Third Quarter 2022 Unaudited Financial Results

Total revenues were RMB35,504.3 million (US\$4,991.1 million), an increase of 65% from RMB21,505.8 million in the same quarter of 2021. The increase was primarily due to an increase in revenues from online marketing services and transaction services, offset by the decrease of revenues from merchandise sales.

- Revenues from online marketing services and others were RMB28,425.6 million (US\$3,996.0 million), an increase of 58% from RMB17,946.5 million in the same quarter of 2021.
- Revenues from transaction services were RMB7,022.3 million (US\$987.2 million), an increase of 102% from RMB3,477.1 million in the same quarter of 2021.
- Revenues from merchandise sales were RMB56.4 million (US\$7.9 million), a decrease of 31% from RMB82.1 million in the same quarter of 2021.

Total costs of revenues were RMB7,414.1 million (US\$1,042.3 million), an increase of 13% from RMB6,558.6 million in the same quarter of 2021. The increase mainly came from increased fulfillment fees and payment processing fees.

Total operating expenses were RMB17,653.6 million (US\$2,481.7 million), an increase of 38% from RMB12,807.8 million in the same quarter of 2021.

- Sales and marketing expenses were RMB14,048.8 million (US\$1,975.0 million), an increase of 40% from RMB10,050.6 million in the same quarter of 2021, mainly due to increased spending in promotion and advertising activities.
- General and administrative expenses were RMB906.6 million (US\$127.4 million), an increase of 171% from RMB334.8 million in the same quarter of 2021, primarily due to an increase in staff related costs.
- Research and development expenses were RMB2,698.2 million (US\$379.3 million), an increase of 11% from RMB2,422.4 million in the same quarter of 2021. The increase was primarily due to an increase in headcount and the recruitment of more experienced R&D personnel.

Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP measures, such as non-GAAP operating profit and non-GAAP net income attributable to ordinary shareholders, as supplemental measures to review and assess operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's non-GAAP financial measures exclude share-based compensation expenses, fair value change of long-term investments, and interest expenses related to the convertible bonds' amortization to face value and gain or loss on extinguishment.

The Company presents these non-GAAP financial measures because they are used by management to evaluate operating performance and formulate business plans. The Company believes that the non-GAAP financial measures help identify underlying trends in its business by excluding the impact of share-based compensation expenses, fair value change of long-term investments, and interest expenses related to the convertible bonds' amortization to face value and gain or loss on extinguishment, which are non-cash charges. The Company also believes that the non-GAAP financial measures could provide further information about the Company's results of operations, and enhance the overall understanding of the Company's past performance and future prospects.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. The Company's non-GAAP financial measures do not reflect all items of income and expenses that affect the Company's operations and do not represent the residual cash flow available for discretionary expenditures. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages you to review the Company's financial information in its entirety and not rely on a single financial measure.

For more information on the non-GAAP financial measures, please see the table captioned "Reconciliation of Non-GAAP Measures to The Most Directly Comparable GAAP Measures" set forth at the end of this press release.
