paid or borne. We are also subject to surcharges on value-added tax payments in accordance with PRC law.

Dividends paid by our wholly foreign-owned subsidiary in China to our intermediary holding company in Hong Kong will be subject to a withholding tax rate of 10%, unless the relevant Hong Kong entity satisfies all the requirements under the Arrangement between China and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income and Capital and receives approval from the relevant tax authority. If our Hong Kong subsidiary satisfies all the requirements under the tax arrangement and receives approval from the relevant tax authority, then the dividends paid to the Hong Kong subsidiary would

be subject to withholding tax at the standard rate of 5%. Effective from November 1, 2015, the above mentioned approval requirement has been abolished, but a Hong Kong entity is still required to file application package with the relevant tax authority, and settle the overdue taxes if the preferential 5% tax rate is denied based on the subsequent review of the application package by the relevant tax authority. See "Risk Factors—Risks Related to Doing Business in China—We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business."

If our holding company in the Cayman Islands or any of our subsidiaries outside of China were deemed to be a "resident enterprise" under the PRC Enterprise Income Tax Law, it would be subject to enterprise income tax on its worldwide income at a rate of 25%. See "Risk Factors—Risks Related to Doing Business in China—If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavourable tax consequences to us and our non-PRC shareholders or ADS holders."

Three months ended March 31, 2018 compared to three months ended March 31, 2017

Revenues

Our revenues, which consist of revenues from online marketplace services and merchandise sales, increased substantially from RMB37.0 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the three months ended March 31, 2018. This increase was primarily attributable to increases in revenues from online marketplace services.

Our revenues from online marketplace services increased substantially from RMB33.6 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the three months ended March 31, 2018, primarily attributable to strong growth of revenues from online marketing services. Revenues from online marketing services increased from nil in the three months ended March 31, 2017 to RMB1,108.1 million (US$176.6 million) in the three months ended March 31, 2018. This increase was primarily attributable to the launch of our online marketing system in April 2017 and our stronger brand and market position as a result of our branding campaigns, and the significant increase in the number of our active buyers since we launched our online marketing system, which made advertising on our platform more attractive. Revenues from commission fees increased from RMB33.6 million in the three months ended March 31, 2017 to RMB276.5 million (US$44.1 million) in the three months ended March 31, 2018, primarily due to the increase in GMV.

Our revenues from merchandise sales decreased from RMB3.4 million in the three months ended March 31, 2017 to nil in the three months ended March 31, 2018 as we no longer generated such revenues after the first quarter of 2017 due to change of business model.

Costs of revenues

Our costs of revenues, which consist of costs of online marketplace services and costs of merchandise sales, increased by 485.8% from RMB54.4 million in the three months ended March 31, 2017 to RMB318.7 million (US$50.8 million) in the three months ended March 31, 2018. This increase was primarily due to increases in costs of online marketplace services.

Our costs of online marketplace services increased substantially from RMB51.4 million in the three months ended March 31, 2017 to RMB318.7 million (US$50.8 million) in the three months ended March 31, 2018, primarily due to increases in payment processing fees, bandwidths and server costs and staff costs. The increase in payment processing fees from RMB34.0 million in the three months ended March 31, 2017 to RMB163.7 million in the three months ended March 31, 2018 was primarily attributable to and in line with the substantial increase in GMV. The increase in bandwidths and server costs from RMB7.1 million in the three months ended March 31, 2017 to RMB87.9 million in the three months ended March 31, 2018 was due to the increase in server capacity to keep pace with the growth of our online marketplace services. The increase in staff costs was primarily due to the increase in headcount for employees dedicated to the operations of our platform.

Our costs of merchandise sales decreased substantially from RMB3.1 million in the three months ended March 31, 2017 to nil in the three months ended March 31, 2018 as we no longer operated the online direct sales business after the first quarter of 2017.

Gross (loss)/profit

As a result of the foregoing, we had gross profit of RMB1,065.9 million (US$169.9 million) in the three months ended March 31, 2018, compared to gross loss of RMB17.4 million in the three months ended March 31, 2017. The improvement was primarily attributable to the continued growth in revenues and increased economies of scale achieved through our current marketplace model.

Operating expenses

Our total operating expenses increased substantially from RMB198.5 million in the three months ended March 31, 2017 to RMB1,319.0 million (US$210.3 million) in the three months ended March 31, 2018 primarily as a result of the increase in sales and marketing expenses.

Sales and marketing expenses. Our sales and marketing expenses increased substantially from RMB73.9 million in the three months ended March 31, 2017 to RMB1,217.5 million (US$194.1 million) in the three months ended March 31, 2018, primarily attributable to (i) an increase of RMB575.9 million in advertising expenses, including online and offline branding campaigns, as we continued to enhance our brand recognition, (ii) an increase of RMB549.1 million in promotion and coupon expenses incurred due to our increased promotion activities, and (iii) an increase of RMB18.6 million in staff costs, professional and other service expenses.

General and administrative expenses. Our general and administrative expenses decreased substantially from RMB108.6 million in the three months ended March 31, 2017 to RMB28.8 million (US$4.6 million) in the three months ended March 31, 2018. The decrease was primarily attributable to the decrease of RMB105.0 million in the cost for the repurchase of certain ordinary shares by us from a company controlled by our founder, partially offset by an increase of RMB17.2 million in staff costs due to the increase in headcount for our general and administrative personnel.

Research and development expenses. Our research and development expenses increased substantially from RMB16.0 million in the three months ended March 31, 2017 to RMB72.8 million (US$11.6 million) in the three months ended March 31, 2018, primarily due to an increase of RMB52.8 million in staff costs. The increase in staff costs was primarily attributable to the increase in headcount for our research and development personnel, as we hired additional experienced research and development personnel to execute our technology-related strategies of improving our platform.

Impairment of a long-term investment. We did not incur impairment of long-term investment in the three months ended March 31, 2017 and 2018, respectively.

Operating loss

As a result of the foregoing, we incurred operating loss of RMB253.1 million (US$40.4 million) in the three months ended March 31, 2018, compared to operating loss of RMB215.9 million in the three months ended March 31, 2017.

Other income/(expenses)

Interest income. Interest income represents interest earned on cash deposits in financial institutions. We had interest income of RMB7.5 million and RMB50.2 million (US$8.0 million) in the three months ended March 31, 2017 and 2018, respectively. The increase was primarily attributable to the increase of our cash balance.

Foreign exchange gain/(loss). We had foreign exchange loss of RMB2.1 million (US$0.3 million) in the three months ended March 31, 2018, compared to foreign exchange loss of RMB0.1 million in the three months ended March 31, 2017, primarily due to the appreciation of Renminbi against the U.S. dollar.

Changes in the fair value of warrant liabilities. We had nil in changes in the fair value of the warrant liability in the three months ended March 31, 2017 and 2018, respectively.

Other (loss)/income, net. Other (loss)/income, net primarily consists of government grants. We had other net income of RMB4.1 million (US$0.7 million) in the three months ended March 31, 2018,

compared to other net income of RMB0.8 million in the three months ended March 31, 2017. The increase was primarily attributable to government grants.

Income tax expenses

We recorded nil in income tax expenses in the three months ended March 31, 2017 and 2018.

Net loss

As a result of the foregoing, we incurred net loss of RMB201.0 million (US$32.0 million) in the three months ended March 31, 2018, compared to net loss of RMB207.7 million in the three months ended March 31, 2017.

Year ended December 31, 2017 compared to year ended December 31, 2016

Revenues

Our revenues, which consist of revenues from online marketplace services and merchandise sales, increased by 245.5% from RMB504.9 million in 2016 to RMB1,744.1 million (US$278.0 million) in 2017. This increase was primarily due to increases in revenues from online marketplace services, partially offset by the decrease in revenues from merchandise sales.

Our revenues from online marketplace services increased substantially from RMB48.3 million in 2016 to RMB1,740.7 million (US$277.5 million) in 2017, primarily attributable to the increase in revenues from online marketing services. Revenues from online marketing services increased from nil in 2016 to RMB1.2 billion (US$192.8 million) in 2017 primarily attributable to the launch of our online marketing system in April 2017. Revenues from commission fees increased from RMB48.3 million in 2016 to RMB531.4 million (US$84.7 million) in 2017, primarily due to the substantial increase in GMV, which reached RMB141.2 billion in 2017. The rapid increase in GMV was due to the substantial increase in the number of buyers making purchases on our platform, reflecting the growing popularity of our platform, the consumer preferences for our innovative shopping experience and the positive impact of our promotional and marketing campaigns. Our GMV in 2016 was not meaningful for comparison purposes as we were still at a stage of early-stage development for our current marketplace model.

Our revenues from merchandise sales decreased substantially from RMB456.6 million in 2016 to RMB3.4 million (US$0.5 million) in 2017 due to the transition of our business model from an online direct sales model to our current marketplace model.

Costs of revenues

Our costs of revenues, which consist of costs of online marketplace services and costs of merchandise sales, increased by 25.1% from RMB577.9 million in 2016 to RMB722.8 million (US$115.2 million) in 2017. This increase was primarily due to increases in costs of online marketplace services.

Our costs of online marketplace services increased substantially from RMB93.6 million in 2016 to RMB719.8 million (US$114.8 million) in 2017, primarily due to increases in payment processing fees, bandwidths and server costs and staff costs. The increase in payment processing fees from RMB51.9 million in 2016 to RMB541.3 million in 2017 was primarily attributable to the substantial increase in GMV, which reached RMB141.2 billion in 2017. The increase in bandwidths and server costs from RMB9.4 million in 2016 to RMB117.5 million in 2017 was due to the increase in server capacity to keep pace with the growth of our online marketplace services. The increase in staff costs was primarily due to the increase in headcount for employees dedicated to the operations of our platform.

Our costs of merchandise sales decreased substantially from RMB484.3 million in 2016 to RMB3.1 million (US$0.5 million) in 2017 primarily due to a decrease of RMB348.5 million in costs of acquiring the products, and a decrease of RMB125.3 million in fulfillment costs as we gradually ceased assuming inventory and delivery obligations in connection with the transition of our business model from an online direct sales model to our current marketplace model.

Gross (loss)/profit

As a result of the foregoing, we had gross profit of RMB1,021.2 million (US$162.8 million) in 2017, compared to gross loss of RMB73.0 million in 2016. The improvement was primarily attributable to the growth in revenues and increased economies of scale achieved through our current marketplace model.

Operating expenses

Our total operating expenses increased substantially from RMB213.2 million in 2016 to RMB1,617.0 million (US$257.8 million) in 2017 as all components of operating expenses increased.

Sales and marketing expenses. Our sales and marketing expenses increased substantially from RMB169.0 million in 2016 to RMB1,344.6 million (US$214.4 million) in 2017, primarily attributable to (i) an increase of RMB874.4 million in advertising expenses, including online and offline branding campaigns, as we continued to enhance our brand recognition, and (ii) an increase of RMB271.5 million in promotion and coupon expenses. The increase in promotion and coupon expenses was primarily due to our increased promotion activities, especially during online shopping festivals on November 11, December 12 and the anniversary of the founding of our platform.

General and administrative expenses. Our general and administrative expenses increased substantially from RMB14.8 million in 2016 to RMB133.2 million (US$21.2 million) in 2017. The increase was primarily attributable to an increase of RMB96.9 million in the cost for the repurchase of certain ordinary shares by us from a company controlled by our founder, and an increase of RMB18.1 million in staff costs due to the increase in headcount for our general and administrative personnel.

Research and development expenses. Our research and development expenses increased substantially from RMB29.4 million in 2016 to RMB129.2 million (US$20.6 million) in 2017, primarily due to an increase in staff costs of RMB92.2 million. The increase in staff costs was primarily attributable to the increase in headcount for our research and development personnel, as we hired additional experienced research and development personnel to execute our technology-related strategies of improving our platform.

Impairment of a long-term investment. We had impairment of a long-term investment of RMB10.0 million (US$1.6 million) in 2017, compared to nil in 2016, primarily due to the decline of the fair value of our equity interests in a company that we invested in.

Operating loss

As a result of the foregoing, we incurred operating loss of RMB595.7 million (US$95.0 million) in 2017, compared to operating loss of RMB286.2 million in 2016.

Other income/(loss)

Interest income. Interest income represents interest earned on cash deposits in financial institutions. We had interest income of RMB4.5 million and RMB80.8 million (US$12.9 million) in 2016 and 2017, respectively. The increase was primarily attributable to the increase of our cash balance.

Foreign exchange gain/(loss). We had foreign exchange loss of RMB11.5 million (US$1.8 million) in 2017, compared to foreign exchange gain of RMB0.5 million in 2016, primarily due to the appreciation of Renminbi against the U.S. dollar.

Change in the fair value of the warrant liability. We had nil in change in the fair value of the warrant liability in 2017, compared to RMB8.7 million in 2016, primarily due to the exercise of the warrant held by an investor in early 2017.

Other (loss)/income, net. Other (loss)/income, net primarily consists of government grants and gain or loss from disposition of fixed assets. We had other net income of RMB1.4 million (US$0.2 million) in 2017, compared to other net loss of RMB2.0 million in 2016. The increase was primarily attributable to government grants.

Income tax expenses

We recorded nil in income tax expenses in 2016 and 2017.

Net loss

As a result of the foregoing, we incurred net loss of RMB525.1 million (US$83.7 million) in 2017, compared to net loss of RMB292.0 million in 2016.

We have experienced continued growth in our revenues for the five quarters from January 1, 2017 to March 31, 2018. Driven by the continued increase in our number of active buyers, as well as the launch of our online marketing system in April 2017, our revenues from online marketplace services increased substantially during these periods. Revenues from merchandise sales decreased from RMB3.4 million in the first quarter of 2017 to nil since the second quarter of 2017 as we no longer generated such revenues after the first quarter of 2017 due to change of our business model.

Our cost of revenues also generally increased substantially during these periods except for the first quarter of 2018, mainly as a result of the increase in payment processing fees due to the substantial increase of GMV on our platform in these periods. Meanwhile, all components of our operating expenses also generally continued to increase as we grew our business and expanded our buyer base. In particular, sales and marketing expenses increased substantially during these periods as we invested significantly in marketing activities to promote our brand and our products and services.

Our results of operations are subject to seasonal fluctuations. For example, we generally experience less buyer traffic and purchase orders during the Chinese New Year holiday season in the first quarter of each year. Furthermore, our sales volume generally is higher in the fourth quarter of each year than in the preceding three quarters due to special promotions during online shopping festivals on November 11, December 12 and the anniversary of the founding of our platform. This seasonality of our business, however, was not apparent historically due to the rapid growth historically. Due to our limited operating history, the seasonal trends that we have experienced in the past may not apply to, or be indicative of, our future operating results.

To date, we have financed our operating and investing activities through cash generated by historical equity financing activities. As of December 31, 2016 and 2017 and March 31, 2018, respectively, our cash and cash equivalents were RMB1,319.8 million, RMB3,058.2 million (US$487.5 million) and RMB8,634.3 million (US$1,376.5 million). Our cash and cash equivalents primarily consist of cash at banks. As of March 31, 2018, we had restricted cash of RMB8,058.4 million (US$1,284.7 million), representing cash received from buyers and reserved in a bank supervised account for payments to merchants.

We believe that our current cash and cash equivalents and our anticipated cash flows from operations will be sufficient to meet our anticipated working capital requirements and capital expenditures for at least the next 12 months. After this offering, we may decide to enhance our

liquidity position or increase our cash reserve for future investments through additional capital and finance funding. The issuance and sale of additional equity would result in further dilution to our shareholders. The incurrence of indebtedness would result in increased fixed obligations and could result in operating covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

As of March 31, 2018, 25.4% of our cash and cash equivalents were held in China, and 23.7% were held by our VIE and denominated in Renminbi. Although we consolidate the results of our VIE and its subsidiaries, we only have access to the assets or earnings of our VIE and its subsidiaries through our contractual arrangements with our VIE and its shareholders. See "Corporate History and Structure—Contractual Arrangements with Our VIE and Its Shareholders." For restrictions and limitations on liquidity and capital resources as a result of our corporate structure, see "—Holding Company Structure."

In utilizing the proceeds we expect to receive from this offering, we may make additional capital contributions to our PRC subsidiaries, establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, make loans to our PRC subsidiaries, or acquire offshore entities with operations in China in offshore transactions. However, most of these uses are subject to PRC regulations. See "Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiary, which could materially and adversely affect our liquidity and our ability to fund and expand our business" and "Use of Proceeds."

A majority of our future revenues are likely to continue to be in the form of Renminbi. Under existing PRC foreign exchange regulations, Renminbi may be converted into foreign exchange for current account items, including profit distributions, interest payments and trade- and service-related foreign exchange transactions, without prior SAFE approval as long as certain routine procedural requirements are fulfilled. Therefore, our PRC subsidiaries are allowed to pay dividends in foreign currencies to us without prior SAFE approval by following certain routine procedural requirements. However, approval from or registration with competent government authorities is required where the Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may at its discretion restrict access to foreign currencies for current account transactions in the future.

	Payment due by December 31,					
	Total	2018	2019	2020	2021	2022 and after
			(in RMB thousands)			
Operating lease commitments[(1)]	107,488	25,856	20,714	20,637	20,637	19,644
Total	107,488	25,856	20,714	20,637	20,637	19,644

Note:

(1) Operating lease commitments consist of the commitments under the lease agreements for our office premises. We lease our office facilities under non-cancellable operating leases with various expiration dates through August 2022.

As disclosed in our consolidated financial statements included elsewhere in this prospectus, we recognized unrecognized tax benefits. The final outcome of the tax uncertainty is dependent upon various matters including tax examinations, interpretation of tax laws or expiration of statutes of limitation. However, due to the uncertainties associated with the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties.

Other than as shown above, we did not have any significant capital and other commitments, long-term obligations or guarantees as of December 31, 2017.

Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. In addition, we have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or product development services with us.

Critical Accounting Policies

We are an "emerging growth company" as defined in the JOBS Act. The JOBS Act provides that an emerging growth company can take advantage of an extended transition period for complying with new or revised accounting standards. This allows an emerging growth company to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We elected to take advantage of the extended transition period. However, this election will not apply should we cease to be an emerging growth company.

An accounting policy is considered critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time such estimate is made, and if different accounting estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the consolidated financial statements.

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experiences and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from our expectations as a result of changes in our estimates. Some of our accounting policies require a higher degree of judgment than others in their application and require us to make significant accounting estimates.

The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our consolidated financial statements and accompanying notes and other disclosures included in this prospectus. When reviewing our financial statements, you should consider (i) our selection of critical accounting policies, (ii) the judgments and other uncertainties affecting the application of such policies and (iii) the sensitivity of reported results to changes in conditions and assumptions.

Principles of consolidation

Our consolidated financial statements include the financial statements of our company, our subsidiaries, our VIE and its subsidiaries. All significant inter-company transactions and balances between our company, our subsidiaries, our VIE and its subsidiaries have been eliminated upon consolidation.

Revenue recognition

We through our platform primarily offer online marketplace services that enable third-party merchants to sell their products to consumers in China. Revenues from online marketplace services consist of online marketing services revenues and commission fees. Prior to 2017, we were primarily engaged in the online sales of certain categories of merchandise such as fresh produce and other perishable products sourced from suppliers, and this operation phased out by the second quarter of 2017. Payments for services or goods were generally received before delivery.

We present value-added taxes and surcharges assessed by government authorities as reductions of revenues. Consistent with the criteria of ASC 605, Revenue Recognition, or ASC 605, we recognize revenue when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been provided, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

In accordance with ASC 605-45, Revenue Recognition—Principal Agent Considerations, or ASC 605-45, we evaluate whether it is appropriate to record the gross amounts of goods and services sold and the related costs, or the net amounts earned as commissions.

Online marketplace services

We provide online marketing services to certain merchants on our marketplace for which we receive service fees from merchants. Online marketing services allow merchants to bid for keywords that match product listings appearing in search results on our marketplace. Merchants prepay for online marketing services that are charged on a cost-per-click basis. The related revenues are recognized when users click the merchants' product listings. The positioning of such listings and the

price for such positioning are determined through an online auction system, which facilitates price discovery through a market-based mechanism. Online marketing services revenues generated on our marketplace are recorded on a gross basis principally because we are the primary obligor to the merchants in the arrangements. Service fees received from merchants in advance of the provision of online marketing services are current liabilities recorded in customer advances.

We also charge commission fees to merchants for sales transactions completed on our online marketplace where we are not the primary obligor to the consumers, nor do we take inventory risk or have latitude over pricing of the merchandise. Commission fees are determined as a percentage based on the value of merchandise being sold by the merchants. Revenues related to commissions are recognized in the consolidated income statements at the time when our services to the merchants are determined to have been completed upon the consumers confirming the receipts of goods. Commission fees are not refundable if and when consumers return the merchandise to merchants.

In order to promote our online marketplace and attract more registered consumers, we at our own discretion issue coupons to consumers. These coupons can be used in purchases of eligible merchandise offered on our marketplace to reduce purchase price that are not specific to any merchant. As the consumers are required to make purchases to redeem the coupons, we recognize the amounts of redeemed coupons as sales and marketing expenses when purchases are made.

During the three months period ended March 31, 2018, we also issued to consumers at our discretion, cash redeemable credits upon their completion of certain actions unrelated to the purchases of merchant products on our online marketplace. As the credits are redeemable for cash, we accrue for the related costs in marketing expenses based on the cash redemption value of each credit as it is issued, assuming all credits will be redeemed. As of March 31, 2018, the amount of outstanding credits was immaterial.

Merchandise sales

When we conduct online sales of certain categories of merchandise such as fresh produce and other perishable products, we are primarily obligated for the merchandise sold to the consumers, take inventory risk and have latitude in establishing prices and selecting suppliers. Revenues from merchandise sales are recorded on the gross basis when the consumers confirm the receipts of goods. Amounts billed to the customers for shipping and handling are also classified as revenues from merchandise sales. Proceeds received in advance of customer acceptance are recorded as current liabilities in customer advances.

Income taxes

We follow the liability method of accounting for income taxes in accordance with ASC 740, Income Taxes, or ASC 740. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the period in which the differences are expected to reverse. We record a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rate is recognized in tax expense in the period that includes the enactment date of the change in tax rate.

We accounted for uncertainties in income taxes in accordance with ASC 740. Interest and penalties related to unrecognized tax benefit recognized in accordance with ASC 740 are classified in the consolidated statements of comprehensive loss as income tax expense.

Measurement of share-based compensation

We adopted a global share incentive plan in 2015, which we refer to as the 2015 Plan in this prospectus, for the purpose of granting share-based compensation awards to employees, directors and consultants to incentivize their performance and align their interests with ours. As of the date of this prospectus, the maximum aggregate number of ordinary shares which may be issued pursuant to all awards under the 2015 Plan is 581,972,860 Class A ordinary shares, subject to adjustment and amendment.

Share-based payment transactions with employees were accounted for as equity awards and measured at their grant date fair values. We recognize compensation expense over the requisite service period using the accelerated method. We elected to early adopt ASU No. 2016-09, Compensation-Stock Compensation (Topic 718): Improvement to Employee Share-based Payment Accounting to account for forfeitures as they occur.

The fair value of share options at the time of grant is determined using the binomial-lattice option pricing model with the assistance of an independent third-party appraiser. The model requires the input of highly subjective assumptions, including the estimated expected share price volatility and the share price upon which our employees are likely to exercise share options, or the exercise multiple. We historically have been a private company and lack information on our share price volatility. Therefore, we estimate our expected share price volatility based on the historical volatility of similar companies that are publicly-traded. When selecting these public companies on which we have based our expected share price volatility, we selected companies with similar characteristics, including invested capital's value, business model, risk profiles, position within the industry, and with historical share price information sufficient to meet the contractual lives of our share options. We will continue to apply this process until a sufficient amount of historical information regarding the volatility of our own share price becomes available. Relating to the exercise multiple, as a private company, we were not able to develop an exercise pattern for reference, thus the exercise multiple is based on management's estimation, which we believe is a representative of the future exercise pattern of the options. The risk-free interest rates for the periods within the contractual life of the option are based on the U.S. Treasury yield curve in effect during the period the options were granted.

The assumptions we adopted to estimate the fair value of share options granted were as follows:

	For the year ended December 31,		For the three months ended March 31,
	2016	2017	2018
Risk-free interest rates	1.75% - 2.66%	2.26% - 2.57%	3.00%
Expected volatility	49.63% - 50.39%	48.08% - 49.35%	48.02%
Expected dividend yield	0%	0%	0%
Exercise multiple	2.80	2.80	2.80
Post-vesting forfeit rate	0%	0%	0%
Fair value of underlying ordinary shares	$0.0308 - $0.0577	$0.0858 - $0.5359	$1.5146
Fair value of share option	$0.0273 - $0.0531	$0.0808 - $0.5302	$1.5090

In order to determine the fair value of our ordinary shares underlying each share option grant, we first determined our equity value and then allocated the equity value to each element of our capital structure (preferred shares and ordinary shares) using a hybrid method comprising the probability-weighted expected return method and the option pricing method. In our case, two scenarios were assumed, namely: (i) the liquidation scenario, in which the option pricing method was adopted to allocate the value between convertible preferred shares and ordinary shares, and (ii) the mandatory conversion scenario, in which equity value was allocated to preferred shares and ordinary shares on an as-if converted basis.

In determining our equity value, we evaluated the backsolve method, the interpolation method, and income approach/discounted cash flow method, or DCF, and applied the method that we considered as the most appropriate in accordance with the guidelines outlined in the American Institute of Certified Public Accountants' Practice Aid, Valuation of Privately-Held Company Equity Securities Issued as Compensation, with the assistance of an independent third-party appraiser. The assumptions we used in the valuation model are based on future expectations combined with management judgement, with inputs of numerous objective and subjective factors, to determine the fair value of ordinary shares, including the following factors:

- our operating and financial performance;
- current business conditions and projections;
- our stage of development;
- the prices, rights, preferences and privileges of our preferred shares relative to our ordinary shares;
- the likelihood of achieving a liquidity event for the ordinary shares underlying the share-based awards, such as an initial public offering;
- any adjustment necessary to recognize a lack of marketability for our ordinary shares; and
- the market performance of industry peers.

The backsolve method is a market approach which is used to solve our implied aggregate equity value by considering our preferred share transactions with unrelated parties that occurred close to the valuation dates. We relied on the use of straight-line interpolation to determine our equity value between equity transactions.

The analysis of DCF is based on the projected cash flows using management's best estimates as of the valuation dates. The determination of fair value requires complex and subjective judgments to be made regarding projected financial and operating results, our unique business risks, the liquidity of our shares and our operating history and prospects at the time of valuation. The major assumptions used in the DCF include:

- Weighted average cost of capital, or WACC: The discount rates applied in the DCF were based on the WACCs determined after considering factors including risk-free rate, comparative industry risk, equity risk premium, company size and non-systematic risk factors.
- Comparable companies: In deriving the WACCs, which are used as the discount rates under the income approach, seven similar publicly traded companies were selected for reference as our guideline companies.
- Discount for lack of marketability, or DLOM: DLOM was quantified based on the European put option price applying the black-scholes model. The valuation of the put option is essentially the insurance a willing buyer would pay to guarantee the marketability and price of the underlying asset in the future. The farther the valuation date is from an expected liquidity event, the higher the put option value would be and thus the higher the implied DLOM. The lower DLOM is used for the valuation, the higher is the determined fair value of the ordinary shares.

The income approach involves applying appropriate discount rates to estimated cash flows that are based on earnings forecasts. The growth rates of our revenues, as well as major milestones that we have achieved, contributed to the fair value of the shares. However, fair value is inherently uncertain and highly subjective. The assumptions used in deriving the fair value are consistent with our business plan. These assumptions include: no material changes in the existing political, legal and economic conditions in China; our ability to retain competent management, key personnel and staff to support

our ongoing operations; and no material deviation in market conditions from economic forecasts. These assumptions are inherently uncertain. The risks associated with achieving forecasts were assessed in selecting the appropriate discount rates.

We believe the increase in the fair value of the ordinary shares of our company from US$1.51 per ordinary share as of March 31, 2018 to US$4.38 per ordinary share, the estimated mid-point of the estimated price range for this offering, was primarily attributable to the following factors:

- We issued Series D preferred shares to a group of investors at a price of US$2.48 per share on March 5, 2018. As our company's preferred shares would be automatically converted into and re-designated as ordinary shares upon the completion of this offering, the increase in the estimated probability of initial public offering's success results in an allocation of a higher portion of our company's business enterprise value to ordinary shares;

- The impending launch of this offering, which will provide us with additional capital, enhances our ability to access capital markets to grow business and enhance our profile and reputation.

- The public filing of the registration statement relating to this offering on June 29, 2018 reduced the uncertainties associated with our company's initial public offering, and significantly lowered the discount for lack of marketability from 19% as of March 31, 2018 to 0.0% upon the completion of this offering;

- Our business continued its strong momentum and grew rapidly during this period, and such growth has exceeded our previous estimate. Our GMV increased from RMB198.7 billion (US$31.7 billion) in the twelve-month period ended March 31, 2018 to RMB262.1 billion (US$41.8 billion) in the twelve-month period ended June 30, 2018. During the same periods, our active buyers increased from 294.9 million to 343.6 million, and our annual spending per active buyer increased from RMB673.9 (US$107.4) to RMB762.8 (US$121.6);

- We achieved substantial increase in our active users, which grew from 166.2 million average monthly active users in the first quarter of 2018 to 195.0 million average monthly active users in the second quarter of 2018;

- Our business model is endorsed by, and our prospective growth and management benefit from, our recently constituted panel of advisors consisting of prominent business leaders and scholars. The support from these global thought leaders has also enabled us to become more institutional and global;

- Our formation of the Pinduoduo Partnership is expected to optimize the sustainability and governance of our company after this offering and better align the interests of our management and stakeholders, and to carry out our vision, mission and value continuously; and

- In addition, a number of China-based companies in the technology, media and telecommunications, or TMT, sector that were recently listed in the U.S. have seen strong increase in stock trading prices since the end of March 2018.

We recognized total share-based compensation expenses of RMB4.1 million and RMB116.5 million (US$18.6 million), for the years ended December 31, 2016 and 2017, respectively. We recognized total share-based compensation expenses of RMB13.6 million (US$2.2 million) in the three months ended March 31, 2018, compared to RMB107.5 million in the three months ended March 31, 2017.

As of March 31, 2018, total unrecognized share-based compensation expense relating to unvested 323.1 million share options, including the 50.8 million share options granted in March 2018, were estimated to be RMB567.5 million (US$90.5 million). The expense is expected to be recognized over a weighted-average period of 5.6 years. In April 2018, we issued 254,473,500 Class A ordinary shares to a company controlled by our founder at the par value of US$0.000005 per share. The difference between

the par value and estimated fair value of ordinary shares on the grant date will be recorded as an one-time share based compensation expense estimated at RMB5,641.2 million (US$899.3 million) as a component of general and administration expenses. In June 2018, we granted 259.4 million share options with estimated fair value of RMB6,142.0 million (US$979.2 million), which is expected to be recognized over a weighted-average period of 7.0 years.

Internal Control Over Financial Reporting

Prior to this offering, we have been a private company with limited accounting personnel and other resources with which we address our internal control over financial reporting. In connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2016 and 2017, we and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, a "material weakness" is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness identified related to our lack of financial reporting and accounting personnel with understanding of U.S. GAAP to address complex U.S. GAAP technical accounting issues, related disclosures in accordance with U.S. GAAP and financial reporting requirements set forth by the SEC. The material weakness, if not timely remedied, may lead to significant misstatements in our consolidated financial statements in the future.

We have implemented and plan to implement a number of measures to address the material weakness that has been identified in connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2016 and 2017. We have hired additional qualified financial and accounting staff with working experience of U.S. GAAP and SEC reporting requirements. We have also established clear roles and responsibilities for accounting and financial reporting staff to address complex accounting and financial reporting issues. Furthermore, we will continue to further expedite and streamline our reporting process and develop our compliance process, including establishing a comprehensive policy and procedure manual, to allow early detection, prevention and resolution of potential compliance issues, and establishing an ongoing program to provide sufficient and appropriate training for financial reporting and accounting personnel, especially training related to U.S. GAAP and SEC reporting requirements. We intend to conduct regular and continuous U.S. GAAP accounting and financial reporting programs and send our financial staff to attend external U.S. GAAP training courses. We also intend to hire additional resources to strengthen the financial reporting function and set up a financial and system control framework. However, we cannot assure you that all these measures will be sufficient to remediate our material weakness in time, or at all. See "Risk Factors—Risks Related to Our Business and Industry—If we fail to implement and maintain an effective system of internal controls to remediate our material weakness over financial reporting, we may be unable to accurately report our results of operations, meet our reporting obligations or prevent fraud."

As a company with less than US$1.07 billion in revenue for our last fiscal year, we qualify as an "emerging growth company" pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting.

Holding Company Structure

Pinduoduo Inc. is a holding company with no material operations of its own. We conduct our operations primarily through our PRC subsidiaries, our VIE and its subsidiaries in China. As a result, Pinduoduo Inc.'s ability to pay dividends depends upon dividends paid by our PRC subsidiaries. If our existing PRC subsidiaries or any newly formed ones incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us. In addition, our wholly foreign-owned subsidiaries in China are permitted to pay dividends to us only out of its retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC law, each of our subsidiaries and our VIE in China is required to set aside at least 10% of its after-tax profits each year, if any, to fund certain statutory reserve funds until such reserve funds reach 50% of their registered capital. In addition, our wholly foreign-owned subsidiaries in China may allocate a portion of their after-tax profits based on PRC accounting standards to a staff welfare and bonus fund at their discretion. The statutory reserve funds and the discretionary funds are not distributable as cash dividends. Remittance of dividends by a wholly foreign-owned company out of China is subject to examination by the banks designated by SAFE. Our PRC subsidiaries have not paid dividends and will not be able to pay dividends until they generate accumulated profits and meet the requirements for statutory reserve funds.

Inflation

To date, inflation in China has not materially affected our results of operations. According to the National Bureau of Statistics of China, the year-over-year percent changes in the consumer price index for December 2015, 2016 and 2017 were increases of 1.6%, 2.1% and 1.6%, respectively. Although we have not been materially affected by inflation in the past, we may be affected if China experiences higher rates of inflation in the future.

Quantitative and Qualitative Disclosures about Market Risk

Foreign exchange risk

Substantially all of our revenues and expenses are denominated in RMB. We do not believe that we currently have any significant direct foreign exchange risk and have not used any derivative financial instruments to hedge exposure to such risk. Although our exposure to foreign exchange risks should be limited in general, the value of your investment in our ADSs will be affected by the exchange rate between U.S. dollar and Renminbi because the value of our business is effectively denominated in RMB, while our ADSs will be traded in U.S. dollars.

The value of Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions and the foreign exchange policy adopted by the PRC government. On July 21, 2005, the PRC government changed its policy of pegging the value of the Renminbi to the U.S. dollar. Following the removal of the U.S. dollar peg, the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the Renminbi to appreciate slowly against the U.S. dollar again, and it has appreciated more than 10% since June 2010. On August 11, 2015, the People's Bank of China announced plans to improve the central parity rate of the Renminbi against the U.S. dollar by authorizing market-makers to provide parity to the China Foreign Exchange Trading Center operated by the People's Bank of China with reference to the interbank foreign exchange market closing rate of the previous day, the supply and demand for foreign currencies as well as changes in exchange rates of major international currencies. Effective from October 1, 2016, the International Monetary Fund added Renminbi to its Special Drawing Rights currency basket. Such change and additional future changes may increase volatility in

the trading value of the Renminbi against foreign currencies. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. Accordingly, it is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between Renminbi and the U.S. dollar in the future.

To the extent that we need to convert U.S. dollars into Renminbi for our operations, appreciation of Renminbi against the U.S. dollar would reduce the Renminbi amount we receive from the conversion. Conversely, if we decide to convert Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs, servicing our outstanding debt, or for other business purposes, appreciation of the U.S. dollar against the Renminbi would reduce the U.S. dollar amounts available to us.

As of March 31, 2018, we had Renminbi-denominated cash and cash equivalents of RMB2,067.4 million. A 10% appreciation or depreciation of Renminbi against the U.S. dollar based on the foreign exchange rate on March 30, 2018 would result in an increase or decrease of US$33.0 million in our cash and cash equivalents.

Interest rate risk

Our exposure to interest rate risk primarily relates to the interest income generated by excess cash, which is mostly held in interest-bearing bank deposits, restricted cash and short-term investments. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed to material risks due to changes in interest rates, and we have not used any derivative financial instruments to manage our interest risk exposure.

After completion of this offering, we may invest the net proceeds we receive from the offering in interest-earning instruments. Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall.

Large and Fast Growing Retail Market in China

China's real GDP reached RMB82.7 trillion (US$13.2 trillion) in 2017, according to the National Bureau of Statistics of China, or NBS. According to International Monetary Fund, or IMF, China's real GDP is projected to grow at a rate of no less than 6.3% per annum through to 2020. Meanwhile, real consumption growth in China is projected to outpace China's real GDP growth at a compound annual growth rate, or CAGR, of 7.5% per annum from 2017 to 2020, according to IMF.

Over the past five years, China's retail market has experienced substantial growth. The total retail sales of consumer goods in China increased from RMB24.3 trillion (US$3.9 trillion) in 2013 to RMB36.6 trillion (US$5.8 trillion) in 2017, according to NBS. China's retail market is expected to continue to experience strong growth, and the overall retail market size is expected to exceed RMB48.0 trillion (US$7.7 trillion) in 2020, according to the Ministry of Commerce's 13th Five-Year Plan for Domestic Trade.

In 2014, population in tier-1 and tier-2 cities amounted to 338 million while population in lower-tier cities and rural areas amounted to 1,030 million, according to NBS. The spending power growth of lower-tier cities population is outpacing that of tier-1 and tier-2 cities, and the increased spending power of these lower-tier cities represent massive opportunities for retailers.

Thriving E-Commerce Industry in China

According to iResearch, China's online retail market has increased from RMB1.9 trillion (US$0.3 trillion) in 2013 to RMB6.1 trillion (US$1.0 trillion) in 2017, representing a CAGR of 33.9%, and is projected to reach RMB10.8 trillion (US$1.7 trillion) by 2020. At the same time, China's online shopping population grew from 302 million in 2013 to 533 million out of 753 million mobile internet users in 2017, according to China Internet Network Information Center, or CNNIC. We believe the following trends are reshaping the future form of the e-commerce market in China:

Penetration of mobile shopping. With the rapid adoption of smartphones and tablets, as well as the development of 4G networks and wifi services, mobile shopping has become the dominant form of online retail in China, as consumers increasingly use their fragmented time to browse and shop anywhere, anytime. According to CNNIC, the mobile internet population in China increased from 500 million in 2013 to 753 million in 2017. The penetration rate of mobile internet in China, as measured by mobile internet population among all internet users, reached 97.5% in 2017, according to the same source. On average, a user in China spent 104.5 hours per month on mobile internet in 2017 compared to 100.7 hours per month in 2016, according to QuestMobile. The ability of users to shop anywhere, anytime during their fragmented time on their mobile devices has contributed to the rise of a discovery-based shopping experience compared with the conventional search-based model on PC.

Extensive logistics infrastructure and convenience of mobile payment. China has developed an extensive and rapidly improving logistics infrastructure, consisting of nationwide, regional and local delivery services covering almost every corner of China. At the same time, the convenience of mobile payment has accelerated its adoption by consumers. As of December 31, 2017, there were 527 million online payment users in China, according to CNNIC, with the penetration rate among mobile users reaching almost 70.0%. The total transaction volume of mobile payments in China is forecasted to reach RMB388.6 trillion (US$62.0 trillion) by 2020, representing a CAGR of 35.9% from 2017, according to iResearch.

Rising spending power in lower-tier cities in China. According to McKinsey, the total spending of lower-tier cities on e-commerce reached that of tier-1 and tier-2 cities for the first time in 2015. Meanwhile, in 2015, China's online shopper base was 257 million in lower-tier cities, compared with

183 million online shoppers in tier-1 and tier-2 cities. As such, lower-tier cities present tremendous potential.

Massive base of small and micro enterprises in China. According to SAIC, the total number of small and micro enterprises in China amounted to more than 73 million in 2017, over 36% of which were retail merchants. These merchants could benefit from more direct access to consumers, and are actively trying to tap into e-commerce to grow their businesses given the scale and growth of the mobile internet population. Through innovative technology infrastructure and marketing tools, e-commerce platforms are capable of enabling these merchants to market to the right consumers with measurable return on investments, establish credibility and build consumer trust, better serve consumers' needs and provide personalized products, which will help merchants increase sales and improve efficiency. In addition, with the implementation of Chinese government's rural vitalization policy, rural e-commerce is on the national agenda. Internet companies with strong operational capabilities are working hard to embrace these policy evolvements.

Emerging New E-commerce

Fueled by these powerful trends, a new form of e-commerce, which is referred to as "new e-commerce," is emerging. New e-commerce focuses on providing consumers with fun, interactive, and convenient shopping experiences and value-for-money products. Key characteristics of new e-commerce include:

- **Spontaneous shopping.** The convenience of mobile shopping and payment presents an opportunity for merchants to continuously connect with consumers and enable consumers to make purchases. This creates a multitude of new consumption scenarios and greatly enables consumers to shop anywhere, anytime.

- **Deepened understanding of users.** The development and integration of technologies such as big data analytics and machine learning have enabled e-commerce platforms to understand their user behaviors and preferences more deeply. Instead of a search-based model where consumers type in keywords to find the products they desire, products are directly displayed and recommended to them, resulting in higher buyer engagement.

- **Social element in shopping behavior.** Young generations in China are native users of mobile internet and social networks and are familiar with using internet in nearly every aspect of their lives, including sharing information and experiences and socializing, which has permeated into their shopping behavior.

- **Enhanced supply chain management.** The massive volume of data generated from a large number of transactions could be utilized to allow manufacturers to achieve more efficient manufacturing and inventory planning and to substantially reduce intermediary costs incurred.

BUSINESS

Overview

We are an innovative and fast growing "new e-commerce" platform that provides buyers with value-for-money merchandise and fun and interactive shopping experiences. Our *Pinduoduo* mobile platform offers a comprehensive selection of attractively priced merchandise, featuring a dynamic social shopping experience that leverages social networks as an effective and efficient tool for buyer acquisition and engagement. As a result of our innovative business model, we have been able to quickly expand our buyer base and establish our brand recognition and market position. We are one of the leading Chinese e-commerce players in terms of GMV and the number of total orders. Our GMV in 2017 and the twelve-month period ended June 30, 2018 was RMB141.2 billion and RMB262.1 billion (US$41.8 billion), respectively. In 2017 and the twelve-month period ended June 30, 2018, the number of total orders placed on our *Pinduoduo* mobile platform reached 4.3 billion and 7.5 billion, respectively.

We pioneered an innovative "team purchase" model on our platform. Buyers can access our platform and make team purchases by either visiting our platform directly or through popular social networks, such as Weixin and QQ. They are encouraged to share product information on such social networks, and invite their friends, family and social contacts to form a shopping team to enjoy the more attractive prices available under the "team purchase" option. As a result, buyers on our platform actively introduce us to and share products offered on our platform and their shopping experiences with their friends, family and social contacts. New buyers in turn refer our platform to their broader family and social networks, generating low-cost organic traffic and active interactions and leading to exponential growth of our buyer base. In the twelve-month periods ended December 31, 2017 and June 30, 2018, the number of active buyers on our platform reached 245 million and 344 million, respectively.

Our large and highly active buyer base has helped attract merchants to our platform, and the scale of our sales volume has encouraged merchants to offer even more competitive pricing and customized products and services to buyers, thus forming a virtuous cycle. In the twelve-month period ended June 30, 2018, we had 1.7 million active merchants on our platform, offering a broad range of product categories.

Our "team purchase" model has transformed online shopping into a dynamic social experience. We have consciously built our platform to resemble a "virtual bazaar" where buyers browse and explore a full spectrum of products on our platform while interacting with one another. In contrast to the conventional search-based "inventory index" model, our platform brings out the fun and excitement of discovery and shopping. This embedded social element has fostered a highly engaged user base. In the fourth quarter of 2017 and second quarter of 2018, average monthly active users for our mobile app were 141 million and 195 million, respectively.

Technology and innovation are at the core of our company. The strong and extensive technology background of our senior management team has led us to the forefront of the e-commerce industry. We have developed our own proprietary technology infrastructure that seamlessly connects our platform with buyers and merchants and supports our business growth. In addition, we have focused on developing our technological strengths in big data analytics, artificial intelligence and machine learning capabilities to efficiently design, manage and operate the services and solutions on our platform.

We have experienced substantial growth since our inception in 2015. We currently generate revenues primarily from online marketplace services. Our revenues grew from RMB504.9 million in 2016 to RMB1,744.1 million (US$278.0 million) in 2017, and grew from RMB37.0 million in the three months ended March 31, 2017 to RMB1,384.6 million (US$220.7 million) in the same period in 2018. We incurred net loss of RMB292.0 million and RMB525.1 million (US$83.7 million) in 2016 and 2017,

respectively. We incurred net loss of RMB201.0 million (US$32.0 million) in the three months ended March 31, 2018, compared to net loss of RMB207.7 million in the three months ended March 31, 2017.

Our Strengths

We believe that the following strengths contribute to our success and differentiate us from our competitors:

Innovative "New E-Commerce" Platform with Rapid Growth

We are an innovative and fast growing "new e-commerce" platform. Our *Pinduoduo* mobile platform is designed to fully integrate with the key features of the emerging new e-commerce to offer a comprehensive selection of value-for-money merchandise and introduce a fun and interactive shopping experience to buyers through our innovative technology and business model. We have experienced exponential growth since our inception in 2015. Our GMV in 2017 and the twelve-month period ended June 30, 2018 was RMB141.2 billion and RMB262.1 billion (US$41.8 billion), respectively. In 2017 and the twelve-month period ended June 30, 2018, the number of total orders placed on our *Pinduoduo* mobile platform reached 4.3 billion and 7.5 billion, respectively.

We leverage social networks as an effective and efficient tool for buyer acquisition and engagement. This feature provides us with low-cost organic traffic, rapid growth of buyer base, and active social interaction as our buyers share their purchase experience and product information with their friends, family and other social contacts. Buyers on our platform actively introduce us and share products offered on our platform through social networks in order to take advantage of attractive lower product prices available under the "team purchase" option, and new buyers in turn refer our platform to their broader networks of friends and families. This interactive feature also transforms online shopping into a fun and interactive experience. The established trust, similar shopping interests and consumption patterns shared among those buyers and their friends and family members help accelerate the growth of our buyer base while keeping our buyer acquisition costs low.

In addition to our marketplace services, we also operated an online direct sales business from which we derived a substantial majority of our revenues from 2015 to 2016. This business no longer generates revenues after we fully transitioned into our current marketplace model in the first quarter of 2017.

Our new e-commerce business model has created a snowball effect that led to our exponential growth. The number of our active buyers and active merchants reached approximately 344 million and 1.7 million, respectively, in the twelve-month period ended June 30, 2018.

Value-for-Money Merchandise with a Strong Focus on Quality Control

Merchants on our platform offer a wide-ranging portfolio of merchandise at attractive prices. Our large and highly active buyer base has helped attract merchants to our platform, and the scale of our sales volume and our ability to enable them to achieve massive sales volume have encouraged merchants to offer more competitive pricing and customized products and services to buyers, thus forming a virtuous cycle. Combined with our operational and cost efficiency, such virtuous cycle allows us to provide highly attractive value-for-money merchandise to our buyers.

We implement strict policies and control measures aimed at ensuring the accuracy of product descriptions on our platform. After a merchant undergoes our registration process and is admitted to our platform but before it is allowed to place any merchandise on our platform or launch a sales event, it must make a deposit to guarantee its compliance with our platform's policies and rules, and the amount of such deposit varies depending on merchandise category. Before the product information is posted on our platform, we leverage our artificial intelligence-based screening system to identify

potential issues and submit questionable merchandise for further review and verification. After the product information has been posted, our system continues to monitor and conduct semantic analysis on buyer reviews, the results of which are used as input for evaluation of the associated merchant's compliance with our policies. If a merchant is found to have violated our policies, we compensate the buyers in accordance with the service agreement with the merchant on our platform. In addition to responding to buyer complaints, our dedicated merchandise control team also conducts randomized test purchases to verify whether product descriptions match the products delivered. A merchant's record of compliance, together with other factors such as its sales volume and buyer feedback and reviews, is taken into account when our platform compiles merchant rankings, which may affect the level of exposure it receives on our platform and in turn affect its sales volume.

Highly Active Buyer Base Cultivated by a Fun and Interactive Shopping Experience

Our buyers explore and purchase value-for-money merchandise through us, and we provide our buyers with a fun and interactive shopping experience. We have consciously built our platform to resemble a "virtual bazaar" where shoppers browse and explore a full spectrum of products on our platform while interacting with one another, in contrast to the conventional search-based "inventory index model." Our buyers can easily share their shopping interests and appealing product information with their friends, family and social contacts and form a team to purchase together. The act of sharing not only brings out the fun and excitement of discovery and shopping, but also enables our buyers to enjoy more attractive prices. While we provide our buyers a fun and interactive shopping experience, the benefit of the scale of sales volume achieved on our platform allows merchants to offer competitive pricing and customized products and services.

We believe this innovative feature fosters a highly interactive and enjoyable shopping experience, and maintains and drives buyer engagement and loyalty. In the twelve months ended December 31, 2017 and June 30, 2018, the number of active buyers on our platform reached 245 million and 344 million, respectively.

Strong Commitment to Technology

Secure and reliable technology is the foundation of our company. We have created a proprietary technology infrastructure that seamlessly connects our platform with buyers and merchants and supports our business growth. We focus on developing our proprietary technologies catered to our scalable and unique operational needs. Our suite of proprietary technologies include big data analytics, artificial intelligence and machine learning capabilities to efficiently design, manage and operate complex services and solutions on our platform, which has powered our exponential growth. For example, we are making progress in leveraging artificial intelligence technologies to generate personalized recommendations for buyers on our platform based on the comprehensive data accumulated, including basic order information as well as behavioral data, such as time spent on browsing and reviewing a particular product and products of similar categories by a buyer. The development of our proprietary technologies has also minimized our reliance on third-party commercial software, reduced our operating costs and given us the flexibility to innovate and rapidly scale our business.

Our employees, with an average age of about 26, are passionate about and eager to embrace technological innovations and advancements. As of March 31, 2018, we had a technology team with more than 700 engineers, over 100 of whom focus on algorithm design and development. Many of our engineers have post-graduate degrees and had prior working experience in Google, Microsoft and leading internet companies in China. Our algorithm engineers are fully involved in all critical operational areas, and have thorough understandings of the computational needs of our different business functions. We believe the capabilities and efficiency of our technology talents have given us a significant competitive edge to solidify our leading position in the rapidly evolving industry.

Experienced Management Team with Extensive Technology and Operational Background

We believe our growth is largely attributable to the technological and operational prowess of our senior management team, which consists of executives with extensive e-commerce, social networks and engineering background and experience. Our founder and chief executive officer, Mr. Zheng Huang, is a serial entrepreneur who has a deep technology background. Prior to founding our company, Mr. Huang founded Xinyoudi Studio in 2011 to develop and operate online games. Prior to that, Mr. Huang founded Ouku.com, a company that operated an online B2C platform for consumer electronics and home appliances, which was subsequently sold in 2010. Mr. Huang started his career at Google's (Nasdaq: GOOG) headquarters in 2004 as a software engineer and project manager. Mr. Huang subsequently relocated to China and was part of the team that established Google China. Mr. Huang was trained as a data scientist and has published numerous works on the subject of data mining, including in top peer reviewed journals, and presented his works in a number of international conferences, such as the ACM SIGMOD Conference and International Conference on Machine Learning. We also have a young, driven and strong executive team that has worked with Mr. Huang for over ten years and has extensive experience in the e-commerce and social networks industries. Our management team's collective experience, strong technology and operational background and entrepreneurial corporate culture have and will continue to pave the way for the successful operation of our business. Our management team also benefits from insights offered by a panel of advisors consisting of prominent business leaders and scholars, including the former president of Goldman Sachs, Mr. John Thornton, current chairman of the board of directors of Kerry Logistics Network, Mr. George Yong-Boon Yeo, and leading artificial intelligence expert, Dr. Qi Lu. We may draw wisdom and expertise from more advisors in the future as our business continues to expand.

Our Strategies

We intend to pursue the following strategies to further grow our business:

Increase Our Buyer Base and Engagement

We plan to increase our marketing efforts to attract more buyers to our platform and convert more existing buyers on our platform to active buyers. We will continue to introduce more interactive features on our platform to enhance buyer engagement and experience. We will also continue to improve the diversity of our buyers and penetrate a larger part of the population.

Expand Merchandise Choices and Offerings

We will further expand our merchandise choices to provide more diversified products to our buyers. We plan to leverage our large and active buyer base and our brand to attract new merchants and offer new merchandise choices as well as more product offerings within each category on our platform. We also plan to deepen our cooperation with more merchants and help them better understand and serve our buyers.

Enhance Brand Recognition and Continue to Adhere to Strict Quality Control

We believe that building our brand and strengthening the reputation of our platform is crucial to our continued success. We plan to increase our marketing efforts across online and offline channels to enhance user awareness and recognition of our platform. In addition, we will continue to implement strict quality control measures to foster trust from buyers.

Further Improve Technology Capability

We seek to continuously strengthen our technologies to improve the efficiency of our platform. We will continue to develop proprietary software and systems to serve our buyers and merchants, such as

streamlined merchant services SaaS systems, and standardized quality control systems. We aim to achieve, through these technology improvement initiatives, better buyer experience, deeper understanding by our merchants of their target buyers, and improved productivity and efficiency of both merchants and us.

Pursue Select Strategic Investment and Expansion Opportunities

We also plan to selectively pursue strategic investments, alliances and acquisition opportunities that are complementary to our business and operations. With the right opportunity, we may seek to expand into international markets and bring our products to more buyers.

Attract and Retain Talents

We intend to continue devoting substantial resources to seek top talents, in particular engineers having strong technology backgrounds and prior experience in large leading internet companies. We are dedicated to providing employees with diversified work environment and a wide range of career development opportunities. We will continue to invest significant resources in employee career development and training opportunities.

Our "New E-Commerce" Platform

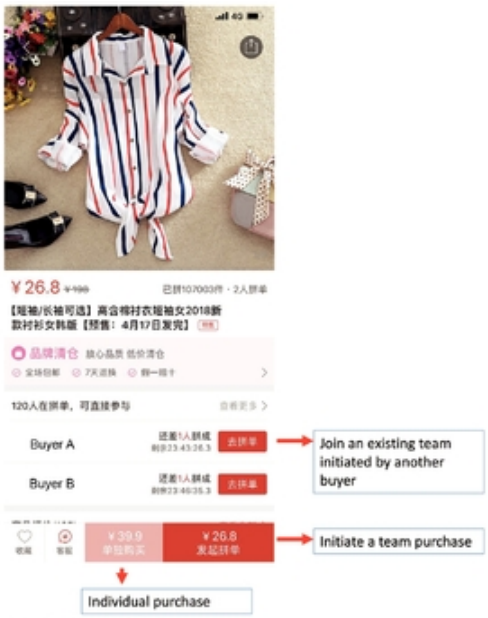
We are an innovative and fast growing "new e-commerce" platform. We are one of the leading Chinese e-commerce players in terms of GMV and the number of total orders. We conduct our business primarily through our *Pinduoduo* mobile platform. Buyers come to our platform to browse, explore and purchase attractive value-for-money merchandise from third-party merchants. The scale of our sales volume and our ability to enable them to achieve massive sales volume have attracted merchants to our platform, and encouraged them to offer more competitive pricing and customized products and services to buyers. Since our inception, the number of our active buyers and active merchants grew exponentially, and reached approximately 344 million and 1.7 million, respectively, in the twelve-month period ended June 30, 2018. In 2017 and the twelve-month period ended June 30, 2018, the number of total orders placed on our *Pinduoduo* mobile platform reached 4.3 billion and 7.5 billion, respectively.

Our platform offers "individual purchase" and "team purchase" options. A buyer who opts for the individual purchase option places the order or transacts with a merchant on an individual basis to get speedier delivery whereas team purchase buyers combine their purchase orders for a particular merchandise with other buyers to enjoy a lower price. Merchants on our platform typically require at least two buyers to team up in order to take advantage of the "team purchase" option. Substantially all of the transactions in 2017 were team purchases.

We cooperate with leading third-party online payment service providers in China, including Weixin Pay, QQ Wallet, Alipay and Apple Pay, and enable our buyers to make payment for their purchases easily and efficiently. We do not depend on any particular provider for such services. Upon an individual purchase order or once a team purchase order is formed on our platform and confirmed to the applicable merchant, the merchant will handle the fulfillment, select the most suitable third-party logistics service provider and arrange for the delivery of products to the buyers.

Our mobile platform layout is designed to provide a buyer-friendly and exciting browsing and shopping experience that resembles a "virtual bazaar." Below are screenshots of our mobile app interface:

Main page – browsing and exploration



Product introduction

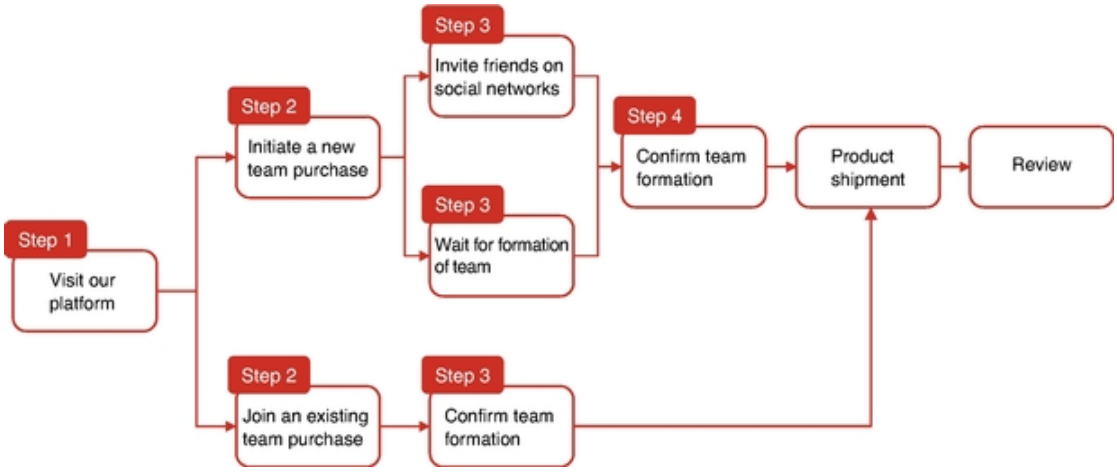
With the seamless integration of our platform with major social networks in China, such as Weixin and QQ, our buyers can quickly and smoothly find other potential buyers to form a team either directly on our app or through sending a team purchase invitation, or sharing product information or their *Pinduoduo* shopping experiences with their friends, family and social contacts. The act of sharing is then rewarded by the attractive purchase price offered through the team purchase option. The embedded social element has also helped foster a highly engaged user base. In the fourth quarter of 2017 and second quarter of 2018, average monthly active users for our mobile app were 141 million and 195 million, respectively.

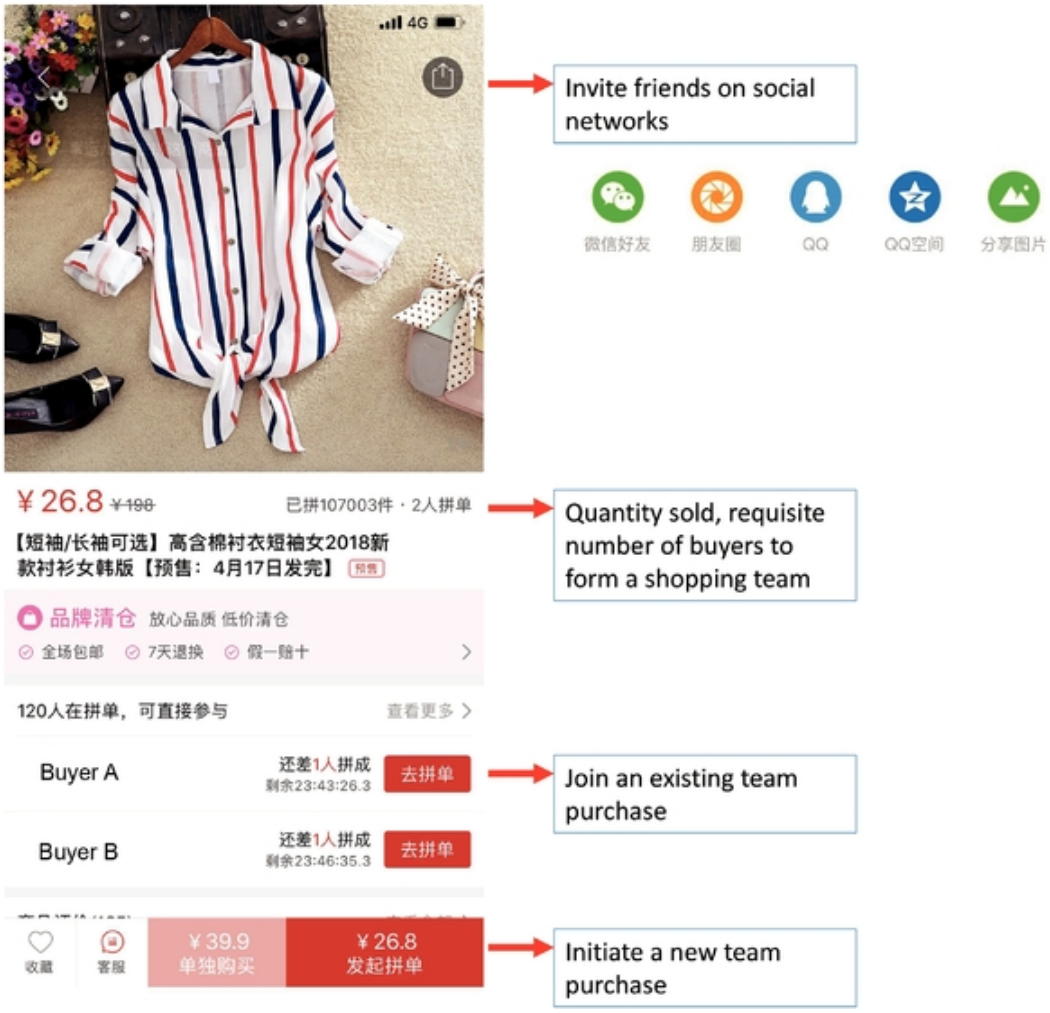
Our Team Purchase Model

We pioneered an innovative "team purchase" model on our platform. For each product on our platform, a buyer can choose between buying the product individually or initiating or joining a team purchase. Team purchasers typically enjoy a lower price but the purchase order will only be confirmed once a team is formed.

A buyer can initiate a team purchase and share product information on social networks, such as Weixin and QQ, to invite his or her social contacts to form a shopping team. The buyer's social contacts can in turn refer our platform to their social contacts easily and thus reach even more potential buyers. After initiating a team purchase, a buyer may also wait for other buyers on our platform to join the team purchase. Alternatively, a buyer can choose to join an active team purchase listed on our platform, which is initiated by other buyers who may or may not be his or her social contacts. After a team purchase is initiated, it will have 24 hours to meet the minimum team size mandated by the merchant. As soon as the minimum number of buyers is reached, the team purchase will be confirmed. If the minimum team size is not reached within 24 hours, the team purchase order will be cancelled, and all payments made by the buyers will be refunded.

The chart and screenshot below illustrate the steps to complete a team purchase on our platform and the key features of our team purchase option:





The team purchase option allows us to acquire buyers effectively and efficiently and expand our buyer base organically. Buyers refer our platform to their social contacts in order to take advantage of the more attractive team purchase prices compared to the individual purchase option. The new buyers in turn introduce our platform to even more buyers. The established trust, similar shopping interests and consumption patterns shared among our buyers and their friends, family members and other social network contacts help enhance buyer engagement, grow our buyer base while keeping buyer acquisition costs low.

After the buyers receive the products, they may return to the product description pages and leave reviews on the purchased products and their shopping experiences.

Our Buyers

Direct buyer traffic to our platform is primarily generated from word-of-mouth referrals by our existing buyers as well as the effect of our marketing campaigns. A portion of our buyer traffic comes from our user recommendation or product introduction feature which buyers can share with friends or contacts through social networks such as Weixin and QQ. In addition, buyers may also access our platform and make purchases via our mini-program within Weixin directly. Mini-program is a light feature embedded in Weixin to facilitate discovery and download of stand-alone mobile apps. It is an enhancement of Weixin official accounts and is designed to connect service providers with mobile users. This embedded feature is currently provided to service providers for free, and the user interface of our mini-program is substantially identical to our own mobile app with the same product offerings by the same merchants. Therefore, the manner in which a buyer accesses our platform does not affect the way in which we derive our revenues. Due to the nature of our business model, which resembles a dynamic and interactive shopping experience, it is impracticable for us to accurately bifurcate and quantify the buyer traffic generated directly through our platform and through social networks. Therefore, during our daily operations, we focus more on the GMV on our platform as a whole and the seamless user experience across different access points, and believe that the final purchase destination cannot be used to reflect the significance of social networks and our *Pinduoduo* mobile app to our business operations.

For nonperishable products sold on our platform, we require our merchants to strictly abide by a seven-day return period policy—the buyers can return the products within that period so long as the product is in its original condition and any usage does not affect the merchants' ability to resell. Once a buyer submits a return request, the applicable merchant will first review and process the request. In the event that the request cannot be resolved within 48 hours or a dispute escalates, we will be involved to resolve such dispute.

Our Merchandise Selection

We provide a comprehensive suite of product categories on our platform, including apparel, shoes, bags, mother and childcare products, food and beverage, fresh produce, electronic appliances, furniture and household goods, cosmetics and other personal care items, sports and fitness items and auto accessories. Our GMV in 2017 and the twelve-month period ended June 30, 2018 was RMB141.2 billion and RMB262.1 billion (US$41.8 billion), respectively. In the twelve-month period ended June 30, 2018, our platform had 1.7 million active merchants on our platform.

Merchants on our platform set the price for their products. We encourage merchants to offer the most attractive prices for merchandise sold on our platform. Two listed prices typically apply to each merchandise, one for the individual purchase option and a lower price for the team purchase option. Due to the large sales volume generated on our platform, some of the merchants on our platform also set aside exclusive product supplies for us and offer the most competitive pricing for our buyers.

At the same time, we implement strict policies and control measures aimed at ensuring the accuracy of product descriptions on our platform. After a merchant undergoes our registration process

and is admitted to our platform but before it is allowed to place any merchandise on our platform or launch a sales event, it must make a deposit to guarantee its compliance with our platform's policies and rules, and the amount of such deposit varies depending on merchandise category. Before the product information is posted on our platform, we leverage our artificial intelligence-based screening system to identify potential issues and submit questionable merchandise for further review and verification. After product information has been posted, our system continues to monitor and conduct semantic analysis on buyer reviews, the results of which are used as input for evaluation of the associated merchant's compliance with our policies. If a merchant is found to have violated our policies, we compensate the buyers in accordance with the service agreement with the merchant on our platform. In addition to responding to buyer complaints, our dedicated merchandise control team also conducts randomized test purchases to verify whether product descriptions match the products delivered. A merchant's record of compliance, together with other factors such as its sales volume and buyer feedback and reviews, is taken into account when our platform compiles merchant rankings, which may affect the level of exposure it receives on our platform and in turn affect its sales volume.

Our Services and Values to Merchants

Our merchants benefit from our broad buyer reach and the high sales volume on our platform as well as value-added services such as online marketing services, data analysis and advice. We provide online marketing services to help merchants promote their merchandise more effectively. Listings of merchandises offered by paying merchants are prioritized and displayed more prominently than others in the search results.

In addition, we strive to leverage big data analytics and artificial intelligence capabilities to optimize the entire supply chain from buyers to manufacturers and provide solutions. The large scale of our business gives us extensive data, enabling us to better understand and serve our buyers and to better predict sales volume of certain merchandise. Such feedback on consumer preference and potential sales volume could provide merchants with manufacturing capability with better visibility of demand of their products to achieve better inventory planning and higher operational efficiency. In some cases, manufacturers could further provide personalized products that can cater to buyers' needs.

As a pioneer of the new e-commerce trend, we are an early contributor to the "Internet + Agriculture" initiative. By applying our "team purchase" model to agricultural products, we are able to quickly identify and aggregate end consumers' preferences and directly channel our insights to farmers and producers, eliminating layers of inefficiencies in the agricultural supply chain. Our platform directly connects urban consumers with farmers and producers in rural areas and offers varieties of fresh produce shipped directly from production bases. Moreover, arable land is relatively spread out in China, resulting in scattered agricultural production. Our "*pin*" or "team purchase" business model improves the operational efficiencies in production and logistics links by aggregating demand and supply data, thereby allowing producers to have better market visibility and focus on providing more competitive pricing and more comprehensive product offerings at scale.

In 2017, we enabled and supported a total of approximately 48,000 merchants located in 730 national-level poverty-stricken counties in China to sell their agricultural products on our platform. We plan to step up our efforts and provide more platform-wide support to such merchants on our platform.

Technology

Our smooth operation and rapid growth are supported by our proprietary technology. Our leading technology team, coupled with our proprietary technology infrastructure and the large volume of data generated and collected on our platform each day, have created opportunities for continuous improvements in our technology capabilities, which in turn draws new talents to join us. As of March 31, 2018, we had a technology team with more than 700 engineers, over 100 of whom focus on

algorithm design and development. Many of our engineers have post-graduate degrees and had prior working experience in Google, Microsoft and leading internet companies in China. Key components of our technology include:

Big Data Analytics Platform

We build our big data analytics capability upon our distributed computing infrastructure that can efficiently handle complex computing tasks of billions of data instances and millions of analytical dimensions. Based on buyers' purchase behaviors and usage patterns, we leverage big data analytics and artificial intelligence technology to optimize our operation and enhance user experience. For example, we not only look into the basic order information but also buyer behavioral data such as how long such buyer spent on browsing and reviewing a particular product and products of similar categories. We then strive to build predictive and statistical models based on the big data we have accumulated.

The seamless collaboration among our technology and operational teams, together with our big data analytics capability, give us a significant edge in operational efficiency. Our algorithm engineers are fully involved in all critical operational areas. They have thorough understanding of the computational needs from different business segments, and are therefore capable of providing technological support to address diversified needs in operating our business.

Artificial Intelligence and Machine Learning

With access to a massive amount of data, we believe we are in a unique position to capitialize on the use of artificial intelligence and machine learning technologies in the new e-commerce arena. To date, we have applied various artificial intelligence and machine learning technologies on our platform in multiple areas to enhance user experience.

For example, we are gradually applying artificial intelligence technology to establish user profiling and model iteration, which may enable us to provide more accurate recommendation of products to our buyers to maximize consumer satisfaction.

Our deep learning capabilities accelerate our innovations in areas such as image recognition, speech recognition, text and voice interaction, item recommendation and automated question answering.

Data Security and Protection

We have established a comprehensive security system, supported by our network situational awareness and risk management system, that spans from the individual end users across our entire network, covering our platforms, data and services. Our back-end security system is capable of handling hundreds of millions of instances of malicious attacks each day to safeguard the security of our platform and to protect the privacy of our buyers and merchants.

We have a data security team of engineers and technicians dedicated to protecting the security of our data. We have also adopted strict data protection policy to ensure the security of our proprietary data. We collect anonymized, non-confidential user behavior and pattern data based on their interactions with our platform through our social networks partners, which have been pre-processed to exclude user identity or other sensitive information. We encrypt confidential personal information we gather from our own platform. To ensure data security and avoid data leakage, we have established stringent internal protocols under which we grant classified access to confidential personal data only to limited employees with strictly defined and layered access authority. We strictly control and manage the use of data within our various departments and do not share data with external third parties, nor do we cooperate with third-party vendors in data analytics efforts.

Marketing

We have been able to build a large base of loyal buyers primarily through word-of-mouth referrals via social networks. To enhance our brand awareness, we also conduct online and offline marketing and brand promotion activities, including sponsoring high-profile shows and events and running commercials on national television networks. For example, in 2017, we became the official sponsor of Sing! China, a popular reality television singing variety show in China. Furthermore, we offer coupons from time to time to stimulate buyer engagement on our platform. In addition, we host various offline marketing activities to merchants to promote our brand image and the value of our online marketplace services.

Competition

The e-commerce industry in China is intensely competitive. Our current or potential competitors include (i) major e-commerce companies in China, (ii) major traditional and brick-and-mortar retailers in China, and (iii) retail companies in China focused on specific product categories.

We compete primarily on the basis of:

- our large and active buyer base;
- the fun and interactive shopping experiences on our platform;
- our ability to seamlessly connect e-commerce with social networks;
- pricing of products sold on our platform;
- our ability to attract and retain merchants;
- product quality and selection;
- brand recognition and reputation; and
- the experience and expertise of our management team.

We believe that we are well-positioned to effectively compete on the basis of the factors listed above. However, our competitors may have longer operating histories, greater brand recognition, better supplier relationships, stronger infrastructure, larger user bases or greater financial, technical or marketing resources than we do, and they may also offer "team purchase" or other similar models on their platforms.

Seasonality

We experience seasonality in our business, reflecting a combination of seasonal fluctuations in internet usage and traditional retail seasonality patterns. For example, we generally experience less buyer traffic and purchase orders during the Chinese New Year holiday season in the first quarter of each year. Furthermore, sales are significantly higher in the fourth quarter of each calendar year than in the preceding three quarters. E-commerce companies in China hold special promotional campaigns on November 11 and December 12 each year that boost sales in the fourth quarter relative to other quarters, and we hold a special promotional campaign in the fourth quarter of each year to celebrate the anniversary of the founding of our platform. Overall, the historical seasonality of our business has been relatively mild due to our rapid growth but may increase further in the future. Due to our limited operating history, the seasonal trends that we have experienced in the past may not apply to, or be indicative of, our future operating results.

Intellectual property

As of March 31, 2018, we owned 16 computer software copyrights in China relating to various aspects of our operations and maintained approximately 190 trademark registrations inside China and

26 trademark registrations outside China. We also had approximately 40 trademark applications inside China. Our registered domain names include *www.pinduoduo.com*, among others.

Employees

As of December 31, 2017, we had a total of 1,159 employees. We had a total of 455 and 531 employees as of December 31, 2015 and 2016, respectively.

The following table gives breakdowns of our employees as of December 31, 2017 by function:

	As of December 31, 2017
Function:	
Sales and marketing	208
Product development	545
Platform operation	306
Management and administration	100
Total	1,159

We place great emphasis on our corporate culture to ensure that we maintain consistently high standards everywhere we operate. We are dedicated to providing employees with social benefits, diversified work environment and a wide range of career development opportunities. We have invested significant resources in employee career development and training opportunities. For example, we have established training programs that cover topics such as our corporate culture, employee rights and responsibilities, team-building, professional conduct and job performance. We are committed to making continued efforts to provide better working environment and benefits to our employees.

As required by regulations in China, we participate in various government statutory employee benefit plans, including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan. We are required under PRC law to contribute to employee benefit plans at specified percentages of the salaries, bonuses and certain allowances of our employees up to a maximum amount specified by the local government from time to time.

We enter into standard labor contracts with our employees. We also enter into standard confidentiality and non-compete agreements with all of our senior management and employees. The non-compete restricted period typically expires two years after the termination of employment, and we agree to compensate the employee with a certain percentage of his or her pre-departure salary during the restricted period.

We believe that we maintain a good working relationship with our employees, and we have not experienced any major labor disputes.

Corporate Social Responsibility

Corporate social responsibility has been central to how we do business, starting with operating with integrity in all we do and extending to serving the community at large in China.

Our chairman and chief executive officer, Mr. Zheng Huang, strongly believes in giving back to social causes and communities in need and is an adamant advocate for using science and technology to benefit our society. To that end, Mr. Huang plans to establish a private charitable foundation. This foundation will focus on supporting our employees who have emergency needs and promoting corporate social responsibility efforts that are consistent with our values, beliefs and vision. Mr. Huang plans to set aside approximately 2.3% of our total outstanding shares that are beneficially owned by

him before the completion of this offering to fund this foundation. We will establish a management committee consisting of our management team or members of Pinduoduo Partnership to supervise the allocation of the fund to worthy causes and initiatives and manage its daily operations.

Mr. Huang also plans to establish an additional private charitable foundation to support scientific and medical research and frontier technology. This foundation is to be funded by his ownership stake in our company with a size to be determined.

Insurance

We provide social security insurance including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan for our employees. We do not maintain business interruption insurance, nor do we maintain product liability insurance or key-man life insurance.

Properties and Facilities

Our principal executive offices are located on leased premises comprising approximately 11,200 square meters in Shanghai, China. Our principal executive offices are leased from independent third parties, and we plan to renew our lease from time to time as needed.

Our servers are hosted in leased internet data centers in different geographic regions in China. We typically enter into leasing and hosting service agreements with these internet data center providers that are renewed periodically. We believe that our existing facilities are sufficient for our current needs, and we will obtain additional facilities, principally through leasing, to accommodate our future expansion plans.

Legal Proceedings

From time to time, we may be involved in disputes and legal or administrative proceedings in the ordinary course of our business, including actions with respect to product quality complaints, breach of contract, labor and employment claims, copyright, trademark and patent infringement, and other matters. For example, in July 2018, a complaint was filed against us in the U.S. alleging trademark infringement regarding certain allegedly counterfeit and unauthorized merchandise sold on our platform. We believe the claims do not have merit and intend to defend ourselves vigorously. We are currently not a party to any material legal or administrative proceedings.

REGULATION

This section sets forth a summary of the most significant rules and regulations that affect our business and operations in China or the rights of our shareholders to receive dividends and other distributions from us.

Regulations Relating to Foreign Investment

Guidance Catalogue of Industries for Foreign Investment

Investment activities in the PRC by foreign investors are principally governed by the Guidance Catalogue of Industries for Foreign Investment, which was promulgated and is amended from time to time by the Ministry of Commerce, or MOFCOM, and the National Development and Reform Commission, or NDRC. In June 2017, MOFCOM and NDRC promulgated a revision of the Guidance Catalogue of Industries for Foreign Investment, or the Catalogue, effective July 2017. Industries listed in the Catalogue are divided into three categories: encouraged, restricted and prohibited. Industries not listed in the Catalogue are generally deemed as constituting a fourth "permitted" category. Establishment of wholly foreign-owned enterprises is generally allowed in encouraged and permitted industries. Some restricted industries are limited to equity or contractual joint ventures, while in some cases Chinese partners are required to hold the majority interests in such joint ventures. In addition, foreign investment in restricted category projects is subject to government approvals. Foreign investors are not allowed to invest in industries in the prohibited category. Industries not listed in the Catalogue are generally open to foreign investment unless specifically restricted by other PRC regulations.

In June 2018, MOFCOM and NDRC promulgated the Special Management Measures (Negative List) for the Access of Foreign Investment, or the Negative List, effective July 2018. The Negative List expands the scope of permitted industries by foreign investment by reducing the number of industries that fall within the Negative List where restrictions on the shareholding percentage or requirements on the composition of board or senior management still exists. Foreign investment in value-added telecommunications services (except for e-commerce) falls within the Negative List.

In October 2016, MOFCOM issued the Interim Measures for Record-filing Administration of the Establishment and Change of Foreign-invested Enterprises, or FIE Record-filing Interim Measures, most recently amended in July 2017. Pursuant to FIE Record-filing Interim Measures, the establishment and change of foreign-invested enterprises are subject to record-filing procedures, instead of prior approval requirements, provided that such establishment or change does not involve special entry administration measures. If the establishment or change of foreign-invested enterprises matters involve the special entry administration measures, the approval of the Ministry of Commerce or its local counterparts is still required.

Pursuant to the Provisions on Administration of Foreign-Invested Telecommunications Enterprises promulgated by the State Council in December 2001 and most recently amended in February 2016, or the FITE Regulations, the ultimate foreign equity ownership in a value-added telecommunications services provider may not exceed 50%. Moreover, for a foreign investor to acquire any equity interest in a value-added telecommunication business in China, it must satisfy a number of stringent performance and operational experience requirements, including demonstrating good track records and experience in operating value-added telecommunication business overseas. Foreign investors that meet these requirements must obtain approvals from the Ministry of Industry and Information Technology, or MIIT, and MOFCOM or their authorized local counterparts, which retain considerable discretion in granting approvals. MIIT issued the Circular on Strengthening the Administration of Foreign Investment in and Operation of Value-added Telecommunications Business, or the MIIT Circular, in July 2006. The MIIT Circular reiterated the regulations on foreign investment in telecommunications businesses, which require foreign investors to set up foreign invested enterprises and obtain telecommunications business operating licenses to conduct any value-added telecommunications

business in China. Under the MIIT Circular, a domestic company that holds an telecommunications business operating licenses is prohibited from leasing, transferring or selling the license to foreign investors in any form, and from providing any assistance, including providing resources, sites or facilities, to foreign investors that conduct value-added telecommunications business illegally in China.

Pursuant to publicly available information, the PRC government has issued telecommunications business operating licenses to only a limited number of FIEs, most of which are Sino-foreign joint ventures engaging in the value-added telecommunication business. In June 2015, MIIT issued the Circular on Removing the Restrictions on Equity Ratio Held by Foreign Investors in Online Data Processing and Transaction Processing (Operating E-Commerce) Business to amend the relevant provisions in the FITE Regulations, allowing foreign investors to own more than 50% of equity interest in an operator that "conducts e-commerce" business. However, other requirements provided by the Foreign Investment Telecommunications Rules (such as the track record and experience requirement for a major foreign investor) still apply, and foreign investors are still prohibited from holding more than 50% of equity interest in a provider of other subcategories of value-added telecommunications services.

To comply with PRC laws and regulations, we rely on contractual arrangements with our VIE to operate our e-commerce business in China. See "Risk Factors—Risks Related to Our Corporate Structure—We rely on contractual arrangements with our VIE and its shareholders for a large portion of our business operations, which may not be as effective as direct ownership in providing operational control."

Draft Foreign Investment Law

In January 2015, MOFCOM published a draft Foreign Investment Law for public comment. Since then, MOFCOM has not yet published an updated draft and none of the government authorities has taken any formal action to adopt the law. The draft Foreign Investment Law purports to change the existing "case-by-case" approval regime to a "filing or approval" procedure for foreign investments in China. According to the draft Foreign Investment Law, MOFCOM, together with other relevant authorities, will determine a catalogue for special administrative measures, or "negative list." Foreign investments in the restricted industries must apply for approval from the foreign investment administration authority, whereas foreign investments in business sectors outside of the "negative list" will only be subject to filing procedures.

MOFCOM suggests both registration and approval as potential options for the regulation of variable interest entity structures, depending on whether they are "Chinese controlled" or "foreign controlled." One of the core concepts of the draft Foreign Investment Law is "de facto control," which is broadly defined and emphasizes substance over form in determining whether an entity is "Chinese controlled" or foreign controlled. "De facto control" can be established if a person has the power to exert decisive influence on an entity, via contractual or trust arrangements, over the subject entity's operations, financial matters or other key aspects of business operations. The draft Foreign Investment Law specifically provides that entities established in China but "controlled" by foreign investors, such as via contracts or trusts, will be treated as foreign-invested enterprises, or FIEs, whereas an investment in China in the foreign investment-restricted industries by a foreign investor may nonetheless apply for treatment as a PRC domestic investment if the foreign investor is determined to be "controlled" by PRC entities and/or citizens. According to the draft Foreign Investment Law, VIEs would also be deemed to be FIEs, if they are ultimately "controlled" by foreign investors, and be subject to the restrictions on foreign investments. We cannot assure you that relevant PRC government agencies will hold the view that the contractual arrangements with our VIE under which we operate our e-commerce business will be treated as a domestic investment, or our operation of e-commerce platform services will not be classified as a "prohibited business" under the Foreign Investment Law when it is officially enacted.

Licenses, Permits and Filings

The PRC government extensively regulates the telecommunications industry, including the internet sector. The State Council, MIIT, MOFCOM, SAIC, the former State Administration of Press, Publication, Radio, Film and Television (which has been replaced by the State Administration of Radio and Television), and other relevant government authorities have promulgated an extensive regulatory scheme governing telecommunications, on-line sales and e-commerce. New laws and regulations may be adopted from time to time that will require us to obtain additional licenses and permits in addition to those that we currently have, and will require us to address new issues that arise from time to time. In addition, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to the telecommunications, on-line sales and e-commerce. See "Risk Factors—Risks Related to Our Business and Industry—Any lack of additional requisite approvals, licenses or permits required due to regulatory changes of PRC governmental authorities or failure to comply with any requirements of PRC laws and regulations may materially and adversely affect our daily operations and hinder our growth."

We are required to hold certain licenses and permits and to make certain filings with the relevant PRC governmental authorities in connection with various aspects of our business, including the following:

Value-Added Telecommunication Business Operating Licenses

In September 2000, the Telecommunications Regulations of the People's Republic of China, or the Telecom Regulations, were issued by the State Council as the primary governing law on telecommunication services. The Telecom Regulations set out the general framework for the provision of telecommunication services by PRC companies. Under the Telecom Regulations, telecommunications service providers are required to procure operating licenses prior to their commencement of operations. The Telecom Regulations draw a distinction between "basic telecommunications services" and "value-added telecommunications services." A "Catalog of Telecommunications Business" was issued as an attachment to the Telecom Regulations to categorize telecommunications services as basic or value-added. In December 2015, MIIT released the Catalog of Telecommunication Business (2015 Revision), or the 2015 Telecom Catalog, effective March 2016. Under the 2015 Telecom Catalog, both the online data processing and transaction processing business (*i.e.*, operating e-commerce business) and information service business, continue to be categorized as value-added telecommunication services, and the information service business as defined under the 2015 Telecom Catalog includes information release and delivery services, information search and query services, information community platform services, information real-time interactive services, and information protection and processing services.

In March 2009, MIIT issued the Administrative Measures for Telecommunications Business Operating Permit, or the Telecom Permit Measures, effective 2009 and most recently amended in July 2017. The Telecom Permit Measures confirm that there are two types of telecom operating licenses for operators in China, namely, licenses for basic telecommunications services and licenses for value-added telecommunications services. The operation scope of the license will detail the permitted activities of the enterprise to which it is granted. An approved telecommunication services operator shall conduct its business in accordance with the specifications recorded on its value-added telecommunication business operating licenses, or VATS Licenses. In addition, a VATS License holder is required to obtain approval from the original permit-issuing authority prior to any change to its shareholders or business scope. In February 2015, the State Council has issued the Decisions on Cancelling and Adjusting a Batch of Administrative Approval Items, which, among others, replaced the pre-registration approval requirement for telecommunications business with post-registration approval requirement.

In September 2000, the State Council promulgated the Administrative Measures on Internet Information Services, or the Internet Measures, most recently amended in January 2011. Under the Internet Measures, commercial internet content-related services operators shall obtain a VATS License for internet content provision business, or the ICP License, from the relevant government authorities before engaging in any commercial internet content-related services operations within China.

Our consolidated affiliated entity, Shanghai Xunmeng, the main operating entity which provides platform service to third-party merchants for their sales of products, has obtained a VATS License for online data processing and transaction processing business (operating e-commerce, excluding internet finance and e-hailing services) and internet information services (excluding information search and inquiry services and real-time interactive information services) from Shanghai Communications Administration, and this license will expire in August 2022. Another consolidated affiliated entity, Hangzhou Aimi, has obtained a VATS License for online data processing and transaction processing business (operating e-commerce, excluding internet finance and e-hailing services) and internet information services (excluding information search and inquiry services and real-time interactive information services). The license was issued by Zhejiang Communications Administration and is scheduled to expire in July 2020.

Internet Drug Information Service Qualification Certificate

The State Food and Drug Administration, or the SFDA (which has now been merged into SAIC), promulgated the Administrative Measures on Internet Drug Information Service in July 2004, most recently amended in November 2017, and certain implementing rules and notices thereafter. These measures set out regulations governing the classification, application, approval, content, qualifications and requirements for internet drug information services. An internet information service operator that provides information regarding drugs or medical equipment must obtain an Internet Drug Information Service Qualification Certificate from the province-level counterpart of the SFDA. Shanghai Xunmeng holds an Internet Drug Information Service Qualification Certificate issued by the Shanghai Municipal Food and Drug Administration for the provision of internet medical information services, which will remain valid until January 2022.

Filing by Online Trading Platforms Providing Services for the Distribution of Publications

We are also subject to regulations relating to online trading platform services provided for distribution of publications including books and audio-video products. Pursuant to the Regulation on the Protection of the Right to Network Dissemination of Information promulgated by the State Council in July 2006 and amended in January 2013, a network service provider of information storage, searching and linking services, should delete or disconnect the link to the work, performance or audio-video products suspected of infringing on other's right immediately upon receiving a notice alleging such infringement issued by the owner of such work, performance or audio-video products. According to the Provisions on the Administration of the Publication Market, or the Provisions, which were jointly promulgated by General Administration of Press and Publication and MOFCOM in May 2016, effective June 2016, an online trading platform that provides services for the distribution of publications shall complete filing formalities with the competent publication administrative authority, and is required to examine the identity of a dealer distributing publications through the platform, verify its business license and Publications Operation Permit, establish a mechanism to prevent and control the trading risks and take effective measures to rectify illicit actions conducted by the dealers distributing publications on the platform. If any entity subject to such requirements fails to complete the filing or fails fulfill the relevant duties of examination and management in accordance with the Provisions, it may be subject to an order to cease illegal acts and a warning by the competent publication administrative authority, as well as a penalty not exceeding RMB30,000. Shanghai Xunmeng has completed the required filing formalities with the relevant publication authority.

Filing by Third-Party Platforms Providers for Medical Device Online Trading Services

The SFDA promulgated the Measures for the Supervision and Administration of Online Sale of Medical Devices in December 2017, which became effective in March 2018. Pursuant to such measures, a provider of a third-party platform for online trading services for medical devices shall complete filing procedures with the competent provincial food and drug administrative department. According to the measures, a provider of a third-party platform for online trading services for medical devices that fails to complete the filing in accordance with the measures may be ordered by the competent provincial food and drug administrative department to make rectification within a prescribed time limit, and failure to make such rectification may be subject to public exposure of incompliance and a penalty of not exceeding RMB30,000. As of the date of this prospectus, Shanghai Xunmeng is in the process of applying for filing with the competent food and drug administrative department.

Filing by Third-Party Platform Providers for Online Food Trading

In July 2016, the SFDA promulgated the Measures for Investigation and Handling of Illegal Acts Involving Online Food Safety, pursuant to which a third-party platform provider for online food trading in the PRC shall file a record with the food and drug administration at the provincial level and obtain a filing number. Where an online food trading third-party platform provider fails to complete such filing, the provider may be ordered to make rectifications and given a warning by the competent food and drug administration, and failure to make such rectification may be subject to fines ranging from RMB5,000 to RMB30,000. Shanghai Xunmeng has completed the required filing formalities with the competent food and drug administration.

Regulations Relating to E-Commerce

China's e-commerce industry is at an early stage of development, and there are few PRC laws or regulations specifically regulating the e-commerce industry. In May 2010, SAIC adopted the Interim Measures for the Administration of Online Commodities Trading and Relevant Services, which took effect in July 2010. Under these measures, enterprises or other operators which engage in online commodities trading and other services and have been registered with SAIC or its local branches must make the information stated in their business license available to the public or provide a link to their business license on their website. Online distributors must adopt measures to ensure the security of online transactions, protect online shoppers' rights and prevent the sale of counterfeit goods. Information on products and transactions released by online distributors must be authentic, accurate, complete and sufficient.

In January 2014, SAIC adopted the Administrative Measures for Online Trading, or the Online Trading Measures, which terminated the above interim measures and took effect in March 2014. Under the Online Trading Measures, e-commerce platform operators shall examine and register the identity information of the merchants applying for having access to their platforms, archive such information which shall be kept verified and updated regularly. It is further provided that e-commerce platform operators shall make publicly available the link to or the information contained in the business licenses of such merchants (in the case of business entities) or a label confirming the verified identity of the merchants (in the case of individuals). A consumer is entitled to return the commodities within seven days from the date after receipt of the commodities without giving a reason, except for the following commodities: customized commodities, fresh and perishable commodities, audio-visual products downloaded online or unpackaged by consumers and computer software and other digital commodities, and newspapers and journals that have been delivered. The online commodity operators shall, within seven days upon receipt of the returned commodities, provide full refunds to consumers for relevant commodities. In addition, operators shall not, by using contractual terms or by other manners, set out the provisions that are not fair or reasonable to consumers such as those that exclude or restrain consumers' rights, relieve or exempt operators' responsibilities, and increase the consumers' responsibilities, and shall not, by using contractual terms and by technical means, conduct transactions in a forcible manner.

In December 2013, the PRC government launched the legislative procedure for E-Commerce Law and published the first draft in December 2016. In June 2018, the third draft of E-Commerce Law was reviewed by the standing committee of the National People's Congress. The draft E-commerce Law proposes a series of requirements on e-commerce operators including individuals and entities carrying out business online, e-commerce platform operators and merchants within the platform. For example, the draft E-Commerce Law requires e-commerce operators to respect and equally protect consumers' legitimate rights and provide options to consumers without targeting their personal characteristics, and also requires e-commerce operators to clearly point out to consumers their tie-in sales in which additional services or products are added by merchants to a purchase, and not to assume consumers' consent to such tie-in sales by default. The e-commerce platform operators are required under the draft E-Commerce Law to establish a credit evaluation system and publicize the credit evaluation rules, and provide consumers with ways to evaluate products sold or services provided within the platform. Moreover, according to the draft E-Commerce Law, e-commerce platform operators who fail to take necessary actions when they know or should have known that the merchants within the platform infringe others' intellectual property rights or the products or services provided by the merchants do not meet the requirements for personal and property security, or otherwise infringe upon consumers' legitimate rights, will be imposed a joint liability with the merchants; with respect to the products or services affecting consumers' life and health, the e-commerce platform operators will be held jointly liable with the merchants they fail to review the qualifications of merchants or fail to safeguard the interests of the consumers.

In March 2016, the State Administration of Taxation, the Ministry of Finance and the General Administration of Customs jointly issued the Circular on Tax Policy for Cross-Border E-commerce Retail Imports, which took effect in April 2016. Pursuant to this circular, goods imported through the cross-border e-commerce retail are subject to tariff, import value-added tax, or VAT, and consumption tax based on the types of goods. Individuals purchasing any goods imported through cross-border e-commerce retail are taxpayers, and e-commerce companies, companies operating e-commerce transaction platforms or logistic companies are required to withhold the taxes.

Regulations Relating to Internet Information Security and Privacy Protection

Internet information in China is regulated from a national security standpoint. The National People's Congress, or the NPC, has enacted the Decisions on Preserving Internet Security in December 2000 and amended in August 2009, which subject violators to potential criminal punishment in China for any attempt to: (i) gain improper entry into a computer or system of strategic importance; (ii) disseminate politically disruptive information; (iii) leak state secrets; (iv) spread false commercial information; or (v) infringe intellectual property rights. The Ministry of Public Security of the PRC, or the MPS, has promulgated measures that prohibit use of the internet in ways which, among other things, result in a leak of state secrets or a spread of socially destabilizing content. If an internet information service provider violates these measures, the MPS and its local branches may revoke its operating license and shut down its websites.

In recent years, PRC government authorities have enacted laws and regulations on internet use to protect personal information from any unauthorized disclosure. Under the Several Provisions on Regulating the Market Order of Internet Information Services, issued by the MIIT in December 2011 and effective March 2012, an internet information service provider may not collect any user personal information or provide any such information to third parties without the consent of the user. An internet information service provider must expressly inform the users of the method, content and purpose of the collection and processing of such user personal information and may only collect such information necessary for the provision of its services. An internet information service provider is also required to properly maintain the user's personal information, and in case of any leak or likely leak of the user's personal information, the internet information service provider must take immediate

remedial measures and, in severe circumstances, immediately report to the telecommunications authority. Moreover, pursuant to the Ninth Amendment to the Criminal Law issued by the Standing Committee of the NPC in August 2015 which became effective November 2015, any internet service provider that fails to fulfill the obligations related to internet information security administration as required by applicable laws and refuses to rectify upon orders, shall be subject to criminal penalty for the result of (i) any dissemination of illegal information in large scale; (ii) any severe effect due to the leakage of the client's information; (iii) any serious loss of criminal evidence; or (iv) other severe situation. Any individual or entity that (i) sells or provides personal information to others in a way violating the applicable law, or (ii) steals or illegally obtains any personal information, shall be subject to criminal penalty in severe situation. In addition, the Interpretations of the Supreme People's Court and the Supreme People's Procuratorate of the PRC on Several Issues Concerning the Application of Law in Handling Criminal Cases of Infringing Personal Information, issued in May 2017 and effective June 2017, clarified certain standards for the conviction and sentencing of the criminals in relation to personal information infringement. Further, the NPC promulgated a new National Security Law, effective July 2015, to replace the former National Security Law and covers various types of national security including technology security and information security.

In addition, the Standing Committee of the NPC promulgated the Cyber Security Law of the People's Republic of China, or the Cyber Security Law, effective June 2017, to protect cyberspace security and order. Pursuant to the Cyber Security Law, any individual or organization using the network must comply with the constitution and the applicable laws, follow the public order and respect social moralities, and must not endanger cyber security, or engage in activities by making use of the network that endanger the national security, honor and interests, or infringe on the fame, privacy, intellectual property and other legitimate rights and interests of others. The Cyber Security Law sets forth various security protection obligations for network operators, which are defined as "owners and administrators of networks and network service providers", including, among others, complying with a series of requirements of tiered cyber protection systems, verifying users' real identity, localizing the personal information and important data gathered and produced by key information infrastructure operators during operations within the PRC, and providing assistance and support to government authorities where necessary for protecting national security and investigating crimes. Furthermore, MIIT's Rules on Protection of Personal Information of Telecommunications and Internet Users promulgated in July 2013, effective September 2013, contain detailed requirements on the use and collection of personal information as well as security measures required to be taken by telecommunications business operators and internet information service providers.

Regulations Relating to Product Quality and Consumer Rights Protection

The PRC Consumer Rights and Interests Protection Law, as amended in and effective March 2014, and the Online Trading Measures, have provided stringent requirements and obligations on business operators, including internet business operators and platform service providers. For example, consumers are entitled to return goods purchased online, subject to certain exceptions, within seven days upon receipt of such goods for no reason. To ensure that sellers and service providers comply with these laws and regulations, the platform operators are required to implement rules governing transactions on the platform, monitor the information posted by sellers and service providers, and report any violations by such sellers or service providers to the relevant authorities. In addition, online marketplace platform providers may, pursuant to the relevant PRC consumer protection laws, be exposed to liabilities if the lawful rights and interests of consumers are infringed upon in connection with consumers' purchase of goods or acceptance of services on online marketplace platforms and the online marketplace platform providers fail to provide consumers with the contact information of the seller or manufacturer. In addition, online marketplace platform providers may be jointly and severally liable with sellers and manufacturers if they are aware or should be aware that any seller or

manufacturer is using the online platform to infringe upon the lawful rights and interests of consumers and fail to take measures necessary to prevent or stop such activity.

The Tort Liability Law of the PRC, which was enacted by the Standing Committee of the NPC in December 2009 and took effect in July 2010, also provides that if an online service provider is aware that an online user is committing infringing activities, such as selling counterfeit products, through its internet services and fails to take necessary measures, it shall be jointly liable with the said online user for such infringement. If the online service provider receives any notice from the infringed party on any infringing activities, the online service provider shall take necessary measures, including deleting, blocking and unlinking the infringing content, in a timely manner. Otherwise, it will be jointly liable with the relevant online user for the extended damages.

We are subject to the PRC Consumer Rights and Interests Protection Law, the Online Trading Measures and the Tort Liability Law of the PRC as an e-commerce platform service provider and believe that we are currently in compliance with these regulations in all material aspects.

Regulations Relating to Internet Advertising Business

In July 2016, SAIC issued the Interim Measures for the Administration of Internet Advertising to regulate internet advertising activities, which became effective in September 2016, defining internet advertising as any commercial advertising that directly or indirectly promotes goods or services through websites, webpages, internet applications and other internet media in the forms of words, picture, audio, video or others, including promotion through emails, texts, images, video with embedded links and paid-for search results. According to these measures, no advertisement of any medical treatment, medicines, food for special medical purpose, medical apparatuses, pesticides, veterinary medicines, dietary supplement or other special commodities or services subject to examination by an advertising examination authority as stipulated by laws and regulations may be published unless the advertisement has passed such examination. In addition, no entity or individual may publish any advertisement of over-the-counter medicines or tobacco on the internet. An internet advertisement must be identifiable and clearly identified as an "advertisement" to the consumers. Paid search advertisements are required to be clearly distinguished from natural search results. In addition, the following internet advertising activities are prohibited: providing or using any applications or hardware to intercept, filter, cover, fast forward or otherwise restrict any authorized advertisement of other persons; using network pathways, network equipment or applications to disrupt the normal data transmission of advertisements, alter or block authorized advertisements of other persons or load advertisements without authorization; or using fraudulent statistical data, transmission effect or matrices relating to online marketing performance to induce incorrect quotations, seek undue interests or harm the interests of others. Internet advertisement publishers are required to verify relevant supporting documents and check the content of the advertisement and are prohibited from publishing any advertisement with unverified content or without all the necessary qualifications. Internet information service providers that are not involved in internet advertising business activities but simply provide information services are required to block any attempt to publish an illegal advisement that they are aware of or should reasonably be aware of through their information services.

Regulations Relating to Payment Services

In June 2010, the People's Bank of China, or PBOC, issued the Administrative Measures for the Payment Services of Non-Financial Institutions, or the Payment Services Measures, effective September 2010. Under the Payment Services Measures, a non-financial institution must obtain a payment business license, or Payment License, to provide payment services and qualifies as a paying institution. With the Payment License, a non-financial institution may serve as an intermediary between payees and payers and provide some or all of the following services: online payment, issuance and acceptance of prepaid card, bank card acceptance, and other payment services as specified by PBOC.

Without PBOC's approval, no non-financial institution or individual may engage in payment business whether explicitly or in a disguised form.

In November 2017, PBOC published a notice, or the PBOC Notice, on the investigation and administration of illegal offering of settlement services by financial institutions and third-party payment service providers to unlicensed entities. The PBOC Notice intended to prevent unlicensed entities from using licensed payment service providers as a conduit for conducting the unlicensed payment settlement services, so as to safeguard the fund security and information security. We believe that our pattern of receiving settlement services from commercial banks and third-party online payment service providers are not in violation of the PBOC Notice. See "Risk Factors—Risks Related to Our Business and Industry—We rely on commercial banks and third-party online payment service providers for payment processing and escrow services on our platform. If these payment services are restricted or curtailed in any way or become unavailable to us or our buyers for any reason, our business may be materially and adversely affected."

With respect to a circumstance where a labor relationship has already been established but no formal contract has been made, a written labor contract shall be entered into within one month from the effective date of the Labor Contract Law.

An enterprise must provide social insurance by processing social insurance registration with local social insurance agencies, and shall pay or withhold relevant social insurance premiums for or on behalf of employees. The Law on Social Insurance of the PRC, which was promulgated in October 2010, and effective July 2011, has consolidated pertinent provisions for basic pension insurance, unemployment insurance, maternity insurance, workplace injury insurance and basic medical insurance, and has elaborated in detail the legal obligations and liabilities of employers who do not comply with relevant laws and regulations on social insurance.

Regulations Relating to Tax in the PRC

Income Tax

The PRC Enterprise Income Tax Law was promulgated in March 2007 and was amended in February 2017. The PRC Enterprise Income Tax Law applies a uniform 25% enterprise income tax rate to both foreign-invested enterprises and domestic enterprises, except where tax incentives are granted to special industries and projects. Under the PRC Enterprise Income Tax Law, an enterprise established outside China with "de facto management bodies" within China is considered a "resident enterprise" for PRC enterprise income tax purposes and is generally subject to a uniform 25% enterprise income tax rate on its worldwide income. Under the implementation regulations to the PRC Enterprise Income Tax Law, a "de facto management body" is defined as the body that exercises full and substantial control and overall management over the business, productions, personnel, accounts and properties of an enterprise.

In January 2009, the State Administration of Taxation, or SAT, promulgated the Provisional Measures for the Administration of Withholding of Enterprise Income Tax for Non-resident Enterprises, or the Non-resident Enterprises Measures, pursuant to which entities that have direct obligation to make certain payments to a nonresident enterprise shall be the relevant tax withholders

for such non-resident enterprise. Further, the Non-resident Enterprises Measures provide that, in case of an equity transfer between two non-resident enterprises occurring outside China, which is indirectly related to the transfer of equity interests of a PRC resident enterprise, the non-resident enterprise which receives the equity transfer payment shall, by itself or engage an agent to, file tax declaration with the PRC tax authority located at the place of the PRC company whose equity has been transferred, and the PRC company whose equity has been transferred shall assist the tax authorities to collect taxes from the relevant non-resident enterprise. In April 2009, the Ministry of Finance, or MOF, and SAT jointly issued the Notice on Issues Concerning Process of Enterprise Income Tax in Enterprise Restructuring Business, or Circular 59. In December 2009, SAT issued the Notice on Strengthening Administration of Enterprise Income Tax for Share Transfers by Non-PRC Resident Enterprises, or Circular 698. Both Circular 59 and Circular 698 became effective retroactively as of January 2008. In February 2011, SAT issued the Notice on Several Issues Regarding the Income Tax of Non-PRC Resident Enterprises, or SAT Circular 24, effective April 2011. By promulgating and implementing these circulars, the PRC tax authorities have enhanced their scrutiny over the direct or indirect transfer of equity interests in a PRC resident enterprise by a non-resident enterprise.

In February 2015, SAT issued the Notice on Certain Corporate Income Tax Matters on Indirect Transfer of Properties by Non-PRC Resident Enterprises, or SAT Circular 7, to supersede existing provisions in relation to the indirect transfer as set forth in Circular 698, while the other provisions of Circular 698 remain in force. SAT Circular 7 introduces a new tax regime that is significantly different from that under Circular 698. SAT Circular 7 extends its tax jurisdiction to capture not only indirect transfers as set forth under Circular 698 but also transactions involving transfer of immovable property in China and assets held under the establishment, and placement in China, of a foreign company through the offshore transfer of a foreign intermediate holding company. SAT Circular 7 also addresses transfer of the equity interest in a foreign intermediate holding company broadly. In addition, SAT Circular 7 provides clearer criteria than Circular 698 on how to assess reasonable commercial purposes and introduces safe harbor scenarios applicable to internal group restructurings. However, it also brings challenges to both the foreign transferor and transferee of the indirect transfer as they have to determine whether the transaction should be subject to PRC tax and to file or withhold the PRC tax accordingly. In October 2017, SAT issued the Announcement on Issues Relating to Withholding at Source of Income Tax of Non-resident Enterprises, or SAT Circular 37. SAT Circular 37, effective December 2017, superseded the Non-resident Enterprises Measures and SAT Circular 698 as a whole and partially amended some provisions in SAT Circular 24 and SAT Circular 7. SAT Circular 37 purports to clarify certain issues in the implementation of the above regime, by providing, among others, the definition of equity transfer income and tax basis, the foreign exchange rate to be used in the calculation of withholding amount, and the date of occurrence of the withholding obligation. Specifically, SAT Circular 37 provides that where the transfer income subject to withholding at source is derived by a non-PRC resident enterprise in instalments, the instalments may first be treated as recovery of costs of previous investments. Upon recovery of all costs, the tax amount to be withheld must then be computed and withheld.

Value-Added Tax

According to the Temporary Regulations on Value-added Tax, amended in February 2016, and the Detailed Implementing Rules of the Temporary Regulations on Value-added Tax, amended in October 2011, all taxpayers selling goods, providing processing, repair or replacement services or importing goods within the PRC shall pay value-added tax. The tax rate of 17% shall be levied on general taxpayers selling or importing various goods; the tax rate of 17% shall be levied on the taxpayers providing processing, repairing or replacement service; the applicable rate for the export of goods by taxpayers shall be nil, unless otherwise stipulated.

Furthermore, according to the Trial Scheme for the Conversion of Business Tax to Value-added Tax, promulgated by the Ministry of Finance and SAT in November 2011, the State Council began to launch taxation reforms in a gradual manner in January 2012, whereby the collection of value-added tax in lieu of business tax items was implemented on a trial basis in regions showing significant radiating effects in economic development and providing outstanding reform examples, beginning with production service industries such as transportation and certain modern service industries.

In accordance with a SAT circular that took effect in May 2016, upon approval of the State Council, the pilot program of the collection of value-added tax in lieu of business tax shall be promoted nationwide in a comprehensive manner starting from May 2016, and all taxpayers of business tax engaged in the construction industry, the real estate industry, the financial industry and the life science industry shall be included in the scope of the pilot program with regard to payment of value-added tax instead of business tax.

In April 2018, MOF and SAT jointly promulgated the Circular of the Ministry of Finance and the State Administration of Taxation on Adjustment of Value-Added Tax Rates, or Circular 32, according to which (i) for VAT taxable sales acts or importation of goods originally subject to value-added tax rates of 17% and 11% respectively, such tax rates shall be adjusted to 16% and 10%, respectively; (ii) for purchase of agricultural products originally subject to deduction rate of 11%, such deduction rate shall be adjusted to 10%; (iii) for purchase of agricultural products for the purpose of production and sales or consigned processing of goods subject to tax rate of 16%, such tax shall be calculated at the deduction rate of 12%; (iv) for exported goods originally subject to tax rate of 17% and export tax refund rate of 17%, the export tax refund rate shall be adjusted to 16%; and (v) for exported goods and cross-border taxable acts originally subject to tax rate of 11% and export tax refund rate of 11%, the export tax refund rate shall be adjusted to 10%. Circular 32 will become effective on May 1, 2018 and shall supersede existing provisions which are inconsistent with Circular 32.

Regulations Relating to Dividend Distributions

The principal regulations governing the distribution of dividends paid by wholly foreign-owned enterprises include the Wholly Foreign-Owned Enterprise Law issued in 1986 and most recently amended in 2016, and the Implementation Regulations on the Wholly Foreign-Owned Enterprise Law issued in 1990 and most recently amended in 2014. Under these regulations, wholly foreign-owned enterprises in China may pay dividends only out of their accumulated profits, if any, as determined in accordance with PRC accounting standards and regulations. In addition, a wholly foreign-owned enterprise in China is required to set aside at least 10% of its after-tax profit based on PRC accounting standards each year to its general reserves until its cumulative total reserve funds reaches 50% of its registered capital. These reserve funds, however, may not be distributed as cash dividends.

Regulations Relating to Foreign Exchange

Regulations Relating to Foreign Exchange Registration of Overseas Investment by PRC Residents

Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment Through Special Purpose Vehicles, or Circular 37, issued by SAFE in and effective July 2014, regulates foreign exchange matters in relation to the use of special purpose vehicles, or SPVs, by PRC residents or entities to seek offshore investment and financing and conduct round trip investment in China. Under Circular 37, a SPV refers to an offshore entity established or controlled, directly or indirectly, by PRC residents or entities for the purpose of seeking offshore financing or making offshore investment, using legitimate domestic or offshore assets or interests, while "round trip investment" refers to the direct investment in China by PRC residents or entities through SPVs, namely, establishing foreign-invested enterprises to obtain the ownership, control rights and management rights. Circular 37 requires that, before making contribution

into an SPV, PRC residents or entities are required to complete foreign exchange registration with SAFE or its local branch. Circular 37 further provides that option or share-based incentive tool holders of a non-listed SPV can exercise the options or share incentive tools to become a shareholder of such non-listed SPV, subject to registration with SAFE or its local branch.

PRC residents or entities who have contributed legitimate domestic or offshore interests or assets to SPVs but have yet to obtain SAFE registration before the implementation of the Circular 37 shall register their ownership interests or control in such SPVs with SAFE or its local branch. An amendment to the registration is required if there is a material change in the registered SPV, such as any change of basic information (including change of such PRC resident's name and operation term), increases or decreases in investment amounts, transfers or exchanges of shares, or mergers or divisions. Failure to comply with the registration procedures set forth in Circular 37, or making misrepresentation or failure to disclose controllers of foreign-invested enterprise that is established through round-trip investment, may result in restrictions on the foreign exchange activities of the relevant foreign-invested enterprises, including payment of dividends and other distributions, such as proceeds from any reduction in capital, share transfer or liquidation, to its offshore parent or affiliate, and the capital inflow from the offshore parent, and may also subject relevant PRC residents or entities to penalties under PRC foreign exchange administration regulations. In February 2015, SAFE further promulgated the Circular on Further Simplifying and Improving the Administration of the Foreign Exchange Concerning Direct Investment, or SAFE Circular 13, effective June 2015. This SAFE Circular 13 has amended SAFE Circular 37 by requiring PRC residents or entities to register with qualified banks rather than SAFE or its local branch in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing. Circular 37 is applicable to our shareholders who are PRC residents and may be applicable to any offshore acquisitions that we make in the future. All of our shareholders who, to our knowledge, are subject to the above SAFE regulations have completed the necessary registrations with the local SAFE branch or qualified banks as required by SAFE Circular 37.

In March 2015, SAFE promulgated the Circular on Reforming the Management Approach regarding the Settlement of Foreign Exchange Capital of Foreign-invested Enterprises, or Circular 19, effective June 2015. According to Circular 19, the foreign exchange capital of foreign-invested enterprises shall be subject to the Discretional Foreign Exchange Settlement. The Discretional Foreign Exchange Settlement refers to the foreign exchange capital in the capital account of a foreign-invested enterprise for which the rights and interests of monetary contribution has been confirmed by the local foreign exchange bureau (or the book-entry registration of monetary contribution by the banks) can be settled at the banks based on the actual operational needs of the foreign-invested enterprise. The proportion of Discretional Foreign Exchange Settlement of the foreign exchange capital of a foreign-invested enterprise is temporarily determined to be 100%. The Renminbi converted from the foreign exchange capital will be kept in a designated account and if a foreign-invested enterprise needs to make further payment from such account, it still needs to provide supporting documents and go through the review process with the banks.

SAFE issued the Circular on Reforming and Regulating Policies on the Control over Foreign Exchange Settlement of Capital Accounts, or Circular 16, in June 2016, which became effective simultaneously. Pursuant to Circular 16, enterprises registered in the PRC may also convert their foreign debts from foreign currency to Renminbi on a discretionary basis. Circular 16 provides an integrated standard for conversion of foreign exchange under capital account items (including but not limited to foreign currency capital and foreign debts) on a discretionary basis which applies to all enterprises registered in the PRC. Circular 16 reiterates the principle that Renminbi converted from foreign currency-denominated capital of a company may not be directly or indirectly used for purposes beyond its business scope or prohibited by PRC laws or regulations, while such converted Renminbi shall not be provided as loans to its non-affiliated entities. As Circular 16 is newly issued, and SAFE

has not provided detailed guidelines with respect to its interpretation or implementations, it is uncertain how these rules will be interpreted and implemented.

In January 2017, SAFE promulgated the Circular on Further Improving Reform of Foreign Exchange Administration and Optimizing Genuineness and Compliance Verification, or Circular 3, which took effect on the same day. Circular 3 sets out various measures to tighten genuineness and compliance verification of cross-border transactions and cross-border capital flow, which include without limitation requiring banks to verify board resolutions, tax filing form, and audited financial statements before wiring foreign invested enterprises' foreign exchange distribution above US$50,000, and strengthening genuineness and compliance verification of foreign direct investments.

Our PRC subsidiaries' distributions to their offshore parents are required to comply with the requirements as described above.

Regulations on Stock Incentive Plans

Pursuant to the Notice on Issues Concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly Listed Company, or Circular 7, issued by SAFE in February 2012, employees, directors, supervisors and other senior management participating in any stock incentive plan of an overseas publicly listed company who are PRC citizens or who are non-PRC citizens residing in China for a continuous period of not less than one year, subject to a few exceptions, are required to register with SAFE through a domestic qualified agent, which could be a PRC subsidiary of such overseas listed company, and complete certain other procedures. We and our directors, executive officers and other employees who are PRC citizens or who reside in the PRC for a continuous period of not less than one year and who have been granted options will be subject to these regulations when our company becomes an overseas-listed company upon the completion of this offering. See "Risk Factors—Risks Related to Doing Business in China—Any failure to comply with PRC regulations regarding the registration requirements for employee stock incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions."

In addition, SAT has issued certain circulars concerning employee share options or restricted shares. Under these circulars, the employees working in the PRC who exercise share options or are granted restricted shares will be subject to PRC individual income tax. The PRC subsidiaries of such overseas listed company have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees who exercise their share options. If the employees fail to pay or the PRC subsidiaries fail to withhold their income taxes according to relevant laws and regulations, the PRC subsidiaries may face sanctions imposed by the tax authorities or other PRC government authorities.

M&A Rule and Overseas Listing

Under the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rule, were jointly adopted by six PRC regulatory authorities, including CSRC, in August 2006, and effective September 2006, and most recently amended in June 2009, a foreign investor is required to obtain necessary approvals when (i) a foreign investor acquires equity in a domestic non-foreign invested enterprise thereby converting it into a foreign-invested enterprise, or subscribes for new equity in a domestic enterprise via an increase of registered capital thereby converting it into a foreign-invested enterprise; or (ii) a foreign investor establishes a foreign-invested enterprise which purchases and operates the assets of a domestic enterprise, or which purchases the assets of a domestic enterprise and injects those assets to establish a foreign-invested enterprise. According to the M&A Rule, where a domestic company or enterprise, or a domestic natural person, through an overseas company established or controlled by it/him, acquires a domestic company which is related to or connected with it/him, approval from MOFCOM is required.

Our PRC legal counsel, King & Wood Mallesons, has advised us that, based on its understanding of the current PRC laws and regulations, we will not be required to submit an application to the CSRC for the approval of the listing and trading of our ADSs on the Nasdaq Global Select Market. However, our PRC legal counsel has further advised us that there remains some uncertainty as to how the M&A Rules will be interpreted or implemented in the context of an overseas offering, and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. See "Risk Factors—Risks Related to Doing Business in China—The approval of the China Securities Regulatory Commission may be required in connection with this offering, and, if required, we cannot predict whether we will be able to obtain such approval."

MANAGEMENT

Pinduoduo Partnership

To ensure the sustainability and governance of our company and better align them with the interests of our stakeholders, our management has established an executive partnership, the Pinduoduo Partnership, to help us better manage our business and to carry out our vision, mission and value continuously. The structure of the Pinduoduo Partnership is expected to be designed to promote people with diverse skillsets but sharing the same core values and beliefs that we hold dear.

The Pinduoduo Partnership will be operated under principles, policies and procedures that have evolved with our business and encompass the following major aspects:

Nomination and Election of Partners

Partners will be elected annually through a nomination process, whereby any existing partner may propose candidates to the partnership committee (the "Partnership Committee"), which reviews the nomination and propose candidates to the entire partnership for election. Election of new partners requires the affirmative vote of at least 75% of all the partners. In order to be elected a partner, the partner candidate must meet certain quality standards including, among other things, a high standard of personal character and integrity, continued service as a director, officer or employee with our company for no less than five years (or a shorter period before our company reaches a five-year operating history), a consistent commitment to our company's mission, vision and values as well as a track record of contribution to our business.

In order to align the interests of partners with the interests of shareholders, the Partnership Committee may require a partner to maintain a meaningful level of equity interests in our company during his or her tenure as a partner. The specific level of equity interests to be maintained shall be determined by the Partnership Committee from time to time.

The Pinduoduo Partnership and its major rights and functions, such as its right to appoint the Executive Director to our board and CEO nomination right, will not become effective until the Pinduoduo Partnership consists of no less than five limited partners. Upon the completion of this offering, the initial partners of the Pinduoduo Partnership will include Mr. Zheng Huang and Mr. Lei Chen, and the Pinduoduo Partnership has yet come into effect.

Partnership Committee

The Partnership Committee will be the primary management body of the Pinduoduo Partnership. The Partnership Committee must consist of no more than five partners, and all decisions of the Partnership Committee will be made by majority vote of the members. The authorities of the Partnership Committee include, but not limited to, the following areas:

- determine certain bonus allocation matters, subject to certain approval by the board of directors;
- manage, invest, distribute and dispose of the assets of the Pinduoduo Partnership, including the aggregate deferred bonuses and any income thereof, or Partnership Assets, for the benefit of the partnership;
- screen and initially approve the election of partners; and
- approve the proposed candidate for election as partner.

Partnership Committee members serve for a term of three years and may serve multiple terms, unless terminated upon his or her death, resignation, removal or termination of his or her membership in the partnership. Prior to each election that takes place once every three years, the Partnership Committee will nominate a number of partners equal to the number of Partnership Committee

members plus three additional nominees. After voting, all except the three nominees who receive the least votes from the partners are elected to the Partnership Committee.

Upon the completion of this offering, the initial members of the Partnership Committee will include Mr. Zheng Huang and Mr. Lei Chen.

Executive Director Appointment and CEO Nomination Right

The Pinduoduo Partnership will be entitled to appoint Executive Directors and nominate and recommend the chief executive officer of the company.

An Executive Director refers to the director of the company that is (i) neither a director who satisfies the "independence" requirements of Rule 5605(a)(2) of the Nasdaq Stock Market Rules or Section 303A of the Corporate Governance Rules of the New York Stock Exchange nor a director who is affiliated with or was appointed to our board by a holder or a group of affiliated holders of preferred shares and/or Class A ordinary shares converted from preferred shares of our company prior to the completion of this offering, and (ii) maintains an employment relationship with our company. Pursuant to our post-offering amended and restated articles of association, our board of directors shall consist of not less than three but not more than nine directors, and shall include (i) two Executive Directors, if there are no more than five directors, and (ii) three Executive Directors, if there are more than five but no more than nine directors. The Executive Directors shall be nominated by the Pinduoduo Partnership. Our board of directors is obligated to cause the Executive Director candidate duly nominated by the Pinduoduo Partnership to be appointed by the board upon the delivery by the Pinduoduo Partnership of a written notice (duly executed by the general partner of the Pinduoduo Partnership) to us, and such Executive Director shall serve until expiry of his or her terms, unless removed by the shareholders in accordance with our post-offering amended and restated articles of association or terminated upon his or her death or resignation. Once the aggregate cash bonus pool is determined, the Partnership Committee will then determine (i) the allocation of the aggregate bonus pool between current year bonus pool and deferred bonus pool, if it deems advisable; and (ii) the allocation of the current bonus pool among the partners. The bonus amounts payable to partners who are executive officers or directors will be subject to approval of the compensation committee. The Partnership Committee may also determine, at its sole discretion, to pay bonus out of the Partnership Assets.

All partners except permanent partners are required to retire upon reaching the age of sixty or upon termination of their employment. Any partner may be removed upon affirmative vote of a majority of all partners, in the event that the Partnership Committee determines that such partner fails to meet any of the qualifying standards and so recommend to the partnership.

Retired partners upon meeting certain age and service requirements may be designated as honorary partners by the Partnership Committee. Honorary partners may not act as partner, but may be entitled to allocations from the deferred portion of the bonus pool.

Amendment of Partnership Agreement

Pursuant to the partnership agreement, amendment of the partnership agreement requires the approval of 75% of the partners. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested provided (a) such director, if his interest in such contract or arrangement is material, has declared the nature of his interest at the earliest meeting of the board at which it is practicable for him to do so, either specifically or by way of a general notice and (b) if such contract or arrangement is a transaction with a related party, such transaction has been approved by the audit committee. The directors may exercise all the powers of the company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of the company or of any third party. Committees of the Board of Directors

A company of which more than 50% of the voting power is held by a single entity is considered a "controlled company" under the Nasdaq Stock Market Rules. A controlled company is not required to comply with the Nasdaq corporate governance rules requiring a board of directors to have a majority of independent directors, to have independent compensation committee, and to have independent nominations/corporate governance committees. Following the completion of this offering, we will be a "controlled company" as defined under the Nasdaq Stock Market Rules. We have no current intention to rely on the controlled company exemption.

As a Cayman Islands company listed on the Nasdaq Stock Market, we are subject to the Nasdaq corporate governance listing standards. However, Nasdaq rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in the Cayman Islands, which is our home country, may differ significantly from the Nasdaq corporate governance listing standards. For example, neither the Companies Law of the Cayman Islands nor our memorandum and articles of association requires a majority of our directors to be independent, we could include non-independent directors as members of our compensation committee and nominating committee, and our independent directors would not necessarily hold regularly scheduled meetings at which only independent directors are present. However, we currently intend to comply with the rules of the Nasdaq in lieu of following home country practice following the completion of this offering.

We will establish three committees under the board of directors immediately upon the effectiveness of our registration statement on Form F-1, of which this prospectus is a part: an audit committee, a compensation committee and a nominating and corporate governance committee. We expect to adopt a charter for each of the three committees. Each committee's members and functions are described below.

Audit Committee. Our audit committee will consist of Mr. Haifeng Lin, Mr. Nanpeng Shen and Mr. George Yong-Boon Yeo. Mr. Haifeng Lin will be the chairman of our audit committee. We have determined that Mr. Nanpeng Shen and Mr. George Yong-Boon Yeo each satisfies the "independence" requirements of Rule 5605(c)(2) of the Nasdaq Stock Market Rules and meet the independence standards under Rule 10A-3 under the Exchange Act, as amended. We have determined that Mr. Nanpeng Shen qualifies as an "audit committee financial expert." The audit committee will oversee our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee will be responsible for, among other things:

- appointing the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;
- reviewing with the independent auditors any audit problems or difficulties and management's response;
- discussing the annual audited financial statements with management and the independent auditors;
- reviewing the adequacy and effectiveness of our accounting and internal control policies and procedures and any steps taken to monitor and control major financial risk exposures;
- reviewing and approving all proposed related party transactions;
- meeting separately and periodically with management and the independent auditors; and
- monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

Compensation Committee. Our compensation committee will consist of Mr. Haifeng Lin, Dr. Qi Lu and Mr. Nanpeng Shen. Dr. Qi Lu will be the chairman of our compensation committee. We have determined that Dr. Qi Lu and Mr. Nanpeng Shen each satisfies the "independence" requirements of Rule 5605(a)(2) of the Nasdaq Stock Market Rules. The compensation committee will assist the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our chief executive officer may not be present at any committee meeting during which his compensation is deliberated. The compensation committee will be responsible for, among other things:

- reviewing and approving, or recommending to the board for its approval, the compensation for our chief executive officer and other executive officers;

- reviewing and recommending to the board for determination with respect to the compensation of our non-employee directors;
- reviewing periodically and approving any incentive compensation or equity plans, programs or similar arrangements; and
- selecting compensation consultant, legal counsel or other adviser only after taking into consideration all factors relevant to that person's independence from management.

Nominating and Corporate Governance Committee. Our nominating and corporate governance committee will consist of Mr. Haifeng Lin, Dr. Qi Lu and Mr. George Yong-Boon Yeo. Mr. George Yong-Boon Yeo will be the chairman of our nominating and corporate governance committee. Dr. Qi Lu and Mr. George Yong-Boon Yeo each satisfies the "independence" requirements of Rule 5605(a)(2) of the Nasdaq Stock Market Rules. The nominating and corporate governance committee will assist the board of directors in selecting individuals qualified to become our directors and in determining the composition of the board and its committees. The nominating and corporate governance committee will be responsible for, among other things:

- selecting and recommending to the board nominees for election by the shareholders or appointment by the board;
- reviewing annually with the board the current composition of the board with regards to characteristics such as independence, knowledge, skills, experience and diversity;
- making recommendations on the frequency and structure of board meetings and monitoring the functioning of the committees of the board; and
- advising the board periodically with regards to significant developments in the law and practice of corporate governance as well as our compliance with applicable laws and regulations, and making recommendations to the board on all matters of corporate governance and on any remedial action to be taken.

Duties of Directors

Under Cayman Islands law, our directors owe fiduciary duties to our company, including a duty to act honestly, and a duty to act in what they consider in good faith to be in our best interests. Our directors must also exercise their powers only for a proper purpose. Our directors also owe to our company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to our company, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time, and the rights vested thereunder in the holders of the shares. Our directors owe their fiduciary duties to our company and not to our company's individual shareholders, and it is our company which has the right to seek damages if a duty owed by our directors is breached. In limited exceptional circumstances, a shareholder may have the right to seek damages in our name if a duty owed by our directors is breached.

Our board of directors has all the powers necessary for managing, and for directing and supervising, our business affairs. The functions and powers of our board of directors include, among others:

- convening shareholders' annual general meetings and reporting its work to shareholders at such meetings;

- declaring dividends and distributions;
- appointing officers and determining the term of office of the officers;
- exercising the borrowing powers of our company and mortgaging the property of our company; and
- approving the transfer of shares in our company, including the registration of such shares in our share register.

The Pinduoduo Partnership is entitled to nominate and recommend the chief executive officer of our company, subject to the re-affirmation by the nominating and corporate governance committee of our board of directors and the appointment by our board of directors. For additional information, see "Management—Pinduoduo Partnership." Employment Agreements and Indemnification Agreements

We have entered into employment agreements with each of our executive officers. Under these agreements, each of our executive officers is employed for a specified time period. We may terminate employment for cause, at any time, without advance notice or remuneration, for certain acts of the executive officer, such as conviction or plea of guilty to a felony or any crime involving moral turpitude, negligent or dishonest acts to our detriment, or misconduct or a failure to perform agreed duties. We may also terminate an executive officer's employment without cause upon three-month advance written notice. In such case of termination by us, we will provide severance payments to the executive officer as expressly required by applicable law of the jurisdiction where the executive officer is based. In addition, each executive officer has agreed to be bound by non-competition and non-solicitation restrictions during the term of his or her employment and typically for one year following the last date

Our Post-Offering Memorandum and Articles

We have adopted a ninth amended and restated memorandum and articles of association, which will become effective and replace our current eighth amended and restated memorandum and articles of association in its entirety immediately prior to the completion of this offering. The following are summaries of material provisions of the post-offering amended and restated memorandum and articles of association that we have adopted and of the Companies Law, insofar as they relate to the material terms of our ordinary shares.

Objects of Our Company. Under our post-offering amended and restated memorandum and articles of association, the objects of our company are unrestricted and we have the full power and authority to carry out any object not prohibited by the law of the Cayman Islands.

Ordinary Shares. Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of our Class A ordinary shares and Class B ordinary shares will have the same rights except for voting and conversion rights. Each Class A ordinary share shall entitle the holder thereof to one (1) vote on all matters subject to vote at our general meetings, and each Class B ordinary share shall entitle the holder thereof to ten (10) votes on all matters subject to vote at our general meetings. Our ordinary shares are issued in registered form and are issued when registered in our register of members.

Conversion. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any sale of Class B ordinary shares by a holder thereof to any person other than Mr. Zheng Huang or any entity which is not ultimately controlled by Mr. Zheng Huang, such Class B ordinary shares shall be automatically and immediately converted into the same number of Class A ordinary shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors. Under the laws of the Cayman Islands, our company may declare and pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in our company being unable to pay its debts as they fall due in the ordinary course of business.

Voting Rights. Our Class A ordinary shares and Class B ordinary shares vote together as a single class on all matters submitted to a vote of our shareholders, except as may otherwise be required by law or provided for in our post-offering amended and restated memorandum and articles of association. In respect of matters requiring shareholders' vote, each Class A ordinary share is entitled to one vote, and each Class B ordinary share is entitled to ten votes. At any general meeting a resolution put to the vote of the meeting shall be decided on a show of hands, unless a poll is (before or on the declaration of the result of the show of hands) demanded by the chairman.

A quorum required for a meeting of shareholders consists of one or more shareholders holding not less than a majority of all paid up voting share capital of our company present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative. Advance notice of at least ten calendar days is required for the convening of our annual general meeting and other shareholders meetings.

An ordinary resolution to be passed at a meeting by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast at a meeting. A special resolution requires the affirmative vote of no less than two-thirds of the votes cast attaching to the outstanding shares at a meeting. Our post-offering amended and restated articles of association provide that a special resolution shall be required, and that for the purposes of any such special resolution, the affirmative vote of no less than 95% of votes cast by the shareholders entitled to vote who are present in person or by proxy at a general meeting shall be required to approve any amendments to any provisions of our post-offering amended and restated articles of association that relate to or have an impact upon: (i) the right of the Pinduoduo Partnership to appoint Executive Directors and nominate and recommend chief executive officer of our company as described under "Management—Pinduoduo Partnership—Executive Director Appointment and CEO Nomination Right," and (ii) the procedures regarding the election, appointment and removal of directors or size of the board. Both ordinary resolutions and special resolutions may also be passed by a unanimous written resolution signed by all the shareholders of our company, as permitted by the Companies Law and our post-offering amended and restated memorandum and articles of association. A special resolution will be required for important matters such as a change of name or making changes that will affect the rights, preferences, privileges or powers of the preferred shareholders.

General Meetings of Shareholders. As a Cayman Islands exempted company, we are not obliged by the Companies Law to call shareholders' annual general meetings. Our post-offering memorandum and articles of association provide that we may (but are not obliged to) in each year hold a general meeting as our annual general meeting in which case we shall specify the meeting as such in the notices calling it, and the annual general meeting shall be held at such time and place as may be determined by our directors.

Shareholders' general meetings may be convened by the chairman or a majority of our board of directors. Advance notice of at least ten (10) calendar days is required for the convening of our annual general shareholders' meeting (if any) and any other general meeting of our shareholders. A quorum required for any general meeting of shareholders consists of one or more shareholders present or by proxy, representing not less than a majority of all votes attaching to all of our shares in issue and entitled to vote.

The Companies Law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering memorandum and articles of association provide that upon the requisition of shareholders representing in aggregate not less than one-third of the votes attaching to the outstanding shares of our company entitled to vote at general meetings, our board will convene an extraordinary general meeting and put the resolutions so requisitioned to a vote at such meeting. However, our post-offering memorandum and articles of association do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders.

Transfer of Ordinary Shares. Subject to the restrictions set out below, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in writing, and shall be executed by or on behalf of the transferor, and if the directors so requires, signed by the transferee.

Our board of directors may, in its absolute discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our board of directors may also decline to register any transfer of any ordinary share unless:

- the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our board of directors may reasonably require to show the right of the transferor to make the transfer;
- the instrument of transfer is in respect of only one class of ordinary shares;
- the instrument of transfer is properly stamped, if required;
- in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four; and
- a fee of such maximum sum as the Nasdaq Global Select Market may determine to be payable or such lesser sum as our directors may from time to time require is paid to us in respect thereof.

If our directors refuse to register a transfer they shall, within three months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.

The registration of transfers may, after compliance with any notice required of the Nasdaq Stock Market, be suspended and the register closed at such times and for such periods as our board of directors may from time to time determine, provided, however, that the registration of transfers shall not be suspended nor the register closed for more than 30 days in any year as our board may determine.

Liquidation. On the winding up of our company, if the assets available for distribution amongst our shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst our shareholders in proportion to the par value of the shares held by them at the commencement of the winding up, subject to a deduction from those shares in respect of which there are monies due, of all monies

payable to our company for unpaid calls or otherwise. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders in proportion to the par value of the shares held by them.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time of payment. The shares that have been called upon and remain unpaid are subject to forfeiture.

Redemption, Repurchase and Surrender of Shares. We may issue shares on terms that such shares are subject to redemption, at our option or at the option of the holders of these shares, on such terms and in such manner as may be determined by our board of directors, or by the shareholders by special resolutions. Our Company may also repurchase any of our shares on such terms and in such manner as have been approved by our board of directors or by an ordinary resolution of our shareholders. Under the Companies Law, the redemption or repurchase of any share may be paid out of our Company's profits or out of the proceeds of a new issue of shares made for the purpose of such redemption or repurchase, or out of capital (including share premium account and capital redemption reserve) if our company can, immediately following such payment, pay its debts as they fall due in the ordinary course of business. In addition, under the Companies Law no such share may be redeemed or repurchased (a) unless it is fully paid up, (b) if such redemption or repurchase would result in there being no shares outstanding or (c) if the company has commenced liquidation. In addition, our company may accept the surrender of any fully paid share for no consideration.

Variations of Rights of Shares. If at any time, our share capital is divided into different classes of shares, the rights attached to any class of shares (unless otherwise provided by the terms of issue of the shares of that class), whether or not our company is being wound-up, may be varied with the consent in writing of the holders of two-thirds of the issued shares of that class or with the sanction of a resolution passed at a separate meeting of the holders of the shares of the class by the holders of two-thirds of the issued shares of that class. The rights conferred upon the holders of the shares of any class issued shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* with such existing class of shares.

Issuance of Additional Shares. Our post-offering amended and restated memorandum of association authorizes our board of directors to issue additional ordinary shares from time to time as our board of directors shall determine, to the extent of available authorized but unissued shares.

Our post-offering amended and restated memorandum of association also authorizes our board of directors to establish from time to time one or more series of preference shares and to determine, with respect to any series of preference shares, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the dividend rights, dividend rates, conversion rights, voting rights; and
- the rights and terms of redemption and liquidation preferences.

Our board of directors may issue preference shares without action by our shareholders to the extent authorized but unissued. Issuance of these shares may dilute the voting power of holders of ordinary shares.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records.

However, we will provide our shareholders with annual audited financial statements. See "Where You Can Find Additional Information."

Anti-Takeover Provisions. Some provisions of our post-offering memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that:

- authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and
- limit the ability of shareholders to requisition and convene general meetings of shareholders.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our post-offering memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Exempted Company. We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except that an exempted company:

- does not have to file an annual return of its shareholders with the Registrar of Companies;
- is not required to open its register of members for inspection;
- does not have to hold an annual general meeting;
- may issue negotiable or bearer shares or shares with no par value;
- may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- may register as an exempted limited duration company; and
- may register as a segregated portfolio company.

"Limited liability" means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company.

Differences in Corporate Law

The Companies Law is modeled after that of England but does not follow recent English statutory enactments and differs from laws applicable to U.S. corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes, (a) "merger" means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company, and (b) a "consolidation" means the combination of two or more constituent companies into

a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company. In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by (a) a special resolution of the shareholders of each constituent company, and (b) such other authorization, if any, as may be specified in such constituent company's articles of association. The plan must be filed with the Registrar of Companies of the Cayman Islands together with a declaration as to the solvency of the consolidated or surviving company, a list of the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and that notification of the merger or consolidation will be published in the Cayman Islands Gazette. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

A merger between a Cayman parent company and its Cayman subsidiary or subsidiaries does not require authorization by a resolution of shareholders of that Cayman subsidiary if a copy of the plan of merger is given to every member of that Cayman subsidiary to be merged unless that member agrees otherwise. For this purpose a company is a "parent" of a subsidiary if it holds issued shares that together represent at least 90% of the votes at a general meeting of the subsidiary.

The consent of each holder of a fixed or floating security interest over a constituent company is required unless this requirement is waived by a court in the Cayman Islands.

Save in certain limited circumstances, a shareholder of a Cayman constituent company who dissents from the merger or consolidation is entitled to payment of the fair value of his shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) upon dissenting to the merger or consolidation, provide the dissenting shareholder complies strictly with the procedures set out in the Companies Law. The exercise of dissenter rights will preclude the exercise by the dissenting shareholder of any other rights to which he or she might otherwise be entitled by virtue of holding shares, save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful.

Separate from the statutory provisions relating to mergers and consolidations, the Companies Law also contains statutory provisions that facilitate the reconstruction and amalgamation of companies by way of schemes of arrangement, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

- the statutory provisions as to the required majority vote have been met;
- the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;
- the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

The Companies Law also contains a statutory power of compulsory acquisition which may facilitate the "squeeze out" of dissentient minority shareholder upon a tender offer. When a tender offer is made and accepted by holders of 90% of the shares affected within four months, the offeror may, within a two-month period commencing on the expiration of such four month period, require the holders of the remaining shares to transfer such shares to the offeror on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

If an arrangement and reconstruction is thus approved, or if a tender offer is made and accepted, a dissenting shareholder would have no rights comparable to appraisal rights, save that objectors to a takeover offer may apply to the Grand Court of the Cayman Islands for various orders that the Grand Court of the Cayman Islands has a broad discretion to make, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders' Suits. In principle, we will normally be the proper plaintiff and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, there are exceptions to the foregoing principle, including when:

- a company acts or proposes to act illegally or ultra vires;
- the act complained of, although not ultra vires, could only be effected duly if authorized by more than a simple majority vote that has not been obtained; and
- those who control the company are perpetrating a "fraud on the minority."

Indemnification of Directors and Executive Officers and Limitation of Liability. Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Our post-offering amended and restated memorandum and articles of association permit indemnification of officers and directors against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such officers and directors, other than by reason of such officer's or director's own dishonesty, willful default or fraud, in or about the conduct of our business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his or her duties, powers, authorities or discretions, including without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such officer and director in defending (whether successfully or otherwise) any civil proceedings concerning us or our affairs in any court whether in the Cayman Islands or elsewhere. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation.

In addition, we have entered into indemnification agreements with our directors and executive officers that provide such persons with additional indemnification beyond that provided in our post-offering amended and restated memorandum and articles of association.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the foregoing provisions, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Directors' Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care

that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director acts in a manner he reasonably believes to be in the best interests of the corporation. He must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, the director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company—a duty to act bona fide in the best interests of the company, a duty not to make a profit based on his position as director (unless the company permits him to do so) and a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our post-offering amended and restated articles of association provide that shareholders may approve corporate matters by way of a unanimous written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings.

The Companies Law provide shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering amended and restated articles of association allow our shareholders holding in aggregate not less than one-third of all votes attaching to the outstanding shares of our company entitled to vote at general meetings to requisition an extraordinary general meeting of our shareholders, in which case our board is obliged to convene an extraordinary general meeting and to put the resolutions so requisitioned to a vote at such meeting. Other than this right to requisition a shareholders' meeting, our post-offering amended and restated articles of association do not provide our shareholders with any other right to put proposals before annual general meetings or extraordinary general meetings. As an exempted Cayman Islands company, we are not obliged by law to call shareholders' annual general meetings.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on

a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. There are no prohibitions in relation to cumulative voting under the laws of the Cayman Islands but our post-offering amended and restated articles of association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our post-offering amended and restated articles of association, directors may be removed with or without cause, by an ordinary resolution of our shareholders.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an "interested shareholder" for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or a group who or which owns or owned 15% or more of the target's outstanding voting share within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board.

Under Cayman Islands law, a company may be wound up by either an order of the courts of the Cayman Islands or by a special resolution of its members or, if the company is unable to pay its debts as they fall due, by an ordinary resolution of its members. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so. Under the Companies Law and our post-offering amended and restated articles of association, our company may be dissolved, liquidated or wound up by a special resolution of our shareholders.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under Cayman Islands law and our post-offering amended and restated articles of association, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class with the written consent of the holders

of two-thirds of the issued shares of that class or with the sanction of a resolution passed at a general meeting of the holders of the shares of that class by holders of two-thirds of the issued shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. As permitted by Cayman Islands law, our post-offering amended and restated memorandum and articles of association may only be amended with a special resolution of our shareholders.

Rights of Non-resident or Foreign Shareholders. There are no limitations imposed by our post-offering amended and restated memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our post-offering amended and restated memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

Shareholders Agreement

We entered into the seventh amended and restated shareholders agreement on March 5, 2018 with our shareholders, which consist of holders of ordinary shares and preferred shares.

The shareholders agreement provides for certain special rights, including right of first refusal, co-sale rights, preemptive rights and contains provisions governing the board of directors and other corporate governance matters. Those special rights, as well as the corporate governance provisions, will automatically terminate upon the completion of a qualified initial public offering, with the exception of Tencent's right to appoint one director to our board, which will survive after the completion of a qualified initial public offering. Tencent has agreed to waive this right upon completion of the qualified initial public offering.

Registration Rights

Pursuant to the seventh amended and restated shareholders agreement dated March 5, 2018, we have granted certain registration rights to our shareholders. Set forth below is a description of the registration rights granted under the agreement.

Demand Registration Rights. Holders holding at least 30% or more of the issued and outstanding registrable securities (on an as converted basis) held by the preferred shareholders, the Class B ordinary shareholders and Class A ordinary shareholders have the right to demand in writing that we

file a registration statement covering the registration of at least 25% of their registrable securities. We have the right to defer filing of a registration statement for a period of not more than 90 days if we determine in good faith that filing of a registration statement in the near future will be materially detrimental to us or our shareholders, but we cannot exercise the deferral right for more than once during any twelve-month period and cannot register any other securities during such 90-day period. We are not obligated to effect more than two demand registrations. Further, if the registrable securities are offered by means of an underwritten offering, and the underwriters advise us that marketing factors require a limitation of the number of securities to be underwritten, the number of registrable securities that may be included in the underwriting shall be reduced as required by the underwriters and allocated among the holders of registrable securities on a pro rata basis according to the number of registrable securities requested by each holder, provided that all other equity securities are first excluded and 25% of shares of registrable securities requested by the holders are included.

Registration on Form F-3. Any holder may request us to file a registration statement on Form F-3 if we qualify for registration on Form F-3. The holders are entitled to an unlimited number of registrations on Form F-3 so long as such registration offerings are in excess of US$500,000. We, however, are not obligated to consummate a registration if we have consummated two registrations within any twelve-month period. We have the right to defer filing of a registration statement for a period of not more than 60 days if we determine in good faith that filing of a registration statement in the near future will be materially detrimental to us or our shareholders, but we cannot exercise the deferral right for more than once during any twelve-month period and cannot register any other securities during such 60-day period.

Piggyback Registration Rights. If we propose to register for a public offering or our securities other than relating to any share incentive plan or a corporate reorganization, we must notify all holders of registrable securities and offer them an opportunity to be included in such registration. If the managing underwriter determines in good faith that market factors require a limitation of the number of registrable securities to be underwritten, the managing underwriter may decide to exclude shares from the registration and the underwriting, and the number of shares that may be included in the registration and the underwriting will be allocated, first, to us, second, to each of the holders requesting inclusion of their registrable securities on a pro rata basis based on the total amount of registrable securities requested by each such holder, and third, to holders of other securities of our company, provided that all other equity securities are first excluded and 25% of shares of registrable securities requested by the holders are included.

Expenses of Registration. We will bear all registration expenses, other than the underwriting discounts and commissions, fees for special counsel for the holders participating in such registration and certain excepted expenses as described in the shareholders agreement, incurred in connection with registrations, filings or qualification pursuant to the shareholders agreement.

Termination of Obligations. We have no obligation to effect any demand, piggyback or Form F-3 registration upon (i) the fifth anniversary from the date of closing of a Qualified Initial Public Offering (as defined in the shareholders agreement), (ii) upon the termination, liquidation or dissolution of our company or a Liquidation Event (as defined in the shareholders agreement), or (iii) all registrable securities proposed to be sold by a holder may then be sold without registration in any 90-day period under Rule 144 of the Securities Act.

The principal executive office of the depositary is located at 60 Wall Street, New York, NY 10005, USA.

The Direct Registration System, or DRS, is a system administered by The Depository Trust Company, or DTC, pursuant to which the depositary may register the ownership of uncertificated ADSs, which ownership shall be evidenced by periodic statements issued by the depositary to the ADS holders entitled thereto.

We will not treat ADS holders as our shareholders and accordingly, you, as an ADS holder, will not have shareholder rights. Cayman Islands law governs shareholder rights. The depositary will be the holder of the Class A ordinary shares underlying your ADSs. As a holder of ADSs, you will have ADS holder rights. A deposit agreement among us, the depositary and you, as an ADS holder, and the beneficial owners of ADSs sets out ADS holder rights as well as the rights and obligations of the depositary. The laws of the State of New York govern the deposit agreement and the ADSs.

The following is a summary of the material provisions of the deposit agreement. For more complete information, you should read the entire deposit agreement and the form of American Depositary Receipt. For directions on how to obtain copies of those documents, see "Where You Can Find Additional Information."

Holding the ADSs

How will you hold your ADSs?

You may hold ADSs either (1) directly (a) by having an American Depositary Receipt, or ADR, which is a certificate evidencing a specific number of ADSs, registered in your name, or (b) by holding ADSs in DRS, or (2) indirectly through your broker or other financial institution. If you hold ADSs directly, you are an ADS holder. This description assumes you hold your ADSs directly. ADSs will be issued through DRS, unless you specifically request certificated ADRs. If you hold the ADSs indirectly, you must rely on the procedures of your broker or other financial institution to assert the rights of ADS holders described in this section. You should consult with your broker or financial institution to find out what those procedures are.

Dividends and Other Distributions

How will you receive dividends and other distributions on the shares?

The depositary has agreed to pay to you the cash dividends or other distributions it or the custodian receives on Class A ordinary shares or other deposited securities, after deducting its fees and expenses. You will receive these distributions in proportion to the number of Class A ordinary shares your ADSs represent as of the record date (which will be as close as practicable to the record date for our Class A ordinary shares) set by the depositary with respect to the ADSs.

- ***Cash.*** The depositary will convert or cause to be converted any cash dividend or other cash distribution we pay on the Class A ordinary shares or any net proceeds from the sale of any Class A ordinary shares, rights, securities or other entitlements under the terms of the deposit agreement into U.S. dollars if it can do so on a practicable basis, and can transfer the

U.S. dollars to the United States and will distribute promptly the amount thus received. If the depositary shall determine in its judgment that such conversions or transfers are not practical or lawful or if any government approval or license is needed and cannot be obtained at a reasonable cost within a reasonable period or otherwise sought, the deposit agreement allows the depositary to distribute the foreign currency only to those ADS holders to whom it is possible to do so. It will hold or cause the custodian to hold the foreign currency it cannot convert for the account of the ADS holders who have not been paid and such funds will be held for the respective accounts of the ADS holders. It will not invest the foreign currency and it will not be liable for any interest for the respective accounts of the ADS holders. Before making a distribution, any taxes or other governmental charges, together with fees and expenses of the depositary, that must be paid, will be deducted. See "Taxation." It will distribute only whole U.S. dollars and cents and will round down fractional cents to the nearest whole cent. *If the exchange rates fluctuate during a time when the depositary cannot convert the foreign currency, you may lose some or all of the value of the distribution.*

- ***Shares.*** For any Class A ordinary shares we distribute as a dividend or free distribution, either (1) the depositary will distribute additional ADSs representing such Class A ordinary shares or (2) existing ADSs as of the applicable record date will represent rights and interests in the additional Class A ordinary shares distributed, to the extent reasonably practicable and permissible under law, in either case, net of applicable fees, charges and expenses incurred by the depositary and taxes and/or other governmental charges. The depositary will only distribute whole ADSs. It will try to sell Class A ordinary shares which would require it to deliver a fractional ADS and distribute the net proceeds in the same way as it does with cash. The depositary may sell a portion of the distributed Class A ordinary shares sufficient to pay its fees and expenses, and any taxes and governmental charges, in connection with that distribution.

- ***Elective Distributions in Cash or Shares.*** If we offer holders of our Class A ordinary shares the option to receive dividends in either cash or shares, the depositary, after consultation with us and having received timely notice as described in the deposit agreement of such elective distribution by us, has discretion to determine to what extent such elective distribution will be made available to you as a holder of the ADSs. We must timely first instruct the depositary to make such elective distribution available to you and furnish it with satisfactory evidence that it is legal to do so. The depositary could decide it is not legal or reasonably practicable to make such elective distribution available to you. In such case, the depositary shall, on the basis of the same determination as is made in respect of the Class A ordinary shares for which no election is made, distribute either cash in the same way as it does in a cash distribution, or additional ADSs representing Class A ordinary shares in the same way as it does in a share distribution. The depositary is not obligated to make available to you a method to receive the elective dividend in shares rather than in ADSs. There can be no assurance that you will be given the opportunity to receive elective distributions on the same terms and conditions as the holders of Class A ordinary shares.

- ***Rights to Purchase Additional Shares.*** If we offer holders of our Class A ordinary shares any rights to subscribe for additional shares, the depositary shall having received timely notice as described in the deposit agreement of such distribution by us, consult with us, and we must determine whether it is lawful and reasonably practicable to make these rights available to you. We must first instruct the depositary to make such rights available to you and furnish the depositary with satisfactory evidence that it is legal to do so. If the depositary decides it is not legal or reasonably practicable to make the rights available but that it is lawful and reasonably practicable to sell the rights, the depositary will endeavor to sell the rights and in a riskless principal capacity or otherwise, at such place and upon such terms (including public or private sale) as it may deem proper distribute the net proceeds in the same way as it does with cash.

The depositary will allow rights that are not distributed or sold to lapse. In that case, you will receive no value for them.

If the depositary makes rights available to you, it will establish procedures to distribute such rights and enable you to exercise the rights upon your payment of applicable fees, charges and expenses incurred by the depositary and taxes and/or other governmental charges. The Depositary shall not be obliged to make available to you a method to exercise such rights to subscribe for Class A ordinary shares (rather than ADSs).

U.S. securities laws may restrict transfers and cancellation of the ADSs represented by shares purchased upon exercise of rights. For example, you may not be able to trade these ADSs freely in the United States. In this case, the depositary may deliver restricted depositary shares that have the same terms as the ADSs described in this section except for changes needed to put the necessary restrictions in place.

There can be no assurance that you will be given the opportunity to exercise rights on the same terms and conditions as the holders of Class A ordinary shares or be able to exercise such rights.

- ***Other Distributions.*** Subject to receipt of timely notice, as described in the deposit agreement, from us with the request to make any such distribution available to you, and provided the depositary has determined such distribution is lawful and reasonably practicable and feasible and in accordance with the terms of the deposit agreement, the depositary will distribute to you anything else we distribute on deposited securities by any means it may deem practicable, upon your payment of applicable fees, charges and expenses incurred by the depositary and taxes and/or other governmental charges. If any of the conditions above are not met, the depositary will endeavor to sell, or cause to be sold, what we distributed and distribute the net proceeds in the same way as it does with cash; or, if it is unable to sell such property, the depositary may dispose of such property in any way it deems reasonably practicable under the circumstances for nominal or no consideration, such that you may have no rights to or arising from such property.

The depositary is not responsible if it decides that it is unlawful or impractical to make a distribution available to any ADS holders. We have no obligation to register ADSs, shares, rights or other securities under the Securities Act. We also have no obligation to take any other action to permit the distribution of ADSs, shares, rights or anything else to ADS holders. This means that you may not receive the distributions we make on our shares or any value for them if we and/or the depositary determines that it is illegal or not practicable for us or the depositary to make them available to you.

Deposit, Withdrawal and Cancellation

How are ADSs issued?

The depositary will deliver ADSs if you or your broker deposit Class A ordinary shares or evidence of rights to receive Class A ordinary shares with the custodian. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will register the appropriate number of ADSs in the names you request and will deliver the ADSs to or upon the order of the person or persons entitled thereto.

Except for Class A ordinary shares deposited by us in connection with this offering, no shares will be accepted for deposit during a period of 180 days after the date of this prospectus. The 180 day lock up period is subject to adjustment under certain circumstances as described in the section entitled "Shares Eligible for Future Sales—Lock-up Agreements."

How do ADS holders cancel an American Depositary Share?

You may turn in your ADSs at the depositary's corporate trust office or by providing appropriate instructions to your broker. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will deliver the Class A ordinary shares and any other deposited securities underlying the ADSs to you or a person you designate at the office of the custodian. Or, at your request, risk and expense, the depositary will deliver the deposited securities at its corporate trust office, to the extent permitted by law.

How do ADS holders interchange between Certificated ADSs and Uncertificated ADSs?

You may surrender your ADR to the depositary for the purpose of exchanging your ADR for uncertificated ADSs. The depositary will cancel that ADR and will send you a statement confirming that you are the owner of uncertificated ADSs. Alternatively, upon receipt by the depositary of a proper instruction from a holder of uncertificated ADSs requesting the exchange of uncertificated ADSs for certificated ADSs, the depositary will execute and deliver to you an ADR evidencing those ADSs.

Voting Rights

How do you vote?

You may instruct the depositary to vote the Class A ordinary shares or other deposited securities underlying your ADSs at any meeting at which you are entitled to vote pursuant to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities. *Otherwise, you could exercise your right to vote directly if you withdraw the Class A ordinary shares. However, you may not know about the meeting sufficiently enough in advance to withdraw the Class A ordinary shares.*

If we ask for your instructions and upon timely notice from us by regular, ordinary mail delivery, or by electronic transmission, as described in the deposit agreement, the depositary will notify you of the upcoming meeting at which you are entitled to vote pursuant to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities, and arrange to deliver our voting materials to you. The materials will include or reproduce (a) such notice of meeting or solicitation of consents or proxies; (b) a statement that the ADS holders at the close of business on the ADS record date will be entitled, subject to any applicable law, the provisions of our memorandum and articles of association, and the provisions of or governing the deposited securities, to instruct the depositary as to the exercise of the voting rights, if any, pertaining to the Class A ordinary shares or other deposited securities represented by such holder's ADSs; and (c) a brief statement as to the manner in which such instructions may be given or deemed given in accordance with the second to last sentence of this paragraph if no instruction is received, to the depositary to give a discretionary proxy to a person designated by us. Voting instructions may be given only in respect of a number of ADSs representing an integral number of Class A ordinary shares or other deposited securities. For instructions to be valid, the depositary must receive them in writing on or before the date specified. The depositary will try, as far as practical, subject to applicable law and the provisions of our memorandum and articles of association, to vote or to have its agents vote the Class A ordinary shares or other deposited securities (in person or by proxy) as you instruct. The depositary will only vote or attempt to vote as you instruct. If we timely requested the depositary to solicit your instructions but no instructions are received by the depositary from an owner with respect to any of the deposited securities represented by the ADSs of that owner on or before the date established by the depositary for such purpose, the depositary shall deem that owner to have instructed the depositary to give a discretionary proxy to a person designated by us with respect to such deposited securities, and the depositary shall give a discretionary proxy to a person designated by us to vote such

deposited securities. However, no such instruction shall be deemed given and no such discretionary proxy shall be given with respect to any matter if we inform the depositary we do not wish such proxy given, substantial opposition exists or the matter materially and adversely affects the rights of holders of the Class A ordinary shares.

We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote the Class A ordinary shares underlying your ADSs. In addition, there can be no assurance that ADS holders and beneficial owners generally, or any holder or beneficial owner in particular, will be given the opportunity to vote or cause the custodian to vote on the same terms and conditions as the holders of our Class A ordinary shares.

The depositary and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions. *This means that you may not be able to exercise your right to vote and you may have no recourse if the Class A ordinary shares underlying your ADSs are not voted as you requested.*

In order to give you a reasonable opportunity to instruct the depositary as to the exercise of voting rights relating to deposited securities, if we request the depositary to act, we will give the depositary notice of any such meeting and details concerning the matters to be voted at least 30 business days in advance of the meeting date.

Compliance with Regulations

Information Requests

Each ADS holder and beneficial owner shall (a) provide such information as we or the depositary may request pursuant to law, including, without limitation, relevant Cayman Islands law, any applicable law of the United States of America, our memorandum and articles of association, any resolutions of our Board of Directors adopted pursuant to such memorandum and articles of association, the requirements of any markets or exchanges upon which the Class A ordinary shares, ADSs or ADRs are listed or traded, or to any requirements of any electronic book-entry system by which the ADSs or ADRs may be transferred, regarding the capacity in which they own or owned ADRs, the identity of any other persons then or previously interested in such ADRs and the nature of such interest, and any other applicable matters, and (b) be bound by and subject to applicable provisions of the laws of the Cayman Islands, our memorandum and articles of association, and the requirements of any markets or exchanges upon which the ADSs, ADRs or Class A ordinary shares are listed or traded, or pursuant to any requirements of any electronic book-entry system by which the ADSs, ADRs or Class A ordinary shares may be transferred, to the same extent as if such ADS holder or beneficial owner held Class A ordinary shares directly, in each case irrespective of whether or not they are ADS holders or beneficial owners at the time such request is made.

Disclosure of Interests

Each ADS holder and beneficial owner shall comply with our requests pursuant to Cayman Islands law, the rules and requirements of the New York Stock Exchange and any other stock exchange on which the Class A ordinary shares are, or will be, registered, traded or listed or our memorandum and articles of association, which requests are made to provide information, inter alia, as to the capacity in which such ADS holder or beneficial owner owns ADS and regarding the identity of any other person interested in such ADS and the nature of such interest and various other matters, whether or not they are ADS holders or beneficial owners at the time of such requests.

Fees and Expenses

As an ADS holder, you will be required to pay the following service fees to the depositary bank and certain taxes and governmental charges (in addition to any applicable fees, expenses, taxes and other governmental charges payable on the deposited securities represented by any of your ADSs):

Service	Fees
• To any person to which ADSs are issued or to any person to which a distribution is made in respect of ADS distributions pursuant to stock dividends or other free distributions of stock, bonus distributions, stock splits or other distributions (except where converted to cash)	Up to US$0.05 per ADS issued
• Cancellation of ADSs, including the case of termination of the deposit agreement	Up to US$0.05 per ADS cancelled
• Distribution of cash dividends	Up to US$0.05 per ADS held
• Distribution of cash entitlements (other than cash dividends) and/or cash proceeds from the sale of rights, securities and other entitlements	Up to US$0.05 per ADS held
• Distribution of ADSs pursuant to exercise of rights.	Up to US$0.05 per ADS held
• Distribution of securities other than ADSs or rights to purchase additional ADSs	Up to US$0.05 per ADS held
• Depositary services	Up to US$0.05 per ADS held on the applicable record date(s) established by the depositary bank

As an ADS holder, you will also be responsible to pay certain fees and expenses incurred by the depositary bank and certain taxes and governmental charges (in addition to any applicable fees, expenses, taxes and other governmental charges payable on the deposited securities represented by any of your ADSs) such as:

- Fees for the transfer and registration of Class A ordinary shares charged by the registrar and transfer agent for the Class A ordinary shares in the Cayman Islands (i.e., upon deposit and withdrawal of Class A ordinary shares).
- Expenses incurred for converting foreign currency into U.S. dollars.
- Expenses for cable, telex and fax transmissions and for delivery of securities.
- Taxes and duties upon the transfer of securities, including any applicable stamp duties, any stock transfer charges or withholding taxes (i.e., when Class A ordinary shares are deposited or withdrawn from deposit).
- Fees and expenses incurred in connection with the delivery or servicing of Class A ordinary shares on deposit.
- Fees and expenses incurred in connection with complying with exchange control regulations and other regulatory requirements applicable to Class A ordinary shares, deposited securities, ADSs and ADRs.
- Any applicable fees and penalties thereon.

The depositary fees payable upon the issuance and cancellation of ADSs are typically paid to the depositary bank by the brokers (on behalf of their clients) receiving the newly issued ADSs from the

depositary bank and by the brokers (on behalf of their clients) delivering the ADSs to the depositary bank for cancellation. The brokers in turn charge these fees to their clients. Depositary fees payable in connection with distributions of cash or securities to ADS holders and the depositary services fee are charged by the depositary bank to the holders of record of ADSs as of the applicable ADS record date.

The depositary fees payable for cash distributions are generally deducted from the cash being distributed or by selling a portion of distributable property to pay the fees. In the case of distributions other than cash (i.e., share dividends, rights), the depositary bank charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or uncertificated in direct registration), the depositary bank sends invoices to the applicable record date ADS holders. In the case of ADSs held in brokerage and custodian accounts (via DTC), the depositary bank generally collects its fees through the systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients' ADSs in DTC accounts in turn charge their clients' accounts the amount of the fees paid to the depositary banks.

In the event of refusal to pay the depositary fees, the depositary bank may, under the terms of the deposit agreement, refuse the requested service until payment is received or may set off the amount of the depositary fees from any distribution to be made to the ADS holder.

The depositary may make payments to us or reimburse us for certain costs and expenses, by making available a portion of the ADS fees collected in respect of the ADR program or otherwise, upon such terms and conditions as we and the depositary bank agree from time to time.

Payment of Taxes

You will be responsible for any taxes or other governmental charges payable, or which become payable, on your ADSs or on the deposited securities represented by any of your ADSs. The depositary may refuse to register or transfer your ADSs or allow you to withdraw the deposited securities represented by your ADSs until such taxes or other charges are paid. It may apply payments owed to you or sell deposited securities represented by your ADSs to pay any taxes owed and you will remain liable for any deficiency. If the depositary sells deposited securities, it will, if appropriate, reduce the number of ADSs to reflect the sale and pay to you any net proceeds, or send to you any property, remaining after it has paid the taxes. You agree to indemnify us, the depositary, the custodian and each of our and their respective agents, directors, employees and affiliates for, and hold each of them harmless from, any claims with respect to taxes (including applicable interest and penalties thereon) arising from any refund of taxes, reduced rate of withholding at source or other tax benefit obtained for you. Your obligations under this paragraph shall survive any transfer of ADRs, any surrender of ADRs and withdrawal of deposited securities or the termination of the deposit agreement.

Reclassifications, Recapitalizations and Mergers

If we:	Then:
Change the nominal or par value of our Class A ordinary shares	The cash, shares or other securities received by the depositary will become deposited securities.
Reclassify, split up or consolidate any of the deposited securities	Each ADS will automatically represent its equal share of the new deposited securities.
Distribute securities on the Class A ordinary shares that are not distributed to you, or recapitalize, reorganize, merge, liquidate, sell all or substantially all of our assets, or take any similar action	The depositary may distribute some or all of the cash, shares or other securities it received. It may also deliver new ADSs or ask you to surrender your outstanding ADRs in exchange for new ADRs identifying the new deposited securities.

Amendment and Termination

How may the deposit agreement be amended?

We may agree with the depositary to amend the deposit agreement and the form of ADR without your consent for any reason. If an amendment adds or increases fees or charges, except for taxes and other governmental charges or expenses of the depositary for registration fees, facsimile costs, delivery charges or similar items, including expenses incurred in connection with foreign exchange control regulations and other charges specifically payable by ADS holders under the deposit agreement, or materially prejudices a substantial existing right of ADS holders, it will not become effective for outstanding ADSs until 30 days after the depositary notifies ADS holders of the amendment. *At the time an amendment becomes effective, you are considered, by continuing to hold your ADSs, to agree to the amendment and to be bound by the ADRs and the deposit agreement as amended*. If any new laws are adopted which would require the deposit agreement to be amended in order to comply therewith, we and the depositary may amend the deposit agreement in accordance with such laws and such amendment may become effective before notice thereof is given to ADS holders.

How may the deposit agreement be terminated?

The depositary will terminate the deposit agreement if we ask it to do so, in which case the depositary will give notice to you at least 90 days prior to termination. The depositary may also terminate the deposit agreement if the depositary has told us that it would like to resign, or if we have removed the depositary, and in either case we have not appointed a new depositary within 90 days. In either such case, the depositary must notify you at least 30 days before termination.

After termination, the depositary and its agents will do the following under the deposit agreement but nothing else: collect distributions on the deposited securities, sell rights and other property and deliver Class A ordinary shares and other deposited securities upon cancellation of ADSs after payment of any fees, charges, taxes or other governmental charges. Six months or more after the date of termination, the depositary may sell any remaining deposited securities by public or private sale. After that, the depositary will hold the money it received on the sale, as well as any other cash it is holding under the deposit agreement, for the pro rata benefit of the ADS holders that have not surrendered their ADSs. It will not invest the money and has no liability for interest. After such sale, the depositary's only obligations will be to account for the money and other cash. After termination, we shall be discharged from all obligations under the deposit agreement except for our obligations to the depositary thereunder.

Books of Depositary

The depositary will maintain ADS holder records at its depositary office. You may inspect such records at such office during regular business hours but solely for the purpose of communicating with other holders in the interest of business matters relating to the Company, the ADRs and the deposit agreement.

The depositary will maintain facilities in the Borough of Manhattan, The City of New York to record and process the issuance, cancellation, combination, split-up and transfer of ADRs.

These facilities may be closed at any time or from time to time when such action is deemed necessary or advisable by the depositary in connection with the performance of its duties under the deposit agreement or at our reasonable written request.

Limitations on Obligations and Liability

Limits on our Obligations and the Obligations of the Depositary and the Custodian; Limits on Liability to Holders of ADSs

The deposit agreement expressly limits our obligations and the obligations of the depositary and the custodian. It also limits our liability and the liability of the depositary. The depositary and the custodian:

- are only obligated to take the actions specifically set forth in the deposit agreement without gross negligence or willful misconduct;
- are not liable if any of us or our respective controlling persons or agents are prevented or forbidden from, or subjected to any civil or criminal penalty or restraint on account of, or delayed in, doing or performing any act or thing required by the terms of the deposit agreement and any ADR, by reason of any provision of any present or future law or regulation of the United States or any state thereof, the Cayman Islands or any other country, or of any other governmental authority or regulatory authority or stock exchange, or on account of the possible criminal or civil penalties or restraint, or by reason of any provision, present or future, of our memorandum and articles of association or any provision of or governing any deposited securities, or by reason of any act of God or war or other circumstances beyond its control (including, without limitation, nationalization, expropriation, currency restrictions, work stoppage, strikes, civil unrest, revolutions, rebellions, explosions and computer failure);
- are not liable by reason of any exercise of, or failure to exercise, any discretion provided for in the deposit agreement or in our memorandum and articles of association or provisions of or governing deposited securities;
- are not liable for any action or inaction of the depositary, the custodian or us or their or our respective controlling persons or agents in reliance upon the advice of or information from legal counsel, any person presenting Class A ordinary shares for deposit or any other person believed by it in good faith to be competent to give such advice or information;
- are not liable for the inability of any holder of ADSs to benefit from any distribution on deposited securities that is not made available to holders of ADSs under the terms of the deposit agreement;
- are not liable for any special, consequential, indirect or punitive damages for any breach of the terms of the deposit agreement, or otherwise;
- may rely upon any documents we believe in good faith to be genuine and to have been signed or presented by the proper party;

- disclaim any liability for any action or inaction or inaction of any of us or our respective controlling persons or agents in reliance upon the advice of or information from legal counsel, accountants, any person presenting Class A ordinary shares for deposit, holders and beneficial owners (or authorized representatives) of ADSs, or any person believed in good faith to be competent to give such advice or information; and

- disclaim any liability for inability of any holder to benefit from any distribution, offering, right or other benefit made available to holders of deposited securities but not made available to holders of ADS.

The depositary and any of its agents also disclaim any liability (i) for any failure to carry out any instructions to vote, the manner in which any vote is cast or the effect of any vote or failure to determine that any distribution or action may be lawful or reasonably practicable or for allowing any rights to lapse in accordance with the provisions of the deposit agreement, (ii) the failure or timeliness of any notice from us, the content of any information submitted to it by us for distribution to you or for any inaccuracy of any translation thereof, (iii) any investment risk associated with the acquisition of an interest in the deposited securities, the validity or worth of the deposited securities, the credit-worthiness of any third party, (iv) for any tax consequences that may result from ownership of ADSs, Class A ordinary shares or deposited securities, or (v) for any acts or omissions made by a successor depositary whether in connection with a previous act or omission of the depositary or in connection with any matter arising wholly after the removal or resignation of the depositary, provided that in connection with the issue out of which such potential liability arises the depositary performed its obligations without gross negligence or willful misconduct while it acted as depositary.

In addition, the deposit agreement provides that each party to the deposit agreement (including each holder, beneficial owner and holder of interests in the ADRs) irrevocably waives, to the fullest extent permitted by applicable law, any right it may have to a trial by jury in any lawsuit or proceeding against the depositary or our company related to our shares, the ADSs or the deposit agreement. This provision does not apply to claims against us made under the federal securities laws.

In the deposit agreement, we *and the depositary* agree to indemnify *each other* under certain circumstances.

Requirements for Depositary Actions

Before the depositary will issue, deliver or register a transfer of an ADS, split-up, subdivide or combine ADSs, make a distribution on an ADS, or permit withdrawal of Class A ordinary shares, the depositary may require:

- payment of stock transfer or other taxes or other governmental charges and transfer or registration fees charged by third parties for the transfer of any Class A ordinary shares or other deposited securities and payment of the applicable fees, expenses and charges of the depositary;

- satisfactory proof of the identity and genuineness of any signature or any other matters contemplated in the deposit agreement; and

- compliance with (A) any laws or governmental regulations relating to the execution and delivery of ADRs or ADSs or to the withdrawal or delivery of deposited securities and (B) such reasonable regulations and procedures as the depositary may establish, from time to time, consistent with the deposit agreement and applicable laws, including presentation of transfer documents.

The depositary may refuse to issue and deliver ADSs or register transfers of ADSs generally when the register of the depositary or our transfer books are closed or at any time if the depositary or we determine that it is necessary or advisable to do so.

Your Right to Receive the Shares Underlying Your ADSs

You have the right to cancel your ADSs and withdraw the underlying Class A ordinary shares at any time except:

- when temporary delays arise because: (1) the depositary has closed its transfer books or we have closed our transfer books; (2) the transfer of Class A ordinary shares is blocked to permit voting at a shareholders' meeting; or (3) we are paying a dividend on our Class A ordinary shares;
- when you owe money to pay fees, taxes and similar charges;
- when it is necessary to prohibit withdrawals in order to comply with any laws or governmental regulations that apply to ADSs or to the withdrawal of ordinary shares or other deposited securities, or
- other circumstances specifically contemplated by Section I.A.(l) of the General Instructions to Form F-6 (as such General Instructions may be amended from time to time); or
- for any other reason if the depositary or we determine, in good faith, that it is necessary or advisable to prohibit withdrawals.

The depositary shall not knowingly accept for deposit under the deposit agreement any Class A ordinary shares or other deposited securities required to be registered under the provisions of the Securities Act, unless a registration statement is in effect as to such ordinary shares.

This right of withdrawal may not be limited by any other provision of the deposit agreement.

Direct Registration System

In the deposit agreement, all parties to the deposit agreement acknowledge that the DRS and Profile Modification System, or Profile, will apply to uncertificated ADSs upon acceptance thereof to DRS by DTC. DRS is the system administered by DTC pursuant to which the depositary may register the ownership of uncertificated ADSs, which ownership shall be evidenced by periodic statements issued by the depositary to the ADS holders entitled thereto. Profile is a required feature of DRS which allows a DTC participant, claiming to act on behalf of an ADS holder, to direct the depositary to register a transfer of those ADSs to DTC or its nominee and to deliver those ADSs to the DTC account of that DTC participant without receipt by the depositary of prior authorization from the ADS holder to register such transfer.

SHARES ELIGIBLE FOR FUTURE SALES

Upon completion of this offering, we will have 85,600,000 ADSs outstanding, representing approximately 14.5% of our outstanding Class A ordinary shares, assuming the underwriters do not exercise their over-allotment option. All of the ADSs sold in this offering will be freely transferable by persons other than by our "affiliates" without restriction or further registration under the Securities Act. Sales of substantial amounts of our ADSs in the public market could adversely affect prevailing market prices of our ADSs. Prior to this offering, there has been no public market for our ordinary shares or the ADSs. Our ADSs have been approved for listing on the Nasdaq Global Select Market but we cannot assure you that a regular trading market will develop in the ADSs. We do not expect that a trading market will develop for our ordinary shares not represented by the ADSs.

Lock-up Agreements

We, our directors and executive officers, our existing shareholders and certain of our option holders have agreed, for a period of 180 days after the date of this prospectus, subject to certain exceptions, not to offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, our ordinary shares or ADSs or securities that are substantially similar to our ordinary shares or ADSs (including by entering into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership interests), whether any of these transactions are to be settled by delivery of ADSs, in cash or otherwise. These parties collectively own all of our outstanding ordinary shares, without giving effect to this offering. The foregoing restrictions also apply to any ADSs acquired by our directors and executive officers in the offering pursuant to the directed share program, if any, as well as up to US$150 million of ADSs acquired by Sequoia Capital in the offering, if any.

Other than this offering, we are not aware of any plans by any significant shareholders to dispose of significant numbers of our ADSs or ordinary shares. However, one or more existing shareholders or owners of securities convertible or exchangeable into or exercisable for our ADSs or ordinary shares may dispose of significant numbers of our ADSs or ordinary shares in the future. We cannot predict what effect, if any, future sales of our ADSs or ordinary shares, or the availability of ADSs or ordinary shares for future sale, will have on the trading price of our ADSs from time to time. Sales of substantial amounts of our ADSs or ordinary shares in the public market, or the perception that these sales could occur, could adversely affect the trading price of our ADSs.

Rule 144

All of our ordinary shares that will be outstanding upon the completion of this offering, other than those ordinary shares sold in this offering, are "restricted securities" as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. In general, beginning 90 days after the date of this prospectus, a person (or persons whose shares are aggregated) who at the time of a sale is not, and has not been during the three months preceding the sale, an affiliate of ours and has beneficially owned our restricted securities for at least six months will be entitled to sell the restricted securities without registration under the Securities Act, subject only to the availability of current public information about us, and will be entitled to sell restricted securities beneficially owned for at least one year without restriction. Persons who are our

affiliates and have beneficially owned our restricted securities for at least six months may sell a number of restricted securities within any three-month period that does not exceed the greater of the following:

- 1% of the then outstanding ordinary shares of the same class, in the form of ADSs or otherwise, which immediately after this offering will equal 23,566,976 Class A ordinary shares, assuming the underwriters do not exercise their over-allotment option; or

- the average weekly trading volume of our ordinary shares of the same class, in the form of ADSs or otherwise, during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Sales by our affiliates under Rule 144 are also subject to certain requirements relating to manner of sale, notice and the availability of current public information about us.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of our employees, consultants or advisors who purchases our ordinary shares from us in connection with a compensatory stock plan or other written agreement executed prior to the completion of this offering is eligible to resell those ordinary shares in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, the Rule 701 shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

TAXATION

The following summary of the material Cayman Islands, PRC and U.S. federal income tax consequences of an investment in our ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this registration statement, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ADSs or ordinary shares, such as the tax consequences under U.S. state and local tax laws or under the tax laws of jurisdictions other than the Cayman Islands, China and the United States. To the extent that the discussion relates to matters of Cayman Islands tax law, it represents the opinion of Maples and Calder (Hong Kong) LLP, our counsel as to Cayman Islands law, and to the extent it relates to PRC tax law, it represents the opinion of King & Wood Mallesons, our counsel as to PRC law.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us levied by the government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or brought within the jurisdiction of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Payments of dividends and capital in respect of our ordinary shares and ADSs will not be subject to taxation in the Cayman Islands, and no withholding will be required on the payment of a dividend or capital to any holder of our ordinary shares or ADSs, nor will gains derived from the disposal of our ordinary shares or ADSs be subject to Cayman Islands income or corporation tax.

No stamp duty is payable in respect of the issue of the shares or on an instrument of transfer in respect of a share.

PRC Taxation

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside the PRC with "de facto management body" within the PRC is considered a resident enterprise. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control and overall management over the business, productions, personnel, accounts and properties of an enterprise. In April 2009, the State Administration of Taxation issued a circular, known as Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the State Administration of Taxation's general position on how the "de facto management body" text should be applied in determining the tax resident status of all offshore enterprises. According to Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its "de facto management body" in China only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe that Pinduoduo Inc. is not a PRC resident enterprise for PRC tax purposes. Pinduoduo Inc. is not controlled by a PRC enterprise or PRC enterprise group and we do not believe that

Pinduoduo Inc. meets all of the conditions above. Pinduoduo Inc. is a company incorporated outside China. As a holding company, its key assets are its ownership interests in its subsidiaries, and its records (including the resolutions of its board of directors and the resolutions of its shareholders) are maintained, outside China. In addition, we are not aware of any offshore holding companies with a similar corporate structure as ours ever having been deemed a PRC "resident enterprise" by the PRC tax authorities. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body."

If the PRC tax authorities determine that Pinduoduo Inc. is a PRC resident enterprise for enterprise income tax purposes, we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of our ADSs. In addition, non-resident enterprise shareholders (including our ADS holders) may be subject to a 10% PRC tax on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced from within China. It is unclear whether our non-PRC individual shareholders (including our ADS holders) would be subject to any PRC tax on dividends or gains obtained by such non-PRC individual shareholders in the event we are determined to be a PRC resident enterprise. If any PRC tax were to apply to such dividends or gains, it would generally apply at a rate of 20% unless a reduced rate is available under an applicable tax treaty. However, it is also unclear whether non-PRC shareholders of Pinduoduo Inc. would be able to claim the benefits of any tax treaties between their country of tax residence and China in the event that Pinduoduo Inc. is treated as a PRC resident enterprise. See "Risk Factors—Risks Related to Doing Business in China—If we are classified as a PRC resident enterprise for PRC income tax purposes, such classification could result in unfavourable tax consequences to us and our non-PRC shareholders or ADS holders."

U.S. Federal Income Tax Considerations

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the ownership and disposition of our ADSs or Class A ordinary shares by a U.S. holder (as defined below) that acquires our ADSs in this offering and holds our ADSs or Class A ordinary shares as "capital assets" (generally, property held for investment) under the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This discussion is based upon existing U.S. federal income tax law, which is subject to differing interpretations and may be changed, possibly with retroactive effect. No ruling has been sought from the Internal Revenue Service (the "IRS") with respect to any U.S. federal income tax consequences described below, and there can be no assurance that the IRS or a court will not take a contrary position. This discussion does not address all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances, including investors subject to special tax rules (for example, certain financial institutions, insurance companies, broker-dealers, traders in securities that have elected the mark-to-market method of accounting for their securities, partnerships and their partners, regulated investment companies, real estate investment trusts, and tax-exempt organizations (including private foundations)), investors who are not U.S. holders, investors who own (directly, indirectly, or constructively) 10% or more of our stock, investors that will hold their ADSs or Class A ordinary shares as part of a straddle, hedge, conversion, constructive sale, or other integrated transaction for U.S. federal income tax purposes, or investors that have a functional currency other than the U.S. dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this discussion does not discuss any non-U.S., alternative minimum tax, state, or local tax or any non-income tax (such as the U.S. federal gift or estate tax) considerations, or the Medicare tax on net investment income. Each U.S. holder is urged to consult its tax advisor regarding the U.S. federal, state, local, and non-U.S. income and other tax considerations of an investment in our ADSs or Class A ordinary shares.

General

For purposes of this discussion, a "U.S. holder" is a beneficial owner of our ADSs or Class A ordinary shares that is, for U.S. federal income tax purposes, (i) an individual who is a citizen or resident of the United States, (ii) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created in, or organized under the laws of, the United States or any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust (A) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (B) that has otherwise elected to be treated as a U.S. person under applicable U.S. Treasury regulations.

If a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of our ADSs or Class A ordinary shares, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding our ADSs or Class A ordinary shares and partners in such partnerships are urged to consult their tax advisors as to the particular U.S. federal income tax consequences of an investment in our ADSs or Class A ordinary shares.

For U.S. federal income tax purposes, a U.S. holder of ADSs will generally be treated as the beneficial owner of the underlying shares represented by the ADSs. The remainder of this discussion assumes that a U.S. holder of our ADSs will be treated as the beneficial owner of the underlying shares represented by the ADSs. Accordingly, deposits or withdrawals of Class A ordinary shares for ADSs will generally not be subject to U.S. federal income tax.

Passive Foreign Investment Company Considerations

A non-U.S. corporation, such as our company, will be a "passive foreign investment company," or "PFIC," for U.S. federal income tax purposes, if, in any particular taxable year, either (i) 75% or more of its gross income for such year consists of certain types of "passive" income or (ii) 50% or more of the average quarterly value of its assets (as determined on the basis of fair market value) during such year produce or are held for the production of passive income. Cash is categorized as a passive asset and the company's unbooked intangibles associated with active business activities may generally be classified as active assets. Passive income generally includes, among other things, dividends, interest, rents, royalties, and gains from the disposition of passive assets.

We will be treated as owning a proportionate share of the assets and earning a proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock. Although the law in this regard is unclear, we intend to treat our VIE (including its subsidiaries) as being owned by us for U.S. federal income tax purposes, and we treat it that way, not only because we exercise effective control over the operation of such entity but also because we are entitled to substantially all of its economic benefits, and, as a result, we consolidate its results of operations in our consolidated financial statements. Assuming that we are the owner of our VIE (including its subsidiaries) for U.S. federal income tax purposes, and based upon our current and expected income and assets (taking into account the expected proceeds from this offering) and projections as to the market price of our ADSs immediately following the offering, we do not presently expect to be a PFIC for the current taxable year or the foreseeable future.

While we do not expect to be or become a PFIC in the current or future taxable years, the determination of whether we are or will become a PFIC will depend in part upon the value of our goodwill and other unbooked intangibles (which will depend upon the market price of our ADSs from time-to-time, which may be volatile). In estimating the value of our goodwill and other unbooked intangibles, we have taken into account our anticipated market capitalization immediately following the close of this offering. Among other matters, if our market capitalization is less than anticipated or

subsequently declines, we may be or become a PFIC for the current or future taxable years. It is also possible that the IRS may challenge our classification or valuation of our goodwill and other unbooked intangibles, which may result in our company being or becoming a PFIC for the current or one or more future taxable years.

The determination of whether we will be or become a PFIC will also depend, in part, on the composition of our income and assets, which may be affected by how, and how quickly, we use our liquid assets and the cash raised in this offering. If we determine not to deploy significant amounts of cash for active purposes or if we were treated as not owning our variable interest entities for U.S. federal income tax purposes, our risk of being classified as a PFIC may substantially increase. Because our PFIC status for any taxable year is a factual determination that can be made only after the close of a taxable year, there can be no assurance that we will not be a PFIC for the current taxable year or any future taxable year. If we are a PFIC for any year during which a U.S. holder holds our ADSs or Class A ordinary shares, we generally will continue to be treated as a PFIC for all succeeding years during which such U.S. holder holds our ADSs or Class A ordinary shares.

The discussion below under "Dividends" and "Sale or Other Disposition of ADSs or Class A Ordinary Shares" is written on the basis that we will not be or become a PFIC for U.S. federal income tax purposes. The U.S. federal income tax rules that apply if we are a PFIC for the current taxable year or any subsequent taxable year are generally discussed below under "Passive Foreign Investment Company Rules."

Dividends

Subject to the PFIC rules discussed below, any cash distributions paid on our ADSs or Class A ordinary shares (including the amount of any tax withheld) out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, will generally be includible in the gross income of a U.S. holder as dividend income on the day actually or constructively received by the U.S. holder, in the case of Class A ordinary shares, or by the depositary, in the case of ADSs. Because we do not intend to determine our earnings and profits on the basis of U.S. federal income tax principles, we will generally report any distribution paid as a dividend for U.S. federal income tax purposes. Dividends received on the ADSs or Class A ordinary shares will not be eligible for the dividends received deduction allowed to corporations.

Individuals and other non-corporate U.S. holders will generally be subject to tax at the lower capital gain tax rate applicable to "qualified dividend income," provided that certain conditions are satisfied, including that (1) our ADSs are readily tradable on an established securities market in the United States, or, in the event that we are deemed to be a PRC resident enterprise under the PRC tax law, we are eligible for the benefit of the United States-PRC income tax treaty, (2) we are neither a PFIC nor treated as such with respect to a U.S. holder (as discussed below) for the taxable year in which the dividend was paid and the preceding taxable year, and (3) certain holding period requirements are met. Our ADSs have been approved for listing on the Nasdaq Global Select Market. Provided the listing is approved, we believe that the ADSs will be readily tradable on an established securities market in the United States and that we will be a qualified foreign corporation with respect to dividends paid on the ADSs. There can be no assurance that our ADSs will continue to be considered readily tradable on an established securities market in later years. Since we do not expect that our Class A ordinary shares will be listed on established securities markets, we do not believe that dividends that we pay on our Class A ordinary shares that are not backed by ADSs currently meet the conditions required for the reduced tax rate. However, in the event we are deemed to be a resident enterprise under the PRC Enterprise Income Tax Law, we may be eligible for the benefits of the United States-PRC income tax treaty (which the U.S. Treasury Department has determined is satisfactory for this purpose) and in that case, we would be treated as a qualified foreign corporation with respect to dividends paid on our Class A ordinary shares as well as our ADSs. Each non-corporate

U.S. holder is advised to consult its tax advisors regarding the availability of the reduced tax rate applicable to qualified dividend income for any dividends we pay with respect to our ADSs or Class A ordinary shares.

Dividends generally will be treated as income from foreign sources for U.S. foreign tax credit purposes and generally will constitute passive category income. In the event that we are deemed to be a PRC "resident enterprise" under the Enterprise Income Tax Law, a U.S. holder may be subject to PRC withholding taxes on dividends paid on our ADSs or Class A ordinary shares. See "Taxation—PRC Taxation." In that case, a U.S. holder may be eligible, subject to a number of complex limitations, to claim a foreign tax credit in respect of any foreign withholding taxes imposed on dividends received on ADSs or Class A ordinary shares. A U.S. holder who does not elect to claim a foreign tax credit for foreign tax withheld may instead claim a deduction, for U.S. federal income tax purposes, in respect of such withholdings, but only for a year in which such U.S. holder elects to do so for all creditable foreign income taxes. The rules governing the foreign tax credit are complex. U.S. holders are advised to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Sale or Other Disposition of ADSs or Class A Ordinary Shares

Subject to the PFIC rules discussed below, a U.S. holder generally will recognize capital gain or loss upon the sale or other disposition of ADSs or Class A ordinary shares in an amount equal to the difference between the amount realized upon the disposition and the U.S. holder's adjusted tax basis in such ADSs or Class A ordinary shares. Any capital gain or loss will be long-term if the ADSs or Class A ordinary shares have been held for more than one year and generally will be U.S. source gain or loss for U.S. foreign tax credit purposes. Long-term capital gains of individuals and other non-corporate U.S. holders generally are eligible for a reduced rate of taxation. The deductibility of a capital loss may be subject to limitations.

In the event that we are treated as a PRC "resident enterprise" under the Enterprise Income Tax Law and gain from the disposition of the ADSs or Class A ordinary shares is subject to tax in the PRC, a U.S. holder that is eligible for the benefits of the income tax treaty between the United States and the PRC may elect to treat the gain as PRC source income. If a U.S. holder is not eligible for the benefits of the income tax treaty or fails to make the election to treat any gain as foreign source, then such U.S. holder may not be able to use the foreign tax credit arising from any PRC tax imposed on the disposition of the ADSs or Class A ordinary shares unless such credit can be applied (subject to applicable limitations) against U.S. federal income tax due on other income derived from foreign sources in the same income category (generally, the passive category). U.S. holders are advised to consult their tax advisors regarding the tax consequences if a foreign tax is imposed on a disposition of our ADSs or Class A ordinary shares, including the availability of the foreign tax credit under their particular circumstances and the election to treat any gain as PRC source.

Passive Foreign Investment Company Rules

If we are a PFIC for any taxable year during which a U.S. holder holds our ADSs or Class A ordinary shares, and unless the U.S. holder makes a mark-to-market election (as described below), the U.S. holder will generally be subject to special tax rules that have a penalizing effect, regardless of whether we remain a PFIC, for subsequent taxable years, on (i) any excess distribution that we make to the U.S. holder (which generally means any distribution paid during a taxable year to a U.S. holder that is greater than 125% of the average annual distributions paid in the three preceding taxable years or, if shorter, the U.S. holder's holding period for the ADSs or Class A ordinary shares), and (ii) any

gain realized on the sale or other disposition, including, under certain circumstances, a pledge, of ADSs or Class A ordinary shares. Under the PFIC rules:

- such excess distribution and/or gain will be allocated ratably over the U.S. holder's holding period for the ADSs or Class A ordinary shares;
- such amount allocated to the current taxable year and any taxable years in the U.S. holder's holding period prior to the first taxable year in which we are a PFIC, or pre-PFIC year, will be taxable as ordinary income;
- such amount allocated to each prior taxable year, other than a pre-PFIC year, will be subject to tax at the highest tax rate in effect for that year; and
- an interest charge generally applicable to underpayments of tax will be imposed on the tax attributable to each prior taxable year, other than a pre-PFIC year.

If we are a PFIC for any taxable year during which a U.S. holder holds our ADSs or Class A ordinary shares and any of our non-U.S. subsidiaries is also a PFIC, such U.S. holder would be treated as owning a proportionate amount (by value) of the shares of the lower-tier PFIC for purposes of the application of these rules. U.S. holders are advised to consult their tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

As an alternative to the foregoing rules, a U.S. holder of "marketable stock" in a PFIC may make a mark-to-market election with respect to our ADSs, provided that the ADSs are regularly traded on the Nasdaq Global Select Market. Because a mark-to-market election cannot be made for any lower-tier PFICs that a PFIC may own, a U.S. holder who makes a mark-to-market election with respect to our ADSs will generally continue to be subject to the foregoing rules with respect to such U.S. holder's indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

If a U.S. holder makes a mark-to-market election with respect to our ADSs, the U.S. holder generally will (i) include as ordinary income for each taxable year that we are a PFIC the excess, if any, of the fair market value of ADSs held at the end of the taxable year over the adjusted tax basis of such ADSs and (ii) deduct as an ordinary loss the excess, if any, of the adjusted tax basis of the ADSs over the fair market value of such ADSs held at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. The U.S. holder's adjusted tax basis in the ADSs would be adjusted to reflect any income or loss resulting from the mark-to-market election. Further, in each year that we are a PFIC any gain recognized upon the sale or other disposition of the ADSs will be treated as ordinary income and loss will be treated as ordinary loss, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. If a U.S. holder makes a mark-to-market election it will be effective for the taxable year for which the election is made and all subsequent taxable years unless the ADSs are no longer regularly traded on a qualified exchange or the IRS consents to the revocation of the election. It should also be noted that it is intended that only the ADSs and not the Class A ordinary shares will be listed on the Nasdaq Global Select Market. Consequently, if a U.S. holder holds Class A ordinary shares that are not represented by ADSs, such holder generally will not be eligible to make a mark-to-market election if we are or were to become a PFIC.

If a U.S. holder makes a mark-to-market election in respect of a PFIC and such corporation ceases to be a PFIC, the U.S. holder will not be required to take into account the mark-to-market gain or loss described above during any period that such corporation is not a PFIC.

We do not intend to provide information necessary for U.S. holders to make qualified electing fund elections, which, if available, would result in tax treatment different from (and generally less adverse than) the general tax treatment for PFICs described above.

If a U.S. holder owns our ADSs or Class A ordinary shares during any taxable year that we are a PFIC, such holder would generally be required to file an annual IRS Form 8621. Each U.S. holder is advised to consult its tax advisors regarding the potential tax consequences to such holder if we are or become a PFIC, including the possibility of making a mark-to-market election.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated, we have agreed to sell to the underwriters named below, for whom Credit Suisse Securities (USA) LLC, Goldman Sachs (Asia) L.L.C. and China International Capital Corporation Hong Kong Securities Limited are acting as representatives, the following respective numbers of ADSs:

Underwriter	Number of ADSs
Credit Suisse Securities (USA) LLC	
Goldman Sachs (Asia) L.L.C.	
China International Capital Corporation Hong Kong Securities Limited	
China Renaissance Securities (Hong Kong) Limited	
Total	85,600,000

The underwriting agreement provides that the underwriters are obligated to purchase all ADSs in the offering if any are purchased, other than those ADSs covered by the over-allotment option described below. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated. All sales of ADSs in the United States will be made by U.S. registered broker-dealers. China International Capital Corporation Hong Kong Securities Limited is not a broker-dealer registered with the SEC. Therefore, to the extent it intends to make any offers or sales of ADSs in the United States, it will do so only through one or more SEC-registered broker-dealer affiliates in compliance with the applicable securities laws and regulations. China Renaissance Securities (Hong Kong) Limited will offer ADSs in the United States through its SEC-registered broker-dealer affiliate in the United States, China Renaissance Securities (US) Inc.

We have granted to the underwriters a 30-day option to purchase on a pro rata basis up to additional ADSs from us at the initial public offering price less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of ADSs.

The underwriters propose to offer ADSs initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of US$ per ADS. The underwriters and selling group members may allow a discount of US$ per ADS on sales to other broker/dealers. After the initial public offering, the representatives may change the public offering price and concession and discount to broker/dealers.

The following table summarizes the compensation and estimated expenses we will pay:

	Per ADS		Total	
	Without Over-allotment	With Over-allotment	Without Over-allotment	With Over-allotment
Public offering price	US$	US$	US$	US$
Underwriting discounts and commissions paid by us	US$	US$	US$	US$
Expenses payable by us	US$	US$	US$	US$

The underwriters have informed us that they do not expect sales to accounts over which the underwriters have discretionary authority to exceed 5% of ADSs being offered.

Tencent Holdings Limited and Sequoia Capital, two of our principal shareholders, have indicated an interest in purchasing up to US$250 million and US$250 million, respectively, of the ADSs representing Class A ordinary shares in this offering at the initial public offering price and on the same

terms as the other ADSs being offered. We and the underwriters are currently under no obligation to sell ADSs to Tencent Holdings Limited or Sequoia Capital.

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of Credit Suisse Securities (USA) LLC, Goldman Sachs (Asia) L.L.C. and China International Capital Corporation Hong Kong Securities Limited for a period of 180 days after the date of this prospectus, except issuances pursuant to the exercise of employee stock options outstanding on the date hereof.

Our directors, executive officers, our existing shareholders and certain of our option holders have agreed that they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any ADSs, our ordinary shares or securities convertible into or exchangeable or exercisable for any ADSs or our ordinary shares, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of ADSs or our ordinary shares, whether any of these transactions are to be settled by delivery of ADSs or our ordinary shares or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of Credit Suisse Securities (USA) LLC, Goldman Sachs (Asia) L.L.C. and China International Capital Corporation Hong Kong Securities Limited for a period of 180 days after the date of this prospectus. The foregoing restrictions also apply to any ADSs acquired by our directors and executive officers pursuant to the directed share program, if any, as well as up to US$150 million of ADSs acquired by Sequoia Capital in the offering, if any.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Our ADSs have been approved for listing on the Nasdaq Global Select Market.

Prior to this offering, there has been no public market for the ADSs. The initial public offering price was negotiated between us and the representatives. In additional to prevailing market conditions, the factors considered in determining the initial public offering price included our historical performance, estimates of our business potential and earnings prospects, the valuation multiples of publicly traded companies that the representatives believed to be comparable to us, the history of, and the prospects for, the industry in which we compete and other factors deemed relevant by the representatives and us. It is also possible that after this offering, our ADSs will not trade in the public market at or above the initial public offering price.

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

- Over-allotment involves sales by the underwriters of ADSs in excess of the number of ADSs the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of ADSs over-allotted by the underwriters is not greater than the number of ADSs that they may purchase in the over-allotment option. In a naked short position, the number of ADSs involved is greater than the number of ADSs in the over-allotment option. The

underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing ADSs in the open market.

- Syndicate covering transactions involve purchases of ADSs in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of ADSs to close out the short position, the underwriters will consider, among other things, the price of ADSs available for purchase in the open market as compared to the price at which they may purchase ADSs through the over-allotment option. If the underwriters sell more ADSs than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying ADSs in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the ADSs in the open market after pricing that could adversely affect investors who purchase in the offering.

- Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when ADSs originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of ADSs or preventing or retarding a decline in the market price of ADSs. As a result the price of ADSs may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the Nasdaq or otherwise and, if commenced, may be discontinued at any time.

A prospectus in electronic format may be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representatives may agree to allocate a number of ADSs to underwriters and selling group members for sale to their online brokerage account holders. internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. 1. Organization

Pinduoduo Inc. (formerly known as Walnut Street Group Holding Limited) (the "Company") was incorporated in the Cayman Islands on April 20, 2015 under the Cayman Islands Companies Law as an exempted company with limited liability. The Company through its consolidated subsidiaries, variable interest entity (the "VIE") and the subsidiaries of the VIE (collectively, the "Group") are principally engaged in the merchandise sales and the provision of online marketplace to help merchants leverage the power of the internet to engage with their customers in the People's Republic of China (the "PRC" or "China"). Due to the PRC legal restrictions on foreign ownership and investment in such business, the Company conducts its primary business operations through its VIE and subsidiary of the VIE. The Company is ultimately controlled by Mr. Zheng Huang (the "Founder") since its establishment.

As of December 31, 2017, the details of the Company's major subsidiaries, consolidated VIE and the subsidiary of the VIE are as follows:

Entity	Date of incorporation	Place of incorporation	Percentage of ownership by the Company		Principal activities
			Direct	Indirect	
Subsidiaries:					
HongKong Walnut Street Limited ("Walnut HK")	April 28, 2015	Hong Kong	100%	—	Holding company
Hangzhou Weimi Network Technology Co., Ltd. ("Hangzhou Weimi" or the "WFOE")	May 28, 2015	PRC	100%	—	Technology research and development
VIE:					
Hangzhou Aimi Network Technology Co., Ltd. ("Hangzhou Aimi" or the "VIE")	April 14, 2015	PRC	—	100%	E-commerce platform
Subsidiary of VIE:					
Shanghai Xunmeng Information Technology Co., Ltd. ("Shanghai Xunmeng")	January 9, 2014	PRC	—	100%	E-commerce platform

In June 2016, the Company obtained 100% equity interest in Shanghai Xunmeng which controlled by the Founder since its establishment. The transaction undertaken by the Company and the Founder to restructure the Group was accounted for as a legal reorganization of entities under common control in a manner similar to a pooling of interest using historical cost. The accompanying consolidated financial statements have been prepared as if the current corporate structure had been in existence throughout the periods presented.

1. Organization (Continued)

The VIE agreements

The PRC laws and regulations currently place certain restrictions on foreign ownership of companies that engage in internet content and other restricted businesses. To comply with PRC laws and regulations, the Group conducts all of its business in China through the VIE and subsidiaries of the VIE. Despite the lack of technical majority ownership, the Company has effective control of the VIE through a series of contractual arrangements (the "Contractual Agreements") and a parent-subsidiary relationship exists between the Company and the VIE. The equity interests of the VIE are legally held by PRC individuals and a PRC entity (the "Nominee Shareholders"). Through the Contractual Agreements, the Nominee Shareholders of the VIE effectively assigned all of their voting rights underlying their equity interests in the VIE to the Company, via the WFOE, and therefore, the Company has the power to direct the activities of the VIE that most significantly impact its economic performance. The Company also has the right to receive economic benefits and obligations to absorb losses from the VIE, via the WFOE, that potentially could be significant to the VIE. Based on the above, the Company consolidates the VIE in accordance with SEC Regulation SX-3A-02 and ASC810-10, *Consolidation: Overall*.

The following is a summary of the Contractual Agreements:

Exclusive Option Agreement Pursuant to the Exclusive Option Agreement entered into between the Nominee Shareholders, the VIE and the WFOE, the Nominee Shareholders granted to the WFOE or its designees proxy of shareholders rights and voting rights of their respective equity interests in the VIE. The WFOE has the sole discretion as to when to exercise the options, whether in part or full. The exercise price of the options to purchase all or part of the equity interests in the VIE will be the minimum amount of consideration permitted by the applicable PRC laws. Any proceeds received by the Nominee Shareholders from the exercise of the options shall be remitted to the WFOE or its designated party, to the extent permitted under PRC laws. The Exclusive Option Agreement will remain in effect until all the equity interests in VIE held by Nominee Shareholders are transferred to the WFOE or its designated party. The WFOE may terminate the Exclusive Option Agreement at its sole discretion, whereas under no circumstances may the VIE or the Nominee Shareholders terminate the agreements.

Equity Pledge Agreement Pursuant to the Equity Pledge Agreement entered into among the WFOE (the "Pledge Agreement"), the Nominee Shareholders and the VIE, the Nominee Shareholders pledged all of their equity interests in the VIE to the WFOE as collateral to secure their obligations under the Contractual Agreements. The Nominee Shareholders further undertake that they will remit any distributions in connection with such shareholders' equity interests in the VIE to the WFOE, to the extent permitted by PRC laws. If the VIE or any of their Nominee Shareholders breach any of their respective contractual obligations under the above agreements, the WFOE, as the pledgee, will be entitled to certain rights, including the right to sell, transfer or dispose of the pledged equity interest. The Nominee Shareholders of the VIE agree not to create any encumbrance on or otherwise transfer or dispose of their respective equity interest in the VIE, without the prior consent of the WFOE. The Equity Pledge Agreement will be valid until the VIE and the shareholders fulfill all the contractual

obligations under the Contractual Agreements in full and the pledged equity interests have been transferred to the WFOE and/or its designee.

Shareholders' Voting Rights Proxy Agreement Pursuant to the Shareholders' Voting Rights Proxy Agreement entered into between the Nominee Shareholders, the VIE and the WFOE (the "Proxy Agreement"), the Nominee Shareholders authorized the WFOE or its designated party to act on behalf of the Nominee Shareholders as exclusive agent and attorney with all respect to all matters concerning the shareholding including but not limited to attend shareholders' meetings of the VIE; (2) exercise all the shareholders' rights, including voting rights; and (3) designate and appoint on behalf of each shareholder the senior management members of the VIE. The proxy remains irrevocable and continuously valid from the date of execution so long as each Nominee Shareholder remains as a shareholder of the VIE. The proxy agreements were subsequently reassigned to the Company.

Exclusive Consulting and Services Agreement Pursuant to the Exclusive Consulting and Services Agreement (the "Consulting and Services Agreement"), WFOE retains exclusive right to provide to the VIE the technical support and consulting services, including but not limited to, technology development and maintenance service, marketing consulting service and administrative consulting service. WFOE owns the intellectual property rights developed in the performance of the agreement. In exchange for these services, WFOE is entitled to charge the VIE annual service fees which typically amount to what would be substantially all of the VIE's pre-tax profits, resulting in a transfer of substantially all of the profits from the VIE to the WFOE. The term of the agreement is 10 years, expiring on June 5, 2025, which will be automatically renewed every ten-year thereafter if the WFOE does not provide notice of termination to the Nominee Shareholders three months prior to expiration.

Financial Support Undertaking Letter The Company and the VIE entered into a financial support undertaking letter pursuant to which, the Company is obligated and hereby undertakes to provide unlimited financial support to the VIE, to the extent permissible under the applicable PRC laws and regulations, whether or not any such operational loss is actually incurred. The Company will not request repayment of the loans or borrowings if the VIE or its shareholders do not have sufficient funds or are unable to repay.

In the opinion of the Company's management and PRC counsel, (i) the ownership structure of the Group, including its subsidiary, the VIE and the subsidiaries of the VIE, is not in violation with any applicable PRC laws, (ii) each of the VIE agreements is legal, valid, binding and enforceable to each party of such agreements in accordance with its terms and applicable PRC Laws; and (iii) each of the Group's PRC subsidiaries, the VIE and the subsidiaries of the VIE have the necessary corporate power and authority to conduct its business as described in its business scope under its business license, which is in full force and effect, and the Group's business operation in PRC are in compliance with existing PRC laws and regulations.

However, uncertainties in the PRC legal system could cause the relevant regulatory authorities to find the current Contractual Agreements and businesses to be in violation of any existing or future PRC laws or regulations. If the Company, the WFOE or any of its current or future VIE are found in violation of any existing or future laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion in dealing

with such violations, which may include, but not limited to, revocation of business and operating licenses, being required to discontinue or restrict its business operations, restriction of the Group's right to collect revenues, being required to restructure its operations, imposition of additional conditions or requirements with which the Group may not be able to comply, or other regulatory or enforcement actions against the Group that could be harmful to its business. The imposition of any of these or other penalties may result in a material and adverse effect on the Group's ability to conduct its business. In addition, if the imposition of any of these penalties causes the Company to lose the rights to direct the activities of the VIE or the right to receive their economic benefits, the Company would no longer be able to consolidate the VIE.

In addition, if the VIE or the Nominee Shareholders fail to perform their obligations under the Contractual Agreements, the Group may have to incur substantial costs and expend resources to enforce the primary beneficiary' rights under the contracts. The Group may have to rely on legal remedies under PRC laws, including seeking specific performance or injunctive relief and claiming damages, which may not be effective. All of the Contractual Agreements are governed by PRC laws and provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC laws and any disputes would be resolved in accordance with PRC legal procedures. The legal system in PRC is not as developed as in other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit the Group's ability to enforce these contractual arrangements. Under PRC laws, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would incur additional expenses and delay. In the event the Group is unable to enforce the Contractual Agreements, the primary beneficiary may not be able to exert effective control over its VIE, and the Group's ability to conduct its business may be negatively affected.

The VIE contributed 72.4% and 100% of the Group's consolidated revenues for the years ended December 31, 2016 and 2017 respectively. As of December 31, 2016 and 2017, the VIE accounted for an aggregate of 71.4% and 92.8%, respectively, of the consolidated total assets, and 94.8% and 98.6%, respectively, of the consolidated total liabilities.

Other revenue-producing assets held by the VIE and its subsidiaries mainly include licenses, such as the internet content provision license and internally-developed intangible assets including trademarks, patents, copyrights and domain names.

The following tables represent the financial information for the VIE as of December 31, 2016 and 2017 and for the years ended December 31, 2016 and 2017 before eliminating the inter-company

The VIE had inter-company payables to Hangzhou Weimi for purchases of goods and services and inter-company borrowings of RMB51,897 and RMB549,135 (US$87,545) as of December 31, 2016 and 2017, respectively.

There are no consolidated VIE's assets that are pledged or collateralized for the VIE's obligations and which can only be used to settle the VIE's obligations, except for registered capital and the PRC statutory reserves. Relevant PRC laws and regulations restrict the VIE from transferring a portion of its net assets, equivalent to the balance of their statutory reserves and its share capital, to the Company in the form of loans and advances or cash dividends. Please refer to Note 17 for disclosure of the restricted net assets. As the VIE is incorporated as limited liability company under the PRC Company Law, creditors of the VIE do not have recourse to the general credit of the Company for any of the liabilities of the VIE. There were no other pledges or collateralization of the VIE's assets.

2. Summary of Significant Accounting Policies

(a) Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America ("US GAAP").

(b) Principles of consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries, the VIE and the subsidiaries of the VIE. All significant inter-company transactions and balances between the Company, its subsidiaries, the VIE and subsidiaries of the VIE have been eliminated upon consolidation.

2. Summary of Significant Accounting Policies (Continued)

(c) Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and revenues and expenses during the reporting periods. Significant accounting estimates reflected in the Group's consolidated financial statements include, but not limited to economic lives and impairment of long-lived assets, valuation of short-term and long-term investments, valuation allowance for deferred tax assets, uncertain tax position, valuation for share-based compensation, warrant liability and modification of the convertible preferred shares. Changes in facts and circumstances may result in revised estimates. Actual results could differ from those estimates, and as such, differences may be material to the consolidated financial statements.

(d) Foreign currency

The functional currency of the Company and Walnut HK is the US$. The Company's PRC subsidiaries, the VIE and the subsidiaries of the VIE determined their functional currency to be RMB based on the criteria of ASC 830, *Foreign Currency Matters*. The Group uses the RMB as its reporting currency.

Transactions denominated in foreign currencies are re-measured into the functional currency at the exchange rates prevailing on the transaction dates. Monetary assets and liabilities denominated in foreign currencies are re-measured at the exchange rates prevailing at the balance sheet date. Non-monetary items that are measured in terms of historical cost in foreign currency are re-measured using the exchange rates at the dates of the initial transactions. Exchange gains and losses are included in the consolidated statements of comprehensive loss.

The Company uses the average exchange rate for the year and the exchange rate at the balance sheet date to translate the operating results and financial position, respectively. Translation differences are recorded in accumulated other comprehensive income (loss), a component of shareholders' deficits.

(e) Convenience translation

Amounts in US$ are presented for the convenience of the reader and are translated at the noon buying rate of US$1.00 to RMB6.2726 on March 30, 2018, the last business day in March 2018, as published on the website of the United States Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted into US$ at such rate.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments which are unrestricted as to withdrawal or use, and which have original maturities of three months or less when purchased.

(g) Restricted cash

Restricted cash represents cash received from consumers and reserved in a bank supervised account for payments to merchants.

2. Summary of Significant Accounting Policies (Continued)

(h) Short-term investments

All highly liquid investments with original maturities of greater than three months but less than twelve months are classified as short-term investments. Investments that are expected to be realized in cash during the next twelve months are also included in short-term investments. The Group accounts for short-term investments in accordance with ASC topic 320 ("ASC 320"), *Investments—Debt and Equity Securities.* Interest income is included in earnings. Any realized gains or losses on the sale of the short-term investments are determined on a specific identification method and such gains and losses are reflected in earnings during the period in which gains or losses are realized.

(i) Property and equipment

Property and equipment are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the assets, as follows:

Category	Estimated useful life
Computer and office equipment	3 years
Leasehold improvements	Over the shorter of lease term or the estimated useful lives of the assets

Repair and maintenance costs are charged to expense as incurred, whereas the costs of renewals and betterments that extend the useful lives of property and equipment are capitalized as additions to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the asset and accumulated depreciation accounts with any resulting gain or loss reflected in the consolidated statements of comprehensive loss.

Direct costs that are related to the construction of property and equipment and incurred in connection with bringing the assets to their intended use are capitalized as construction in progress. Construction in progress is transferred to specific property and equipment, and the depreciation of these assets commences when the assets are ready for their intended use.

(j) Impairment of long-lived assets other than goodwill

The Group evaluates its long-lived assets, including fixed assets and intangible assets with finite lives, for impairment whenever events or changes in circumstances, such as a significant adverse change to market conditions that will impact the future use of the assets, indicate that the carrying amount of an asset may not be fully recoverable. When these events occur, the Group evaluates the recoverability of long-lived assets by comparing the carrying amount of the assets to the future undiscounted cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the assets, the Group recognizes an impairment loss based on the excess of the carrying amount of the assets over their fair value. Fair value is generally determined by discounting the cash flows expected to be generated by the assets, when the market prices are not readily available.

For all periods presented, there were no impairment of any of the Group's long-lived assets.

2. Summary of Significant Accounting Policies (Continued)

(k) Long-term investment

The Group's long-term investment represents a cost method investment.

In accordance with ASC 325-20 ("ASC 325-20"), *Investments-Other: Cost Method Investments*, for investments in investees over which the Group does not have significant influence, the Group carries the investments at cost and only adjusts for other-than-temporary declines in fair value and distributions of earnings. The Group's management regularly evaluates for impairment of its cost method investment based on the performance and financial position of the investee as well as other evidence of estimated market values. Such evaluation includes, but is not limited to, reviewing the investee's cash position, recent financing, projected and historical financial performance, cash flow forecasts and current and future financing needs. An impairment loss is recognized in the consolidated statements of comprehensive loss equal to the excess of the investment's cost over its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value would then become the new cost basis of investment.

For the years ended December 31, 2016 and 2017, the Group recorded an impairment of nil and RMB10,000 (US$1,594), respectively, in the consolidated statement of comprehensive loss.

(l) Fair value of financial instruments

The Group's financial instruments include cash and cash equivalents, restricted cash, receivables from payment platforms, amount due from/to related parties, an interest-bearing loan to a related party, merchant deposits, customer advances, payables to merchants, investments and convertible preferred shares. Other than the interest-bearing loan to a related party and convertible preferred shares, the carrying values of these financial instruments approximate their fair values due to their short-term maturities.

The carrying amount of the interest-bearing loan to a related party approximate its fair value since it bears interest rate which approximates market interest rate. The convertible preferred shares are initially recognized at their respective fair value. The warrant liability was recognized at fair value.

The Group applies ASC 820, Fair Value Measurements and Disclosures, ("ASC 820"). ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 requires disclosures to be provided on fair value measurement.

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1—Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2—Other inputs that are directly or indirectly observable in the marketplace.

Level 3—Unobservable inputs which are supported by little or no market activity.

ASC 820 describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach; and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable

2. Summary of Significant Accounting Policies (Continued)

assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

(m) Revenue recognition

The Group through its platform primarily offers online marketplace services that enable third-party merchants to sell their products to consumers in China. Revenues from marketplace services consist of online marketing services revenues and commission fees. Prior to 2017, the Group was primarily engaged in the online merchandise sales of fresh produce and other perishable products sourced from produce suppliers. Payments for services or goods were generally received before delivery.

The Group presents value added taxes ("VAT") and tax surcharges assessed by government authorities as reductions of revenues. Consistent with the criteria of ASC 605 "Revenue Recognition" ("ASC 605"), the Group recognizes revenue when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been provided, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

In accordance with ASC 605-45, Revenue Recognition—Principal Agent Considerations ("ASC 605-45"), the Group evaluates whether it is appropriate to record the gross amounts of goods and services sold and the related costs, or the net amounts earned as commissions.

Marketplace services

The Group charges commission fees to merchants for sales transactions completed on the Group's online marketplace, where the Group is not primarily obligated to the consumers, does not take inventory risk and does not have latitude over pricing of the merchandise. Commission fees are determined as a percentage based on the value of merchandise being sold by the merchants. Revenues related to commissions are recognized in the consolidated statements of comprehensive loss at the time when the Group's services to the merchants are determined to have been completed upon the consumers confirming the receipts of goods. Commission fees are not refundable if and when consumers return the merchandise to merchants.

The Group also provides online marketing services to certain merchants on the Group's marketplace for which the Group receives service fees from merchants. Online marketing services allow merchants to bid for keywords that match product listings appearing in search or browser results on the Group's marketplace. Merchants prepay for online marketing services that are charged on a cost-per-click basis. The related revenues are recognized when consumers click the merchants' product listings. The positioning of such listings and the price for such positioning are determined through an online auction system, which facilitates price discovery through a market-based mechanism. Online marketing services revenues generated on the Group's marketplace are recorded on a gross basis principally because the Company is the primary obligor to the merchants in the arrangements. Service fees received from merchants in advance of the provision of online marketing services are current liabilities recorded in customer advances.

2. Summary of Significant Accounting Policies (Continued)

In order to promote its online marketplace and attract more registered consumers, the Group at its own discretion issues coupons to consumers. These coupons can be used in future purchases of eligible merchandise offered on the Group's marketplace to reduce purchase price that are not specific to any merchant. As the consumers are required to make future purchases of the merchants' merchandise to redeem the coupons, the Group recognizes the amounts of redeemed coupons as marketing expenses when future purchases are made. During the years ended December 31, 2016 and 2017, the Group recorded marketing expenses related to the coupons of RMB76,679 and RMB321,531 (US$51,260), respectively.

Merchandise sales

When the Group conducts online merchandise sales of fresh produce and other perishable products, it is primarily obligated for the merchandise sold to the customers, subject to inventory risk, has latitude in establishing prices and selecting suppliers. Revenues from merchandise sales are recorded on the gross basis when the customers confirm the receipts of goods. Proceeds received in advance of customer acceptance are recorded as current liabilities in customer advances.

(n) Costs of revenues

Costs of marketplace services consist primarily of payment processing fees paid to third party online payment platform, costs associated with the operation of the Group's platform, such as bandwidths and server costs, depreciation and maintenance costs, staff costs and share-based compensation expenses and other expenses directly attributable to the marketplace services. Costs of merchandise sales consist of the same elements as those of marketplace services, as well as the purchase price of merchandise, shipping and other logistics charges and write-down of inventories.

(o) Advertising expenditures

Advertising expenditures are expensed when incurred and are included in sales and marketing expenses, which amounted to RMB32,867 and RMB907,250 (US$144,636) for the years ended December 31, 2016 and 2017, respectively.

(p) Research and development expenses

Research and development expenses include payroll, employee benefits, and other operating expenses associated with research and platform development. Research and development expenses also include rent, depreciation and other related expenses. To date, expenditures incurred between when the application has reached the development stage and when it is substantially complete and ready for its intended use have been inconsequential and, as a result, the Company did not capitalize any qualifying software development costs in the accompanying consolidated financial statements.

(q) Leases

Leases are classified at the inception date as either a capital lease or an operating lease. The Group did not enter into any leases whereby it is the lessor for any of the periods presented. As the lessee, a lease is a capital lease if any of the following conditions exists: a) ownership is transferred to

the lessee by the end of the lease term, b) there is a bargain purchase option, c) the lease term is at least 75% of the property's estimated remaining economic life, or d) the present value of the minimum lease payments at the beginning of the lease term is 90% or more of the fair value of the leased property to the lessor at the inception date. A capital lease is accounted for as if there was an acquisition of an asset and an incurrence of an obligation at the inception of the lease. The Group did not enter into any capital leases for the years ended December 31, 2016 and 2017.

All other leases are accounted for as operating leases wherein rental payments are expensed on a straight-line basis over the periods of their respective lease terms. The Group leases office space under operating lease agreements. Certain lease agreements contain rent holidays and escalating rent. Rent holidays and escalating rent are considered in determining the straight-line rent expense to be recorded over the lease term. The lease term begins on the date of initial possession of the lease property for purposes of recognizing lease expense on a straight-line basis over the term of the lease.

(r) Income taxes

The Group follows the liability method of accounting for income taxes in accordance with ASC 740 ("ASC 740"), *Income Taxes*. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the period in which the differences are expected to reverse. The Group records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rate is recognized in tax expense in the period that includes the enactment date of the change in tax rate.

The Group accounted for uncertainties in income taxes in accordance with ASC 740. Interest and penalties related to unrecognized tax benefit recognized in accordance with ASC 740 are classified in the consolidated statements of comprehensive loss as income tax expenses.

(s) Share-based compensation

The Group applies ASC 718 ("ASC 718"), *Compensation—Stock Compensation*, to account for its employee share-based payments. In accordance with ASC 718, the Group determines whether an award should be classified and accounted for as a liability award or an equity award. All of the Group's share-based awards to employees were classified as equity awards. The Group measures the employee share-based compensation based on the fair value of the award at the grant date. Expense is recognized using accelerated method over the requisite service period. The fair value of share options at the time of grant is determined using the binomial-lattice option pricing model. The Group elected to early adopt ASU No. 2016-09, *Compensation-Stock Compensation (Topic 718): Improvement to Employee Share-based Payment Accounting* to account for forfeitures as they occur.

(t) Employee benefit expenses

As stipulated by the regulations of the PRC, full-time employees of the Group are entitled to various government statutory employee benefit plans, including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits through a PRC government-

mandated multi-employer defined contribution plan. The Group is required to make contributions to the plan and accrues for these benefits based on certain percentages of the qualified employees' salaries.

(u) Comprehensive income (loss)

Comprehensive income (loss) is defined as the changes in equity of the Group during a period from transactions and other events and circumstances excluding transactions resulting from investments by owners and distributions to owners. Among other disclosures, ASC 220, *Comprehensive Income*, requires that all items that are required to be recognized under current accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. For each of the periods presented, the Group's comprehensive income (loss) includes net loss and foreign currency translation adjustment and is presented in the consolidated statements of comprehensive loss.

(v) Loss per share

Basic loss per share is computed by dividing net loss attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period using the two-class method. Under the two-class method, net loss is allocated between ordinary shares and other participating securities based on their participating rights. Diluted loss per share is calculated by dividing net loss attributable to ordinary shareholders by the weighted average number of ordinary and dilutive ordinary equivalent shares outstanding during the period. Ordinary equivalent shares consist of shares issuable upon the exercise of share options using the treasury stock method. Ordinary equivalent shares are not included in the denominator of the diluted loss per share calculation when inclusion of such shares would be anti-dilutive.

Basic and diluted loss per share are not reported separately for Class A ordinary shares or Class B ordinary shares (the "Ordinary Shares") as each class of shares has the same rights to undistributed and distributed earnings.

(w) Unaudited pro forma loss per share

Upon the completion of a Qualified Initial Public Offering pursuant to the Company's Amended and Restated Memorandum and Articles of Association (the "Qualified IPO"), all of the outstanding convertible preferred shares will automatically be converted into 1,524,327,720 Class A Ordinary Shares.

The unaudited pro forma loss per share is computed using the weighted-average number of Ordinary Shares outstanding as of December 31, 2017, and assumes the automatic conversion of all of the Company's convertible preferred shares into Class A Ordinary Shares upon the closing of the Qualified IPO, as if it had occurred on January 1, 2017.

(x) Segment reporting

The Group follows ASC 280, *Segment Reporting*. The Group's Chief Executive Officer as the chief operating decision-maker reviews the consolidated financial results when making decisions about allocating resources and assessing the performance of the Group as a whole and hence, the Group has only one reportable segment. The Group operates and manages its business as a single segment. As the Group's long-lived assets are substantially all located in the PRC and substantially all the Group revenues are derived from within the PRC, no geographical segments are presented.

(y) Recent accounting pronouncements

We are an emerging growth company ("EGC") as defined by the Jumpstart Our Business Startups Act ("JOBS Act"). The JOBS Act provides that an EGC can take advantage of an extended transition period for complying with new or revised accounting standards. This allows an EGC to delay adoption of certain accounting standards until those standards would otherwise apply to private companies. We elected to take advantage of the extended transition period. However, this election will not apply should we cease to be classified as an EGC.

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 supersedes the revenue recognition requirements in ASC 605, and requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, which defers the effective date of ASU 2014-09 by one year. As a result, ASU 2014-09 is effective for the Company for annual reporting periods beginning January 1, 2019 and interim periods within annual periods beginning January 1, 2020. In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers—Principal versus Agent Considerations*, which clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers—Identifying Performance Obligations and Licensing*, which clarify guidance related to identifying performance obligations and licensing implementation guidance contained in ASU 2014-09. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers—Narrow-Scope Improvements and Practical Expedients*, which addresses narrow-scope improvements to the guidance on collectability, non-cash consideration, and completed contracts at transition and provides practical expedients for contract modifications at transition and an accounting policy election related to the presentation of sales taxes and other similar taxes collected from customers. The effective dates for these amendments are the same as the effective date of ASU No 2014-09. Early adoption is permitted, and the standard permits the use of either the retrospective or cumulative effect transition method. The Company does not plan to early adopt the standard and amendments and it is in the process of developing a plan for evaluating the impact of adoption of these guidance on its consolidated financial statement, including the selection of the adoption method, the identification of differences, if any, from the application of the standard, and the impact of such differences, if any, on its consolidated financial statements.

2. Summary of Significant Accounting Policies (Continued)

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments*. ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. An entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. ASU 2016-01 also simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. ASU 2016-01 is effective for the Company beginning January 1, 2019 with interim periods within annual periods beginning January 1, 2020. Early adoption is permitted no earlier than the fiscal year beginning January 1, 2018 including interim periods within that year. The Company does not plan to early adopt ASU 2016-01 and it is currently evaluating the impact of adopting this standard on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases*, which specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASU 2016-02 is effective for the Company for annual reporting periods beginning January 1, 2020 and interim periods within annual periods beginning January 1, 2021. Early adoption is permitted. The Company does not plan to early adopt ASU 2016-02 and it is currently evaluating the impact of adopting the standard on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which addresses eight specific cash flow issues: Debt prepayment or debt extinguishment costs; settlement of zero-coupon debt instruments or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing; contingent consideration payments made after a business combination; proceeds from the settlement of insurance claims; proceeds from the settlement of corporate-owned life insurance policies (COLIs) (including bank-owned life insurance policies (BOLIs)); distributions received from equity method investees; beneficial interests in securitization transactions; and separately identifiable cash flows and application of the predominance principle. In November 2016, the FASB issued ASU 2016-18, *Statements of Cash Flow (Topic 230): Restricted Cash*, which requires that a statement of cash flows explain the change during the period in the total cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amount shown on the statement of cash flows. ASU 2016-15 and ASU 2016-18 are effective for the Company for annual reporting periods beginning January 1, 2019 and interim periods within annual periods beginning January 1, 2020. Early adoption is permitted. The Company does not plan to early adopt ASU 2016-15 and ASU 2016-18 and it is evaluating the impacts that these standards will have on its consolidated financial statements.

2. Summary of Significant Accounting Policies (Continued)

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. ASU 2017-01 clarifies the framework for determining whether an integrated set of assets and activities meets the definition of a business. The revised framework establishes a screen for determining whether an integrated set of assets and activities is a business and narrows the definition of a business, which is expected to result in fewer transactions being accounted for as business combinations. Acquisitions of integrated sets of assets and activities that do not meet the definition of a business are accounted for as asset acquisitions. ASU 2017-01 is effective for the Company for annual reporting periods beginning January 1, 2020 and interim periods within annual periods beginning January 1, 2021, with early adoption permitted for transactions that have not been reported in previously issued (or available to be issued) financial statements. The Company does not plan to early adopt ASU 2017-01 and does not expect the impact that this standard will have a material impact on its consolidated financial statements.

3. Concentration of Risks

(a) Concentration of credit risk

Financial instruments that potentially subject the Group to significant concentration of credit risk consist primarily of cash and cash equivalents, restricted cash, receivables from online payment platforms and short-term investments. As of December 31, 2016 and 2017, all of the Group's cash and cash equivalents, restricted cash and short-term investments were held at reputable financial institutions with high-credit ratings. In the event of bankruptcy of one of these financial institutions, the Group may not be able to claim its cash and demand deposits back in full. The Group continues to monitor the financial strength of the financial institutions. There has been no recent history of default in relation to these financial institutions. Receivables from online payment platforms, unsecured and denominated in RMB, derived from merchandise sales on the Group's marketplace to consumers, are exposed to credit risk. The risk is mitigated by credit evaluations the Group performs on the selected online payment platforms that are highly reputable and market leaders. There have been no default of payments from these online payment platforms.

(b) Business, customer, political, social and economic risks

The Group participates in a dynamic and competitive high technology industry and believes that changes in any of the following areas could have a material adverse effect on the Group's future financial position, results of operations or cash flows: changes in the overall demand for services; competitive pressures due to new entrants; advances and new trends in new technology; strategic relationships or customer relationships; regulatory considerations; and risks associated with the Group's ability to attract and retain employees necessary to support its growth.

3. Concentration of Risks (Continued)

(i) Business supplier risk—suppliers accounting for 10% or more of total costs were:

	For the years ended December 31,	
Supplier	2016	2017
A	102,995	*
B	*	459,982
C	*	81,009

* Less than 10%

(ii) Customer risk—the success of the Group's business going forward will rely in part on Group's ability to continue to obtain and expand business from existing customers while also attracting new customers. No customer accounted for 10% or more of the Group's revenues for the years ended December 31, 2016 and 2017.

(iii) Economic risk—the Group's operations could be adversely affected by significant political, economic and social uncertainties in the PRC. Although the PRC government has been pursuing economic reform policies for more than 20 years, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption or unforeseen circumstances affecting the PRC political, economic and social conditions. There is also no guarantee that the PRC government's pursuit of economic reforms will be consistent or effective.

(c) Foreign currency exchange rate risk

From July 21, 2005, the RMB is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. The appreciation / (depreciation) of the US$ against RMB was approximately 6.8% and (5.8%) for the years ended December 31, 2016 and 2017, respectively. The functional currency and the reporting currency of the Company are the US$ and the RMB, respectively. Most of the Company's revenues and costs are denominated in RMB, while a portion of cash and cash equivalents, short-term investments, and accounts payable are denominated in U.S. dollars. Any significant revaluation of RMB may materially and adversely affect the Company's cash flows, revenues, earnings and financial position in U.S. dollars.

(d) Currency convertibility risk

The Group transacts all of its business in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted daily by the People's Bank of China (the "PBOC"). However, the unification of the exchange rates does not imply that the RMB may be readily convertible into US$ or other foreign currencies. All foreign exchange transactions continue to take place either through the PBOC or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the PBOC. Approval of foreign currency payments by the PBOC or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

For the years ended December 31, 2016 and 2017, the Group recognized interest income related to its short-term investments of RMB1,522 and RMB12,483 (US$1,990), respectively, in the consolidated statements of comprehensive loss.

6. Long-term Investment

On April 26, 2016, the Group entered into an agreement with an unlisted company in the PRC to purchase 10% of its equity interest for cash consideration of RMB15,000. The Group does not have significant influence over the investee and therefore the investment was accounted for under the cost method. Given an other than temporary decline in the valuation of the investee, the Group recorded an impairment of RMB10,000 (US$1,594) in the consolidated statement of comprehensive loss during the year ended December 31, 2017. There was no impairment in 2016.

10. Share-Based Compensation

In order to provide additional incentives to employees and to promote the success of the Group's business, the Group adopted a share incentive plan in 2015 (the "2015 Plan"). The 2015 Plan allows the Group to grant options to employees, directors, consultants or members of the board of directors of the Group. Under the 2015 Plan, the maximum aggregate number of shares that may be issued shall not exceed 945,103,260. The terms of the options shall not exceed ten years from the date of grant.

In addition to the explicit service periods of four years, with 25% of the options vesting annually, Class A Ordinary Shares acquired from the exercise of vested options cannot be sold or transferred by the employees without the prior written consents of the Company within the first three years of exercise ("Restricted Shares"). In the event that employment relationship is terminated with the Company, voluntarily or involuntarily, within the three-year lock-up periods, the Company may, at its sole discretion, repurchase the Restricted Shares at the employee's exercise price. The Group determined the substance of the lock up periods to be additional implicit service periods of three years, thereby extending the vesting terms of the options to be seven years in total. Exercise prices received before the end of the lock-up periods would be recorded as liabilities which were nil and nil as of December 31, 2016 and 2017, respectively.

The following table summarized the Group's option activities under the 2015 Plan:

	Number of share options	Weighted average exercise price	Weighted average grant date fair value	Aggregate intrinsic value	Weighted average remaining contractual term
		US$	US$	US$	
Outstanding as of January 1, 2016	101,468,440	0.0065	0.0184	1,211,325	9.82
Granted	102,264,620	0.0065	0.0416	3,592,412	9.68
Outstanding as of December 31, 2016	203,733,060	0.0065	0.0301	4,803,737	9.25
Vested and expected to vest as of December 31, 2016	203,733,060	0.0065	0.0301	4,803,737	9.25
Granted	78,560,000	0.0065	0.1736	13,124,663	9.40

Outstanding as of December 31, 2017	272,442,860	0.0065	0.0706	17,456,993	8.57
Vested and expected to vest as of December 31, 2017	272,442,860	0.0065	0.0706	17,456,993	8.57

The aggregate intrinsic value is calculated as the difference between the exercise price of the awards and the fair value of the underlying Ordinary Shares at each reporting date, for those awards that had exercise price below the estimated fair value of the relevant Ordinary Shares.

The total fair value of vested options were RMB4,064 and RMB13,380 (US$2,133) for the years ended December 31, 2016 and 2017, respectively. As of December 31, 2017, total unrecognized share-based compensation expense relating to unvested awards was RMB88,201 (US$14,061). The expense is expected to be recognized over a weighted-average period of 6.92 years.

10. Share-Based Compensation (Continued)

The Group calculated the estimated fair value of the options on the respective grant dates using the binomial-lattice option valuation model with the following assumptions for each applicable period which took into account variables such as volatility, dividend yield, and risk-free interest rate, the probability that the option will be exercised prior to the end of its contractual life, and the probability of termination or retirement of the option holder in computing the value of the option:

	For the year ended December 31,	
	2016	2017
Risk-free interest rates	1.75% - 2.66%	2.26% - 2.57%
Expected volatility	49.63% - 50.39%	48.08% - 49.35%
Expected dividend yield	0%	0%
Exercise multiple	2.80	2.80
Post-vesting forfeit rate	0%	0%
Fair value of underlying Ordinary Share	$0.0308 - $0.0577	$0.0858 - $0.5359
Fair value of share option	$0.0273 - $0.0531	$0.0808 - $0.5302

The binomial-lattice option valuation model considered the contract lives of the options of 10 years.

The Company estimated the expected volatility based on the historical volatility of similar companies that are publicly-traded given the Company has been a private company that lacks information on share price volatility. The Company selected companies with similar characteristics, including invested capital's value, business model, risk profiles, position within the industry, and with historical share price information sufficient to meet the contractual lives of the Company's options. Further, the expected dividend yield was determined to be 0% since the Company historically did not declare or pay dividends nor does it plan to do so in the foreseeable future. The Company also estimated the risk-free interest rates based the yield of U.S. Treasury Strips with maturity life equal to the contractual lives of the options of 10 years.

11. Income Taxes (Continued)

Realization of the net deferred tax assets is dependent on factors including future reversals of existing taxable temporary differences and adequate future taxable income, exclusive of reversing deductible temporary differences and tax loss or credit carry forwards. The Group evaluates the potential realization of deferred tax assets on an entity-by-entity basis. As of December 31, 2016 and 2017, valuation allowances were provided against deferred tax assets in entities where it was determined it was more likely than not that the benefits of the deferred tax assets will not be realized.

Deferred Tax Assets

As of December 31, 2017, the Group had taxable losses of RMB302,379 (US$48,206) derived from entities in the PRC, which can be carried forward per tax regulation to offset future net profit for income tax purposes. The PRC taxable loss will expire from December 31, 2019 to 2023 if not utilized.

The Group plans to indefinitely reinvest the undistributed earnings of its subsidiaries, the VIE and the subsidiaries of the VIE located in the PRC. As of December, 31 2017, the total amount of undistributed earnings from these entities is nil and no withholding tax has been accrued.

Unrecognized Tax Benefit

As of December 31, 2016 and 2017, the Group had unrecognized tax benefit of nil and RMB105,579 (US$16,832), respectively, all of which were presented on a net basis against the deferred tax assets related to tax loss carry forwards on the consolidated balance sheets. The unrecognized tax benefit was mainly related to income of the Group not timely reported. It is possible that the amount of unrecognized benefit will further change in the next 12 months; however, an estimate of the range of the possible change cannot be made at this moment. As of December 31, 2017, no unrecognized tax benefits, if ultimately recognized, will impact the effective tax rate. A reconciliation of the beginning and ending amount of unrecognized tax benefit was as follows:

As of December 31, 2017, the tax years ended December 31, 2012 through period ended as of the reporting dates for the WFOE, the VIE and the subsidiaries of the VIE remain open to examination by the PRC tax authorities.

Series C3 Convertible Preferred Shares	June 2017	$ 0.4139	241,604,260

The significant terms of the Convertible Preferred Shares are summarized as follows:

Conversion

Convertible Preferred Shares can be converted into Class A Ordinary Shares at the option of the holder at any time by dividing the applicable original purchase price by the applicable conversion price which is initially equal to the original purchase price and as such, the initial conversion ratio for each Convertible Preferred Share into each Ordinary Share shall be one-for-one.

Convertible Preferred Shares shall automatically be converted into Class A Ordinary Shares at the then-effective conversion rate applicable to the relevant series of Convertible Preferred Shares upon the closing of an underwritten public offering of the Ordinary Shares of the Company in the United States.

The conversion price is subject to additional adjustments if the Company makes certain dilutive issuances of shares.

Dividends

The holders of outstanding shares of the Company shall be entitled to receive dividends, out of any assets legally available therefor, payable in US$ and annually when, as and if declared by the Board. Such distributions shall not be cumulative. Holders of the Convertible Preferred Shares shall

also be entitled to receive any non-cash dividends declared by the Board on an as-converted basis. The dividends or distributions shall be distributed among all holders of Ordinary Shares and Convertible Preferred Shares in proportion to the number of Ordinary Shares that would be held by each such holder if all Convertible Preferred Shares had been converted to Ordinary Shares as of the record date fixed for determining those entitled to receive such distribution.

Liquidation preference

In the event of any liquidation, dissolution or winding up of the Company, either voluntary or involuntary, distributions to the shareholders of the Company shall be made as stated below:

For the holders of the each series of Convertible Preferred Shares, (i) 100% of its issue price, plus (ii) an amount accruing there on at a compound annual rate of 8% of the 100% issue price beginning on its closing date, plus (iii) all declared but unpaid dividends thereon (Collectively, the "Preference Amount").

If the Company has insufficient assets to permit payment of the Series C3 Preference Amount and the Series C2 Preference Amount in full to all holders of the then issued and outstanding holders of Series C3 Convertible Preferred Shares and Series C2 Convertible Preferred Shares, then the assets of the Company shall be distributed ratably to the holders of the then issued and outstanding Series C3 Convertible Preferred Shares and Series C2 in proportion to the full Series C3 Preference Amount and Series C2 Preference Amount that each such holder of the then issued and outstanding Series C3 Convertible Preferred Shares and Series C2 Convertible Preferred Shares would otherwise be entitled to receive hereunder.

After the full Series C3 Preference Amount and the full Series C2 Preference Amount has been paid, any remaining funds or assets of the Company legally available for distribution to shareholders shall then be distributed to holders of Series C1 Convertible Preferred Shares and Series B Convertible Preferred Shares (including Series B1 to B4 Convertible Preferred Shares) according to the sum of the Series C1 Preference Amount and Series B Preference Amount. If the Company has insufficient assets to permit payment of the Series C1 Preference Amount and Series B Preference Amount in full to all holders of the then issued and outstanding holders of Series C1 Convertible Preferred Shares and Series B Convertible Preferred Shares, then the assets of the Company shall be distributed ratably to the holders of the then issued and outstanding Series C1 Convertible Preferred Shares and Series B Convertible Preferred Shares in proportion to the full Series C1 Convertible Preferred Share Preference Amount and Series B Convertible Preferred Share Preference Amount that each such holder of the then issued and outstanding Series C1 Convertible Preferred Shares and Series B Convertible Preferred Shares would otherwise be entitled to receive hereunder.

After the full Series C1 Preference Amount and the full Series B Preference Amount has been paid, any remaining funds or assets of the Company legally available for distribution to shareholders shall then be distributed to holders of Series A Convertible Preferred Shares (including Series A-1 and A2 Convertible Preferred Shares) according to the Series A Preference Amount. If the Company has insufficient assets to permit payment of the Series A Preference Amount in full to all holders of the then issued and outstanding holders of Series A Convertible Preferred Shares, then the assets of

the Company shall be distributed ratably to the holders of the then issued and outstanding Series A Convertible Preferred Shares in proportion to the full Series A Preference Amount that each such holder of the then issued and outstanding Series A Convertible Preferred Shares would otherwise be entitled to receive hereunder.

After the full Preference Amount on all outstanding Convertible Preferred Shares have been paid, any remaining funds or assets of the Company legally available for distribution to shareholders shall be distributed on a pro rata, pari passu basis among the holders of the Convertible Preferred Shares (calculated on an as-converted and fully-diluted basis), together with the holders of the Ordinary Shares.

Deemed liquidation

Any sale of shares, merger, consolidation or other similar transaction involving the Company in which its shareholders do not retain a majority of the voting power in the surviving or resulting entity, or a sale of all or substantially all the Company's assets (the "Liquidation Event", for avoidance of doubt, each transaction under the acquisitions also referred herein as a Liquidation Event), shall be deemed a liquidation, dissolution or winding up of the Company, such that the liquidation preference shall apply as if all consideration received by the Company and its shareholders in connection with such event were being distributed in a liquidation of the Company ("Deemed Liquidation").

The Convertible Preferred Shares are not redeemable except in the event of Deemed Liquidation, which permits the holders to receive the Preference Amount as defined above.

Voting

Each Convertible Preferred Share shall carry a number of votes equal to the number of Class A Ordinary Shares then issuable upon its conversion into Class A Ordinary Shares at the record date for determination of the shareholders entitled to vote on such matters, or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is solicited.

Accounting for Convertible Preferred Shares

The Convertible Preferred Shares are classified as mezzanine equity as they are contingently redeemable upon the occurrence of a Deemed Liquidation event. The initial carrying amounts of the Preferred Shares are the fair value at the time of closing, less issuance costs. The initial carrying amounts of the Series C1 Convertible Preferred Shares are also reduced by subscription receivable of RMB13,758 (US$2,000) from the investor. The Company has not accreted the Convertible Preferred Shares to liquidation value as a Deemed Liquidation event was not considered probable as of the end of each period presented.

The Company determined conversion options embedded in these Convertible Preferred Shares did not require bifurcation because the underlying Class A Ordinary Shares are not publicly traded nor readily convertible into cash. There were no other embedded derivatives that required bifurcation. The Company also determined that there were no beneficial conversion features to be recorded.

13. Convertible Preferred Shares (Continued)

In February 2016, all shareholders of the Company approved the declaration and payment of a special cash dividend in the amount of RMB18,326 to a shareholder of the Series B2 Convertible Preferred Shares. The dividend was recorded in accumulated deficits.

In connection with the issuances of Series B1 Convertible Preferred Shares and Series B4 Convertible Preferred Shares, liquidation preference of certain Convertible Preferred Shares were modified and deemed distribution of RMB12,104 and nil were recognized for the years ended December 31, 2016 and 2017, respectively.

Concurrently with the issuance of Series C1 Convertible Preferred Shares in February 2017, the Company repurchased from a company controlled by the Founder and cancelled 56,430,180 of Class B Ordinary Shares for cash consideration of RMB137,580 (US$20,000). The difference between the then fair value of the Class B Ordinary Shares of RMB32,677 (US$5,209) and par value was recorded in accumulated deficits. The excess of consideration over the then fair value of the Ordinary Shares of RMB103,125 (US$16,440) was accounted for as compensation expense within general and administrative expenses (Note 10). The excess of the issuance price paid by the investor over the then fair value of the Series C1 Convertible Preferred Shares of RMB26,413 (US$4,211) was accounted for as a contribution from shareholder.

Convertible Preferred Shares warrant liability

In connection with the issuance Series B4 Convertible Preferred Shares in June 2016, the Company granted a warrant (the "Warrant") to one of the investors of Series B4 Convertible Preferred Shares that gave the holder an option to participate in the Company's next round of equity financing. The purchase price to be paid by the Warrant holder shall be reduced by US$300 for every investment amount of US$1,000, with the aggregate discount value not to exceed US$2,400. In January 2017, the holder exercised the Warrant by subscribing to a number of Series C2 Convertible Preferred Shares which resulted in the discount of US$1,307. The Warrant was accounted for as a liability recognized at its fair value with the change in fair value recognized in non-operating income (loss).

17. Restricted Net Assets

The Company's ability to pay dividends is primarily dependent on the Company receiving distributions of funds from its subsidiary, the VIE and subsidiary of the VIE. Relevant PRC statutory laws and regulations permit payments of dividends by the Company's PRC subsidiaries, the VIE and subsidiary of the VIE only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. The results of operations reflected in the consolidated financial statements prepared in accordance with U.S. GAAP differ from those reflected in the statutory financial statements of the Company's subsidiaries, the VIE and subsidiary of the VIE.

In accordance with the PRC Regulations on Enterprises with Foreign Investment and the articles of association of the Company's PRC subsidiaries, a foreign-invested enterprise established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A foreign-invested enterprise is required to allocate at least 10% of its annual after-tax profit to the general reserve fund until such reserve has reached 50% of its respective registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors for all foreign-invested enterprises. The aforementioned reserves can only be used for specific

purposes and are not distributable as cash dividends. The WFOE was established as a foreign-invested enterprise and, therefore, is subject to the above mandated restrictions on distributable profits. For the years ended December 31, 2016 and 2017, WFOE did not have after-tax profit and therefore no statutory reserves have been allocated.

Foreign exchange and other regulations in the PRC may further restrict the Company's VIE from transferring funds to the Company in the form of dividends, loans and advances. Amounts restricted include paid-in capital and statutory reserves of the Company's PRC Subsidiaries and the equity of the VIE, as determined pursuant to PRC generally accepted accounting principles. As of December 31, 2017, restricted net assets of the Company's PRC subsidiaries, the VIE and subsidiary of the VIE were RMB1,093,426 (US$174,318).

18. Mainland China Employee Contribution Plan

As stipulated by the regulations of the PRC, full-time employees of the Group are entitled to various government statutory employee benefit plans, including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan. The Group is required to make contributions to the plan based on certain percentages of employees' salaries. The total expenses the Group incurred for the plan were RMB11,791 and RMB30,795 (US$4,909) for the years ended December 31, 2016 and 2017, respectively.

19. Commitments and Contingencies

(a) Operating lease commitments

The Group leases offices for operation under operating leases. Future minimum lease payments under non-cancellable operating leases with initial terms in excess of one year consisted of the following as of December 31, 2017:

	RMB	US$
2018	25,856	4,122

Total	**107,488**	**17,135**

(b) Contingencies

In the ordinary course of business, the Group is from time to time involved in legal proceedings and litigation relating to disputes relating to trademarks and other intellectual property, among others. There are no legal proceedings and litigations that have in the recent past had, or to the Group's knowledge, are reasonably possible to have, a material impact on the Group's financial positions,

results of operations or cash flows. The Company did not accrue any loss contingencies in this respect as of December 31, 2016 and 2017 as the Group did not consider an unfavorable outcome in any material respects in these legal proceedings and litigations to be probable.

(c) Income Taxes

As disclosed in Note 11, the Group had unrecognized tax benefits. The final outcome of the tax uncertainty is dependent upon various matters including tax examinations, interpretation of tax laws or expiration of statutes of limitation. However, due to the uncertainties associated with the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties.

20. Subsequent Events

In February 2018, the Company entered into a strategic cooperation framework agreement with an affiliate of Tencent Group. The Company and Tencent Group agreed to cooperate in a number of areas including payment solutions and cloud services and to explore and pursue additional opportunities for potential cooperation. The strategic cooperation framework agreement has a term of five years.

In March 2018, the Company issued 551,174,340 Series D Convertible Preferred Shares to existing shareholders and their affiliates including Tencent Group for an aggregate consideration of US$1,368,670.

In connection with the Series D financing, the Company effected a change of authorized share capital by repurchasing all of the then issued and outstanding Ordinary Shares at par value and reissued 42,486,360 Class A Ordinary Shares and 1,716,283,460 Class B Ordinary Shares to its existing holders of Ordinary Shares. In addition, the Company's then issued and outstanding Convertible Preferred Shares were split on a 1-to-20 basis. The number of shares and per-share price in the consolidated financial statements have been recasted on a retroactive basis to reflect the effect of these changes.

In March 2018, the Company granted under the 2015 Plan 50,850,000 share options to its employees with an exercise price of US$0.0065 per share. These share options are subject to the same four-year vesting schedule and the three-year lock-up period as disclosed in Note 10. The Company is in the process of evaluating the effect of these share options on its consolidated financial statements and an estimate of such effect cannot be made at this time.

In April 2018, the Company issued 254,473,500 Class A Ordinary Shares to a company controlled by the Founder at the par value of US$0.000005 per share pursuant to a shareholders' resolution. The Company is in the process of evaluating the effect of this issuance on its consolidated financial statements and an estimate cannot be made at this time.

In April 2018, the Company received the early repayment of the outstanding principal and accrued interests of the loan to a related party (Note 12).

same accounting policies as set out in the Company's consolidated financial statements except that the parent company used the equity method to account for investment in its subsidiary, the VIE and subsidiary of the VIE.

The parent company records its investment in its subsidiary, the VIE and its subsidiary under the equity method of accounting as prescribed in ASC 323, *Investments-Equity Method and Joint Ventures*. Such investments are presented on the condensed balance sheets as "Investments in subsidiaries, the VIE and a subsidiary of the VIE" or "Loss in excess of investments in subsidiary, the VIE and subsidiary of the VIE" and their respective profit or loss as "Share of profit in subsidiaries, the VIE and a subsidiary of the VIE" on the condensed statements of comprehensive loss. Equity method accounting ceases when the carrying amount of the investment, including any additional financial support, in a subsidiary, the VIE and subsidiary of the VIE is reduced to zero unless the parent company has guaranteed obligations of the subsidiary, the VIE and subsidiary of the VIE or is otherwise committed to provide further financial support. If the subsidiary, the VIE subsidiary of the VIE subsequently reports net income, the parent company shall resume applying the equity method only after its share of that net income equals the share of net losses not recognized during the period the equity method was suspended.

The parent company's condensed financial statements should be read in conjunction with the Company's consolidated financial statements.

(Amounts in thousands of RMB and US$, except for number of shares and per share data)

1. Organization

Pinduoduo Inc. (the "Company") was incorporated in the Cayman Islands on April 20, 2015 under the Cayman Islands Companies Law as an exempted company with limited liability. The Company through its consolidated subsidiaries, variable interest entity (the "VIE") and the subsidiaries of the VIE (collectively, the "Group") are principally engaged in the provision of online marketplace to help merchants leverage the power of the internet to engage with their customers in the People's Republic of China (the "PRC" or "China"). Due to the PRC legal restrictions on foreign ownership and investment in such business, the Company conducts its primary business operations through its VIE and subsidiary of the VIE.

2. Summary of Significant Accounting Policies

(a) Basis of presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP") and applicable rules and regulations of the Securities and Exchange Commission, regarding financial reporting, and include all normal and recurring adjustments that management of the Group considers necessary for a fair presentation of its financial position and operation results. Certain information and footnote disclosures normally included in financial statements prepared in conformity with US GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these statements should be read in conjunction with the Group's audited consolidated financial statements as of and for the years ended December 31, 2016 and 2017.

(b) Convenience translation

Amounts in US$ are presented for the convenience of the reader and are translated at the noon buying rate of US$1.00 to RMB6.2726 on March 30, 2018, the last business day in March 2018, as published on the website of the United States Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted into US$ at such rate.

(c) Revenue recognition

The Group through its platform primarily offers online marketplace services that enable third-party merchants to sell their products to consumers in China. Revenues from marketplace services consist of online marketing services revenue and commission fees. Payments for services are generally received before delivery.

The Group presents value added taxes ("VAT") and tax surcharges assessed by government authorities as reductions of revenues. Consistent with the criteria of ASC 605 "Revenue Recognition" ("ASC 605"), the Group recognizes revenue when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been provided, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

PINDUODUO INC.

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Amounts in thousands of RMB and US$, except for number of shares and per share data)

2. Summary of Significant Accounting Policies (Continued)

In accordance with ASC 605-45, Revenue Recognition—Principal Agent Considerations ("ASC 605-45"), the Group evaluates whether it is appropriate to record the gross amounts of goods and services sold and the related costs, or the net amounts earned as commissions.

Marketplace services

The Group charges commission fees to merchants for sales transactions completed on the Group's online marketplace, where the Group is not primarily obligated to the consumers, does not take inventory risk and does not have latitude over pricing of the merchandise. Commission fees are determined as a percentage based on the value of merchandise being sold by the merchants. Revenues related to commissions are recognized in the unaudited interim condensed consolidated statements of comprehensive loss at the time when the Group's services to the merchants are determined to have been completed upon the consumers confirming the receipts of goods. Commission fees are not refundable if and when consumers return the merchandise to merchants.

The Group also provides online marketing services to certain merchants on the Group's marketplace for which the Group receives service fees from merchants. Online marketing services allow merchants to bid for keywords that match product listings appearing in search or browser results on the Group's marketplace. Merchants prepay for online marketing services that are charged on a cost-per-click basis. The related revenues are recognized when consumers click the merchants' product listings. The positioning of such listings and the price for such positioning are determined through an online auction system, which facilitates price discovery through a market-based mechanism. Online marketing services revenues generated on the Group's marketplace are recorded on a gross basis principally because the Company is the primary obligor to the merchants in the arrangements. Service fees received from merchants in advance of the provision of online marketing services are current liabilities recorded in customer advances.

In order to promote its online marketplace and attract more registered consumers, the Group at its own discretion issues coupons to consumers. These coupons can be used only in future purchases of eligible merchandise offered on the Group's marketplace to reduce purchase price that are not specific to any merchant. As the consumers are required to make future purchases of the merchants' merchandise to redeem these coupons, the Group recognizes the amounts of redeemed coupons as marketing expenses when future purchases are made.

During the three months period ended March 31, 2018, the Group also issued to consumers at its discretion, cash redeemable credits upon their completion of certain actions unrelated to the purchases of merchant products on the Group's online marketplace. As the credits are redeemable for cash, the Group accrues for the related costs in marketing expenses based on the cash redemption value of each credit as it is issued, assuming all credits will be redeemed. As of March 31, 2018 the amount of outstanding credits was immaterial.

The Group recognized total marketing expenses related to the coupons and credits of RMB23,867 and RMB450,225 (US$71,776) for the three months ended March 31, 2017 and 2018, respectively.

Conversion

Convertible Preferred Shares can be converted into Class A ordinary shares at the option of the holder at any time by dividing the applicable original purchase price by the applicable conversion price which is initially equal to the original purchase price and as such, the initial conversion ratio for each Convertible Preferred Share into each ordinary share shall be one-for-one.

Such distributions shall not be cumulative. Holders of the Convertible Preferred Shares shall also be entitled to receive any non-cash dividends declared by the Board on an as-converted basis. The dividends or distributions shall be distributed among all holders of ordinary shares and Convertible Preferred Shares in proportion to the number of ordinary shares that would be held by each such holder if all Convertible Preferred Shares had been converted to ordinary shares as of the record date fixed for determining those entitled to receive such distribution.

Liquidation preference

In the event of any liquidation, dissolution or winding up of the Company, either voluntary or involuntary, distributions to the shareholders of the Group shall be made as stated below:

After the full Series D Preference Amount has been paid, any remaining funds or assets of the Company legally available for distribution to shareholders shall then be distributed to holders of Series C-3 convertible preferred shares and Series C-2 convertible preferred shares according to the sum of the Series C-3 Preference Amount and Series C-2 Preference Amount. If the Company has insufficient assets to permit payment of the Series C-3 Preference Amount and the Series C-2 Preference Amount in full to all holders of the then issued and outstanding Series C-3 convertible preferred shares and Series C-2 convertible preferred shares, then the assets of the Company shall be distributed ratably to the holders of the then issued and outstanding Series C-3 convertible preferred shares and Series C-2 convertible preferred shares in proportion to the full Series C-3 Preference Amount and Series C-2 Preference Amount that each such holder of the then issued and outstanding

After the full Series C3 Preference Amount and the full Series C2 Preference Amount has been paid, any remaining funds or assets of the Company legally available for distribution to shareholders shall then be distributed to holders of Series C1 convertible preferred shares and Series B convertible preferred shares (including Series B1 to B4 convertible preferred shares) according to the sum of the Series C1 Preference Amount and Series B Preference Amount. If the Company has insufficient assets to permit payment of the Series C1 Preference Amount and Series B Preference Amount in full to all holders of the then issued and outstanding holders of Series C1 convertible preferred shares and Series B convertible preferred shares, then the assets of the Company shall be distributed ratably to the holders of the then issued and outstanding Series C1 convertible preferred shares and Series B convertible preferred shares in proportion to the full Series C1 Preference Amount and Series B Preference Amount that each such holder of the then issued and outstanding Series C1 convertible preferred shares and Series B convertible preferred shares would otherwise be entitled to receive hereunder.

Deemed liquidation

Any sale of shares, merger, consolidation or other similar transaction involving the Company in which its shareholders do not retain a majority of the voting power in the surviving or resulting entity, or a sale of all or substantially all the Company's assets shall be deemed a liquidation, dissolution or winding up of the Company, such that the liquidation preference shall apply as if all consideration

received by the Company and its shareholders in connection with such event were being distributed in a liquidation of the Company ("Deemed Liquidation").

The Convertible Preferred Shares are not redeemable except in the event of Deemed Liquidation, which permits the holders to receive the Preference Amount as defined above.

Voting

Each Convertible Preferred Share shall carry a number of votes equal to the number of Class A ordinary shares then issuable upon its conversion into Class A ordinary shares at the record date for determination of the shareholders entitled to vote on such matters, or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is solicited.

Accounting for Convertible Preferred Shares

The Convertible Preferred Shares are classified as mezzanine equity as they are contingently redeemable upon the occurrence of a Deemed Liquidation event. The initial carrying amounts of the Convertible Preferred Shares are the fair value at the time of closing, less issuance costs. The Company has not accreted the Convertible Preferred Shares to liquidation value as a Deemed Liquidation event was not considered probable as of the end of each period presented. The Company determined conversion options embedded in the Convertible Preferred Shares did not require bifurcation because the underlying Class A ordinary shares are not publicly traded nor readily convertible into cash. There were no other embedded derivatives that required bifurcation. The Company also determined that there were no beneficial conversion features to be recorded.

In connection with the issuances of Series D convertible preferred shares, the liquidation preference of Convertible Preferred Shares were amended. The amendment to the liquidation preference of the Convertible Preferred Shares was accounted for as modification as the fair value of Convertible Preferred Share immediately after the amendment was not significantly different from its fair value immediately before the amendment. The Company accounted for the modification that resulted in an increase to the fair value of the modified Convertible Preferred Shares of RMB 80,496 (US$12,833) as deemed dividends during the three months period ended March 31, 2018.

The agreements included as exhibits to this registration statement contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties were made solely for the benefit of the other parties to the applicable agreement and (i) were not intended to be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate; (ii) may have been qualified in such agreement by disclosure that was made to the other party in connection with the negotiation of the applicable agreement; (iii) may apply contract standards of "materiality" that are different from "materiality" under the applicable securities laws; and (iv) were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement.

We acknowledge that, notwithstanding the inclusion of the foregoing cautionary statements, we are responsible for considering whether additional specific disclosure of material information regarding material contractual provisions is required to make the statements in this registration statement not misleading.

Item 9. UNDERTAKINGS.

The undersigned registrant hereby undertakes to provide to the underwriter at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriter to permit prompt delivery to each purchaser.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Notwithstanding the foregoing, Registrable Securities shall exclude any Registrable Securities sold by a Person in a transaction in which rights under this Section 2 are not validly assigned in accordance with this Agreement, and any Registrable Securities which are sold in a registered public offering under the Securities Act or analogous statute of another jurisdiction, or sold pursuant to Rule 144 promulgated under the Securities Act or analogous rule of another jurisdiction.

(d) Holder. For purposes of this Section 2, the term "**Holder**" or "**Holders**" means any Person owning or having the rights to acquire Registrable Securities or any permitted assignee of record of such Registrable Securities to whom rights under this Section 2 have been duly assigned in accordance with this Agreement.

(e) Form F-3. The term "**Form F-3**" means such respective form under the Securities Act or any successor registration form under the Securities Act subsequently adopted by the SEC which permits inclusion or incorporation of substantial information by reference to other documents filed by the Company with the SEC.

(f) SEC. The term "**SEC**" or "**Commission**" means the U.S. Securities and Exchange Commission.

(g) Registration Expenses. The term "**Registration Expenses**" shall mean all expenses incurred by the Company in complying with Section 2.3, Section 2.4 and Section 2.5 hereof, including all registration and filing fees, printing expenses, fees, and disbursements of counsel for the Company, reasonable fees and disbursements of one counsel for all the Holders, "blue sky" fees and expenses and the expense of any special audits incident to or required by any such registration (but excluding the compensation of regular employees of the Company which shall be paid in any event by the Company).

(h) Selling Expenses. The term "**Selling Expenses**" shall mean all underwriting discounts and selling commissions applicable to the sale of Registrable Securities pursuant to Section 2.3, Section 2.4 and Section 2.5 hereof.

(i) Exchange Act. The term "**Exchange Act**" shall mean the Securities Exchange Act of 1934, as amended, and any successor statute.

2.3. Demand Registration.

(a) Request by Holders. If the Company shall, at any time after the date of the initial public offering of the Company, receive a written request from the Holders of at least thirty percent (30%) of the Registrable Securities then Outstanding that the Company file a registration statement under the Securities Act covering the registration of at least twenty-five percent (25%) of the Registrable Securities pursuant to this Section 2.3, then the Company shall, within ten (10) business days of the receipt of such written request, give written notice of such request ("**Request Notice**") to all Holders, and use its best efforts to effect, as soon as practicable, the registration under the Securities Act of all Registrable Securities that the Holders request to be registered and included in such registration by written notice given by such Holders to the Company within twenty (20) days after receipt of the Request Notice, subject only to the limitations of this Section 2.3; provided that the Company shall not be obligated to effect any such registration if the Company has, within the six (6) month period preceding the date of such request, already effected a registration under the Securities Act pursuant to this Section 2.3 or Section 2.5 or in which the Holders had an opportunity to participate pursuant to the provisions of Section 2.4, other than a registration from which the Registrable Securities of the Holders have been excluded (with respect to all or any portion of the Registrable Securities the Holders requested be included in such registration) pursuant to the provisions of Section 2.4(a). The Company shall be obligated to effect no more than two (2) Registrations pursuant to this Section 2.3. For purposes of this Agreement, reference to registration of securities under the Securities Act and the Exchange Act shall be deemed to mean the equivalent registration in a jurisdiction other than the United States as designated by such Holders, it being understood and agreed that in each such case all references in this Agreement to the Securities Act, the Exchange Act and rules, forms of registration statements and registration of securities thereunder, U.S. law and the SEC, shall be deemed to refer, to the equivalent statutes, rules, forms of registration statements, registration of securities and laws of and

equivalent government authority in the applicable non-U.S. jurisdiction. In addition, "**Form F-3**" shall be deemed to refer to Form S-3 or any comparable form under the U.S. securities laws in the condition that the Company is not at that time eligible to use Form F-3.

(b) Underwriting. If the Holders initiating the registration request under this Section 2.3 (the "**Initiating Holders**") intend to distribute the Registrable Securities covered by their request by means of an underwriting, then they shall so advise the Company as a part of their request made pursuant to this Section 2.3 and the Company shall include such information in the Request Notice. In such event, the right of any Holder to include its Registrable Securities in such registration shall be conditioned upon such Holder's participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwriting (unless otherwise mutually agreed by a majority in interest of the Initiating Holders and such Holder) to the extent provided herein. All Holders proposing to distribute their securities through such underwriting shall enter into an underwriting agreement in customary form with the managing underwriter or underwriters selected for such underwriting by the Holders of a majority of the Registrable Securities being registered and reasonably acceptable to the Company. Notwithstanding any other provision of this Section 2.3, if the underwriter(s) advise(s) the Company in writing that marketing factors require a limitation of the number of securities to be underwritten, then the Company shall so advise all Holders of Registrable Securities which would otherwise be registered and underwritten pursuant hereto, and the number of Registrable Securities that may be included in the underwriting shall be reduced as required by the underwriter(s) and allocated among the Holders of

Registrable Securities on a pro rata basis according to the number of Registrable Securities requested by each Holder requesting registration (including the Initiating Holders) to be included; provided, however, that the number of shares of Registrable Securities to be included in such underwriting and registration shall not be reduced unless all other securities are first entirely excluded from the underwriting and registration including all shares that are not Registrable Securities and are held by any other person, including any person who is an employee, officer or director of the Company or any subsidiary of the Company; provided further, that at least twenty-five percent (25%) of shares of Registrable Securities requested by the Holders to be included in such underwriting and registration shall be so included. If any Holder disapproves of the terms of any such underwriting, such Holder may elect to withdraw therefrom by written notice to the Company and the underwriter(s), delivered at least ten (10) business days prior to the effective date of the registration statement. Any Registrable Securities excluded or withdrawn from such underwriting shall be excluded and withdrawn from the registration.

(c) Deferral. Notwithstanding the foregoing, if the Company shall furnish to Holders requesting registration pursuant to this Section 2.3, a certificate signed by the President or Chief Executive Officer of the Company stating that in the good faith judgment of the Board, it would be materially detrimental to the Company and its shareholders for such registration statement to be filed at such time, then the Company shall have the right to defer such filing for a period of not more than ninety (90) days after receipt of the request of the Initiating Holders; provided, however, that the Company may not utilize this right more than once in any twelve (12) month period; provided further, that the Company shall not register any other of its shares during such ninety (90) day period. A demand right shall not be deemed to have been exercised until such deferred registration shall have been effected.

2.4. Piggyback Registrations.

(a) The Company shall notify all Holders of Registrable Securities in writing at least thirty (30) days prior to filing any registration statement under the Securities Act for purposes of effecting a public offering of securities of the Company (including registration statements relating to secondary offerings of securities of the Company, but excluding registration statements relating to any employee benefit plan or a corporate reorganization), and shall afford each such Holder an opportunity to include in such registration statement all or any part of the Registrable Securities then held by such Holder. Each Holder desiring to include in any such registration statement all or any part of the Registrable Securities held by it shall within twenty (20) days after receipt of the above-described notice from the Company, so notify the Company in writing, and in such notice shall inform the Company of the number of Registrable Securities such Holder wishes to include in such registration statement. If a Holder decides not to include all of its Registrable Securities in any registration statement thereafter filed by the Company, such Holder shall nevertheless continue to have the right to include any Registrable Securities in any subsequent registration statement or registration statements as may be filed by the Company with respect to offerings of its securities, all upon the terms and conditions set forth herein. No Holder of Registrable Securities shall be granted piggyback registration rights superior or equal to those of the Holders of the Series A Preferred Shares without the consent in writing of the Holders of at least fifty percent (50%) of the Series A Preferred Shares or Ordinary Shares issued upon conversion of the Series A Preferred Shares or a combination of such Series A Preferred Shares and Ordinary Shares.

(b) Underwriting. If a registration statement under which the Company gives notice under this Section 2.4 is for an underwritten offering, then the Company shall so advise the Holders of Registrable Securities. In such event, the right of any such Holder's Registrable Securities to be included in a registration pursuant to this Section 2.4 shall be conditioned upon such Holder's participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwriting to the extent provided herein. All Holders proposing to distribute their Registrable Securities through such underwriting shall enter into an underwriting agreement in customary form with the managing underwriter or underwriters selected for such underwriting. Notwithstanding any other

provision of this Agreement but subject to Section 2.12, if the managing underwriter(s) determine(s) in good faith that marketing factors require a limitation of the number of shares to be underwritten, then the managing underwriter(s) may exclude shares from the registration and the underwriting, and the number of shares that may be included in the registration and the underwriting shall be allocated, first, to the Company, second, to each of the Holders requesting inclusion of their Registrable Securities in such registration statement on a pro rata basis based on the total amount of Registrable Securities requested by each such Holder to be included, and third, to holders of other securities of the Company; provided, however, that the right of the underwriter(s) to exclude shares (including Registrable Securities) from the registration and underwriting as described above shall be restricted so that (i) the number of Registrable Securities included in any such registration is not reduced below twenty-five percent (25%) of the aggregate number of shares of Registrable Securities for which inclusion has been requested; and (ii) all shares that are not Registrable Securities and are held by any other person, including any person who is an employee, officer or director of the Company (or any subsidiary of the Company) shall first be excluded from such registration and underwriting before any Registrable Securities are so excluded. If any Holder disapproves of the terms of any such underwriting, such Holder may elect to withdraw therefrom by written notice to the Company and the underwriter(s), delivered at least ten (10) business days prior to the effective date of the registration statement. Any Registrable Securities excluded or withdrawn from such underwriting shall be excluded and withdrawn from the registration.

(c) Not Demand Registration. Registration pursuant to this Section 2.4 shall not be deemed to be a demand registration as described in Section 2.3 above. There shall be no limit on the number of times the Holders may request registration of Registrable Securities under this

Section 2.4.

2.5. Form F-3. In case the Company shall receive from any Holder a written request or requests that the Company effect a registration on Form F-3 and any related qualification or compliance with respect to all or a part of the Registrable Securities owned by such Holder or Holders, then the Company will:

(a) Notice. Promptly give written notice of the proposed registration and the Holder's or Holders' request therefor, and any related qualification or compliance, to all other Holders of Registrable Securities; and

(b) Registration. As soon as practicable, effect such registration and all such qualifications and compliances as may be so requested and as would permit or facilitate the sale and distribution of all or such portion of such Holders or Holders' Registrable Securities as are specified in such request, together with all or such portion of the Registrable Securities of any other Holder or Holders joining in such request as are specified in a written request given within twenty (20) days after the Company provides the notice contemplated by Section 2.5(a); provided, however, that the Company shall not be obligated to effect any such registration, qualification or compliance pursuant to this Section 2.5:

(i) if Form F-3 is not available for such offering by the Holders;

(ii) if the Holders, together with the holders of any other securities of the Company entitled to inclusion in such registration, propose to sell Registrable Securities and such other securities (if any) at an aggregate price to the public of less than US$500,000;

(iii) if the Company shall furnish to the Holders a certificate signed by the President or Chief Executive Officer of the Company stating that in the good faith judgment of the Board, it would be materially detrimental to the Company and its shareholders for such Form F-3 registration to be effected at such time, in which event the Company shall have the right to defer the filing of the Form F-3 registration statement no more than once during any twelve (12) month period for a period of not more than sixty (60) days after receipt of the request of the Holder or Holders under this

Section 2.5; provided that the Company shall not register any of its other shares during such sixty (60) day period;

(iv) if the Company has, within the twelve (12) month period preceding the date of such request, already effected two (2) registrations under the Securities Act other than a registration from which the Registrable Securities of Holders have been excluded (with respect to all or any portion of the Registrable Securities the Holders requested be included in such registration) pursuant to the provisions of Section 2.3(b) and Section 2.4(a); or

(v) in any particular jurisdiction in which the Company would be required to qualify to do business or to execute a general consent to service of process in effecting such registration, qualification or compliance.

Subject to the foregoing, the Company shall file a Form F-3 registration statement covering the Registrable Securities and other securities so requested to be registered as soon as practicable after receipt of the request or requests of the Holders.

(c) Not Demand Registration. Form F-3 registrations shall not be deemed to be demand registrations as described in Section 2.3 above. Except as otherwise provided herein, there shall be no limit on the number of times the Holders may request registration of Registrable Securities under this Section 2.5.

2.6. Expenses. All Registration Expenses incurred in connection with any registration pursuant to Sections 2.3, 2.4 or 2.5 (but excluding Selling Expenses, underwriting discounts and commissions, and fees for special counsel of the Holders participating in such registration) shall be borne by the Company; provided, however, the expenses in excess of US$25,000 of any special audit required in connection with a Demand Registration shall be borne pro rata by the Holders participating in such registration. Each Holder participating in a registration pursuant to Section 2.3, Section 2.4 and Section 2.5 shall bear such Holder's proportionate share (based on the total number of shares sold in such registration other than for the account of the Company) of all Selling Expenses or other amounts payable to underwriter(s) or brokers, in connection with such offering by the Holders. Notwithstanding the foregoing, the Company shall not be required to pay for any expenses of any registration proceeding begun pursuant to Section 2.3 if the registration request is subsequently withdrawn at the request of the Holders of a majority of the Registrable Securities to be registered, unless the Holders of a majority of the Registrable Securities then Outstanding agree that such registration constitutes the use by the Holders of one (1) demand registration pursuant to Section 2.3; provided further, however, that if at the time of such withdrawal, the Holders have learned of a material adverse change in the condition, business, or prospects of the Company not known to the Holders at the time of their request for such registration and have withdrawn their request for registration with reasonable promptness after learning of such material adverse change, then the Holders shall not be required to pay any of such expenses and such registration shall not constitute the use of a demand registration pursuant to Section 2.3.

2.7. Obligations of the Company. Whenever required to effect the registration of any Registrable Securities under this Agreement the Company shall, as expeditiously as reasonably possible:

(a) Registration Statement. Prepare and file with the SEC a registration statement with respect to such Registrable Securities and use its best efforts to cause such registration statement to become effective, and, upon the request of the Holders of a majority of the Registrable Securities registered thereunder, keep such registration statement effective for a period of up to ninety (90) days or, in the case of Registrable Securities registered under Form F-3 in accordance with Rule 415 under the Securities Act or a successor rule, until the distribution contemplated in the registration statement has been completed; provided, however, that (i) such ninety (90) day period shall be extended for a period of time equal to the period any Holder refrains from selling any securities included in such

registration at the request of the underwriter(s), and (ii) in the case of any registration of Registrable Securities on Form F-3 which are intended to be offered on a continuous or delayed basis, such ninety (90) day period shall be extended, if necessary, to keep the registration statement effective until all such

Registrable Securities are sold.

(b) Amendments and Supplements. Prepare and file with the SEC such amendments and supplements to such registration statement and the prospectus used in connection with such registration statement as may be necessary to comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such registration statement.

(c) Prospectuses. Furnish to the Holders such number of copies of a prospectus, including a preliminary prospectus, in conformity with the requirements of the Securities Act, and such other documents as they may reasonably request in order to facilitate the disposition of the Registrable Securities owned by them that are included in such registration.

(d) Blue Sky. Use its best efforts to register and qualify the securities covered by such registration statement under such other securities or "blue sky" laws of such jurisdictions as shall be reasonably requested by the Holders, provided that the Company shall not be required in connection therewith or as a condition thereto to qualify to do business or to file a general consent to service of process in any such states or jurisdictions, unless the Company is already subject to service in such jurisdiction and except as may be required by the Securities Act.

(e) Underwriting. In the event of any underwritten public offering, enter into and perform its obligations under an underwriting agreement in usual and customary form, with the managing underwriter(s) of such offering. Each Holder participating in such underwriting shall also enter into and perform its obligations under such an agreement.

(f) Notification. Notify each Holder of Registrable Securities covered by such registration statement at any time when a prospectus relating thereto is required to be delivered under the Securities Act of (i) the issuance of any stop order by the SEC in respect of such registration statement, or (ii) the happening of any event as a result of which the prospectus included in such registration statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing.

(g) Opinion and Comfort Letter. Furnish, at the request of any Holder requesting registration of Registrable Securities, on the date that such Registrable Securities are delivered to the underwriter(s) for sale, if such securities are being sold through underwriters, or, if such securities are not being sold through underwriters, on the date that the registration statement with respect to such securities becomes effective, (i) an opinion, dated as of such date, of the counsel representing the Company for the purposes of such registration, in form and substance as is customarily given to underwriters in an underwritten public offering and reasonably satisfactory to a majority in interest of the Holders requesting registration, addressed to the underwriters, if any, and to the Holders requesting registration of Registrable Securities and (ii) letters dated as of (x) the effective date of the registration statement covering such Registrable Securities and (y) the closing date of the offering, from the independent certified public accountants of the Company, in form and substance as is customarily given by independent certified public accountants to underwriters in an underwritten public offering and reasonably satisfactory to a majority in interest of the Holders requesting registration, addressed to the underwriters, if any, and to the Holders requesting registration of Registrable Securities.

2.8. Furnish Information. It shall be a condition precedent to the obligations of the Company to take any action pursuant to Section 2.3, Section 2.4 and Section 2.5 that the selling Holders shall furnish to the Company such information regarding themselves, the Registrable Securities held by

them and the intended method of disposition of such securities as shall be required to timely effect the Registration of their Registrable Securities.

2.9. Indemnification. In the event any Registrable Securities are included in a registration statement under Section 2.3, Section 2.4 and Section 2.5:

(a) By the Company. To the extent permitted by applicable laws, the Company will indemnify and hold harmless each Holder, its partners, officers, directors, legal counsel, any underwriter (as defined in the Securities Act) for such Holder and each person, if any, who controls such Holder or underwriter within the meaning of the Securities Act or the Exchange Act, against any losses, claims, damages, or liabilities (joint or several) to which they may become subject under the Securities Act, the Exchange Act, or other United States federal or state law, insofar as such losses, claims, damages, or liabilities (or actions in respect thereof) arise out of or are based upon any of the following statements, omissions or violations (collectively a "**Violation**"):

(i) any untrue statement or alleged untrue statement of a material fact contained in such registration statement, including any preliminary prospectus or final prospectus contained therein or any amendments or supplements thereto;

(ii) the omission or alleged omission to state therein a material fact required to be stated therein, or necessary to make the statements therein not misleading; or

(iii) any violation or alleged violation by the Company of the Securities Act, the Exchange Act, any United States federal or state securities law, or any rule or regulation promulgated under the Securities Act, the Exchange Act, or any United States federal or state securities law in connection with the offering covered by such registration statement.

The Company will reimburse each such Holder, its partner, officer, director, legal counsel, underwriter or controlling person for any legal or other expenses reasonably incurred by them, as such expenses are incurred, in connection with investigating or defending any such loss, claim, damage, liability or action; provided, however, that the indemnity agreement contained in this subsection 2.9(a) shall not apply to amounts paid in settlement of any such loss, claim, damage, liability or action if such settlement is effected without the consent of the Company (which consent shall not be unreasonably withheld), nor shall the Company be liable in any such case for any such loss, claim, damage, liability or action to the extent that it arises out of or is based upon a Violation which occurs in reliance upon and in conformity with written information furnished expressly for use in connection with such registration by such Holder, partner, officer, director, legal counsel, underwriter or controlling person of such Holder.

(b) By Selling Holders. To the extent permitted by applicable laws, each selling Holder will, if Registrable Securities held by Holder are included in the securities as to which such registration qualifications or compliance is being effected, indemnify and hold harmless the Company, each of its directors, each of its officers who has signed the registration statement, each person, if any, who controls the Company within the meaning of the Securities Act, any underwriter and any other Holder selling securities under such registration statement or any of such other Holder's partners, directors,

officers, legal counsel or any person who controls such Holder within the meaning of the Securities Act or the Exchange Act, against any losses, claims, damages or liabilities (joint or several) to which the Company or any such director, officer, legal counsel, controlling person, underwriter or other such Holder, partner or director, officer or controlling person of such other Holder may become subject under the Securities Act, the Exchange Act or other United States federal or state law, insofar as such losses, claims, damages or liabilities (or actions in respect thereto) arise out of or are based upon any Violation, in each case to the extent (and only to the extent) that such Violation occurs in reliance upon and in conformity with written information furnished by such Holder expressly for use in connection with such registration; and each such Holder will reimburse any legal or other expenses reasonably incurred by

the Company or any such director, officer, controlling person, underwriter or other Holder, partner, officer, director or controlling person of such other Holder in connection with investigating or defending any such loss, claim, damage, liability or action; provided, however, that the indemnity agreement contained in this subsection 2.9(b) shall not apply to amounts paid in settlement of any such loss, claim, damage, liability or action if such settlement is effected without the consent of the Holder, which consent shall not be unreasonably withheld; and provided, further, that in no event shall any indemnity under this Section 2.9(b) exceed the net proceeds received by such Holder in the registered offering out of which the applicable Violation arises.

(c) Notice. Promptly after receipt by an indemnified party under this Section 2.9 of notice of the commencement of any action (including any governmental action), such indemnified party will, if a claim in respect thereof is to be made against any indemnifying party under this Section 2.9, deliver to the indemnifying party a written notice of the commencement thereof and the indemnifying party shall have the right to participate in, and, to the extent the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume the defense thereof with counsel mutually satisfactory to the parties; provided, however, that an indemnified party shall have the right to retain its own counsel, with the fees and expenses to be paid by the indemnifying party, if representation of such indemnified party by the counsel retained by the indemnifying party would be inappropriate due to actual or potential conflict of interests between such indemnified party and any other party represented by such counsel in such proceeding. The failure to deliver written notice to the indemnifying party within a reasonable time of the commencement of any such action shall relieve such indemnifying party of liability to the indemnified party under this Section 2.9 to the extent the indemnifying party is prejudiced as a result thereof, but the omission to so deliver written notice to the indemnifying party will not relieve it of any liability that it may have to any indemnified party otherwise than under this Section 2.9.

(d) Contribution. In order to provide for just and equitable contribution to joint liability under the Securities Act in any case in which either (i) any indemnified party makes a claim for indemnification pursuant to this Section 2.9 but it is judicially determined (by the entry of a final judgment or decree by a court of competent jurisdiction and the expiration of time to appeal or the denial of the last right of appeal) that such indemnification may not be enforced in such case notwithstanding the fact that this Section 2.9 provides for indemnification in such case, or (ii) contribution under the Securities Act may be required on the part of any indemnified party in circumstances for which indemnification is provided under this Section 2.9; then, and in each such case, the indemnified party and the indemnifying party will contribute to the aggregate losses, claims, damages or liabilities to which they may be subject (after contribution from others) in such proportion as is appropriate to reflect the relative fault of the indemnifying party, on the one hand, and of the indemnified party, on the other hand, in connection with the statements or omissions that resulted in such loss, liability, claim, damage or expense, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and of the indemnified party shall be determined by a court of law by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission to state a material fact relates to information supplied by the indemnifying party or by the indemnified party and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission; provided, however, that, in any such case: (A) no Holder will be required to contribute any amount in excess of the net proceeds to such Holder from the sale of all such Registrable Securities offered and sold by such Holder pursuant to such registration statement; and (B) no person or entity guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) will be entitled to contribution from any person or entity who was not guilty of such fraudulent misrepresentation.

(e) Survival; Consents to Judgments and Settlements. The obligations of the Company and Holders under this Section 2.9 shall survive the completion of any offering of Registrable Securities in a registration statement, regardless of the expiration of any statutes of limitation or

extensions of such statutes. No indemnifying party, in the defense of any such claim or litigation, shall, except with the consent of each indemnified party, consent to entry of any judgment or enter into any settlement which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

2.10. No Registration Rights to Third Parties. Without the prior written consents of the holder(s) of at least a majority of the Series A Preferred Shares, the holder(s) of at least a majority of the Series B Preferred Shares, the holder(s) of at least a majority of the Series C-1/C-2 Preferred Shares and the holder(s) of at least of a majority of the Series C-3 Preferred Shares (each voting together as a single class and on an as-converted basis), the Company covenants and agrees that it shall not grant, or cause or permit to be created, for the benefit of any person or entity any registration rights of any kind (whether similar to the demand, "piggyback" or Form F-3 registration rights described in this Section 2, or otherwise) relating to any securities of the Company which are senior to, or on a parity with, those granted to the Holders of Registrable Securities.

2.11. Rule 144 Reporting. With a view to making available to the Holders the benefits of certain rules and regulations of the SEC which may at any time permit the sale of the Registrable Securities to the public without registration or pursuant to a registration on Form F-3, after such time as a public market exists for the Ordinary Shares, the Company agrees to:

(a) Make and keep public information available, as those terms are understood and defined in Rule 144 under the Securities Act, at all times after the effective date of the first registration under the Securities Act filed by the Company for an offering of its securities to the general public;

(b) File with the SEC in a timely manner all reports and other documents required of the Company under the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements); and

(c) So long as a Holder owns any Registrable Securities, to furnish to such Holder forthwith upon request (i) a written statement by the Company as to its compliance with the reporting requirements of Rule 144 (at any time after ninety (90) days after the effective date of the Company's initial public offering), the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements), or its

qualification as a registrant whose securities may be resold pursuant to Form F-3 (at any time after it so qualifies), (ii) a copy of the most recent annual or quarterly report of the Company, and (iii) such other reports and documents of the Company as a Holder may reasonably request in availing itself of any rule or regulation of the SEC that permits the selling of any such securities without registration or pursuant to Form F-3.

2.12. Market Stand-Off. Each party agrees that, so long as it holds any voting securities of the Company, upon request by the Company or the underwriters managing the initial public offering of the Company's securities, it will not sell or otherwise transfer or dispose of any securities of the Company (other than those permitted to be included in the registration and other transfers to affiliates permitted by applicable laws) without the prior written consent of the Company or such underwriters, as the case may be, for a period of time specified by the representative of the underwriters which shall not exceed 180 days from the effective date of the registration statement covering such initial public offering or the pricing date of such offering as may be requested by the underwriters. The Company shall use commercially reasonable efforts to take all steps to shorten such lock-up period. The foregoing provision of this Section 2.12 shall not apply to the sale of any securities of the Company to an underwriter pursuant to any underwriting agreement, and shall only be applicable to the Holders if all other Shareholders enter into similar agreements, and if the Company or any underwriter releases any other shareholder from his, her or its sale restrictions so undertaken, then each Holder shall be notified prior to

such release and shall itself be simultaneously released to the same proportional extent. The Company shall require all future acquirers of the Company's securities to execute prior to a Qualified Initial Public Offering a market stand-off agreement containing substantially similar provisions as those contained in this Section 2.12.

2.13. Termination of the Company's Obligations. The Company's obligations under Section 2.3, Section 2.4 and Section 2.5 with respect to any Registrable Securities proposed to be sold by a Holder in a registration pursuant to Section 2.3, Section 2.4 and Section 2.5 shall terminate (i) on the fifth (5th) anniversary of the Qualified Initial Public Offering, (ii) upon the termination, liquidation, dissolution of the Company or a Liquidation Event or (iii) if and when in the opinion of counsel to the Company, all such Registrable Securities proposed to be sold by a Holder may then be sold without registration in any ninety (90) day period pursuant to Rule 144 promulgated under the Securities Act.

2.14. Investors' Right in Public Offering. If any shares or securities of the Company are offered in an underwritten public offering (whether or not a Qualified Initial Public Offering) for the account of any Shareholder, each Preferred Shareholder shall have the right to include a pro rata number of shares in the offering on terms and conditions no less favorable to such Preferred Shareholder than to any other selling shareholder(s) to the extent as permitted by applicable laws.

3. RIGHT OF PARTICIPATION.

3.1. General. Subject to Section 3.6, each Investor shall have the pre-emptive right to purchase all or any portion of its pro rata share of any New Securities (as defined below) that the Company may from time to time issue after the date of this Agreement (the "**Right of Participation**").

3.2. Pro Rata Share. Subject to Section 3.6, for the purpose of this Section 3, an Investor's pro rata share, for the purpose of the Right of Participation, is equal to the product obtained by multiplying (x) the aggregate number of the New Securities to be issued by the Company that are not Tencent Priority Securities by (y) a fraction, the numerator of which is the number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by such Investor as at the date of the First Participation Notice and the denominator of which is the total number of Ordinary Shares (calculated on an as-converted and fully-diluted basis) then outstanding as at the date of the First Participation Notice.

3.3. New Securities. "**New Securities**" shall mean any class or series of preferred shares, Ordinary Shares or other voting shares of the Company, rights, options or warrants to purchase such preferred shares, Ordinary Shares or other voting shares, and securities of any type whatsoever that are, or may become, convertible or exchangeable into such preferred shares, Ordinary Shares or other voting shares, provided, however, that the term "New Securities" shall not include:

(a) any Ordinary Shares (and/or options or warrants therefor) issued to employees, officers, directors, contractors, advisors or consultants of any Group Company pursuant to the ESOP;

(b) any Shares, and rights, options or warrants to purchase such Shares and securities of any type whatsoever that are, or may become, convertible or exchangeable into such Shares (collectively, "**Securities**"), in each case issued pursuant to any share split, subdivision, combination, recapitalization, share dividend or other similar event in which all Investors are entitled to participate on a pro rata basis;

(c) any Securities issued pursuant to a Qualified Initial Public Offering;

(d) any Securities issued pursuant to the acquisition of another corporation or entity by the Company by consolidation, merger, purchase of assets, reorganization or other transaction

in similar nature in which the Company acquires, in a single transaction or series of related transactions, all or substantially all assets of such other corporation or entity, or fifty percent (50%) or more of the equity ownership or voting power of such other corporation or entity approved in accordance with this Agreement and the Restated Articles;

(e) any Securities issued or issuable to commercial banks or equipment leasers pursuant to a commercial lending or commercial leasing transaction approved by the Board in accordance with Section 8.2; or

(f) any Securities issued in connection with any exercise of conversion rights by a Preferred Shareholder pursuant to the Restated Articles.

3.4. General Participation Procedures.

(a) First Participation Notice. In the event that the Company proposes to undertake an issuance of New Securities (in a single transaction or a series of related transactions) (the "**New Issuance**"), it shall give to each Investor written notice of its intention to issue New Securities (the "**First Participation Notice**"), describing the amount and type of New Securities, the price and the general terms upon which the Company proposes to issue such New Securities. Each Investor (for the avoidance of doubt, including Tencent) shall have ten (10) Business Days (the "**First Participation Period**") from the date of receipt of the First Participation Notice to agree in writing to purchase up to its pro rata share of such New Securities (subject to adjustment pursuant to Section 3.6) for the price and upon the terms and conditions specified in the First Participation Notice by giving written notice to the Company and stating therein the number of New Securities to be purchased. If any Investor fails or declines to exercise its Right of Participation in accordance with this subsection to subscribe for its pro rata share of the New Securities in full, then such Investor shall be deemed to have forfeited its Right of Participation with respect to such New Securities that it did not elect to purchase.

(b) Second Participation Notice; Oversubscription. To the extent that (x) the New Issuance is not a Qualified Financing and (y) not all of the New Securities have been accepted for subscription by Tencent according to Section 3.6, if any Investor fails or declines to exercise in full or forfeits its Right of Participation in accordance with subsection (a) above, the Company shall promptly give notice (the "**Second Participation Notice**") to each Investor who exercised in full its Right of Participation (the "**Oversubscription Participants**") in accordance with subsection (a) above. Each Oversubscription Participant shall have five (5) Business Days from the date of the Second Participation Notice (the "**Second Participation Period**") to notify the Company of its desire to purchase more than its pro rata share of the New Securities (subject to adjustment pursuant to Section 3.6), stating the number of the additional New Securities it proposes to buy (the "**Additional Number**"). Such notice may be made by telephone if subsequently confirmed in writing within two (2) days. If, as a result thereof, such oversubscription exceeds the total number of the remaining New Securities available for subscription, each Oversubscription Participant will be cut back by the Company with respect to its oversubscription to that number of remaining New Securities equal to the lesser of (x) the Additional Number and (y) the product obtained by multiplying (i) the number of the remaining New Securities available for subscription (subject to adjustment pursuant to Section 3.6) by (ii) a fraction, the numerator of which is the number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by such Oversubscription Participant as at the date of the First Participation Notice and the number of New Securities such Oversubscription Participant agreed to purchase pursuant to Section 3.4(a) or Section 3.6 (as applicable), and the denominator of which is the total number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by all the Oversubscription Participants and the total number of New Securities the Oversubscription Participants agreed to purchase pursuant to Section 3.4(a) and Section 3.6. Each Investor that exercised its Right of Participation and, to the extent applicable, its right under this Section

3.4(b) shall be obligated to buy, and the Company shall be obligated to sell, such number of New Securities as determined by the Company pursuant to this Section 3.4 with its own funds or funds from its Controlling shareholders without requiring the prior consent, approval or other discretionary action of any third party, to make the payments required hereunder and the Company shall so notify such Investors within fifteen (15) days following the date of the First Participation Notice and, to the extent applicable, Second Participation Notice. Each of such Investors shall have thirty (30) days thereafter to conclude a Transfer of such number of the New Securities as determined by the Company pursuant to this Section 3.4 at the same price and subject to the same terms and conditions as described in the First Participation Notice.

3.5. Failure to Exercise. Upon the expiration of the Second Participation Period, or in the event that (i) the New Issuance is a Qualified Financing or (ii) no Investor exercises in full the Right of Participation within the First Participation Period, upon the expiration of the First Participation Period, the Company shall have ninety (90) days thereafter to sell the New Securities described in the First Participation Notice with respect to which the Right of Participation hereunder was not exercised at the same or higher price and upon non-price terms not more favorable to the purchasers thereof than specified in the First Participation Notice, provided that the prospective purchaser of such New Securities shall comply with this Agreement and the Restated Articles, as maybe amended from time to time, to the fullest extent. In the event that the Company has not issued and sold such New Securities within such ninety (90) day period, then the Company shall not thereafter issue or sell any New Securities without again first offering such New Securities to Investors pursuant to this Section 3.

3.6. Tencent Priority Participation Right. In the event that the Company proposes to undertake a New Issuance to any Person that is not a strategic investor mutually agreed in writing by the Company and Tencent in good faith, it shall first give Tencent written notice of its intention to issue New Securities (the "**Tencent Participation Notice**"), describing the amount and type of New Securities, the price and the general terms upon which the Company proposes to issue such New Securities. Tencent shall have ten (10) Business Days from the date of receipt of any such Tencent Participation Notice to agree in writing to, in priority to the other Investors, purchase up to the Priority Portion for the price and upon the terms and conditions specified in the Tencent Participation Notice (the "**Tencent Priority Participation Right**") by giving written notice to the Company (the "**Tencent Acceptance Notice**") and stating therein the quantity of New Securities to be purchased (not to exceed its Priority Portion) (such New Securities, the "**Tencent Priority Securities**"). If Tencent fails or declines to exercise the Tencent Priority Participation Right in accordance with this Section 3.6 to subscribe for the Priority Portion in full, then Tencent shall be deemed to have forfeited the Tencent Priority Participation Right with respect to such New Securities that it did not agree to purchase. Tencent shall be obligated to buy, and the Company shall be obligated to sell, the Tencent Priority Securities with its own funds or funds from its Controlling shareholders without requiring the prior consent, approval or other discretionary action of any third party, to make the payments required hereunder. Tencent shall have thirty (30) days thereafter to conclude a Transfer of the Tencent Priority Securities at the same price and subject to the same terms and conditions as described in the Tencent Participation Notice. The provisions of this Section 3.6 shall terminate and cease to have any effect upon the first time when the aggregate ownership of Tencent and its Affiliates in the Company (on an as-converted and fully-diluted basis) is equal to or more than 20% of the then outstanding share capital of the Company (after taking into account the issuance of such number of New Securities included in a First Participation Notice). For the purpose of this Section 3.6, the "**Priority Portion**" means such number of New Securities which, together with the number of Ordinary Shares (calculated on a fully-diluted and as-converted basis) held by Tencent and its Affiliates, will result in the aggregate ownership of Tencent and its Affiliates in the Company (on an as-converted and fully-diluted basis) being equal to 20% of the total outstanding share capital of the Company immediately after the issuance of the New Securities under such New Issuance. Notwithstanding the foregoing, prior to exercising the Tencent Priority Participation Right with respect to a New Issuance according to this

Section 3.6, Tencent should consider refraining from its exercise if the compliance with this Section 3.6 will materially impede or delay the strategic growth of the Group Companies.

3.7. Special Consent Right. As long as Tencent (together with its Affiliates) holds 5% or more of the Company's total outstanding Shares (on an as-converted and fully-diluted basis), the Company shall not issue any New Securities to any Restricted Person without prior written consent of Tencent.

3.8. Termination. The Right of Participation for each Investor shall terminate and be of no further force or effect upon the earlier to occur of (a) the consummation of a Qualified Initial Public Offering, or (b) the consummation of a Liquidation Event.

4. TRANSFER AND INVESTMENT RESTRICTIONS.

4.1. Right of First Refusal for the Company.

(a) Sale of Shares to the Company; Notice of Sale. Subject to Section 4.7 and Section 4.8, if a Shareholder (other than HUANG Zheng or the Founder Holding Companies Controlled by him (collectively, "**Huang Parties**") proposes to Transfer any Equity Securities of the Company held by it (the "**Selling Shareholder**"), then it shall promptly give written notice (the "**Transfer Notice**") to the Company prior to such Transfer offering to first sell the Shares to be Transferred (the "**Offered Shares**") to the Company.

(b) Company Right of First Refusal. The Company shall have fifteen (15) Business Days from receipt of the Transfer Notice (the "**Company Option Period**") to elect, by written notice (the "**Company ROFR Notice**"), to purchase all or any portion of the Offered Shares at the same per share purchase price and subject to the same terms and conditions as described in the Transfer Notice, by notifying the Selling Shareholder before expiration of the Company Option Period.

(c) Company Closing. If the Company elects to purchase all or any portion of the Offered Shares pursuant to Section 4.1(b), such election shall constitute a binding contract between the Selling Shareholder and the Company, and the Company and the Selling Shareholder shall, no later than sixty (60) days following delivery to the Selling Shareholder of the Company ROFR Notice, conclude a Transfer of such Offered Shares at the same price and subject to the same terms and conditions as described in the Transfer Notice.

4.2. Right of First Refusal for the Investors.

(a) Sale of Ordinary Shares; Notice of Sale. Subject to Section 4.1, Section 4.5, Section 4.6, Section 4.7 and Section 4.8, if (i) any Huang Party proposes to Transfer any Equity Securities in the Company or any Equity Securities in the Founder Holding Company held by him or it or (ii) if any other Founder or Founder Holding Company (other than Huang Parties) (together with Huang Parties, the "**Founder Selling Shareholders**") proposes to Transfer any Equity Securities in the Company or Equity Securities in the Founder Holding Company held by her or it and the Company has not elected to purchase all of such Equity Securities (the "**Founder Offered Shares**") pursuant to Section 4.1, then the Founder Selling Shareholder shall promptly give written notice (the "**Founder Transfer Notice**") to the Company and the Investors, (A) in the case of a proposed Transfer by a Huang Party, prior to such Transfer and (B) in the case of a proposed Transfer by a Founder or a Founder Holding Company that is not a Huang Party, promptly after the earlier of (i) the receipt of the Company ROFR Notice, and (ii) the expiration of the Company Option Period, offering to sell the Founder Offered Shares available for sale to the Investors.

(b) Right of First Refusal. Each Investor shall have ten (10) Business Days from receipt of the Founder Transfer Notice (the "**Investor's First Refusal Period**") to elect to purchase all or any portion of its pro rata share at the same per share purchase price and subject to the same terms and conditions as described in the Founder Transfer Notice, by delivering before expiration of the Investor's First Refusal Period a written notice to the Founder Selling Shareholder, the Company and each of the other Investors setting out the number of Founder Offered Shares that it wishes to purchase. For the purpose of this Section 4.2, an Investor's pro rata share shall be equal to (i) the total number of Founder Offered Shares *multiplied by* (ii) a fraction, the numerator of which is the number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by such Investor as at the date of the Founder Transfer Notice and the denominator of which is the total number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) owned by all Investors as at the date of the Founder Transfer Notice. To the extent that any Investor does not exercise its right of first refusal to the full extent of its pro rata share resulting in a remaining balance of un-acquired Founder Offered Shares, the Investors that have exercised in full their rights of first refusal (the "**Exercising Investors**") shall have the option to elect, within five (5) Business Days after the end of the Investor's First Refusal Period, to purchase all or any portion of such remaining balance of un-acquired Founder Offered Shares, which will be allocated to the extent necessary among the Exercising Investors in accordance with their relative pro rata share.

(c) Expiration Notice. Within ten (10) Business Days after the expiration of the Investor's First Refusal Period, the Company will give written notice (the "**Investor First Refusal Expiration Notice**") to the Founder Selling Shareholder and the Investors specifying whether the Investors have exercised their rights of first refusal in accordance with this Section 4.2 with respect to all of the Founder Offered Shares.

4.3. Purchase Price and Payment. If an Investor elects to purchase any Founder Offered Shares pursuant to Section 4.2(b), such Investor shall, not later than ten (10) Business Days following the date of the Investor First Refusal Expiration Notice, pay the purchase price for the Founder Offered Shares purchased by it by wire transfer of immediately available funds or through other payment methods as otherwise directed by the Founder Selling Shareholder and the Founder Selling Shareholder shall sell to such Investor the relevant Founder Offered Shares.

4.4. Special Right of First Refusal. Subject to Section 4.1, as long as Tencent (together with its Affiliates) holds 5% or more of the Company's outstanding Shares (on an as-converted basis), in the event that any Preferred Shareholder (the "**Restricted Person Prospective Transferor**") proposes to Transfer any of its Equity Securities in the Company (the "**Restricted Person Target Securities**") to one or more Restricted Persons, the Restricted Person Prospective Transferor shall promptly deliver to Tencent, copying the Company, a written notice (the "**Restricted Person Disposition Notice**") describing the terms and conditions of the Transfer, including the amount and type of Restricted Person Target Securities, the purchase price and the identities of the Restricted Person Prospective Transferors and of the prospective transferees that are Restricted Persons. Tencent or any of its Affiliates (the "**Special ROFR Holder**") has the right (the "**Special Right of First Refusal**"), after the Company Option Period and to the extent the Company has not elected to purchase all of the Offered Shares proposed to be Transferred to a Restricted Person, to purchase all or any portion of the Restricted Person Target Securities at the same price and subject to the same terms and conditions, or terms as similar as reasonably possible, as described in the Restricted Person Disposition Notice, by notifying the Restricted Person Prospective Transferor in writing within thirty (30) days after the expiration of the Company Option Period as to the number of such Restricted Person Target Securities that it wishes to purchase. If any such Restricted Person has offered to pay for any Restricted Person Target Securities with property, services or any other non-cash consideration, the Special ROFR Holder shall nevertheless have the right to

pay for such Restricted Person Target Securities with cash in an amount equal to the fair market value of the non-cash consideration offered by the Restricted Person in question, where the fair market value of

such non-cash consideration shall be conclusively determined in good faith by the Board. If the Special ROFR Holder fails to exercise its Special Right of First Refusal within such 30-day period with respect to all or a portion of the Restricted Person Target Securities, for any remaining portion of the Restricted Person Target Securities ("**Available for Sale Restricted Person Target Securities**"), the Restricted Person Prospective Transferor has a 60-day period to complete the Transfer of the Available for Sale Restricted Person Target Securities on the same terms and conditions as those set out in the Restricted Person Disposition Notice. If the Restricted Person Prospective Transferor has not completed the Transfer of the Available for Sale Restricted Person Target Securities within the 60-day period pursuant to this Section 4.4, the Special ROFR Holder's Special Right of First Refusal hereunder shall once again apply to any Transfer of the Available for Sale Restricted Person Target Securities. For the avoidance of doubt, the Special ROFR Holder holds the Special Right of First Refusal to acquire all of the Restricted Person Target Securities, not just a pro rata share thereof; provided that the failure to exercise the Special Right of First Refusal wholly or in part shall not prejudice the Right of First Refusal that the Special ROFR Holder holds under Section 4.2.

4.5. Investors' Co-Sale Right. To the extent the Company and the Investors have not fully exercised their right of first refusal with respect to all of the Shares proposed to be Transferred by a Founder Holding Company pursuant to Section 4.1 and Section 4.2, then each Investor who has not exercised any of its right of first refusal pursuant to Section 4.1 and Section 4.2 shall have the right (the "**Co-Sale Right**"), exercisable upon written notice to the Founder Selling Shareholder, the Company and each of the other Investors within fifteen (15) days after receipt of Investor First Refusal Expiration Notice, to participate in such sale of the remaining Founder Offered Shares (the "**Co-Sale Shares**") on the same terms and conditions as set forth in the Founder Transfer Notice. Such notice shall set forth the number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) that such Investor wishes to include in such Transfer, which amount shall not exceed such Investor's pro rata share as determined under Section 4.5(a). To the extent one or more of the Investors exercise their Co-Sale Rights, the number of Ordinary Shares that the Founder Selling Shareholder may sell in the transaction shall be correspondingly reduced such that the aggregate number of Shares Transferred shall not exceed the total number of Co-Sale Shares. Each Investor's Co-Sale Right shall be subject to the following terms and conditions:

(a) Pro Rata Share. Each Investor's pro rata share, for the purpose of this Section 4.5, is equal to the product obtained by multiplying (x) the aggregate number of the Founder Offered Shares subject to the Co-Sale Right by (y) a fraction, the numerator of which is the number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by such Investor as at the date of the Investor First Refusal Expiration Notice and the denominator of which is the aggregate number of Ordinary Shares (calculated on an as-converted and fully-diluted basis and excluding the Excluded Ordinary Shares) held by all Investors who elect to exercise their Co-Sale Rights and the Founder Selling Shareholder as at the date of the Investor First Refusal Expiration Notice.

(b) Transferred Shares. Each Investor that exercised its Co-Sale Right shall promptly deliver to the Founder Selling Shareholder for Transfer to the prospective purchaser one or more certificates, properly endorsed for Transfer, together with an executed instrument of transfer, which represent:

(i) the number of Ordinary Shares which such Investor elects to sell;

(ii) that number of Preferred Shares which is at such time convertible into the number of Ordinary Shares that such Investor elects to sell; provided in such case that, if the prospective purchaser objects to the delivery of Preferred Shares in lieu of Ordinary Shares, such Investor shall convert such Preferred Shares into Ordinary Shares and deliver Ordinary Shares as

provided in Subsection 4.5(b)(i) above. The Company agrees to make any such conversion concurrent with the actual Transfer of such Shares to the prospective purchaser; or

(iii) a combination of the above.

(c) Payment to Investors. The share certificate or certificates that the Investor delivers to the Founder Selling Shareholder pursuant to Section 4.5(b) shall be delivered to the prospective purchaser in consummation of the sale of the Founder Offered Shares pursuant to the terms and conditions specified in the Founder Transfer Notice, and the Founder Selling Shareholder shall concurrently therewith remit to such Investor that portion of the sale proceeds to which such Investor is entitled by reason of its participation in such sale. To the extent that any prospective purchaser prohibits such assignment or otherwise refuses to purchase any Shares from an Investor exercising its Co-Sale Right, the Founder Selling Shareholder shall not sell to such prospective purchaser any Ordinary Shares unless and until, simultaneously with such sale, the Founder Selling Shareholder shall purchase from such Investor the Shares that it would otherwise sell to the prospective purchaser pursuant to this Section 4.5.

(d) Right to Transfer. To the extent the Company and the Investors do not elect to purchase, or the Investors do not participate in the sale of, any Founder Offered Shares, the Founder Selling Shareholder may, not later than ninety (90) days following delivery to the Company and each of the Investors of the Founder Transfer Notice, conclude a Transfer of such Founder Offered Shares on terms and conditions that are no less favorable to the Founder Selling Shareholder than those set out in the Founder Transfer Notice. Any proposed Transfer on terms and conditions which are more favorable to the prospective purchaser than those set out in the Founder Transfer Notice, as well as any subsequent proposed transfer of any Shares by the Founder Selling Shareholder, shall again be subject to the right of first refusal of the Company and the Investors and the Co-Sale Right and shall require compliance by the Founder Selling Shareholder with the procedures described in Section 4.1, Section 4.2 and Section 4.5 of this Agreement.

(e) Subsequent Purchases. The exercise or non-exercise of the rights of the Investors under this Section 4 to purchase Offered Shares or participate in the sale of Offered Shares by a Founder Selling Shareholder shall not adversely affect their rights to make subsequent purchases of Offered Shares or subsequently participate in sales of Offered Shares by a Founder Selling Shareholder hereunder.

4.6. Permitted Transfers. Notwithstanding anything to the contrary contained herein, the right of first refusal and Co-Sale Rights as set forth in Section 4.1, Sections 4.2 and Section 4.5 shall not apply to (a) any Transfer of Shares to the Company pursuant to a repurchase right or right of

first refusal held by the Company in the event of a termination of employment or consulting relationship or (b) any Transfer of Shares to another entity wholly legally and beneficially owned by the relevant Founder, or to the parents, children, spouse, or to trusts for the benefit of such persons, of any Founders for bona fide estate planning purposes or bona fide tax planning purposes (each transferee pursuant to the foregoing subsections (a) to (b) is hereafter referred as a "**Permitted Transferee**") so long as (i) such Transfer is effected in compliance with all applicable laws, and (ii) in the case of (b) above, the Permitted Transferee, prior to the completion of such Transfer, shall have executed a Deed of Adherence (as defined below) as a Founder Holding Company, with respect to the Transferred Shares.

4.7. Prohibited Transfers. Unless disclosed in the Transaction Documents, each Founder hereby represents to each Investor that he or she is the 100% percent legal and beneficial owner of his or her respective Founder Holding Company(ies). Notwithstanding anything to the contrary herein, (a) as long as Tencent (together with its Affiliates) holds 5% or more of the Company's total outstanding Shares (on an as-converted and fully diluted basis), none of the Founder Holding Companies shall, and each Founder shall procure its Founder Holding Companies not to, Transfer any Shares to a Restricted

Person without the prior written consent of Tencent, (b) except for Transfers by a Founder Holding Company to its Permitted Transferees as provided in Section 4.6, none of the Founder Holding Companies or their respective Permitted Transferees shall, and each Founder shall procure its Founder Holding Companies or its Permitted Transferees not to, Transfer more than 15% of all Shares (on a fully diluted and as-converted basis) as at the date hereof held by it, her or him to any Person without the prior written consent of the Preferred Majority on or prior to a Qualified Initial Public Offering. Any Transfer or attempted Transfer by a Founder Holding Company or any of its Permitted Transferees in violation of this Section 4 shall be void and the Company hereby agrees it will not effect such Transfer. For the avoidance of doubt, subject to Section 4.1, Sections 4.2 and Section 4.5 above, a Founder Holding Company or its Permitted Transferees shall be entitled to, without any prior written consents of the Preferred Majority, Transfer up to 15% of all Shares (on a fully diluted and as-converted basis) as at the date hereof held by such Founder Holding Company, to any Person (other than a Restricted Person) at any time following the date of this Agreement.

4.8. Restriction on Transfer to a Company Restricted Person. Notwithstanding anything to the contrary in this Section 4 but without prejudice to the Company's right of first refusal pursuant to Section 4.1, each Shareholder agrees that, without the prior written consent of the Company, it shall not Transfer any Share to any of the Company Restricted Persons. The "**Company Restricted Persons**" shall initially be the Persons listed in Schedule 6, and may from time to time be updated or amended (but no more than twice a calendar year) by the Board acting reasonably.

4.9. Permitted Transfers by Investors. Notwithstanding anything to the contrary, the provisions of Section 4.1 shall not apply to any Transfer of Shares (a) by any Investor to any of its Affiliates, provided further that, if any transferee ceases to be an Affiliate of such Investor pursuant to this Section 4.9, such transferee shall immediately Transfer the Shares held by it to such Investor or any other Affiliate of such Investor pursuant to this Section 4.9 and (b) by Tencent (or its permitted transferee pursuant the terms of this Agreement) to (i) any direct or indirect wholly-owned Subsidiary(ies) of Tencent Holdings Limited ("**Tencent HoldCo**") or (ii) any Person that is Controlled by Tencent HoldCo, whether directly or indirectly, through the ownership of 100% of voting securities or the possession of 100% of voting power, itself or with any wholly-owned direct or indirect subsidiary as trustee or executor, general partner, by contract or credit arrangement or otherwise or (iii) any other Affiliate of Tencent whose primary business is making investments and is not directly competing with the Principal Business of the Company, provided that a direct or indirect investment in any Person that directly competes with the Principal Business of the Company shall not be deemed, individually or in the aggregate with other such investments, to be directly competing with the Principal Business; provided further that, if any transferee ceases to be a permitted transferee pursuant to this Section 4.9, such transferee shall immediately Transfer the Shares held by it to Tencent or any of its permitted transferees pursuant to this Section 4.9.

4.10. Legend.

(a) Each certificate representing the Ordinary Shares or the Preferred Shares, as well as the register of member of the Company, shall be endorsed with the following legend:

> "THE SALE, PLEDGE, HYPOTHECATION OR TRANSFER OF THE SECURITIES REPRESENTED BY THIS CERTIFICATE IS SUBJECT TO CERTAIN RESTRICTIONS ON TRANSFER SET FORTH IN A SHAREHOLDERS AGREEMENT, A COPY OF WHICH MAY BE OBTAINED UPON WRITTEN REQUEST TO THE SECRETARY OF THE COMPANY."

(b) Each Party agrees that the Company may instruct its transfer agent to impose transfer restrictions on the shares represented by certificates bearing the legend referred to in

Section 4.10(a) above to enforce the provisions of this Agreement and the Company agrees to promptly do so. The legend shall be removed upon termination of the provisions of this Section 4.

10. CERTAIN COVENANTS.

10.1. Qualified Financing. Notwithstanding anything to the contrary contained in this Agreement and the Restated Articles, but without prejudice to Section 3.1, Section 3.2, Section 3.3, Section 3.4(a), Section 3.6 and Section 3.7, if the Company proposes to consummate a Qualified Financing with any potential investor at any time after the date hereof, each Shareholder shall, at their own cost, take all actions, execute all documents and do all things required by law or as may be necessary or customarily desirable to consummate such Qualified Financing, including but not limited to (if applicable):

(b) executing, delivering and performing the Qualified Financing Amendments and any other ancillary documents necessary for the consummation of such Qualified Financing.

10.2. Restriction on Investment in Company Competitors. If any Investor or any of its Affiliates (other than any strategic investor as reasonably determined by the Board, such strategic investor including Tencent and its Affiliates) enters into any definitive agreement in connection with any direct or indirect purchase of or investment in, participates in the management of, or enters into any partnership or cooperation with any of the Persons that engage in the business competing with the Group Companies (including their respective Affiliates) (the "**Company Competitors**") as reasonably determined by the Board in accordance with Section 8.2 (provided that the list of the Company Competitors may be updated from time to time (but no more than twice a year, provided that no Person that has a *bona fide* valuation of less than US$500,000,000 shall be added to the list of Company Competitors) by the Board in accordance with Section 8.2), such Investor shall promptly after closing of the transaction contemplated by relevant agreement or within twenty (20) Business days upon entering into relevant agreement (whichever is earlier), deliver a written notice to the Company stating that such Investor has entered into an agreement or consummated a transaction (as the case may be) with a Company Competitor (without disclosing name of the competitor or terms of the agreement/transaction). Upon delivery of the written notice by such Investor to the Company, the Company shall have the right to amend, restrict, suspend, remove and/or terminate such Investor's rights, preference or privileges of the Shares held by it under this Agreement and the Restated Articles (including but not limited to the Information Right and Inspection Right under Section 1.1 (if any), any directorship under Section 1.2 and Article 81 of the Restated Articles (if any), consent right under Section 8.1 and Article 59(A) of the Restated Articles, and the voting right under Article 58 of the Restated Articles), except for (a) the registration rights under Section 2 of this Agreement, (b) the pre-emptive rights under Section 3 of this Agreement, (c) the right of first refusal and co-sale right under Section 4 of this Agreement, (d) the liquidation preference under Section

5.1 of this Agreement and Articles 145A to 145E of the Restated Articles, (e) the conversion right under Articles 53 to 57 of the Restated Articles and (f) the dividend rights under Articles 120 to 129 of the Restated Articles, provided that (i) the Company shall act reasonably and discuss in good faith with such Investor when taking any measures with respect to such Investor's rights, preference or privileges and (ii) the measures taken by the Company with respect to such Investor's rights, preference or privileges shall commensurate with the circumstances of such Investor's investment in, participation in the management of, or partnership or cooperation with the Company Competitor. For the avoidance of doubt, to the extent that the Company restricts, suspends, removes or terminates such Investor's consent rights under Section 8.1, the Shares held by such Investor shall not be counted for the purpose of calculating the Preferred Majority for the purpose of this Agreement and the Restated Articles. Notwithstanding the foregoing, this Section 10.2 shall not apply to the ownership of any shares already owned by an Investor or any of its Affiliates in a Company Competitor prior to the date on which the Board determines such Person to be a

Company Competitor, any follow-on investments in such Company Competitor (no matter whether the investments occur before, on or after the date on which the Board determines such Person to be a Company Competitor, and no matter the investments are made on a pro rata basis or result in a higher shareholding percentage in a Company Competitor), and any action for maintenance of the shareholding, directorship and any other preferential rights in such Company Competitor (including exercise of pre-emptive right, right of first refusal, anti-dilution or performance ratchets or other similar or customary rights according to the relevant agreements) shall not constitute a breach of this Section 10.2.

10.3. Transfer of Equity Interest in Group Companies. The consummation of a Transfer of Shares by an Investor according to Section 4 shall be subject to and conditional upon a Transfer to the Founders of the corresponding portion of shares, securities, equity interests or other voting rights in any Group Company (other than the Company) beneficially owned by such Investor or its Affiliates (if any) at nominal consideration or at a minimum price permitted by the applicable laws. Each Party shall take all actions, execute all documents and do all things required by law or as may be necessary or desirable to consummate such Transfer.

11.4. Severability. If any provision of this Agreement is found to be invalid or unenforceable, then such provision shall be construed, to the extent feasible, so as to render the provision enforceable and to provide for the consummation of the transactions contemplated hereby on substantially the same terms as originally set forth herein, and if no feasible interpretation would save such provision, it shall be severed from the remainder of this Agreement, which shall remain in full force and effect unless the severed provision is essential to the rights or benefits intended by the parties. In such event, the parties shall use best efforts to negotiate, in good faith, a substitute, valid and enforceable provision or agreement which most nearly effects the parties' intent in entering into this Agreement.

3. Shares Subject to the Plan.

(a) Basic Limitation. Subject to the provisions of Section 12 hereof, the maximum aggregate number of Shares that may be issued under the Plan shall not exceed 581,972,860 Shares; provided, however, that, at no time while the Shares are not registered pursuant to the Securities Act or the Company is not otherwise subject to the public reporting requirements of the Exchange Act, shall the maximum aggregate number of Shares that may be issued upon the exercise of all outstanding Awards and the aggregate number of Shares provided for under any other share bonus or similar plan of the Company exceed the number of Shares that the Company is permitted to issue pursuant to the exemption from registration under the Securities Act provided by Rule 701 of the Securities Act plus the aggregate number of Shares issued pursuant to Regulation S of the Securities Act or other exemption available under the Securities Act. 4. Administration of the Plan.

(a) Administrator. The Plan shall be administered by the Board or a Committee appointed by the Board, which Committee shall be constituted to comply with Applicable Law.

(b) Powers of the Administrator. Subject to the provisions of the Plan and, in the case of a Committee, the specific duties delegated by the Board to such Committee, and subject to the approval of any relevant authorities, the Administrator shall have the authority in its discretion:

(i) to determine the Fair Market Value, in accordance with Section 2(o) hereof;

(ii) to select the Service Providers to whom Awards may from time to time be granted hereunder;

(iii) to determine the number of Shares to be covered by each Award granted hereunder;

(iv) to approve the form(s) of agreement for use under the Plan;

(v) to determine the terms and conditions of any Award granted hereunder including, but not limited to, the Exercise Price, the Purchase Price, the time or times when Options may be exercised (which may be based on performance criteria), the time or times when repurchase or redemption rights shall lapse, any vesting acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Award or the Shares relating thereto, based in each case on such factors as the Administrator, in its sole discretion, shall determine;

(vi) to implement a program where (A) outstanding Awards are surrendered or cancelled in exchange for Awards of the same type (which may have lower Exercise/Purchase Prices and different terms), Awards of a different type, or cash, or (B) the Exercise/Purchase Price of an outstanding Award is reduced, based in each case on terms and conditions determined by the Administrator in its sole discretion;

(vii) to prescribe, amend, and rescind rules and regulations relating to the Plan, including rules and regulations relating to sub-plans established for the purpose of satisfying Applicable Laws;

(viii) to allow Optionees to satisfy withholding tax obligations by electing to have the Company withhold from the Optioned Shares to be issued under an Option that number of Shares having a Fair Market Value equal to the minimum amount required to be withheld. The Fair Market Value of the Shares to be withheld shall be determined on the date that the amount of tax to be withheld is to be determined. All elections by Optionees to have Shares withheld for this purpose shall be made in such form and under such conditions as the Administrator may deem necessary or advisable;

(ix) to modify or amend each Award (subject to Section 17 hereof and Participant consent if the modification or amendment is to the Participant's detriment), including, without limitation, the discretionary authority to extend the post-termination exercisability of an Option longer than is otherwise provided for in an Option Agreement or accelerate the vesting or exercisability of an Option or lapsing of a repurchase or redemption right to which Restricted Shares may be subject;

(x) to construe and interpret the terms of the Plan and Awards granted pursuant to the Plan; and

(xi) to make any other determination and take any other action that the Administrator deems necessary or desirable for the administration of the Plan.

(c) Delegation of Authority to Officers. Subject to Applicable Law, the Administrator may delegate limited authority to specified officers of the Company to execute on behalf of the Company any instrument required to effect an Award previously granted by the Administrator.

(d) Effect of Administrator's Decision. All decisions, determinations, and interpretations of the Administrator shall be final and binding on all Participants.

(e) Term of the Plan. The Plan shall be valid for 10 years after it enters into force. In event of Liquidation or events that have material impact on the Plan, the Board may resolve to terminate the Plan before it expires. If the Plan is terminated before expiry, the Company shall no longer award Options to Service Providers pursuant hereto.

5. Eligibility.

Only Service Providers shall be eligible for the grant of Options and Share Purchase Rights.

6. Terms and Conditions of Options.

(a) Option Agreement. Each grant of an Option under the Plan shall be evidenced by an Option Agreement between the Optionee and the Company. Each Option shall be subject to all applicable terms and conditions of the Plan and may be subject to any other terms and conditions that are not inconsistent with the Plan and that the Administrator deems appropriate for inclusion in an Option Agreement. The provisions of the various Option Agreements entered into under the Plan need not be identical.

(b) Number of Shares. Each Option Agreement shall specify the number of Shares that are subject to the Option and shall provide for the adjustment of such number in accordance with Section 12 hereof.

(c) Exercise Price. Each Option Agreement shall specify the Exercise Price, which shall be determined by the Administrator in its sole discretion. The Exercise Price shall be payable in accordance with Section 9 hereof and the applicable Option Agreement. The exercise price per Share subject to an Option may be amended or adjusted in the absolute discretion of the Administrator, the determination of which shall be final, binding and conclusive. For the avoidance of doubt, to the extent not prohibited by Applicable Laws or any exchange rule, a downward adjustment of the exercise prices of Options mentioned in the preceding sentence shall be effective without the approval of the Company's shareholders or the approval of the affected Optionees.

(d) Term of Option. The Option Agreement shall specify the term of the Option; provided, however, that the term shall not exceed ten (10) years from the Date of Grant. Subject to the preceding sentence, the Administrator in its sole discretion shall determine when an Option is to expire.

(e) Exercisability. Each Option Agreement shall specify the date when all or any installment of the Option is to become exercisable. The exercisability provisions of any Option Agreement shall be determined by the Administrator in its sole discretion.

(f) Fast-track Exercisability. Under normal circumstances, Options awarded pursuant to the Plan shall not be exercised prior to its maturity, except for circumstances otherwise determined by the Administrator, including but not limited to event of Liquidation or events where the Optionee is deemed to have made extraordinary contribution to the Company in the unanimous opinion of the Board.

(g) Exercise Procedure. Any Option granted hereunder shall be exercisable according to the terms hereof at such times and under such conditions as may be determined by the Administrator and as set forth in the Option Agreement; provided, however, that an Option shall not be exercised for a fraction of a Share.

(i) An Option shall be deemed exercised when the Company receives (A) written or electronic notice of exercise (in accordance with the Option Agreement) from the person entitled to exercise the Option, (B) full payment for the Shares with respect to which the Option is exercised, and (C) all representations, indemnifications, and documents reasonably requested by the Administrator including, without limitation, any Shareholders Agreement. Full payment may consist of any consideration and method of payment authorized by the Administrator in accordance with Section 9 hereof and permitted by the Option Agreement.

(ii) Shares issued upon exercise of an Option shall be issued in the name of the Optionee or, if requested by the Optionee, in the name of the Optionee and his or her spouse. Subject to the provisions of Sections 8, 9, 14, and 15, the Company shall issue (or cause to be issued) certificates evidencing the issued Shares promptly after the Option is exercised. Notwithstanding the foregoing, the Administrator in its discretion may require the Company to retain possession of any certificate evidencing Shares acquired upon the exercise of an Option, if those Shares remain subject to repurchase or redemption under the provisions of the Option Agreement, the Shareholders Agreement, or any other agreement between the Company and the Participant, or if those Shares are collateral for a loan or obligation due to the Company.

(iii) Exercise of an Option in any manner shall result in a decrease in the number of Shares thereafter available, both for purposes of the Plan and for sale under the Option, by the number of Shares as to which the Option is exercised.

(iv) Unless the Optionee exercises the Option in accordance with the provision set forth in 6(g) above, the Optionee shall not acquire or entitled to any rights of the Restricted Shares, including not but limited to income and right to distribution of remaining assets.

(h) Acquisition of Restricted Shares. Pursuant to section 6(g) above, the Restricted Share Agreement has been duly executed and enters into force, a Service Provider has the right to Restricted Shares.

(i) Termination of Service (other than by death or Disability).

i) If an Optionee ceases to be a Service Provider for any reason other than because of death or Disability, then the Optionee's Options shall expire on the earliest of the following occasions:

(A) The expiration date determined by Section 6(d) hereof;

(B) The 7th day following the termination of the Optionee's relationship as a Service Provider for any reason other than that in Section 6(g)i)(C); and

(C) Immediately expired upon termination or demission of such Optionee's relationship as a Service Provider due to infringement of Company's interest by such Optionee at Company's judgment.

(ii) Under Section 6(g)i), unless the Option Agreement provides otherwise, the Company may, at its sole discretion, choose to redeem the vested Optioned Shares of such Service Provider at the Company's determined price, or allow such optionee to decide whether to exercise the vested Optioned Shares within 7 days after the termination by paying the total exercise price in one lump sum, but only to the extent that the Option was vested and exercisable as of expiration date determined by Section 6(d) hereof. The balance of the Shares subject to the Option shall be forfeited on the expiration date.

(j) Leaves of Absence. Unless otherwise determined by the Administrator, for purposes of Section 6 hereof, the service of an Optionee as a Service Provider shall be deemed to continue while the Optionee is on a bona fide leave of absence, if such leave was approved by the Company in writing. Unless otherwise determined by the Administrator and subject to Applicable Law, vesting of an Option shall be suspended during any unpaid leave of absence.

(k) Death or Disability of Optionee.

(i) If an Optionee ceases to be a Service Provider as a result of the Optionee's death or Disability, then the Optionee's Option shall expire on the earlier of the following dates:

(A) The expiration date determined by Section 6(d) hereof; and

(B) The last day of the six-month period following the Optionee's death or Disability, or such later date as the Administrator may determine and specify in the Option Agreement.

(ii) The Company or the founder of the Company may redeem/purchase all or part of the Optionee's Option at the Fair Market Value of such Option, and rest of Optionee's vested Option Shares, which are not fully redeemed or repurchased, may be exercised at any time before the expiration of the Option as set forth in Section 6(g)(i) hereof by the Optionee, executors or administrators of the Optionee's estate or by any person who has acquired the Option directly from the Optionee by beneficiary designation, bequest, or inheritance, but only to the extent that the Option was vested and exercisable as of the date of the Optionee's death or Disability, or had become vested and exercisable as a result of the death, unless the Option Agreement provides otherwise. The balance of the Shares subject to the Option shall be forfeited upon the Optionee's death or Disability. Any unvested Options or Optioned Shares subject to the portion of the Option that are vested as of the Optionee's death or Disability but that are not purchased prior to the expiration of the Option pursuant to this Section 6(k)(ii) shall be forfeited immediately following the Option's expiration.

(l) Restrictions on Transfer of Shares. Any Shares issued upon exercise of an Option shall be subject to such special forfeiture conditions, rights of repurchase or redemption, rights of first refusal, and other transfer restrictions as the Administrator may determine, and subject to any and all transfer restrictions under the Shareholders Agreement. The restrictions described in the preceding sentence shall be set forth in the applicable Option Agreement and shall apply in addition to any restrictions that may apply to holders of Shares generally.

7. Terms and Conditions of Share Purchase Rights.

(a) Restricted Share Purchase Agreement. Each Share Purchase Right under the Plan shall be evidenced by a Restricted Share Purchase Agreement between the Purchaser and the Company. Each Share Purchase Right shall be subject to all applicable terms and conditions of the Plan and may be subject to any other terms and conditions that are not inconsistent with the Plan and that the Administrator deems appropriate for inclusion in a Restricted Share Purchase Agreement. The provisions of the various Restricted Share Purchase Agreements entered into under the Plan need not be identical.

(b) Duration of Offers and Nontransferability of Share Purchase Rights. Any Share Purchase Rights granted under the Plan shall automatically expire if not exercised by the Purchaser within 30 days (or such longer time as is specified in the Restricted Share Purchase Agreement) after the Date of Grant. Unless otherwise specified in the Restricted Share Purchase Agreement, Share Purchase Rights shall not be transferable and shall be exercisable only by the Purchaser to whom the Share Purchase Right was granted.

(c) Purchase Price. The Purchase Price shall be determined by the Administrator in its sole discretion. The Purchase Price shall be payable in a form described in Section 9 hereof.

(d) Restrictions on Transfer of Shares. Any Shares awarded or sold pursuant to Share Purchase Rights shall be subject to such special forfeiture conditions, rights of repurchase or redemption, rights of first refusal, and other transfer restrictions as the Administrator may determine, and subject to any and all transfer restrictions under the Shareholders Agreement. The restrictions described in the preceding sentence shall be set forth in the applicable Restricted Share Purchase Agreement and shall apply in addition to any restrictions that may apply to holders of Shares generally. Unless otherwise determined by the Administrator and subject to Applicable Law, vesting of Shares acquired pursuant to a Restricted Share Purchase Agreement shall be suspended during any unpaid leave of absence.

(e) Forfeiture/Repurchase. Upon termination of employment or service during the applicable restriction period, Restricted Shares that are at that time subject to restrictions shall be forfeited or repurchased in accordance with the Restricted Share Purchase Agreement; provided, however, the Administrator may (a) provide in any Restricted Share Purchase Agreement that restrictions or forfeiture and repurchase conditions relating to Restricted Shares will be waived in whole or in part in the event of of terminations resulting from specified causes, and (b) in other cases waive in whole or in part restrictions or forfeiture and repurchase conditions relating to Restricted Shares. .

8. Withholding Taxes. As a condition to the exercise of an Option or purchase of Restricted Shares, the Participant (or in the case of the Participant's death or in the event of a permissible transfer of Awards hereunder, the person exercising the Option or purchasing Restricted Shares) shall make such arrangements as the Administrator may require for the satisfaction of any applicable withholding taxes arising in connection with the exercise of an Option or purchase of Restricted Shares under the Applicable Law. The Participant (or in the case of the Participant's death or in the event of a permissible transfer of Awards hereunder, the person exercising the Option or purchasing Restricted Shares) also shall make such arrangements as the Administrator may require for the satisfaction of withholding tax obligations under Applicable Law that may arise in connection with the disposition of Shares acquired by exercising an Option or purchasing Restricted Shares. The Company shall not be required to issue any Shares under the Plan until the foregoing obligations are satisfied. Without limiting the generality of the foregoing, upon the exercise of the Option or delivery of Restricted Shares, the Company shall have the right to withhold taxes from any compensation or other amounts that the Company may owe to the Participant, or to require the Participant to pay to the Company the amount of any taxes that the Company may be required to withhold with respect to the Shares issued to the Participant. Without limiting the generality of the foregoing, the Administrator in its discretion may authorize the Participant to satisfy all or part of any withholding tax liability by (i) having the Company withhold from the Shares that would otherwise be issued upon the exercise of an Option or purchase of Restricted Shares that number of Shares having a Fair Market Value, as of the date the withholding tax liability arises, equal to the portion of the Company's withholding tax liability to be so satisfied or (ii) by delivering to the Company previously owned and unencumbered Shares having a Fair Market Value, as of the date the withholding tax liability arises, equal to the amount of the Company's withholding tax liability to be so satisfied. Subject to the preceding sentence, the exercisability provisions of any Option Agreement and rights to acquire Restricted Shares shall be determined by the Administrator in its sole discretion.

9. Payment for Shares. The consideration to be paid for the Shares to be issued under the Plan, including the method of payment, shall be determined by the Administrator, subject to the provisions in this Section 9.

(a) General Rule. The entire Purchase Price or Exercise Price (as the case may be) for Shares issued under the Plan shall be payable in cash or cash equivalents at the time when the Shares are purchased, except as otherwise provided in this Section 9.

(b) Surrender of Shares. To the extent that an Option Agreement so provides, all or any part of the Exercise Price may be paid by surrendering, or attesting to the ownership of, Shares that are already owned by the Optionee. These Shares shall be surrendered to the Company in good form for transfer and shall be valued at their Fair Market Value on the date the Option is exercised. The Optionee shall not surrender, or attest to the ownership of, Shares in payment of the Exercise Price if this action would subject the Company to adverse accounting consequences, as determined by the Administrator.

(c) Services Rendered. At the discretion of the Administrator and to the extent so provided in the agreements evidencing Awards of Shares under the Plan, Shares may be awarded under the Plan in consideration of services rendered to the Company or any Parent or Subsidiary prior to the Award.

(d) Promissory Note. At the discretion of the Administrator and to the extent an Option Agreement or a Restricted Share Purchase Agreement so provides, all or a portion of the Exercise Price or Purchase Price (as the case may be) may be paid with a promissory note in favor of the Company. The Shares shall be pledged as security for payment of the principal amount of the promissory note and interest thereon. The interest rate payable under the terms of the promissory note shall not be less than the minimum rate (if any) required to avoid the imputation of additional interest. Subject to the foregoing, the Administrator (at its sole discretion) shall specify the term, interest rate, amortization requirements (if any), and other provisions of the promissory note.

(e) Exercise/Sale. At the discretion of the Administrator and to the extent an Option Agreement so provides, and if the Shares are publicly traded, payment may be made all or in part by the delivery (on a form prescribed by the Company) or an irrevocable direction to a securities broker approved by the Company to sell Shares and to deliver all or part of the sales proceeds to the Company in payment of all or part of the Exercise Price and any withholding taxes.

(f) Exercise/Pledge. At the discretion of the Administrator and to the extent an Option Agreement so provides, and if the Shares are publicly traded, payment may be made all or in part by the delivery (on a form prescribed by the Company) or an irrevocable direction to pledge Shares to a securities broker or lender approved by the Company, as security for a loan, and to deliver all or part of the loan proceeds to the Company in payment of all or part of the Exercise Price and any withholding taxes.

(g) Other Forms of Consideration. At the discretion of the Administrator and to the extent an Option Agreement or a Restricted Share Purchase Agreement so provides, all or a portion of the Exercise Price or Purchase Price may be paid by any other form of consideration and method of

payment to the extent permitted by Applicable Law.

10. Nontransferability of Awards. Unless otherwise determined by the Administrator and provided in the applicable Option Agreement or Restricted Share Purchase Agreement (or be amended to provide), no Award shall be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner (whether by operation of law or otherwise) other than by will or applicable laws of descent and distribution or (except in the case of an Incentive Stock Option) pursuant to a qualified domestic relations order, and shall not be subject to execution, attachment, or similar process. Upon any attempt to pledge, assign, hypothecate, transfer, or otherwise dispose of any Award or of any right or privilege conferred by this Plan contrary to the provisions hereof, or upon the sale, levy or attachment or similar process upon the rights and privileges conferred by this Plan, such Award shall thereupon terminate and become null and void. Awards may be exercised (including the purchase of Restricted Shares thereunder in the event of a Share Purchase Right) during the lifetime of the Participant only by the Participant.

11. Rights as a Member. Until the Shares actually are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a member shall exist with respect to the Shares, notwithstanding the exercise of the Award. No adjustment shall be made for a dividend or other right for which the record date is prior to the date the Shares are issued, except as provided in Section 12 of the Plan.

12. Adjustment of Shares.

(a) Changes in Capitalization. Subject to any required action by the members of the Company, the class(es) and number and type of Shares that have been authorized for issuance under the Plan but as to which no Awards have yet been granted or that have been returned to the Plan upon cancellation or expiration of an Award, and the class(es), number, and type of Shares covered by each outstanding Award, as well as the price per Share covered by each outstanding Award, shall be proportionately adjusted for any increase, decrease, or change in the number or type of outstanding Shares or other securities of the Company or exchange of outstanding Shares or other securities of the Company into or for a different number or type of shares or other securities of the Company or successor entity, or for other property (including, without limitation, cash) or other change to the Shares resulting from a share split, reverse share split, share dividend, dividend in property other than cash, combination of shares, exchange of shares, combination, consolidation, recapitalization, reincorporation, reorganization, change in corporate structure, reclassification, or other distribution of the Shares effected without receipt of consideration by the Company; provided, however, that the conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration." The adjustment contemplated in this Section 12(a) shall be made by the Board, whose determination shall be final, binding and conclusive. Except as expressly provided herein, no issuance by the Company of equity securities of the Company of any class, or securities convertible into equity securities of the Company of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number, type, or price of Shares subject to an Award.

(b) Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Administrator shall notify each Participant as soon as practicable prior to the effective date of such proposed transaction. The Administrator in its discretion may provide for an Optionee to have the right to exercise his or her Option until fifteen (15) days prior to the proposed dissolution or liquidation as to all of the Optioned Shares covered thereby, including Shares as to which the Option would not otherwise be exercisable. In addition, the Administrator may provide that any Company repurchase or redemption option applicable to any Shares purchased upon exercise of an Option or Restricted Shares purchased under a Share Purchase Right shall lapse as to all such Shares, provided the proposed dissolution or liquidation takes place at the time and in the manner contemplated. To the extent it has not been previously exercised, an Award will terminate immediately prior to the consummation of such proposed action.

(c) Change in Control. In the event of a Change in Control, unless the Option Agreement or Restricted Share Purchase Agreement provides otherwise, each outstanding Option shall be assumed or an equivalent option shall be substituted by, and each right of the Company to repurchase or redeem Shares upon termination of a Purchaser's relationship as a Service Provider shall be assigned to, the successor corporation or a Parent or Subsidiary of the successor corporation. If, in the event of a Change in Control, the Option is not assumed or substituted, or the repurchase or redemption right is not assigned, in the case of an outstanding Option, the Option shall fully vest immediately and the Participant shall have the right to exercise the Option as to all of the Optioned Shares, including Shares as to which it would not otherwise be vested or exercisable, and, in the case of Restricted Shares, the Company's repurchase or redemption right shall lapse immediately and all of the Restricted Shares subject to the repurchase or redemption right shall become vested. If the Option becomes fully vested and exercisable, in lieu of assumption or substitution in the event of a Change in Control, the Administrator shall notify the Optionee in writing or electronically that the Option shall be fully exercisable for a period of fifteen (15) days from the date of such notice, and the Option shall terminate upon the expiration of such period, provided that, in the event of the proposed merger or consolidation of the Company with any other corporation as set forth in Section 2(f)(iii) hereof, the Administrator shall notify each Optionee as soon as practicable prior to the effective date of such proposed transaction. the Company has the right to redeem/purchase all or part of the Optionee's Option at the Fair Market Value of such Option, and the Company may at its best efforts to allow such Optionee to swap the rest of the vested Optioned Shares, which are not fully redeemed or repurchased, but only to the extent that the Option was vested and exercisable as of the date fifteen (15) days prior to the proposed transaction, to the options of the successor corporation (subject to the option plan of the successor corporation and terms and conditions thereunder). The balance of the Shares subject to the Option shall be forfeited as of the date fifteen (15) days prior to the proposed transaction, unless the Option Agreement or Restricted Share Purchase Agreement provides otherwise. For purposes of this Section 12(c), an Option shall be considered assumed if, following the Change in Control, the Option confers the right to purchase or receive, for each Optioned Share immediately prior to the Change in Control, the consideration (whether shares, cash, or other securities or property) received in connection with the Change in Control by holders of Shares for each Share held on the effective date of the transaction (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding Shares); provided, however, that if the consideration received in the Change in Control is not solely common stock or ordinary shares of the successor corporation or its Parent or Subsidiary, the Administrator may, with the consent of the successor corporation, provide for the consideration to be received upon the exercise of the Option, for each Optioned Share, to be solely common stock or ordinary shares of the successor corporation or its Parent or Subsidiary equal in Fair Market Value to the per Share consideration received by holders of Shares in the Change in Control.

(d) [Reserved.]

(e) Reservation of Rights. Except as provided in this Section 12 and in the applicable Option Agreement or Restricted Share Purchase Agreement, a Participant shall have no rights by reason of (i) any subdivision or consolidation of Shares or other securities of any class, (ii) the payment of any dividend, or (iii) any other increase or decrease in the number of Shares or other securities of any class. Any issuance by the Company of equity securities

of any class, or securities convertible into equity securities of any class, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number or Exercise Price of Optioned Shares. The grant of an Option or Share Purchase Right shall not affect in any way the right or power of the Company to make adjustments, reclassifications, reorganizations, or changes of its capital or business structure, to merge or consolidate or to dissolve, liquidate, sell, or transfer all or any part of its business or assets.

13. Date of Grant. The Date of Grant of an Award shall, for all purposes, be the date on which the Administrator makes the determination to grant the Award, or such other later date as is determined by the Administrator.

14. Securities Law Requirements.

(a) Legal Compliance. Notwithstanding any other provision of the Plan or any agreement entered into by the Company pursuant to the Plan, the Company shall not be obligated, and shall have no liability for failure to deliver any Shares under the Plan unless the issuance and delivery of Shares comply with (or are exempt from) all Applicable Law, including, without limitation, the Securities Act, U.S. state securities laws and regulations, and the regulations of any stock exchange or other securities market on which the Company's securities may then be traded, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

(b) Investment Representations. Shares delivered under the Plan shall be subject to transfer restrictions, and the person acquiring the Shares shall, as a condition to the exercise of an Option or the purchase of Restricted Shares if requested by the Company, provide such assurances and representations to the Company as the Company may deem necessary or desirable to assure compliance with Applicable Law, including, without limitation, the representation and warranty at the time of acquisition of the Shares that the Shares are being acquired only for investment purposes and without any present intention to sell, transfer, or distribute the Shares.

---

15. Inability to Obtain Authority. The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, shall relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained.

16. [Reserved.]

17. Duration and Amendment.

(a) Term of Plan. Subject to approval by members of the Company in accordance with Section 16 hereof, the Plan shall become effective upon the earlier to occur of its adoption by the Board or its approval by the members of the Company as described in Section 16 hereof. Unless sooner terminated under Section 17(b) hereof, the Plan shall continue in effect for a term of ten (10) years from the later of (i) the effective date of the Plan, or (ii) the date of the most recent Board approval of an increase in the number of Shares reserved for issuance under the Plan.

(b) Amendment and Termination. The Board may at any time amend, alter, suspend, or terminate the Plan.

(c) Approval by Members. The Board shall obtain approval of the members of any Plan amendment to the extent necessary and desirable to comply with Applicable Law.

(d) Effect of Amendment or Termination. No amendment, alteration, suspension, or termination of the Plan shall materially and adversely impair the rights of any Participant with respect to an outstanding Award, unless mutually agreed otherwise between the Participant and the Administrator, which agreement must be in writing and signed by the Participant and the Company. Termination of the Plan shall not affect the Administrator's ability to exercise the powers granted to it hereunder with respect to Awards granted under the Plan prior to the date of such termination. No Shares shall be issued or sold under the Plan after the termination thereof, except upon exercise of an Award granted prior to the termination of the Plan.

18. Legending Share Certificates. In order to enforce any restrictions imposed upon Shares issued upon the exercise of Options or the acquisition of Restricted Shares, including, without limitations, the restrictions described in Sections 6(i) and 7(c) hereof, the Administrator may cause a legend or legends to be placed on any share certificates representing the Shares, which legend or legends shall make appropriate reference to the restrictions, including, without limitation, a restriction against sale of the Shares for any period as may be required by Applicable Law.

---

19. No Retention Rights. Neither the Plan nor any Award shall confer upon any Participant any right to continue his or her relationship as a Service Provider with the Company for any period of specific duration or interfere in any way with his or her right or the right of the Company (or any Parent or Subsidiary employing or retaining the Participant), which rights are hereby expressly reserved by each, to terminate this relationship at any time, with or without cause, and with or without notice.

20. No Trust or Fund Created. Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company or any Parent or Subsidiary and a Participant or any other person. To the extent that any Participant acquires a right to receive payments from the Company or any Parent or Subsidiary pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company, a Parent, or any Subsidiary.

21. No Rights to Awards. The Pledgors, the Company and the Pledgee hereby agree that upon occurrence of any Event of Default, the Pledgee shall, upon giving a written notice to the Pledgors, be entitled to exercise all rights and power of remedies for breach of contract under the PRC Laws, the Transaction Agreements and this Agreement, including without limitation the right to auction or sell the Pledge and to be compensated on a preferential basis with the proceeds thereof. The Pledgee shall not be held liable for any losses from its reasonable exercise of such rights and power.

(ii) The representations and warranties shall survive the Closing. Notwithstanding the foregoing, none of the Group Companies or Founder Parties shall have any liability for breach of any representation or warranty pursuant to Section 9.1(a) with respect to a Series D Purchaser unless a claim has been asserted by written notice, specifying the details of the alleged breach of representation or warranty, delivered to the party against which liability is claimed, on or prior to the date falling 18 months after the Closing Date, other than (a) the representations and warranties set forth in Section 3.1, Section 3.2, Section 3.4 and Section 3.5, in respect of which a claim may be made at any time, and (b) the representations and warranties set forth in Section 3.17, in respect of which a claim may be made at any time prior to the expiry of the statute of limitation applicable to the particular Tax at issue.

(b) Special Indemnity. Notwithstanding the foregoing and anything contained in the Financial Statements and Disclosure Schedule, each Group Company shall, jointly and severally, indemnify the Indemnified Parties against any Damages that such Indemnified Parties incurred or suffered as a result of or arising out of any of the following matters:

(i) any and all actual liabilities for Taxes of the Group Companies (i) for any taxable period (or portion thereof) ending on or prior to the Closing Date, or with respect to any transaction occurring on or before the Closing Date and (ii) any claim for Tax made against any Group Company in respect of any event occurred on or before the Closing or any income, profits or gains earned, accrued or received by any Group Company on or before the Closing. Unless otherwise defined in this Agreement, "**Tax**" shall mean any tax, duty, deduction, withholding, impost, levy, fee, assessment or charge of any nature whatsoever (including income, franchise, value added, sales, use, excise, stamp, customs, documentary, transfer, withholding, property, capital, employment, payroll, ad valorem, net worth or gross receipts taxes and any social security, unemployment or other mandatory contributions) imposed, levied, collected, withheld or assessed by any local, municipal, regional, urban, governmental, state, national or other governmental authority and any interest,

addition to tax, penalty, surcharge or fine in connection therewith, including any obligations to indemnify or otherwise assume or succeed to the liability of any other Person with respect to any of the foregoing items;

(ii) the fact that any of the Group Companies violates any applicable laws in relation to social insurance or housing funds and other employment and labor matters;

For purposes hereof, notice delivered to any of the Founders at the Company's address pursuant to Section 9.6 shall constitute effective notice to all Group Companies. The omission of any Indemnified Party to so notify the Indemnifying Party does not relieve the Indemnifying Party from any liability which it may have to such Indemnified Party.

SECTION 9.1. Indemnity.

(a) General Indemnity Each of the Seller Parties (the "**Indemnifying Party**") shall, jointly and severally, indemnify, defend and hold harmless the Series C Purchasers and their Affiliates and their respective officers, directors, agents, assigns, employees, subsidiaries and partners of such Series C Purchaser and its Affiliates (each, an "**Indemnified Party**") from and against any and all losses, claims, actions, liabilities, damages, and expenses (including without limitation, reduction in values of the Group Companies' assets, increase of the Group Companies' liabilities, any dilution of the Indemnified Parties' interests in the Group Companies and reasonable attorney's fees) (collectively, the "**Damages**") resulting from or arising out of, directly or indirectly: (i) any breach or violation of any representation or warranty made by any Seller Party in the Transaction Documents, (ii) any breach by any Seller Party of any covenant or agreement contained herein and in any other Transaction Documents, including without limitation claims by tax authorities against the Company; (iii) the facts that the Indemnified Party is or was a shareholder, director, officer, employee, agent or fiduciary of any Group Company, or is or was serving at the request of the Company as a director, officer, employee, agent or fiduciary of another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action or inaction on the part of Indemnified Party while serving in such capacity.

(b) Special Indemnity. Notwithstanding the foregoing and anything contained in the Financial Statements and Disclosure Schedule, each Seller Party shall, jointly and severally, indemnify the Indemnified Party any increase in its liabilities or any dilution of the its interests in the Group Companies or any diminution in the value of the Series C Purchaser' interests in the Group Companies as a result of following matters:

(i) any failure to comply with the PRC laws and regulations in respect of the Principal Business as currently conducted or proposed to be conducted by the Group Companies;

(ii) the fact that any of the Seller Parties violates the applicable laws, regulations and rules in relation to Taxes (including those resulting from cancellation or reclamation of tax benefits of any kind relating to the Group Companies) or fails to pay any Taxes imposed by any competent governmental authority arising from an event that occurred or is deemed to have occurred prior to the Closing, including without limitation any failure to comply with any obligations and undertakings by the Selling Shareholder and/or the Company under Section 6.17 or applicable PRC laws with respect to the Repurchase Taxes;

(iii) the fact that any of the Seller Parties violates the applicable laws in relation to social insurance or housing funds and other employment and labor matters;

(iv) any monetary penalties and fines (including interests or other amounts in connection therewith) assessed by a governmental authority due to, arising out of or as a result of the failure by any shareholder of the Company to comply with any and all rules and regulations of SAFE (including Circular 37) or to successfully update any filings or registrations required by such rules and regulations;

(v) the fact that any of the leased properties used by the Group Companies have liens thereon.

(c) Notwithstanding the foregoing, if the Company can prove, to the Indemnified Party's satisfaction, within fourteen (14) days after the occurrence of a breach of any covenant or agreement contained herein, that such breach is the sole responsibility of any of the Founders or Founder Holding Companies, then only the Founders or Founder Holding Companies, not the Company, shall bear the indemnification obligation.

(d) If any Indemnified Party believes that it has a claim that may give rise to an indemnity obligation hereunder, it shall promptly notify the Indemnifying Party stating specifically the basis on which such claim is being made, the material facts related thereto, and the amount of the claim asserted. For purposes hereof, notice delivered to any of the Founders at the Company's address pursuant to Section 9.7 shall constitute effective notice to all Seller Parties. The omission of any Indemnified Party to so notify the Indemnifying Party does not relieve the Indemnifying Party from any liability which it may have to such Indemnified Party.

SECTION 9.2. Calculation of Losses.

Each of the Seller Parties agrees that in assessing the amount of Damages for a breach of representations and warranties, covenants and agreements under this Agreement, there shall be taken into account that: (i) in calculating the loss or damage that the Indemnified Parties may suffer as a result of any claim made by the Indemnified Parties under this Agreement, any payment made by the Company to reimburse the Indemnified Parties for its losses will in itself diminish the value of the Series C Purchaser's investment in the Company and, accordingly, such payment should be taken into account in calculating the Indemnified Parties' loss or damage; and (ii) the Indemnified Parties shall be entitled to be compensated for, but not limited to, the decrease in value (including loss of bargain) of all Series C Preferred Shares or Ordinary Shares arising from conversion thereof as a result of any inaccuracy or breach of representations and warranties, covenants and agreements or breach of any other provision of the Transaction Documents.

Notwithstanding anything to the contrary, in any event but absent fraud, gross negligence, intentional misrepresentation and willful misconduct on the part of the Founders, the liability for the Founders shall not exceed the greater of: (i) the then market value of Founders' direct and indirect equity interests in the Company; or (ii) the amount equal to the aggregate purchase price for the Series A-1 Preferred Shares, the Series A-2 Preferred Shares, the Series B-1 Preferred Shares, the Series B-2 Preferred Shares, the Series B-3 Preferred Shares and the Series B-4 Preferred Shares and the Series C Purchased Shares.
