If embedded, then the shipping fees are included in GMV. As a prudential matter aimed at eliminating any influence on Pinduoduo's GMV of irregular transactions, the Company excludes from its calculation of GMV transactions in certain product categories over certain amounts and transactions by buyers in certain product categories over a certain amount per day.

"This quarter we started Duo Duo Maicai to address the structural changes we see in how consumers fulfill their daily grocery needs. Duo Duo Maicai is a natural extension of our existing business and offers consumers a complementary experience to our main app," added Mr. David Liu, Vice President of Strategy. We are committed to continued investments into the agricultural supply chain and ecosystem."

"Despite industry seasonality, we continued to deliver solid execution through the third quarter and generated positive cash flow from operations," added Mr. Tony Ma, Vice President of Finance. "As a result, our trailing 12-month GMV grew 73% from a year ago, and our total revenues in the September quarter increased by 89% year-over-year."

#### Third Quarter 2020 Unaudited Financial Results

**Total revenues** were RMB14,209.8 million (US\$2,092.9 million), an increase of 89% from RMB7,513.9 million in the same quarter of 2019. The increase was primarily due to an increase in revenues from online marketing services.

- Revenues from online marketing services and others were RMB12,877.7 million (US\$1,896.7 million), an increase of 92% from RMB6,711.4 million in the same quarter of 2019. The increase was primarily attributable to higher advertising demand from merchants on our platform given continued advancement in our brand and market position.
- **Revenues from transaction services** were RMB1,332.1 million (US\$196.2 million), an increase of 66% from RMB802.5 million in the same quarter of 2019, primarily due to the increase in GMV.

**Total costs of revenues** were RMB3,260.2 million (US\$480.2 million), an increase of 78% from RMB1,833.3 million in the same quarter of 2019. The increase was mainly due to higher payment processing fee, higher costs for cloud services, and other expenses directly attributable to online marketing services and other revenues.

Total operating expenses were RMB12,245.4 million (US\$1,803.5 million), compared with RMB8,472.6 million in the same quarter of 2019.

- Sales and marketing expenses were RMB10,071.9 million (US\$1,483.4 million), an increase of 46% from RMB6,908.8 million in the same quarter of 2019, mainly due to an increase in advertising expenses and promotion and coupon expenses.
- **General and administrative expenses** were RMB368.6 million (US\$54.3 million), a decrease of 16% from RMB436.6 million in the same quarter of 2019. Our G&A expenses in the third quarter of 2019 included certain expenses relating to our initiatives to alleviate rural poverty. We did not incur such expenses this quarter.

• **Research and development expenses** were RMB1,804.9 million (US\$265.8 million), an increase of 60% from RMB1,127.2 million in the same quarter of 2019. The increase was primarily due to an increase in headcount and the recruitment of more experienced R&D personnel, and an increase in R&D-related cloud services expenses.

**Operating loss** was RMB1,295.7 million (US\$190.8 million), compared with RMB2,792.0 million in the same quarter of 2019. **Non-GAAP operating loss** was RMB339.8 million (US\$50.0 million), compared with RMB2,123.5 million in the same quarter of 2019.

**Net loss attributable to ordinary shareholders** was RMB784.7 million (US\$115.6 million), compared with RMB2,335.0 million in the same quarter of 2019. **Non-GAAP net gain attributable to ordinary shareholders**<sup>6</sup> was RMB466.4 million (US\$68.7 million), compared with non-GAAP net loss of RMB1,660.4 million in the same quarter of 2019.

**Net cash provided by operating activities** was RMB8,321.8 million (US\$1,225.7 million), compared with RMB2,618.2 million in the same quarter of 2019, primarily due to an increase in online marketing services revenues.

**Cash, cash equivalents and short-term investments** were RMB45.6 billion (US\$6.7 billion) as of September 30, 2020, compared with RMB41.1 billion as of December 31, 2019.

#### **Use of Non-GAAP Financial Measures**

In evaluating the business, the Company considers and uses non-GAAP measures, such as non-GAAP operating loss and non-GAAP net loss attributable to ordinary shareholders, as supplemental measures to review and assess operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's non-GAAP financial measures exclude share-based compensation expenses, interest expenses related to the convertible bonds' amortization to face value and fair value change of long-term investments.

The Company presents these non-GAAP financial measures because they are used by management to evaluate operating performance and formulate business plans. The Company believes that the non-GAAP financial measures help identify underlying trends in its business by excluding the impact of share-based compensation expenses, interest expenses related to the convertible bonds' amortization to face value and fair value change of long-term investments, which are non-cash items. The Company also believes that the non-GAAP financial measures could provide further information about the Company's results of operations, and enhance the overall understanding of the Company's past performance and future prospects.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. The Company's non-GAAP financial measures do not reflect all items of income and expenses that affect the Company's operations and do not represent the residual cash flow available for discretionary expenditures. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages you to review the Company's financial information in its entirety and not rely on a single financial measure.

For more information on the non-GAAP financial measures, please see the table captioned "Reconciliation of Non-GAAP Measures to The Most Directly Comparable GAAP Measures" set forth at the end of this press release.
