"2019 was an important, formative year for Pinduoduo, a year in which we built up our capabilities and offerings and surpassed RMB1 trillion in GMV for the first time," said Mr. Zheng Huang, Chairman and Chief Executive Officer of Pinduoduo. "We continued to invest in our 585 million users and remain committed to creating an open platform that would benefit all and serve the best interests of our consumers."

[&]quot;GMV" refers to the total value of all orders for products and services placed on the Pinduoduo mobile platform, regardless of whether the products and services are actually sold, delivered or returned. Buyers on the platform are not charged for shipping fees in addition to the listed price of merchandise. Hence, merchants may embed the shipping fees in the listed price. If embedded, then the shipping fees are included in GMV. As a prudential matter aimed at eliminating any influence on Pinduoduo's GMV of irregular transactions, the Company excludes from its calculation of GMV transactions in certain product categories over certain amounts and transactions by buyers in certain product categories over a certain amount per day.

² This announcement contains translations of certain Renminbi (RMB) amounts into U.S. dollars (US\$) at a specified rate solely for the convenience of the reader. Unless otherwise noted, the translation of RMB into US\$ has been made at RMB6.9618 to US\$1.00, the noon buying rate in effect on December 31, 2019 as set forth in the H.10 Statistical Release of the Federal Reserve Board.

³ "Monthly active users" refers to the number of user accounts that visited the Pinduoduo mobile app during a given month, which does not include those that accessed the platform through social networks and access points.

⁴ "Active buyers" in a given period refers to the number of user accounts that placed one or more orders (i) on the Pinduoduo mobile app, and (ii) through social networks and access points in that period, regardless of whether the products and services are actually sold, delivered or returned.

⁵ "Annual spending per active buyer" in a given period refers to the quotient of total GMV in that period divided by the number of active buyers in the same period.

"Since the coronavirus outbreak, we have directed the resources of our ecosystem to support frontline relief efforts, stabilize prices of necessities, and help with the recovery of our merchants and business partners," Mr. Huang continued.

"We further invested in sales and marketing during the fourth quarter to drive engagement and attract more users," added Mr. David Liu, Vice President of Strategy. "Our highly engaged users are exploring more categories and making more purchases, driving merchant demand for our online marketing services."

Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP measures, such as non-GAAP operating loss and non-GAAP net loss attributable to ordinary shareholders, as supplemental measures to review and assess operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's non-GAAP financial measures exclude share-based compensation expenses and interest expenses related to the convertible bonds' amortization to face value.

The Company presents these non-GAAP financial measures because they are used by management to evaluate operating performance and formulate business plans. The Company believes that the non-GAAP financial measures help identify underlying trends in its business by excluding the impact of share-based compensation expenses and interest expenses related to the convertible bonds' amortization to face value, which is a non-cash charge. The Company also believes that the non-GAAP financial measures could provide further information about the Company's results of operations, and enhance the overall understanding of the Company's past performance and future prospects.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. The Company's non-GAAP financial measures do not reflect all items of income and expenses that affect the Company's operations and do not represent the residual cash flow available for discretionary expenditures. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages you to review the Company's financial information in its entirety and not rely on a single financial measure.

For more information on the non-GAAP financial measures, please see the table captioned "Reconciliation of Non-GAAP Measures to The Most Directly Comparable GAAP Measures" set forth at the end of this press release.
